TO PLANT WHEAT IN LIEU OF CORN

Reports Indicate Large Area Will Be So Utilized—Corn Prices Advance.

Chicago, Feb. 25.—Corn advanced sharply today, helped by reports that much land usually devoted to corn would be planted with spring wheat. The market closed unsettled, ½ to 2⅜c net higher, with May $1.25⅞ to $1.26, and July $1.21½ to $1.21⅝. Oats finished unchanged to ⅝ higher, and provisions varying from 30c decline to a rise of 7c.

It was said advices from all parts of the corn belt indicated that the acreage of spring wheat would be largely increased by displacing feed grain. In some sections farmers were said to be preparing to put the bulk of their land into wheat and to hold stocks of corn and oats in order to have feed next season. A big supply of hogs was reported as still back on the farms, and there were signs of increased confidence that the existing hog price minimum would remain in force during March. Additional impetus to the upward movement of prices was given by gossip that the shipping tie-up at Buenos Aires continued. On the other hand, unverified reports later that the strike had been ended did a good deal to bring about a reaction.

Oats borrowed strength from corn.

Free selling by packers, together with weakness in the hog market, made provisions average lower.

New Terrace Hill Station Urged on Brantford Council

Brantford, Ont., Feb. 25.—Norman R. Wilson, inspector for the fire underwriters' association, has forwarded a report to the council urging the establishment of a new fire station on Terrace Hill, an increase of eight men on the department and more police patrolmen, there being but seven at present. He also recommends that two men be placed inspecting hydrants and new and larger hydrants in the centre of the city and stricter building regulations for that district.

FORD STOCK RISES.

Detroit, Feb. 25.—On the local stock exchange Ford of Canada shares were quoted at 316 bid and 320 asked. This is the highest recorded for these shares since 1915, when the stock fell below 200.

FALLING PRICES

Altho no particularly drastic reductions were made last week in cash prices of commodities in the United States, the general trend continued downward, there being 46 declines in the 313 quotations received by Dun's Review, as compared with 17 advances. The recent sharp concessions in dairy products resulted in stimulating demand, and there has been more or less increase in the better sorts of butter, but the feeling in cheese and eggs was easy. Considerable irregularity prevailed in the grain markets, owing mainly to the disappointing volume of exports on the one hand and meagre receipts and light supplies on the other, but the net result was a substantial moderate rise in corn and barley. In live meats, beef and sheep were firm, but the position of hogs was barely maintained, reflecting liberal receipts at primary points. Altho packing continues very heavy, the active present and prospective good foreign demand had a stimulating effect on provisions and substantial advances were scored by most products. Further revisions have been made in cotton goods, and hides displayed some weakness. Anticipations of lower prices for iron and steel have not been realized to any noticeable extent, and about the only change in the minor metals was a slight shading of electrolytic copper. Fresh and dried fruits showed some increase in strength, but this was far more than offset by easier conditions in beans, hemp, oils, spices, rubber, naval stores, potatoes and numerous drugs and chemicals.

LIVE STOCK MARKET

With 800 cattle on the market yesterday prices held steady to strong for all classes with a quick clean up and practically no outstanding features. It looks like a fairly heavy run for today, but the market is in a good healthy responsive condition, and unless something unforeseen occurs it looks like steady prices for the balance of the week.

The sheep and lamb trade is strong and higher over the close of last week, from 25c to 50c, and the calf trade steady.

There was a light run of hogs, even for a Tuesday, 575, and prices held about steady as far as could be learned, but the hog market for a month or more locally has been enough to keep anybody guessing. At some outside upcountry points a merry war is said to be raging, and buyers for some of the local plants say up around Markdale, Owen Sound and Flesherton are said to be paying from 17¼c to 17½c f.o.b.

Special Market Note.

A feature of yesterday's trading on the exchange was the sale by **Dunn & Levack** of a very choice "baby beef," weighing 800 lbs., for T. A. Russell of Downsview to Puddy Bros., at $18.60 per cwt. The handling and feeding of this splendid steer by Mr. Russell and the record price obtained by the commission house is most gratifying to all concerned.
