The Injury to Bicyclist Hurst.

Champion Trick Bicyclist Hurst sustained a severe sprain of his ankle while practising at the Princes Roller Rink last week. He will be all right, however, to appear in his approaching entertainment.

THE AQUATIC CHAMPIONSHIP.

Something About the Australian Scullers—O'Connor's Claim.

It is now almost universally admitted that the aquatic championship lapsed with Searle's death, as The World stated when the sad announcement was made.

"Trident" in The Sydney Mail, writes: The real champion of the world being dead, it is not at all surprising to find some scullers of note anxious to fit his well-earned laurels upon their less deserving heads. How they can hope to better their standing in the rowing world is difficult to understand. W. O'Connor is put forth by a section of the English press as the rightful successor to the champion he was unable to defeat on the Thames. Perhaps the Canadian is a better stamp of a man than to assume a title he knows he could not win while our dead champion was able to defend his rights, and he may not thank those persons who with indecent haste would have the American champion "sneak" the championship away from here. If it were not so annoying it would be really funny, this claim on behalf of O'Connor. The only claim that O'Connor or anyone else can have is by reason of being the next best man. To have held the championship and lost, or to have rowed for it and been beaten, is not a clear claim. The championship is dead. This is fully recognized by all Australians, and scullers of other parts must clearly understand that we as a people will see that no unworthy man snatches from Australia the title that we now regard as dearer and more honorable than ever. Peter Kemp could advance a stronger claim than anyone else, but the Hawkesbury sculler does not attempt to reclaim the title because the man who defeated him is dead. No amount of reasoning, no force of sentiment, will make him a real champion out of any living man. He must prove his right to the title in a far different way. He must win it. And our position is this: We have Kemp, Stanbury, M'Lean, and Matterson—all first-class men. Perhaps we have others equally good, and I am inclined to think we have. Let these men meet, and the winner will then be something of a champion, good enough, I have no doubt, to represent Australia. We will then let the world know that Australia is prepared to once more defend her right to the championship, and any challenges will be accepted for a race or races on the Paramatta. We have not another Searle, and don't think any other part of the world has; but we have two or three very good men, and the best will be a fairly safe man to guard the championship for the people who claim it as an honor belonging to the country.

Toronto Rowing Club's Nomination.

The members of the Toronto Rowing Club met in their rooms, 54 Adelaide-street east, last night to nominate officers for the ensuing year. President R. W. Goulnlock was in the chair, about 40 members being present.

Hon. President ex-Mayor Boswell was re-elected by acclamation. President David Roberts was re-elected by acclamation.

The following gentlemen were nominated for the different offices.

There are at present 253 members in good standing in the club and the election of those nominated will take place on March 9.

The Canoe Club's At Home.

The Toronto Canoe Club's "at home" at the Academy is an assured success. The elite of the city will be present. There has been an unprecedented demand for tickets, none having been on sale since Saturday.

The R.C.Y.C. Ball.

The demand for tickets has been so unexpectedly large during the past two days that the committee which met at the Academy of Music last evening for the purpose of making final arrangements decided that the sale of tickets will close at 2 p.m. to-morrow. Workmen are at work day and night, and it is safe to say that no ball has ever been given in Toronto equal in its elaborateness of details to the ball to be given to-morrow evening.

Aquatic Echoes.

John McLean has challenged Neil Matterson to row for £200 a side on the championship course. The challenge has now been accepted and the race will be arranged without delay.

Searle's monument will be erected at the winning post on the championship course, Paramatta. It has been suggested that a shilling subscription towards the movement should be taken up so that all could subscribe.

THE COLLEGE CHAMPIONSHIP.

President Schultz Disposes of a Correspondent in a Pithy Letter.

SPORTING EDITOR WORLD: The incognito who writes in to-day's Mail on the question of the college championship possesses many glaring faults. When a person in his deplorable condition assumes virtue, he is either a despicable hypocrite or one so vainly ignorant of his own shortcomings as to live in a fool's paradise. I incline to the latter view and candidly believe "Fair Play" to be clearly an imbecile not possessing the cunning finesse of a hypocrite, by even veiling his biased sentiments. He attempts a show of honorable intention by professing to be a very glut of "fair play." "Fair Play" need have no apprehension of being mistaken for a being enjoying a superfluity of estimable traits.

