mitted to come in contact the worst of consequences may be anticipated. The Sioux so far out-number the Sauks and Foxes that it is apprehended in the event of a general engagement, the latter tribes will be totally destroyed. Black Hawk and his sons refuse to join the expedition.—*St. Louis Com. Bulletin.*

MURDER.—On Tuesday last, John Way was committed to the gaol of this City, charged with the wilful murder of Sarah West, and for which offence he will take his trial in August next.

To Correspondents.—"Griffin" and "Tickle 'em" have been received, and are deferred for want of room.

MARRIED.

On the 18th ult., in St. Munden's Church, Montagon, N. S., by the Rev. L. M. Ansart, Mr. Wm. M'Namara, Merchant, to Miss Barbara Donnelly, both of this City.

At Saint Paul's Church, Hampton, on the 25th April, by the Rev. W. W. Walker, Mr. William M. Fowler, to Rachel, youngest daughter of Mr. Andrew Sherwood, both of Upham, K. C.

DIED.

On Saturday the the 21st ult, Mr. John Black, a native of Aberdeen, aged 50 years.

On Saturday last, Charles Hazen, youngest son of Mr. Michael J. Lowrey, aged 16 months.

On Monday evening, Lucy Maria, daughter of Mr. George Blatch, of this city, aged 10 months and 13 days.

On Tuesday morning, after two years painful suffering from inflamation of the hip in consequence of a slight fall, Joshua Maxwell, the fourth son of Mr. Robert C. Minnette, aged 5½ years. By this dispensation of Divine Providence, his bereaved parents have to mourn the loss of a *third* beloved child within the short space of three months.

On Thursday last, Thomas J. Francis, aged 10 1-2 years, Grandson of Capt. Thos. Holmes.—Funeral on Saturday at 4 o'clock, from Mr. H's residence, North East corner of Queen's square.

This morning, James H., son of Mr. Thomas P. Crane, of this City, aged six months and 19 days.

At Carleton, on Wednesday 25 ult., Mary, youngest daughter of Mr. John Colwell, aged 16 years.

On Sunday the 29th April, at Annapolis Royal, in the 63d year of his age, Mr. John Burton, a native of London, deeply regretted by a number of relatives and friends.

At Niagara, on the 2nd ult. Mr. Benjamin Fairchild, aged 76 years.—Mr. F. joined the British Standard during the Revolutionary War, when only fourteen years of age. He has been in Government employ ever since—for many years as an Indian Interpreter.

Lately in the neighbourhood of Cornwall, U. C. Joseph Tio, at the advanced age of 100 years.—He was engaged against Wolfe, at the memorable battle of Quebec—since however, a good British subject. At his decease he left 17 children, 108 grandchildren and 77 great-grand-children, to mourn his loss. His wife is still living and doing well.

At Newtonbreda, Ireland, Samuel Oliver, aged 104. He was admitted out door pensioner of Chelsea Hospital in April, 1775, at which time he was discharged for being consumptive, and has been receiving the pension from that time till his death, a period of upwards of 62 years.

Ship Mersey, Bainbridge, sailed from Liverpool for this port on the 5th of March. On the 27th, in lat. 49, 34, long. 32, 25, W. in a gale lost the mizen-mast, tops and topmasts, and all the yards except two;—three men engaged at the time in sending down the maintop-gallantmast, were carried overboard with it, but were all got on board again unhurt. On the 17th April, lat. 43, long. 54, being under jurymasts, encountered a heavy gale from the North West, which stripped the ship of every spar, all the sails, &c., leaving only the stumps of the lower masts, and rendering her quit unmanageable. April 18th, the American ship Ganges, bound to Boston, bore down, and took off the passengers, (Mr. C. W. Tisdale, Mr. Cannon, and Mr. Jackson,) the captain and crew, in hope of getting the ship into some port, refused leaving her. On the 20th, the supply of water being low, the ship leaking, and no prospect of managing her, the Master and crew were taken off by an American fishing schooner which fortunately fell in with them S. W. of the Grand Bank, lat. 43, long. 52—On Sunday the 22d, off Sable Island, the whole crew were received on board the ship Mozambique, captain Cronk, of and for this port, from Greenock, and arrived here in that vessel on Sunday last.

