R., passengers will have to take the 2.33 train or wait for the day express.

REFUSAL TO SUPPORT — Information was laid before Stipendary Cahill on Monday by Minnie C. Reid of Parrsboro against Alexander Reid, of Port Elgin, her husband, for refusing to support her. They case came up for trial on Tues, and was dismissed. The defendent produced a written document, drawn some ten years ago agreeing to a mutual separation, and that neither thereafter should bring any retions at law against the other.

MARRIED IN BOSTON—The marriage took place at the residence of A. M. Keltie, 28 Spring Garden street, Dorchester, Boston, last evening of F. W. Bowes, editor of the Echo, of this city, and Miss Maggie S. Eaton, daughter of the late Watson Eaton. A. A. Shaffner formerly of this city, but now studying medicine at Baltimore, acted as best man and the bridesmaid was Miss Annie E. Stuart. Mr. and Mrs. Bowes will arrive home next week and will reside on Carleton street.—[Halifax Chronicle.

DEAN'S PRESENTATION PARTY.—Dean's presentation party and variety Co., who have been playing to crowded houses in Moncton for the last week will give three of their highly amusing and refined entertainments in the Music Hall commencing to-night. Besides a long and varied performance, they give away one hundred handsome and costly presents nightly. Special prices.

COUNTEFEITS—The Merchants' Bank of Halifax has discovered that a number of its one dollar bills have been ingeniously raised to ten dollar bills by cutting the "0" from the corner of other bills and putting it to the right of the 1 on the one dollar bills. The work is well done except that the "10" appears on the left hand corner instead of the upper right hand corner, as in the genuine $10 bill. Detectives are on the case with prospects of success. The forgery may be discovered by holding the bills up to light.

DISGRACEFUL CONDUCT—Visitors to the Cemetery last Sunday afternoon complained of the disgraceful actions of a number of young men and women, who during the afternoon kept up a continual disturbance on the grounds. Their actions and language were far from becoming to the day and place. This pretty spot is one of the most attractive places in this vicinity, and those interested in it have no intention of allowing it to become a bear garden on the Sabbath. A number of names have been placed at the Post's disposal for publication, but are withheld for future action.

OFF TO CAMP—The I. C. R. station presented a busy scene on Tuesday morning the occasion of the departure of our citizen soldiers for Camp Sussex. The contingent consisted of the 8th Cavalry Band, Lt. F. B. Black in command, and ten companies of the 7 4th Batt., Major Baird in command. Company 5 from Sackville was in command of Capt. Bowes, and Lts. Goodwin and Sears, and No 6 from Baie Verte was commanded by Major Harper and Lt. Tingley. Each company had about 40 men. Before the departure of the train the band played several fine selections. The men looked well in their uniforms and will doubtless do credit to this section of Westmorland.

FOR TO-MORROW—The excursion to Cape Tormentine by the Sunday Schools of Upper Sackville and Midgic promises to attract a large number, who know of the beauties of the place. Eaerything is being done to make the trip a success, and it is hoped their efforts will be rewarded by a large attendance.—About 8 o'clock there will be a grand display of fire works on the top of Powell's Block. About $50 hav been expended in Balloons, Rockets, Roman candles, flower pots, Grecian lights, Bengola lights and mines—great sport is anticipated at the driving park to-morrow. A large number of entrees have been made in the different events and the 2 minute and gentlemen's driving race will be keenly contested.

Chignecto Marine Railway.

Excellent Prospects of an Early Resumption of Work.

Readers of THE SUN will be glad to hear that negotiations are in progress looking toward the active resumption of work on the Chignecto marine railway. Mr. Wilson, manager for the firm of Easton & Anderson (ltd.), who have the contract for the hydraulic machinery for the ship lifts of the marine railway, is expected to arrive to-day on his way to Amherst. He is accompanied by J. B. Dennison, the resident engineer of the firm, who is well known at Amherst. The manager and engineer will examine the condition of the ship railway as it now stands, and will then meet Messrs. Dawson, Symmes and Ussher, who are also to arrive to-day. This is the energetic firm which has prosecuted the work of construction up to its present stage. The intention is to negotiate a contract with Messrs. Dawson, Symmes and Ussher to complete the undertaking, provided the parties can agree to the terms. In the proposed new arrangement now under negotiation, Messrs. Easton & Anderson would take the place of Messrs Meiggs & Son, who, it will be remembered, were originally the chief contractors for the whole work, but who have been unable to complete the contract with the marine transportation company owing to the financial difficulties treated by the failure of Baring Bros. and Messrs. Murritta & Co. Eaton & Anderson, who have hitherto been contractors for only a part of the railway, namely, the construction of the machinery, would then become responsible for the whole work. The adoption by parliament of the Chignecto Marine Transport company's bill permitting them under certain conditions to issue a first preference mortgage, removes the difficultios which stood in the way of the completion of the railway. If Messrs. Easton and Anderson succeed in their negotiations with Messrs. Dawson, Symmes and Ussher, the latter firm will occupy the same position toward the former as it formerly occupied toward the Messrs. Meiggs. Meanwhile the work of pumping is going on at a rate which will empty the Fort Lawrence dock in another week. Six feet of water have already been pumped out. They present condition of the enterprise is that the whole of the grading is done with the exception of about two miles of broken work. About twelve miles of single track has been laid and seven miles is ballasted The lifting dock at Amherst is three-fourths done. The entire excavation of the basin to receive vessels has been completed with the exception of about 20,000 yards. One-half the channel at Tidnish has been dredged and foundations laid there for the lifting dock. Pumping machinery at both ends of the line is almost complete and is pronounced as good an outfit of the kind as there is in this part of the world. —*Sun*, Saturday.