If, however, "Fair Play" wishes to play the hypocrite and graduate from the insignificant status of an imbecile, I will submit a few rules for his guidance. If I really thought that "Fair Play" could utilize my counsel to the detriment of society I would abstain, but as "Fair Play" is hopelessly fatuous no harm will be done.

Firstly, never indulge in obvious deception; this implies no good motive and serves to render suspicious professions of "Fair Play." There can be deception by omission as well as by direct statement. With a characteristic sense of "fair play" you mentioned Varsity's defeat at Kingston but entirely ignored her victory. This omission conclusively proves "Fair Play" to be a palpable misnomer in your case.

Secondly, one who is actuated by a spirit of fairness is not disposed to disparage the merits of others. Varsity played the Park Nine of Kingston, whose achievements as an amateur club will compare, I think, very favorably with Ottawa. Further, Kingston is not usually referred to as being a "small town at the head of the St. Lawrence." Cornell University, with an attendance of 2000, can not be reasonably styled a "minor college." All the other remarks of alleged "Fair Play" belittling Varsity's tour come under this head, and time, inclination and space restrict me in my praiseworthy attempt of educating "Fair Play."

Thirdly, one whose whole being is governed by principles of justice should have the courage to acknowledge by signature the emanations of outraged justice. The world is not overstocked with honorable men and would not decline an introduction to an exponent of "Fair Play." "Fair Play" did not in any way justify Ottawa's claim by mentioning anything relating to her record and firing impudent abuse at Varsity will not make good Ottawa's claim. I will answer no further anonymous attacks on the Varsity Club, knowing that the public will not be misled by those who delight in aiming cowardly blows under the protection of unrevealed identity.

S. D. SCHULTZ,
Toronto, Feb. 10. Pres. Varsity B.B.C.

The Toronto Amateur Baseball League.

A successful meeting of city amateur baseball clubs was held last evening in the St. Charles restaurant, when the Toronto Amateur Baseball League was formed. The following delegates were present:

Diamonds, J. J. Cahill, J. Sullivan; Dauntless, E. Humphries, A. Harris; Arctics, G. Young, J. Fleming; Beavers, J. Bailey, L. Fitten; Orioles, J. Wills, G. Ramsey; Oakland, C. Tredger, F. Armstrong; Standards, A. Spanner, A. Thornton; Park Nine, J. O'Donoghue, C. Shaffler; Excelsiors, J. Maxwell, J. Strong; Olympics, S. McHenry, J. Hozack.

On motion it was decided to form an 8-club league, with 4 eastern and 4 western clubs, as follows:

East—Beavers, Dauntless, Arctics, Diamonds.
West—Standards, Olympics, Park Nine, Orioles.

Thus the Excelsiors and Oaklands were frozen out.

It was decided that each club deposit a guarantee of $10 to ensure the completion of the schedule and that the deposit be made at the next general meeting, to be held at the call of the president.

The following officers were elected:

President, Inspector Stark; vice-president, J. Humphries, Dauntless; treasurer, J. J. Cahill, Diamonds; secretary, S. McHenry, Olympics, 34 Carlisle; assistant-secretary, J. O'Donoghue, Park Nine, 23 Believue-place; assistant-treasurer, G. Wills, Orioles.

Committee on Constitution—Thornton (convener), Cahill and Wills. Committee on Grounds—Harris, Fitten, Spanner.

Detroit in the National.

DETROIT, Feb. 10.—Detroit will be in the National League in 1890. This is now an assured fact, and while there are still minor details to arrange which make it impossible to give the method by which Detroit is to enter the National organization, it is definitely decided that a Wolverine club will be there this year. Mr. Fred Stearns is now on his way home and will arrive to-morrow, when he will lay before the directors the result of his work. Manager Leadley of Detroit and Secretary Hart of the Boston Brotherhood club tried to convince Charlie Bennett that he should sign a contract Saturday night but were unsuccessful, and he will sign with the Players if they will give him a year's contract in which the party of the first part shall be of responsible men who will guarantee him his salary.

The Three Canadian Clubs Make Their Deposit.

UTICA, N.Y., Feb. 10.—Secretary White thus far has received the guarantee deposits of Toronto, London and Hamilton. Detroit's check may be forthcoming to-morrow, as also Buffalo's. It is expected that the special committee will meet at an early date to report the clubs for the vacancies.

Dust from the Diamond.

