Let each individual stand singly on his own merits, unconnected with any other, in any manner whatever. Let no political combinations, no confraternising coalitions for a moment influence your judgment. Put each man individually in the scale: if found wanting, unhesitatingly reject him; if approved, support him resolutely for his own sake. We have *heard* of such things as *one candidate* exerting his influence to promote the *cause of another*, to the prejudice of others better qualified. These things are disgraceful and unconstitutional. Let all such manœuvres be contemned and disregarded; and let the public weal alone be the directing agent in promoting all your decisions. In the *present* instance, remember that for our *civic* interests we paramountly require *thoroughly mercantile* men; men acquainted with the circumstances and statistics of our commerce, and qualified to protect them faithfully; and that, for our *county*, as well as *Provincial* business, we need *sound* men, fearless men, faithful men, *tried* men. Do justice, fellow constituents, to *proven merit*, regardless of the vituperations of the malicious, the calumnies of the envious or interested, or the machinations of the secret foe. Let it not be said, that men who have for years steadily laboured for the public welfare, are now deserted by those who are most indebted to them; but let the strong incentive of public gratitude and esteem now urge you to unite your forces as one man, and place the individual to whose patriotic exertions we are all bound to testify, at that eminence which his long and faithful services have merited. Let not him who has done most for his fellow countrymen, receive least at their hands. "Palmam qui meruit ferat" is an old, trite and applicable apophthegm.

The City Poll was at Carleton yesterday—the County Poll will be opened at that place To-morrow, (Wednesday); on Thursday it will be opened at Loch Lomond, and at Quaco on Friday and Saturday, when it will return and continue in the city until its final close. The city poll remains in town. Both polls remain open for 15 days, if there is any contest. —Subjoined is the state of the polls at the time of adjournment each day since our last.

York County.—State of the Poll on Saturday evening last:—Allen 191, Wilmot 182, Taylor 171, Pickard 124, Mason 73, Hartt 72, Fisher 55, Smith 29.

Charlotte County.—State of the poll at St. Stephen's on Saturday evening last:—Wyer 529, Hill 527, Brown 516, Clinch 440, Rait 116. Mr. Street resigned at St. Stephen's.

Westmorland.—State of the poll, at Shediac, on Thursday evening the 11th Dec.:—Palmer, 609; Chandler 590, Crane 539, Chapman 376, Hannington 285. The other candidates had resigned.

King's County.—At Hampton Ferry, on Friday evening last, the votes were—Freeze 222, Earle 170, M'Leod 164, Vail 162, Wetmore 47. Mr. Simpson had resigned.—Mr. Humbert was not a candidate.

Sunbury.—The two late Members, Messrs. George Hayward and Thomas O. Miles have been returned without opposition.

Kent County.—John W. Weldon, Esq., the late Member, and John P. Ford, Esq., have been returned without *any* opposition.

THE WEATHER.—Yesterday was the coldest day we have known since the piercing blasts of the winter of 1831-2: the thermometer, early in the morning, ranging from 17° to 15° below zero of Fahrenheit. So sudden a visitation of such biting cold was severely felt, and we fear divers ears and noses of the king's liege's still bear painful testimony to the fact. During the last night the weather moderated, and early this morning we perceived an improvement of 22° degrees in the state of the thermometer. We have abundance of snow (which indeed is still falling,) and sleighing is now in capital order. Let us hope that our roads, our lumbering and our agricultural interests will be benefited by this early enveloping of the earth's surface in her wintry fleece.

Corporation Laws.—A Law, which is to take effect after the first of January next, requiring all Wheat and Rye Flour, Indian and Buckwheat Meal, imported into this City, and not afterwards actually exported therefrom, to be inspected by a sworn inspector, under a penalty of £2 for every barrel, and £1 for every half barrel sold and delivered without such inspection, has been passed by the Common Council. The inspector to receive 3d. per barrel and 2d. per half barrel for inspecting—to be paid by the person or persons who may employ him.

A Law has also been passed by the Common Council, requiring all Bakers in this City, after the period above stated, to make their Bread of the sizes of 4lb., 2lb., 1lb., and ½lb. loaves only,—to be distinctly marked with the first letters of the Christian and Surname of the baker, and the words "Superfine," "Middlings," "Fine," "Rye," or "Mixture," as the case may be.—These different requirements are to be enforced by penalties varying from Five Shillings to Forty.—*Courier.*

Quebec, Nov. 24.—We experienced from Saturday night to this afternoon an extraordinary fall of snow. There was scarcely any on the ground before, and in all the cross routes the roads are now totally impassable, the heaps being five to six feet deep. The average depth which has fallen is not less than a foot and a half.

