WAR EAGLE STRONG AGAIN

On the Ground of Good Reports From the Mine.

Mr. Blackstock Pronounces the Situation Excellent—No Truth in the Story That War Eagle Will Purchase Homestake Group — A Smelter—Stocks.

War Eagle to-day took another upward turn. After a dog-days' droop to $2.50 at the end of last week, shares in this mine this morning sold as high as $2.59 on the Montreal Stock Exchange, and up to $2.62 on the Toronto board. The news of the new strike in a deep level of the workings, first announced in The World's special despatch from Rossland, no doubt contributed to the advance, although it is claimed in many quarters that the stock will go over the $3 mark anyway on the prospect of an early increase in the monthly dividend paid by the company.

When seen by The World yesterday, Mr. T. G. Blackstock stated that the reports just received by him from the management at the mine were excellent and most assuring.

Asked if there was any truth in the rumor that members of the War Eagle Company have the purchase of the Homestake-Gopher group in view, Mr. Blackstock stated that there was nothing in the story. If the company's expert had examined these properties, he had done so at the instance of someone else.

The Toronto shareholders of the Homestake-Gopher group, by the way, met informally at the Toronto Athletic Club last night to receive Mr. Millichamp's report of what he saw on his recent visit to Rossland. During the evening, Mr. Millichamp confirmed Mr. Blackstock's statement that the War Eagle people have no deal on as to the properties.

A Smelter for Vancouver Yet.

It is announced that a combination has been made between the Vancouver Smelter Company of London, Eng., capital £150,000, and what is locally known as the Treat Smelter Company. This latter was recently refused a bonus on ore treated, the City of Vancouver not seeing its way clear to guarantee the same. The combination looks to the acquiring by the Vancouver Smelter Company of the plant now in that city, and owned by Mr. Treat and his associates. This has a capacity of 100 tons per day. E. J. Howell, who represents the Vancouver Smelter Company, is said to be acting on behalf of the Rothschild syndicate. He has left for England to perfect the details of the arrangement.

It is asserted that active operations will begin in the near future, and that before the end of the year the City of Vancouver will have a capable smelter plant in working order.

Eye Disease in Cattle.

Editor World: There having been many outbreaks of disease affecting the eyes of cattle, both in Ontario and parts of the United States in recent years, and still existing in different parts of Ontario, a short account of it may be interesting to many of your readers.

The disease usually appears in an enzootic form at first, gradually extending over almost the whole herd, and, in some instances, over quite large sections of the surrounding country. It is seldom seen in the winter months. It affects cattle of all ages, sexes and conditions. Its cause has been attributed to some irritant carried in the atmosphere or emanating from the soil. Most veterinary practitioners who have had experience with it consider it to be of a contagious character. A second attack after recovery is not usual. It may affect one or both eyes.

It is characterized by an intense inflammation of the external structures of the eye, swelling of the eyelids, which are kept constantly closed, profuse flow of tears, which may be mixed with pus, and sometimes streaked with blood. The discharge frequently collects in quantities on the cheeks.

The disease is marked from outset by separation from the rest of the herd, reduced secretion of milk, high fever, appetite and rumination impaired.

As in many other contagious or epizootic diseases, different outbreaks and also different individual cases vary in their severity.

In some instances only one eye becomes affected.

Under proper treatment in the majority of cases, improvement will be manifested in a few days, and the eyes will become clear and free from inflammation in about two weeks. But in some cases opacities of the transparent structures, ulceration of the cornea or various changes of structure may occur that may result in permanent blindness in one or in both eyes.

Whenever the disease appears in a herd proper veterinary advice should be called in. It should be treated as a contagious disease. All the unaffected animals should be moved to another locality, differing, if possible, in soil, food and surroundings. And the water should be changed, especially if they have been drinking from a stagnant pond or a running stream.

C. M. Sweetapple, V.S.,
Ontario Veterinary Col.

One of the greatest blessings to parents is Mother Graves' Worm Exterminator. It effectually dispels worms and gives health in a marvelous manner to the little one. ed

A SUIT CHANCE

COUNTY AND SUBURBAN

Toronto Junction, July 25.—(Special.)—During the thunderstorm this morning a valuable horse belonging to Dr. Hall of Toronto, which was pasturing on the Black Creek flats, was struck by lightning and instantly killed.