Al Johnston says that he will keep Faatz. Perhaps Al will use him for a flagpole in the fall.

An effort is being made to form a baseball league between Cornell, Columbia, University of Pennsylvania and Lafayette.

Kelly's next summer's joke—Catcher Kelly to Pitcher Madden of the Bostons: "Pete Browning is at the bat. Pitch him a drop. I hear he hasn't touched a drop this season."—Cincinnati Commercial Gazette.

The Chicago club may sign the once famous "Lady" Baldwin. The ex-king of left hand pitchers says that his arm is right again. Anson states if this be correct Baldwin will soon regain his vanished reputation.

Fred Stearns says: "Under the present percentage system of the League, Detroit can afford to support as good a club as it ever did, and I predict that if we get in we will not only have a winning team but we will make money." He made the same statement some years ago.

THE CLIFTON RESULTS.

Hockey at the Varsity.

There is some talk of forming a hockey club among the residence men at Toronto University. Mr. E. C. Senkler, a well-known Varsity athlete, is fathering the movement. As there are some clever skaters in residence the club should prove a success.

Off-Hand Rifle Shooting.

BRADFORD, Feb. 10.—Representatives of the following rifle clubs were in town to-day shooting for the individual championship cup of the Off-hand Rifle Association of Ontario: Two from Scarboro, two from Aurora, two from Alliston and one from Orillia. The cup was held last month by D. Neilly of Bradford with a score of 98 points. It was won to-day by Joseph Neilly of Bradford with 88 points.

Spots of Sport.

Dr. Knapp was also beaten in his second match shoot with Mr. Macalester at New York last Saturday, the latter making 165 to the Doctor's 146 out of a possible 200 each. Macalester also won the first match by 92 to 79.

Sloson's idea about the size of the cue tip has recently undergone a change. He plays with a broader tip now than formerly and always uses a 17-ounce cue for balk line. He has had the two cues that he played with for the last 17 years cut in half recently and new and broader top joints put on the butts. One of these cues is a remnant of the famous weapon with which he vanquished Maurice Vignaux, the French champion.

When Nellie Bly passed through Harrisburg, Pa., at the conclusion of her around the world trip, Messrs. Peters and Duke of the Harrisburg Wheel Club presented Miss Bly with a beautiful basket of flowers with the compliments of the club. This is, we believe, the only instance in the entire trip in which the little lady was remembered by her fellow cyclists.

At a meeting of the Melbourne Bicycle Club, Australia, one of the events was a bicycle orange race. In this event a line of 15 oranges, each 10 yards apart, was set across the ground for each competitor. On the report of the pistol competitors had to mount machines, ride to nearest orange, dismount, pick it up, remount, ride back, and place the oranges in bags at the starting point of his line, and repeat till all his oranges were gathered in the bag, when he had to ride one lap carrying the full bag.

A Winter's Tale.

Last winter my little girl caught a severe cold which lasted all season. I doctored with everything I could get but to no avail. Finally I got Hagyard's Pectoral Balsam and gave her two doses which improved her and in a week she was entirely cured by its use.

Re "A Theatrical Complaint."

EDITOR WORLD: Kindly allow me as a regular theatre-patron to answer the queries of "Theatre-goer." He asks why traveling showmen go out of their way to slight Canadians? It is not so. We are usually favored with first-rate talent and good shows as compared with larger cities. In reference to lithograph billing, "Theatre-goer" need only refresh his memory slightly; for only about two or three years back did not Inspector Archabold order all proprietors of shop windows to take down all objectionable pictures? If I am not mistaken it was the "Adamless Eden Company" whose pictures were represented at the time. The blame lies not with the managers but with the police authorities.

La Grippe or Lightning Catarrh.

MR. EDITOR: La Grippe, or Russian Influenza, as it is termed, is in reality an epidemic catarrh, and is called by some physician "lightning catarrh," from the rapidity with which it sweeps over the country. Allow us to draw the attention of your readers to the fact that Nasal Balm, as well as being a thorough cure for all cases of the ordinary cold in head and catarrh, will give prompt relief in even the most severe cases of la grippe or Russian influenza, as it will effectually clear the nasal passages, allay irritation and relieve the dull, oppressive headache accompanying the disease. No family should be without a bottle of Nasal Balm in the house, as cold in the head and catarrh are peculiarly liable to attack people at this season of the year, and Nasal Balm is the only prompt and speedy cure for these troubles ever offered to the public. Easy to use and agreeable. If you cannot get it at your dealers it will be sent post free on receipt of price (50 cents and $1 per bottle) by addressing FULFORD & Co., Brockville, Ont.