Ship Eagle, Stephenson, hence, at London in 25 days.

H. M. S. Pincher, Lieut. Thos. Hope, was upset in a heavy squall off the coast of England, March 6. The crew, including officers, amounted to upwards of forty souls, all of whom were drowned.

The brigantine Resolution, Moser, from Demerara bound to Lunenburg, got into Sing Bay on the 8th, and on Wednesday, at 4 P. M. dragged her anchors and went on shore; vessel and cargo, 70 puncheons rum and molasses, and one man, lost.—*Yarmouth Herald April, 20.*

An American fishing schooner about 80 tons, from Barnstable, Cape Cod, was totally wrecked on Thursday the 19th inst, on the western side of Shag Harbor Island. Rigging, materials, and outfits saved, and taken to Barrington to be sold.—*Ib.*

Greenock, March 8.—The Isabella, Auld, has arrived here from Charleston. On the 25th ult. lat. 44, long. 28, blowing hard, fell in with the Industry, Ball, of St. John, from Gloucester, dismasted, and leaky—remained by her all night, next day took off the Captain his wife and child, Mate and his wife, and the remainder of the crew, in all seventeen persons, and landed them here this day.

Westport, March 7.—Arrived the Susan Maria Brooke, from St. John, out 74 days; experienced dreadfully severe weather. The entire of the crew with the exception of the master, mate, and two others, positively refused to work for 18 days. The master says that had not his vessel been one of a superior sort, he never could have made the land, as most of those who imposed themselves as sailors in shipping with him at St. John, were nothing but useless vagabonds.

Aberdeen March 10.—The Pilgrim, Allan, passed the bar on the 8th inst. This vessel sailed from St. John so far back as the 11th November, and, after a tedious voyage, was recently put into Stornaway to repair, after having been previously relieved at sea by the Tyne at Hull.

The ship Elvira, from Liverpool for Calcutta, with a cargo valued at about £80,000, has been totally lost near the former place.

TO THE PUBLIC.

THE following is a true copy of an original document in my possession.

CHARLES LLOYD.

BATHURST, April 16, 1838.

MR. CHARLES LLOYD,

SIR,—The undersigned read with surprise in the Gleaner of the 10th inst. the report of the proceedings of "a respectable and numerously attended meeting" held in this town on the 2d of April, in reference to the affairs of Mr. Leggett, in which your conduct is severely censured.

From the ingenious manner in which those proceedings are published, we must confess there appears to be a design to burden you in the public estimation, with the reproach of all classes in this community, which we conceive to be most audacious and unjust.

Therefore, in justice to you, sir, in vindication of our own opinions and character, and from a due regard for the dissemination of truth, we beg to assure you that we know nothing of "a PUBLIC meeting of the inhabitants of Bathurst" held in this place for the purposes alluded to, nor do the Resolutions reported to have been adopted at such a meeting, convey our sentiments.

Had the names of the active movers in those proceedings been given to the public, as they ought to have been, we would then have deemed this letter unnecessary.

We are, sir, your obedient servants,

(Signed)

JUVENILE CLASS.

To meet on Saturday afternoon, of each Week.

MR. BRADBURY respectfully gives notice, that he intends forming a class of Misses and Lads, from eight to fifteen years of age, for instruction in Vocal Music. A style of singing peculiarly adapted to the voice and age of his young pupils, will be taught.

Names may be left with either of the Officers of the St. John Sacred Music Society.

It is desirable that those who intend joining this Class should hand in their names immediately.

Terms:—10 shillings for a term of six months, payable, half in advance.

N. B. Parents and Guardians are invited to attend the first or second week with their children.

April 14, 1838.

Sacred Vocal Music.

BY REQUEST

MR. BENNISON intimates to his friends and to the public generally, that he intends continuing his School a term of Six Months longer, to give instructions to Young Ladies and Gentlemen, who having made some proficiency, wish to acquire a more perfect knowledge of the science.

He also purposes opening a School for a similar length of time, to give instruction in the rudiments of Music, on the Pestalozzian system. Young Ladies and Gentlemen between nine and fifteen years of age would be very desirable pupils.