A special meeting of the High School Board was held in the Town Hall to-night, at which the resignation of Miss Graham was accepted. A few applications for the position were received; but the board decided to leave the matter open until their next meeting. A deputation from the Public School Board waited upon them requesting a room for teaching the Senior Fourth class. On motion, it was decided not to grant the room; but the board decided to assist the Public School Board by granting them the use of tables and chairs for the fall term. The tender of the Standard Fuel Company for Streetsville lump coal at $3.75 per ton was accepted.

The Public School Board met this evening, and, after a lengthy discussion, in view of the need of room in Principal Beattie's department in St. Clair-avenue school, and for teachers in training in the Model School, it was decided to teach the Senior Fourth class of all the schools in the Carlton school. Miss Brown was appointed assistant at Carlton school, at the rate of $300 per annum. Principal Dewart was given instruction to reorganize the classes at Carlton, and Mr. Beattie will instruct pupils requiring fifth form education at St. Clair-avenue school. The Junior Fourth class from St. Clair-avenue will also go to Carlton school.

Weston.

Mrs. Sloan, an old and respected resident of this village, and mother of Mrs. Elliott, wife of Mr. Elliott, teacher of the High School here, is seriously ill and not expected to recover.

The Park Nine and the Maroons of the City Junior Baseball League played seven innings here on Saturday. The umpire called the game a draw.

Next Saturday W. J. Lillie's team will play against the Ambrose Kent & Co. Baseball Club here. The Weston team intend to put up a good game.

An Early Harvest.

Wheat harvesting in all parts of the county is about finished, and farmers are already beginning to cut their oats. The crop is an excellent one and the straw beautifully bright. It is estimated that, with continued fine weather, the entire crop of grain will be harvested by Aug. 3, the earliest on record for many years.

This Year's Wheat.

The first wheat in Toronto from this year's crop was sold to the Citizens' Mill by Mr. Button of Davisville on Saturday. It consisted of 250 bushels of white wheat, and brought 75c per bushel.

Richmond Hill.

Mr. England Mason left yesterday to take a position at Watford Mr. Mason was a prominent member of the village band and will be much missed by that organization.

Mr. Dan Horner of the 2nd con. of Markham thinks he has the best crop of fall wheat in the township, and Mr. D. Steele and other competent judges estimate the yield will be 40 bushels to the acre.

Mr. W. Jenkins, who has conducted the postoffice and store at Cashel for some years, has sold out to Mr. Dickson.

Mr. C. Rollin quotes the present year as a phenomenal one for the production of honey, and has one double hive among his collection from which he has taken 150 pounds. Another colony hived on June 7 last gave 24 one-pound sections on the 17th inst.

The local lacrosse boys claim that their defeat on Saturday by Markham was attributable to the fact that the latter played none but senior players in what was supposed to be a junior match.

Mr. E. J. Partridge and wife of Toronto have been visiting at the home of Rev. G. McCullough.

North Toronto.

Miss Katie Pritchard of Eglinton returned home on Sunday, after a trip to England.

Meetings of the Water, Fire and Light and Board of Works Committees will be held on Thursday night next, the Finance Committee meeting on Friday.

The Sunday school teachers of Eglinton Methodist Church will on Wednesday night decide on their annual excursion.

One of the "Gem" herd of Holstein cattle, owned by Mr. W. G. Elks, and valued at $300, died last week from the effects of an injured limb.

Swansea.

The communion and choral services at St. Olave's Church were well attended considering the excessive heat. In the morning Rev. R. Seaborn of Toronto June'ed preached and administered the sacrament. In the evening Mr. H. S. Musson, Trinity College, preached the sermon. The choir was assisted by several lady members of St. George's, Islington. The "Deus Miserentur" Edward Mammat) was well rendered, Mr. Bletsoe organist. Miss Lilly Bletsoe's cornet solo, "Holy City," with organ accompaniment, was very pleasingly executed. It is the intention of the church management to have full choral services every fourth Sunday in the month.

At Morningside Presbyterian Church, Ellis-avenue, Rev. J. W. Rae of Toronto Junction conducted the morning service, and the Rev. William Ballantyne, a resident of Swansea, officiated in the evening.

Lakeside Evangelical evening service was held in the mission hall, Windermere-road. Mr. Larke of Toronto addressed the meeting.

York County News.