IT MUST GO WEST.

The West End Catholics Have a Man in the Field for License Commissioner.

Big "Dan" Kennedy of the West End is credited with being in the field as a candidate for the Catholic nomination on the Board of Ontario License Commissioners for Toronto.

Mr. Kennedy, as everyone knows, is a West End Catholic, and one who is believed to have a big pull in Reform circles in that section of the city. It has long been an open secret in the ranks of the Catholic Liberals that the West Enders were growing dissatisfied at the high office of commissioner being almost constantly relegated to what they called the "Toronto Street Crowd." They point to Charley Doherty, Dr. Cassidy and Peter Ryan as examples of the long line of succession, and want a little of the patronage to blow west.

All last summer the names of various Catholic west-enders were weighed in the balance to judge what strength they would have in the struggle with the east enders. The prospects of William Burns, J.P., and Mr. Kennedy were carefully conned over. Mr. Burns has been down with la grippe for the last six weeks and that has left him practically out of the running.

It is safe to say that just now there is quite an interesting contest going on between the Toronto-street Catholic party and that which has its home and abiding place in the extreme west.

INEVITABLE RESULT OF CATARRH.

Catarrh in Its Destructive Force Stands Next to and Undoubtedly Leads on to Consumption.

It is therefore singular that those afflicted with this fearful disease should not make it the object of their lives to rid themselves of it. Deceptive remedies concocted by ignorant pretenders to medical knowledge have weakened the confidence of the great majority of sufferers in all who advertise cures. They give way to a life of misery and refuse to further listen at remedies. But this will never do. Catarrh must be met at every stage and combated with all our might. In many cases the disease has assumed dangerous symptoms, and if let alone, it eats into the very vitals and renders life but a long drawn breath of misery and disease. Of those afflicted and of perseverance, William Young, who resides at Bond-street, in this city, may be cited. Mr. Young is 25 years old and had for two or three years been a sufferer with catarrh; his head was continually stopped up, he felt dizzy and had become very weak, had headache, his appetite was gone, had dull pains in back, shoulders and head, all ambition was gone, pulse had run up to 110 and the disease had made such progress that the right lung became affected. After trying several remedies without receiving any benefit he was induced to consult the physicians of the Medical Institute, located at 198 King-street west, and after being treated by them for four months the result was that he was entirely cured and is to-day a well man and will converse with any one about his case that may wish to call on him. This institute treatment is mild and agreeable and based on scientific principles.

Besides treating catarrh they treat dyspepsia and all chronic diseases. They especially invite cases which have been treated by other physicians without being cured.

ALL ABOUT NERVOUSNESS.

An Insidious Disease Which Destroys Its Thousands.

Nervousness or nervous weakness is a disease of comparatively modern growth. It loves a brilliant mark, and the best and brightest men and women of our land become its prey. There are many causes which bring it on—over work, worry, improper food, exposure, over-indulgence in alcoholic beverages or tobacco and excesses of different kinds.

Nothing presents a more pitiable sight than a person suffering from serious nervous prostration. The mind becomes weak and forgetful; the patient cannot sleep, and there are terrible pains in the head. Feelings of dispondency or depression are ever present; there is a restlessness of the eyes and a disinclination to meet people; the features become pale, care-worn and haggard; the muscles weak and flabby, and there is a general sense of being unfit for anything.

Some of our most distinguished people have trod this awful road which ends in paralysis, apoplexy, paresis, insanity, death. Happily a cure has at last been discovered for this fearful disease. An eminent medical gentleman, professor in Dartmouth College, has made a discovery which will bring happiness to many a heart. It is called Paine's Celery Compound, and is nature's own restorative for weakened nervous power. Under its invigorating and health-giving action the mind will soon regain its vigor; the eyes will sparkle as of old, the muscles become firm, the nerves strong, the blood will pulsate rapidly and steadily, and the tide of health will come back again.

This reliable preparation creates an appetite, gives sound sleep and as yet is the only known remedy for nervous diseases. If your head aches or you feel worn, do not delay the use of this true strengthener.