QUEBEC, NOV. 26.—The *George Marsden*, the last ship in port, sailed yesterday afternoon. The wind has since blown from the Westward, weather mild, and the navigation quite open.

It is now certain that a sum of about £30,000 will be immediately paid out of the military chest, to meet the balance of the civil expenditure of this Province for 1833. The Executive Council sat on Wednesday last, it is reported, on this subject, and sanctioned the several payments for which warrants are now preparing.—*Neilson's Gazette.*

To the FREEHOLDERS *of the County of Saint John.*

GENTLEMEN,—The Election of Members to represent you in the General Assembly is now going forward, and the present period more than any other in the history of the country calls most urgently for the exercise of a sound judgment in the choice of your Representatives. There are some affairs of the deepest interest to the Country, remaining still unsettled, and if you fail to select men of talent and integrity, of public spirit and of minds incapable of being influenced by Court favour, the seeds of evils the extent of which you cannot *now* measure, will be scattered through the land.

The aspect of our City Election bids fair for the choice of two Gentlemen, Messrs. BURNS and WOODWARD, who we trust will do credit to the judgment of the Freemen. But to the shame and disgrace of our City it is become the seat of a FACTION, which has conspired the defeat of *one of the most valuable* Members that ever you honored with a seat in the House,—I mean CHARLES SIMONDS, Esquire, a Gentleman whose political character has been most nobly sustained in that House for Fourteen Years. Let not that Faction which would extend its diabolical influence throughout the COUNTY, so far blind you to your own best interests as to draw away a *single Vote* from the man whose well tried services entitle him to your best support.

Do you wish the total extinction of the present grievous and ridiculous LOTTERY System? Send Mr. SIMONDS to the Housetop he will relieve you from the yoke if possible.—Is the Finances of the Province require the Retrenchment of the MEMBERS' PAY to their actual expenses? Mr. SIMONDS, who has ever raised his voice against all extravagances, will support the measure with all his might.—Do you consider it a wise measure to reduce the Elective Term, and thus have the power of choosing your Representatives more frequently? Mr. SIMONDS would prefer Triennial Elections, and is ready to support the measure.

Mr. S. has ever prominently distinguished himself as the FRIEND OF THE PEOPLE, and has set his face like a flint against every abuse of Office or of Power, which would rather its incumbrances upon the industry of the People and introduce the iron rod of oppression in our hitherto free and unshackled Province.

It was Mr. SIMONDS who acted for the welfare and prosperity of the Province that has brought down upon him all the vengeance of the Leviathans in office, and the Faction which is now raised against him is a horn of the same beast.—Mr. S. is too honorable and independent to solicit a man for his Vote, while there is a most disgraceful and malicious agency exerted throughout the City to bias the public mind and deprive him of a Free and Independent Election. But Gentlemen, it is for you to determine the issue of the matter and to do him that justice to which he is honestly entitled. Come forward then, to a man, and with one Voice, put the Faction beyond the reach of all mean and party spirit, and send him to his Post at the *head of the Poll*, with that dignity to which his character so fully entitles him.

A PHILANTHROPIST.

St. John, 15th December, 1834.

Freeholders and Fellow Electors!

Attend to your interests!—you have now the power of returning four of your Representatives.—CHARLES SIMONDS, Esquire,—a man whose interests are identified with yours, and who has proved himself to be an independent, upright, and fearless asserter of your Rights.—He is the poor man's friend, for his manly and able conduct he has drawn upon himself the hatred of a Faction. But, Freeholders and Electors, do not make yourselves the *tools of a Faction*;—do not suffer yourselves to be deprived of your elective franchise;—do not throw away the unwearied services of a man whose independence no person can question, who is above being *bribed*, and who, if you support him, will never desert your interest. I do not say that he may not have erred in judgment; and where is the man who has not? But I assert that Mr. SIMONDS cannot be bought. Those who have observed the conduct of Mr. S. know that the above are FACTS. Send him as your Representative and he will do you justice,—Yes, place him at the *head* of the Poll.

AN ELECTOR.

St. John, 15th December, 1834.

A Tit-Bit to the City Electors!

Better late than never—a word of caution in season.