Each School to be kept two nights in each week, from the 1st May—the former to commence at 7 o'clock, on Monday and Thursday evenings.—The latter at 5 o'clock on Tuesdays and Fridays.

Those giving in their names and not finding it convenient to attend longer than three months, or for other reasons, can withdraw without farther cost than the advance.

N. B.—Mr. Bennison is particularly desirous that none should join but such as have both a musical *ear* and *voice*.

Price for the Term 30 shillings—half in advance.

CONTRACT FOR COMPLETING A BRIDGE.

To Civil Engineers, Contractors and Others.

THE President and Directors of the St. John BRIDGE COMPANY will receive Tenders until the 15th day of May next from Civil Engineers and others, for a Contract to complete the Bridge commenced by the said Company over the River St John, in the City of St. John, in the province of New-Brunswick. It was intended to construct the Bridge upon *Town's* plan, with a Double Truss; but when about half the Truss had been raised, the chains, on which the temporary staging erected, parted, and all the temporary works were carried away. The span between the faces of the abutments is 437 feet, and the Piers are elevated to a sufficient height to make the Roadway 70 feet above high water mark. These piers, with the roadways connecting them with the land on each side are finished, and in good condition. The Company will receive Tenders for raising the Truss prepared in the original plan, and completing the bridge therewith: 2, for finishing the Bridge with timber, or any other plan at the choice of the Contractor: 3, for completing a Bridge of Suspension, the roadway to be suspended from Wire Cables, or Iron Chains—in either case, the Contractor will be expected to find all materials, with the option of taking such as have been collected by the company at a valuation: and satisfactory security will be given for payment the moment the work is completed.

A plan and particular description of the works as they now stand may be seen at the office of the Company in St. John.

By order of the Board,

JOHN ALEXANDER.
JAMES ALEXANDER.

Saint John, April 14, 1838.

SAINT JOHN

Sacred Music Academy,

Will continue open on Monday and Friday evenings in each week, at Betts' Long Room.

William B. Bradbury, Teacher,

From the "Boston Academy of Music."

WILL commence a Course of Instruction in VOCAL Music, on the Pestalozzian System, on the above evening.

All who are desirous of obtaining a thorough and scientific knowledge of Vocal Music, are invited to attend. ☞ Ladies and Gentlemen who may wish to examine the system before they decide, are respectfully invited to attend the first and second evenings, free of expence *if they discontinue.*

Mr. B. is of the opinion, with many others, that "there are few persons indeed so destitute of natural qualifications as to be unable to learn to sing agreeably by *resolute perseverance* in a *judicious course of practice.* There are instances even of distinguished performers, who commenced their musical education without the slightest hope of gaining any strength sufficient to qualify them for the profession, who have nevertheless attained a most respectable rank in the art. Such cases indeed are rare, but there are multitudes in private life who have *literally made a voice.* The musical talent is wanting then in only a few. Most of those who suppose themselves to be destitute of it, have only let the time in which the talent, small in itself, was capable of development, pass by unimproved. But if this talent has been conferred by the Creator on so many, and indeed with few exceptions on all, then Vocal Music is an object of *universal cultivation.*" Mr. B. would further state for the encouragement of those who feel desirous of learning to sing, but think themselves deficient in "natural qualifications," that in a school *of one hundred and seventy five Pupils* taught by him in a Town where there was a *general attendance*, seven only were advised to discontinue for want of musical talent. He would therefore invite all who are anxious to acquire this delightful art, but who, persuading themselves that they have no "voice" for singing, have never brought their faculties to the test, to make the attempt; and he assures them that if, after a sufficient trial, it should be necessary to advise them to discontinue for want of a musical ear, the advice shall be seasonably given, and the money refunded.

It is very desirable that all who intend attending this Course, should be present at the commencement of the school. As something new is introduced every evening, punctual attendance will be indispensably necessary.

☞ Mr. B. is having a large Music Board so constructed that he can give all his Pupils a knowledge of the Key board of the Piano Forte and Organ, without additional charge.

