To the ELECTORS of the County of ALBERT.

GENTLEMEN,—

WE are again called upon to elect Two Members to serve in the General Assembly of this Province, and as a duty I owe to my country, I beg most respectfully to present to you my views and my principles, believing that if carried into effect by the Commons of New Brunswick, that our prosperity will return, and the people be contented.

1st. From the best information I can obtain, our Province is in debt nearly £200,000, or about One Pound for every man, woman and child in it; and hence the absolute necessity of changing the policy of the Legislature without delay. I would therefore give to the People a local control over their own local affairs, or what is termed Municipal Corporations; the Public Money for each County would be vested in the Corporation, the Officers of which would be elected annually, and of course responsible to the people.—The Legislative Council should be Elective, and the Executive have the Initiation of Money Grants, for which they will be responsible to the Representatives of the People.

2d. *Retrenchment*—commencing with the Assembly; they should limit the time of their sitting to not exceed Fifty Days; and all the Public Servants' and Officers' Salaries should be reduced according to their services and the means and resources of the Province.

3d. *Elective Franchise* should be extended to Tenants of Land, and a Registration of Voters and Vote by Ballot should be established.

4th. *Public Works* should be encouraged, not by money grants, but by giving every facility in the power of the Legislature to such Corporate Bodies as would undertake and prosecute them effectively.

5th. The *Laws* should be amended and simplified, so as to protect the honest integrity and property of every person.

6th. *Educational and Scientific Knowledge* should have the fostering care of the Legislature, as also *Free Postage on Newspapers*, as one great means of extending general knowledge among the poorer classes of society.

7th. *Commerce*—Free and unrestricted Trade with all Countries, when it can be obtained on an equal footing on general terms of Reciprocity.

8th. *Home Labour and Home Industry* should meet with Legislative encouragement in all and every of its various branches. Bad Legislation has been one great means of promoting a spirit of distrust among the people—witness the ruinous effects of the late Bankrupt Law, and also the extraordinary facilities afforded to Lumbermen, which has induced the honest Farmer, Mechanic, and other professions to embark in this uncertain branch of Trade to their hurt, while the poor man that will settle in the wilderness must purchase his Lot after it has been despoiled of the Timber.

GENTLEMEN,—

We must now begin to live upon our own resources, and hence the propriety of every branch of Trade and Commerce to be carried on so as mutually to benefit the whole. We have a never failing source of wealth in our own Soil, in our Forests, Mines, and Fisheries, for which we ought to thank God and take courage. Much depends on the present Elections—another four years of extravagance in the Legislature, and the doom of our Country is sealed for many years to come.

GENTLEMEN—

I now call upon you, in behalf of our Common Country, to act wisely, independently, and harmoniously; and I now offer to SERVE YOU in the GENERAL ASSEMBLY. I have no connection with any other Candidate, and if Elected will, to the extent of my ability, and with your mutual concurrence, promote the general welfare, and maintain the rights of every individual, without partiality to any one sect, creed, or denomination.

I have the honor to be, Gentlemen,
Your most obedient servant,
ISAAC TURNER.

News! News!

RETRENCHMENT ought to be the ORDER of the Day.

On MONDAY, June 17th,
WILL BE OPENED THE
MANCHESTER HOUSE,
KING STREET, Saint John.
JAMES FORSYTH & CO.

J. F. & Co. beg leave to intimate to the Inhabitants of St. John and the Province generally, that they will open the above Establishment with a large Stock of

DRY GOODS,

selected with great care, in the principal manufacturing towns of Great Britain.

J. F. & Co. think it quite unnecessary to follow the plan usually adopted in this Country of particularising their Stock; suffice it to say, that it will be found to comprise everything requisite to constitute the Stock of a *FIRST RATE DRAPER'S ESTABLISHMENT*; which will be found to combine the best of Qualities, with Styles the richest and rarest of the season,

and at Prices hitherto without a precedent in this place!

J. F. & Co. wish particularly to call attention to a lot of Goods they have on hand, the remains of a *Bankrupt's Stock*—purchased at a desperate price, and of which they are determined *to effect a* CLEARANCE *at a singularly Low figure.*

J. F. & Co. are well aware that PUFFING is characteristic of the Age, but they would eschew all such means of notoriety, perfectly conscious that with the superior advantages they possess, they will be able to give tangible proofs of the truth of their pretensions.

The advantages which they possess, are simply these, *long residence in Manchester*, extensive commercial relationships with that City, intimate acquaintance with the leading manufacturing towns of Great Britain, a *thorough knowledge of the business*, and added to this, a *firm determination to make their Establishment known as*

THE CHEAP CUTTING HOUSE.

Commencing business under such favorable auspices, and with such a resolution, they hope to command a large share of PUBLIC PATRONAGE.