You are not probably aware of the important Session of Assembly which is approaching, and therefore bestow your votes without duly considering the necessity of having a person of competent talents to guard your interests; but never have you more required the exertion of an influential Representative, and one who can command language to advocate your cause, than the present. Promises to support your interest, without *ability* to do so, are very like a false promise, and where blunder is committed it is called a *sin of ignorance*,—a deplorable fault in a *Legislator*.—The *Tax Gather* is to be sent among you—beware of Taxation. *Arrah! Paddy* my honey! look after your money. Your present Representatives in Common Council have (by instinct I presume) found out that there are many imperfections in the City Charter, which one of their predecessors had talents to observe, and they have lately petitioned to have it amended. Truly here is need of amendment, when men of the capacity of many of the present Board of Common Council can detect these errors: but it is the march of intellect!—They are however rather imprudent to be their own slanderers. Strangers would suppose, from their Petition to the Legislature, that the Aldermen were a parcel of drunkards, or at least such men as were incapable of restraining themselves from the intemperate use of ardent liquors, unless controlled by a special Act of Assembly; but they are known to you for gentlemen—they are your Representatives; and if they are as bad as they represent themselves to be they are not fit to hold office in the City and to have the charge and management of the City funds, (the disposal of which for the year 1833 they cannot or at least need to shew to the Public.)—Yet forsooth, one of these eloquent members, from the experience gained in the City affairs, is aspiring to greater honours and desirous of becoming a member of the Provincial Legislature! and like *Major Jack Downing, away down East in the state of Maine*, is becoming ambitious in his old days, and perhaps looking forward to become *President* at some future day! It is not therefore to be wondered at if he has assumed a lofty appearance and high tone of late and stands stiff on his upper leathers!—This Corporate Body have also lately found out that their predecessors for the last forty years have been in the habit of paying 3-4 this of the contingent expenses of the County out of the Corporation funds, as a mere matter of indulgence, and that the funds arising from taverns, &c. ought not to have been appropriated for that purpose, but that the citizens ought to have been *taxed* annually to pay this expense; and they have now, I understand, come to a resolution that they will *not* pay it any longer,—consequently, Gentlemen, you must in addition to the other heavy taxes, be *taxed* to defray this expense in future, unless you arouse from your slumbers and make a thorough change in your Corporate Representatives.—Can any of you, Gentlemen, say why this resolution is come to by the Board? Is it to put more funds at the disposal of the Common Council, to be squandered in paying Aldermen for superintending the cutting down a Street one day and filling it up the next,—taking away rock and filling it up with loose earth,—scraping the streets after every rain, carting away the dirt and then replacing the vacancy with fresh material ready for the next showers!! Or is it to support the Police Office, an expensive establishment by all accounts? Or is it for that most laudable object, *patronage*, to secure *cannvassers* and electors as occasion may require?—Citizens! in whatever point of view it is taken, it is your funds and not that of the individual members of the Board, which they have the power of appropriating. Look to your interest, then,—awake from your slumbers, or you are undone.—*Paddy, my honey*, a great outcry is made against imported Leather, as ruining our City manufactures, and one of the present Candidates is to go to the Legislature as an advocate for the Tanners! but why should *Pat* or any other poor man be compelled to pay a tax on shoe leather for the support of a few individuals, who have already grown rich by the enormous prices that have been formerly paid for leather. They have had their day, and now ride in carriages, whilst you are under the necessity of running beside them on foot, and that over the hard roads of the Alderman's own making. Shoe-leather is a great burden in any poor family at all times, but to be taxed therefor would be insupportable!!

Paddy my honey, take care of your money,—mind how you vote,—or you may have cause to repent when it is too late. A friend.

To the FREEHOLDERS *of the City and County of Saint John.*

GENTLEMEN,

AN opportunity being again afforded you of electing Members to represent you in General Assembly, I have been induced at the solicitation of many of the Freeholders of the County to offer myself as a Candidate for your suffrages. Should you think fit to elect me for one of your Representatives, I will endeavour to discharge the important trust reposed in me without fear or favor.

I am, Gentlemen,
Your obedient servant,
GEORGE D. ROBINSON.

To the Independent FREEHOLDERS *of the City and County of Saint John.*

GENTLEMEN,

THE invaluable privilege of Electing Representatives to serve you in General Assembly, having again occurred by the unexpected dissolution of the late House, I beg leave to announce my intention of appearing as a Candidate for the County.

Having had on two occasions previously the distinguished trust of being one of your Members confided to me, it is for you to judge whether my conduct in that capacity for seven years has been such as again to entitle me to your confidence and support, and should, Gentlemen, I be fortunate enough "to be tried in the balance and not found wanting," you may be assured that my best exertions will be continued to promote the general good of the Province, and the interests of this City and County in particular.