Reference may be had to the following Gentlemen, Officers of the "St. John Sacred Music Society":—Messrs. A. Lawrence, C. Melick, J. Austin, Z. Estey, S. K. Foster.

School to be continued for a Term of Six Months.—Terms: £2, payable half in advance.

VEGETABLE LIFE PILLS

AND

PHŒNIX BITTERS.

☞ A CONTRAST.—All nations, from the remotest ages, have had ships, but Columbus only found out the way to America. Before the time of this great Spanish navigator, people were only enabled to paddle about the shores. Just so with the Life Medicines. It is but two short years since I first ventured upon an unknown ocean, and I have discovered the precious object I was in search of—HEALTH. Vegetable medicines were indeed known when I commenced my search, but their use was not. By the use of them, I have not only passed from the dejected invalid, to the hale, hearty and active man of business, but comparatively speaking, I have renewed my youth. I can thus, with confidence in my own experience, advise with my fellow citizens. Does the reader want proof that the VEGETABLE LIFE MEDICINES are suitable to his own case? I have on file at my office, 546 Broadway, hundreds of letters, from some of the most respectable citizens of this my native land, voluntarily offered in testimony of the virtues of A GOOD VEGETABLE MEDICINE.

Persons whose constitutions have been nearly ruined by the "all-infallible" mineral preparations of the day, will bear me witness, that the Life Medicines, and such only, are the true course to permanent health JOHN MOFFAT,

GENERAL REMARKS RELATIVE TO MOFFAT'S LIFE PILLS AND PHŒNIX BITTERS.

These medicines have long been known and appreciated, for their extraordinary and immediate powers of restoring perfect health, to persons suffering under nearly every kind of disease to which the human frame is liable.

In many hundreds of certified instances, they have even rescued sufferers from the very verge of an untimely grave, after all the deceptive nostrums of the day had utterly failed: and to many thousands they have permanently secured that uniform enjoyment of health, without which life itself is but a partial blessing. So great, indeed, has their efficacy invariably and infallibly proved, that it has appeared scarcely less than miraculous to those who were unacquainted with the beautiful philosophical principles upon which they are compounded, and upon which they consequently act. It was to their manifest and sensible action in purifying the springs and chanels of life, and endued them with renewed tone and vigor, that they were indebted for their same, which was bestowed upon them at the spontaneous request of several individuals whose lives they had obviously saved.

The Proprietor rejoices in the opportunity afforded by the universal diffusion of the daily press, for placing his VEGETABLE LIFE PILLS within the knowledge and reach of every individual in the community. Unlike the host of pernicious quackeries, which boast of vegetable ingredients, the Life Pills are purely and SOLELY VEGETABLE, and contain neither Mercury, Antimony, Arsenic, nor any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent pharmaceutical chemists, are altogether unknown to the ignorant pretenders to medical science; and were never before administered in so happily efficacious a combination.

Their first operation is to loosen from the coats of the stomach and bowels, the various impurities and crudities constantly settling around them; and to remove the hardened fæces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind, as to produce habitual costiveness, with all its train of evils, or sudden diarrhœa, with its eminent dangers. This fact is well known to all regular anatomists, who examine the human bowels after death; and hence the prejudice of these well informed men against the quack medicines of the age. The second effect of the VEGETABLE LIFE PILLS is to cleanse the kidneys and the bladder, and by this means, the liver and the lungs the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the agency of the liver and lungs before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

The following are among the distressing variety of human diseases, to which the Vegetable Life Pills are well known to be infallible:—

