THE BOOMING OF THE SOO.

Reasons Why It Is Likely to Become a Great City—Its Many Advantages.

Few places have sprung so suddenly into notoriety as this ambitious little town which rejoices in the title "Hub of the Lakes." The reason is not far to seek. Until the Canada Pacific with their usual foresight arranged to make connection with the American system of railways and actually built their line to the Saint Mary's River and there by means of a magnificent bridge secured a great part of the western traffic which previously had found its way to the seaboard by way of Chicago, the name of Sault Ste. Marie was scarcely heard of outside of the small circle of tourists who visited our northern lakes. Now, within four months from the time of the arrival of the first locomotive at the borders, we find a straggling village already developed into a busy town and making rapid strides towards assuming the proportions of a city. And no wonder a glance at the map shows clearly that the position of Sault Ste. Marie is unequalled as a distributing centre on this continent. It occupies the unique position of being at once the nearest point to the seaboard by either rail or water of any of the great inland cities with which it would have to compete. The commerce of Lake Superior, Michigan and Huron finds its natural outlet here, and through this alone the "Soo" is bound to become a great shipping point. That this fact is recognized by the mercantile community in the west is clearly proved by the despatch we published yesterday that the C.P.R. had about completed arrangements for the transhipment of canned goods, etc., at that point.

Over $1,000,000 per annum will be expended for four or five years on the new canal. It will be commenced early this summer, as will be seen by the following telegram received from Mr. Biggings, the Mayor of Sault Ste. Marie, who is now in Ottawa:

OTTAWA, April 8, 1888.

"Tenders for the construction of the Sault canal will be invited immediately after the House prorogues."

This work in itself will give employment to a great many mechanics and workmen. The construction of the Government and railway docks and the International Hotel will also employ many others.

As a summer resort Sault Ste. Marie has claims second to none in Canada. Now that such splendid hotel accommodation will be furnished, we predict a large influx of visitors this and each succeeding year.

But the greatest of all the advantages of the many possessed by the "Soo" lies in its unrivalled water power. When this is developed many large flouring mills and other manufacturing industries will be established, and there is no reason why a large city should not spring up within a very few years.

A proposition for the development of this great water power and the supplying of the town with waterworks and electric light is now being considered by the town council there, and no doubt an arrangement will be entered into almost immediately.

GRATEFUL—COMFORTING

EPPS'S COCOA.

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*

LOOK UP

Bleeding Hearts!

FOR PAIN AND WOE WE BRING THEE JOY.

Of all the heartpourings we listen to, oh that terrible Kidney in later stages. We are doomed, they whisper to us, those dryed, shaking skeletons. Horrid visions pass over our sleepless eyes, pain, woe, riveted in the gall of despair, drained of tears. Come, oh, come!

Drink St. Leon.

We will give you many names who say St. Leon does more to drown these fires, bring sleep and joy than all able advisers, kind friends, or earthly productions yet known to them.