In the County News column of Monday an error was made in reference to date of sowing Mr. Boynton's wheat. It should read Oct. 15 instead of Oct. 5.

Mr. Lester, cartage agent, Spadina-avenue, who has a farm, lot 12, con B, Etobicoke Township, thinks he can beat Mr. Boynton in regard to wheat that was late sowed, having three acres that was sowed on the 15th and two acres on Oct. 21, which is an excellent crop and will yield between 30 and 40 bushels.

Mr. Glen Morgan, one of Scarboro Township's progressive young farmers, was in the city yesterday, and in conversation with a reporter of The World informed him that he had harvested an excellent crop of 225 tons of hay. Mr. Morgan also stated that the wheat and barley crops in this neighborhood were generally good, the harvesting of which was nearly completed, oats, peas and root crops suffering for the want of rain. He has eleven acres of mangels, which, despite the drouth, are an even crop, and if rain comes will yield an abundant crop. Mr. Morgan keeps over 20 milk cows, making an excellent class of butter, which he sells on the St. Lawrence market weekly, and believes in the old style of feeding his cows on good hay, roots and meal instead of ensilage, and is satisfied he can produce a better quality of butter.

The Wabash Railroad Company

With its superb and magnificent new train service, is now acknowledged by all travelers to be the most perfect railway system in America. It now runs four trains each way daily, between Buffalo, Chicago, St. Louis and Kansas City, passing through Niagara Falls, Welland, Simcoe, Tilsonburg, St. Thomas, Chatham and Detroit. The "Continental Limited" is the most beautiful train ever seen in this country, all its cars have the new modern wide vestibule. All Wabash passengers trains have free reclining chair cars. Full particulars of this wonderful railroad from any R. R. Agent, or J. A. Richardson, District Passenger Agent, Northeast corner King and Yonge-streets, Toronto and St. Thomas, Ont. d

A Nervy Tramp.

Clinton New Era: Tramps are credited with considerable nerve, and on Saturday one gave a splendid exhibition of his daring at Clinton station. He had stolen a ride from Goderich on the train, and, being put off, got on the train again as the train left the station, and this was repeated twice in as many minutes. After the train started and had got up considerable speed, he boldly made a dive beneath a passenger car, caught a brace rod, and swung himself on the car trucks, a feat which chilled the blood of those who saw him do it. Again he was put off, and placed under arrest, charged with stealing a ride on a G.T.R. train, and in default of a fine of $10 the Mayor committed him to jail for 30 days with hard labor.

Kline Tells of Klondike.

San Francisco, July 25.—C. H. Kline, who represented a New York syndicate, has returned from the Klondike, which he regards as the richest mining region in the world. He said in an interview: "What greatly impressed me is the wealth and extent of the bench claims. As an instance, I saw a claim on the ninth tier in French Gulch which appeared to be 1000 feet above the creek bed, which was turning out $1000 per day. What extent of territory this class of ground covers no man knows, and the developments of the diggings will probably occupy years. As to quartz ledges, after careful investigation, I am strongly inclined to the belief that they no longer exist in that region. As to the future possibilities, I would say that they are apparently immense."

Russia is Apparently Alert.

London, July 25.—A special despatch from Shanghai says four Russian men-of-war have left Port Arthur, and it is supposed their destination is the Philippine Islands.

COULD NOT TURN IN BED!

A Guelph Man's Pitiable Plight!

Rescued by Doan's Kidney Pills.

The terrible pain that strikes you in the small of the back right over the kidneys, is nothing more than these disordered organs crying out for help.

Will you go to their assistance with the right remedy—Doan's Kidney Pills?

Mr. William Waller, Richard-street, Guelph, Ont., did. They cured him, and this is what he says:

"For the past two years I have been troubled with a complication of kidney diseases, which caused various distressing symptoms, such as pain in the back, urinary difficulties, etc. I found it impossible to get restful sleep, my general health was miserable, and the pain in my back became so acute that I could not get off a chair or turn in bed without assistance.

"Some four months ago I began taking Doan's Kidney Pills. Two boxes removed the pain from my back, completely cured all the kidney trouble, and gave me health and strength again."

Price, 50c. a box, or 3 boxes for $1.25. at all druggists.

The Doan Kidney Pill Company, Toronto, Ont.

Be sure you get Doan's and refuse all others.