Dyspepsia, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acrid kind;—*Flatulency, Palpitation of the Heart, Loss of Appetite, Heartburn and Head-ache, Restlessness, Ill-temper, Anxiety, Languor, and Melancholy*, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure. *Costiveness*, by cleansing the whole length of the intestines with a solvent process, and without violence; all violent purges leave the bowels costive within two days. *Diarrhœa* and *Cholera*, by removing the sharp acrid fluids by which these complaints are occasioned, and by promoting the lubricative secretion of the mucus membrane. *Fevers of all kinds*, by restoring the blood to a regular circulation, through the process of perspiration in some cases, and the thorough solution of all intestinal obstructions in others. The LIFE PILLS have been known to cure *Rheumatism* permanently in three weeks, and *Gout* in half that time, by removing local inflammation from the muscles and ligaments of the joints. *Dropsies of all kinds*, by freeing and strengthening the kidneys and bladder; they operate most delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of *Gravel*. Also, *Worms*, by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere; *Asthma & Consumption*, by relieving the air vessels of the lungs from the mucus, which even slight colds will occasion, which if not removed becomes hardened, and produces those dreadful diseases. *Scurvy, Ulcers, and Inveterate Sores*, by the perfect purity which these Life Pills give to the blood, and all the humours; *Scorbutic Eruptions, and Bad Complexions*, by their alterative effect upon the fluids that feed the skin, the morbid state of which occasions all *Eruptive Complaints, Sallow, Cloudy, and other disagreeable Complexions.* The use of those Pills for a very short time, will effect an entire cure of *Salt Rheum, Erysipelas*, and a striking improvement in the *Clearness of the Skin. Common colds and influenza*, will always be cured by one dose, or by two in the worst cases. *Piles*: as a remedy for this most distressing and obstinate malady, the Vegetable Life Pills deserve a distinct and emphatic recommendation. It is well known to hundreds in this city, that the Proprietor of these invaluable Pills, was himself afflicted with this complaint for upwards of *thirty five years*, and that he tried in vain every remedy prescribed within the whole compass of the Materia Medica. He however, at length, tried the medicine which he now offers to the public, and he was cured in a very short time, after his recovery had been pronounced not only improbable, but absolutely impossible, by any human means.

DIRECTIONS FOR USE.—The Proprietor of the VEGETABLE LIFE PILLS does not follow the base and mercenary practice of the quacks of the day, in advising persons to take his Pills in large quantities. No good medicine can possibly be so required. These Pills are to be taken at bed time every night, for a week or fortnight, according to the obstinacy of the disease. The usual dose is from two to five, according to the constitution of the person. Very delicate persons should begin with but two, and increase as the nature of the case may require; those more robust, or of very costive habits, may begin with three, and increase to four, or even five Pills, and they will effect a sufficiently happy change to guide the patient in their further use. These Pill sometimes occasion sickness and vomiting, though very seldom, unless the stomach is very foul; this, however, may be considered a favourable symptom, as the patient will find himself relieved, and by perseverance will soon recover. They usually operate within ten or twelve hours, and never give pain unless the bowels are very much encumbered. They may be taken by the most delicate females under any circumstances.—It is, however, recommended, that those in latter periods of pregnancy should take but one at a time, and thus continue to keep the bowels open: and even two may be taken where the patient is very costive. One pill in a solution of two table spoons full of water, may be given to an infant in the following doses—a tea spoon full every two hours till it operates; for a child from one to five years of age, half a pill—and from five to ten, one pill.

THE PHŒNIX BITTERS, are so called, because they possess the power of restoring the expiring embers of health, to a glowing vigour throughout the constitution, as the Phœnix is said to be restored to life from the ashes of its own dissolution. The Phœnix Bitters are entirely vegetable, composed of roots found only in certain parts of the western country, which will infallibly cure FEVERS AND AGUES of all kinds; will never fail to eradicate entirely all the effects of Mercury, infinitely sooner than the most powerful preparations of Sarsaparilla, and will immediately cure the determination of BLOOD TO THE HEAD; never fails in the *sickness incident to young females*; and will be found a certain remedy in all cases of *nervous debility and weakness* of the most impaired constitutions. As a remedy for *Chronic and Inflammatory Rheumatism*, the efficacy of the Phœnix Bitters will be demonstrated by the use of a single bottle. The usual dose of these bitters is half a wine glass full, in water or wine, and this quantity may be taken two or three times a day, about half an hour before meals or a less quantity may be taken at all times. To those who are afflicted with indigestion after meals, these Bitters will prove invaluable, as they very greatly increase the action of the principal viscera, help them to perform their functions, and enable the stomach to discharge into the bowels whatever is offensive. The indigestion is easily and speedily removed, appetite restored, and the mouths of the absorbent vessels being cleansed, nutrition is facilit