SCOTT ACT—The cases against Ellen Noiles and Alfred Polly Port Elgin came up on Tuesday last and were dismissed. —On Saturday a rule was granted by the Supreme Court judges in the Baie Verte Vendor case, and the case will probably be resurrected.

PICNIC.—Posters are out announcing a picnic on the spacious grounds of Mr. David Smith, Fort Lawrence, next Thursday, by the congregation of St. Alban's Church. Every effort is being made to provide entertainment on the gsounds, and ample opportunity will be provided to see the operations now in progress at the Ship Railway dock; this will be well worth atteuding.

—Two young men—Crosaman and Peters—were accidentally drowned at Lot 11, P. E. I. on Thursday last.

THANKS to Mr. A. C. Greenfield of San Jose, for late California papers.

ICE CREAM at Reading Room on Saturday evening next.

THE POST OFFICE ROBBERY.—No further light has been thrown on the on the recent raid. There is a gang of cracksmen evidently operating in this vicinity, judging by the late burglaries at Salisbury and other points, but they have so far eluded the authorities.

W. M. A. SOCIETY—The ladies of the Baptist W. M. A. S. held a service in the vestry of the church last Friday evening A pleasant time was spent by all. Reading by Miss Annie Richardson and Mrs. Cole and excellent music by choir. A collection was taken up missionary purposes.

Mrs. Allison was visiting her son, Dr. Allison, at Escubana, Michigan, at the time of her death. The deceased lady was a daughter of Rev. Dr. Knight, and sister of Mrs. W. H. Harrison, of Sackville, and was generally respected for her many excellent traits.

—Hon. Senator Botsford's condition continues to improve.

—Miss M. Lanchester returned on Friday from Boston to spend a few weeks among her friends at Murray's Corner.

This alone is worth the price of admission. Special prices, 10 and 20c.

CORNER STONE—The corner stone of the Baptist Church in course of erection at Port Elgin will be laid on Saturday July 9th. The exercises will include addresses from visiting clergymen and others, appropriate music etc. Refreshments will be served in the vestry of the New Building. The bill of fare includes strawberries and cream, ice cream, fried lobster, clam soup, baked beans, cold meats, bread and butter, cakes and pies, tea, coffee etc. Collection in aid of building funds to be taken. Reduced railway fare arranged for.

—A telegram has been received confirming the death of Lieut. Stairs of Halifax in Africa.

Corner Stone Laid.

The Baptist meeting-house about to be erected at Cape Tormentine was laid with appropriate ceremonies. A goodly gathering of people witnessed the interesting proceedings. The day was exceedingly fine and the scenery both on sea and land was inspiring. At the hour of eleven the throng gathered about the foundation of the new building. Suitable music was afforded by the choir, and prayer was offered by Rev. A. H. Lavers. A box, containing a copy of the Baptist Year Book, and copies of the *Messenger and Visitor*, CHIGNECTO POST and the *Moncton Transcript* was placed by Rev. W. H. Warren in a niche in the stone after brief explanatory remarks. The corner stone was then laid very daintily by Mrs. H. A. Powell with fitting words. Refreshments were served in the picnic booths, and the multitude was regaled by the sweet strains of music and the delicacies provided for the occasion.

H. A. Powell, M. P. P. gave a neat and humorous address, endeavoring to trace out the vanished lines between the lawyers and the clergy, and complimenting the people at the Cape for their praiseworthy zeal in erecting a new place of worship.

Rev. A. H. Lavers followed with well chosen remarks congratulating Rev. Mr. Marple and his friends in the successful issue of their efforts and in the bright prospects ahead.

Rev. W. H. Warren spoke encouragingly in relation to the outlook for Cape Tormentine both in secular and in religious respects. Already the government engineers are punching holes preliminary to the construction of the coming tunnel, and the near future may see P. E. Islanders walking over to meeting on Sunday mornings.

Some unique boat-sailing, a genuine New England clam-bake, and a free ramble around the most picturesque Cape in the provinces afforded very great pleasure to all who were in attendance.

—Dr. L. J. De Bertram of New York is staying at the St, James Hotel. He was on his way to Ottawa to see after the interests of the stockholders of the continuation of the Moncton-Buctouche railway to Richibucto and the line of steamers to Prince Edward Island. —[Montreal Star, 21st.

Mr. H. A. Powell, M. P. P., in his speech at St. Joseph's College on Wednesday, stated he would donate a medal or its equivalent in cash to the student making the best showing in mathemathics. He said he would himself draw up the paper on which the merits of the contestants would be decided and would consult with Rev. L. Guertin, C. S. The action brought by Lewis N. Bourque against M. A. Logan as high sheriff for the county of Cumberland, to recover goods claimed by plaintiff, and damages, for having sold goods under an execution at the suit of Manchester, Robertson & Allison of St. John, against J. The defence was that the assignment was a fraud.

To-day the fire engines and apparatus will be photographed for the special illustrated Moncton issue of the SUN. The work of preparation of this issue is progressing in a very satisfactory manner, and it will be thoroughly representative of the city in all respects. The waterworks and lighting system will be extensively illustrated. Views of churches, public buildings, business blocks, private residences, etc., will combine to make the best representation of Moncton that has ever been published. The enterprise is one that deserve support. —*Times.*

The preparation of Peptonized porter with extract of malt and dandelion which has been presented to the profession for judgment, seems to me to be an excellent article for dyspeptics, invalids, or others needing an efficient and pleasant tonic and stimulant. The combination would appear to be the best in the market, and will no doubt become very generally used as its merits become known to the public.
