WHEAT SHORTS GIVEN SQUEEZE

Flurry in March Option at Liverpool Reflected in Chicago.

CHICAGO, March 31.—(Can. Press.)—Covering of shorts in the March option at Liverpool caused a flurry today, which sent the price up there to about an equal premium and was reflected here in a marked advance which made a net gain of ½c to ⅞c. Corn closed ¼c to ⅜c higher, oats ⅛c to ¼c up, and provisions 2½c lower to 10c higher.

The strength given wheat by Liverpool was aided by the rush of shorts to buy, it being a board of trade holiday tomorrow, because of the municipal election. There was no improvement in the demand for cash wheat, total sales reported being but 10,000 bushels. Primary receipts were 939,739, against 789,000 bushels a year ago.

Receipts in corn were light, the weather keeping the farmers busy at home and interfering with marketing. Against was not a buyer, but some firmness was given the market on local trading.

Trading in oats was slow, but below of lightness of offerings prices held firmly. Provisions showed some firmness, altho the hog receipts at the yards were much larger than had been expected.

CANADIAN VISIBLE.

The Canadian visible wheat supply this week is 25,233,000 bushels, an increase from last week of 304,000 bushels. Oats, 7,851,000 bushels, an increase of 145,000 bushels.

EUROPEAN MARKETS.

The Liverpool market closed ⅜d to ½d higher than Saturday on wheat, and unchanged on corn.
