expressed a hope the Bill would not come before the House.

Mr. McAdam presented a Petition from the Rev. Mr. Elder and 29 others, praying that the Bill before the House asking for Incorporation of the Synod of the Presbyterian Church, &c., may pass.

On motion of Mr. Gray, the Bill to enable parties having claims against the Province to have the same adjudicated by Court of Law, was fixed as the order of the day for Monday.

The Bill to place certain bye roads in the Province on the road list, was committed and progress was reported thereon.

Mr. Wilmot asked whether the Government intended to submit a measure relating to Agriculture. The Attorney General replied in the affirmative.

The Bill to abolish the office of Post Master General was again committed. It was supported by Desbrisay, Gillmour, Tapley, Brown, McIntosh and others.

Mr. McAdam moved the postponement of the Bill for three months. The motion was carried by the following division. Yeas: Gillmour, Brown, Hannington, Wilmot, Tibbits, Chandler, C. Perley, Tilley, Fisher, Read, Right, Connell, M'Phelim, McAdam, Johnson, Montgomery, Gray, McMillan, Mitchell, Steadman, Smith, End, Watters, McIntosh, Tapley, Ferris—26. Nays: Wilkston, Kerr, Desbrisay, Gollip, McLeod, Lewis, McClellan, Lawrence, W. E. Perley, Scovil, Vail—11.

House adjourned at 5.

The Common Council met yesterday afternoon, when a long discussion, for the twentieth time, took place on the new Assessment Bill. Some warm words passed between the Mayor and Alderman Armstrong, the latter adhering to the principles which had actuated him since he held a seat at the Board, but we have not space to notice the proceedings more fully to day.

On motion of Ald. McGrath, sections 22, 23, 24, 25, 27, 28, 29, 31, 35, 36, 37, 38, and 41, were struck out, by a vote of 6 to 5. The Yeas were Ald. McGrath, McAvity, and Councillors Wilson, Covetter, Adams and Mercer.

Nays—Ald. Armstrong, Foster, Peters, Ketchum, and Coun Brittain.—*Nbr.*

COMMUNICATIONS.

[FOR THE CHRONICLE.]

Little River, Grand Lake.

MR. EDITOR,—In perceiving your paper a short time since, I was much pleased to find you advocating a system of Emigration, which I think was a very good one, but I much fear it will find no favor in the eyes of the present Government. That body instead of encouraging the peopling of the country, are using every means in their power to drive out those who are here, and who wish to improve the province. One of their acts so far as this section of the country is concerned, has been the means of driving out many of our young men. I allude to the buying up of the mining leases by the Government; and putting on as report says a tax of two shillings per chaldron, a great damper on the industry of the poor miner. In England in all cases, the mines and minerals on the property of the Land owner, and I cannot see the policy of putting on a tax here that instead of encouraging Emigration, must have a contrary effect. If this contemplated tax be laid on, depend upon it Sir, there will be no coal dug in this district, and the persons formerly employed in that business, will seek their employ in other countries; and the thousands of chaldrons of coal that would be otherwise sent to market, and help to enrich the province; will remain buried in the bowels of the earth, until it shall be called forth by a more liberal policy, of a more liberal Government.

I am Sir, Yours,
A COAL MINER.

PAROCHIAL LIFE IN NEW BRUNSWICK.

The *Manchester Guardian* (England) welcomes a New Brunswick rector back to the scenes of his youth after some years absence, with the warmth and surprise that would be appropriate to the return of a missionary in a state of mental and corporeal soundness from the Fiji Islands. Our contemporary thus chronicles the event:

On Sunday the 17th, (January) the Rev. H. W. Tippet, rector of Queensbury, New Brunswick, assisted in the services and also preached, both evening and afternoon, in St. James's Church, Birch, Rusholme. The Rev. gentleman is paying a few months' visit to his friends and relatives in Bristol and Manchester, from which he seperated nearly 15 years ago. He is truly "a preacher in the wilderness." His parish runs some 22 miles along the river St. John. The population, about 1400 of all ages, are located upon small farms, bordering the primeval forest, and indifferently cultivated. Ignorance and rudeness prevail. The first incumbent retired from his work after a few months' trial; so that Mr. Tippet, his successor, is the creator of the cure. He found neither church nor parsonage. There is now a decent fir cottage; there are also two neat wooden Churches, of Gothic architecture, and a third is in progress, all raised by the labour and the contributions of the people, with some aid from the Society for the propagation of the Gospel in Foreign Parts. The rector has no curate. In summer he drives in a light cart, in winter in a sledge, to seven duly arranged centres of pulpit, pastoral, and school duties. Where there is no church he officiates under the shelter of forest trees in summer, and at other seasons in a barn or school room. No pew rents are known. The scanty living is raised mainly from a glebe farmed by a clergyman, and partly by an annual contribution from the society just spoken of. Altogether, the Episcopalians do not number 200, children included. The bulk of the inhabitants are Freewill Baptists, with a few Wesleyans. The good baptists by no means recognise the rector's ministerial character, but sincerely regard him as an agent of antichrist. It might have been expected that these rough conditions would have produced more or less of deterioration in the cultivated missionary; but this is not the case. His library has kept growing, and he has kept up with the literature and theology of the age; and those who listened on Sunday to his well-written and well-read sermons, full of suggestive thought and of a quiet and impressive earnestness, could certainly detect no trace of backwood influence."

MR. EDITOR,—I Sir happen to be one of the 209 Episcopalions spoken of by this Mr. Tippit, and I happen to know the antecedents of this Gentleman who has been received by his friends at home, with as much astonishment as if he had escaped from the Canibals of the fiji Islands. Sir, the man came here poor and in the humble position of a country schoolmaster. He was kindly treated by the people among whom he lived, he was as it now appears but too kindly treated by the Clergy and Bishop of this province, who took him by the hand, instructed him, and raised him from a pedagogue to the position of Rector of Queensbury, where he now has £200 per annum, a good glebe house and farm. The story told by this veracious Clergyman must have created great sympathy, for his "*sufferings*" among his English friends; only think Sir of the "Ignorance and rudeness that prevails" around him in Queensborough, think of the *hardships* and *privations* he must have endured, when preaching under the shelter of the forest trees, or in a barn, *drawn*, (*but not quartered*,) in a cart in summer, and a sledge in winter. What a picture of our own province, why Sir we should never have discovered half the horrors of this inhospitable country, had they not been told us by his very susceptable and self sacrificing missionary. To be serious Sir, such a man's discription of this country, would do more to retard emigration; than ten Emigrant Agents could to promote it, possessing even all the power and ability *of Mr. Shives*. It is to be hoped that his Congregation on his return will relieve him from the "Ignorance and Rudenss" with which he is surrounded, and replace him with another Rector, who is of less refined feelings, and more truthful in his TALEBEARING.

I am Sir, Yours,
One of the Savages.

SIR,—Having suffered with Asthma and shortness of Breath for the last twenty years and tried almost everything, but could never get the slightest relief, I was at last recommended to try your Cough Lozenges, and am happy and truly thankful to be able to tell you that before finishing the first shilling box I found great relief. I continued making them through the winter, and was able to go out in any weather. I beg, sir, that you will accept my humble thanks. I feel that I cannot be sufficiently grateful for the benefit I have derived from your Lozenges.

A few nights in a similar way will garantee to cure the most inveterate case of Deafness and Noises in the Head. It is a stay to Emptiriesm and exhorbitant fees. Keating's Cough Lozenges

FOR half a century this well known remedy for Pulmonary disorders has successfully stood the test of public approval, and their usefulness has been extended to every clime and country of the civilized world. They may be found alike on the gold fields of Australia, the back-woods of America in every important place in the East or West Indies, and in the palace of Pekin. During this long period they have withstood the pretensions of numerous inferior rivals, and now the acknowledged antidote for Coughs, Colds, Asthma, &c.

Prepared and sold in Boxes and Tins, of various sizes, by THOMAS KEATING, Chemist, &c., No. 79, St. Paul's Church Yard, London. Sold retail by all Druggists in the whole world.

N B.—To prevent spurious imitations, please to observe that the words "KEATING'S COUGH LOZENGES" are engraven on the Government Stamp of each box, without which none are genuine.

IMPORTANT TESTIMONIAL.

Byrling, near Malling, Kent.
April 14 1858.

SIR,—Having suffered with Asthma and shortness of Breath for the last twenty years and tried almost everything, but could never get the slightest relief, I was at last recommended to try your Cough Lozenges, and am happy and truly thankful to be able to tell you that before finishing the first shilling box I found great relief. I continued making them through the winter, and was able to go out in any weather. I beg, sir, that you will accept my humble thanks. I feel that I cannot be sufficiently grateful for the benefit I have derived from your Lozenges.

Yours FRANCIS EVENDEN.
