TELEGRAPHIC.

NOVA SCOTIA ELECTIONS.—So far as we have heard, the result of Yesterday'd contest stands thus.—Pictou, 2 conservatives—Halifax, all liberals—Amherst, conservatives—Cumberland, Howe & Fulton, Colchester, 2 lib. 1 con.

THE MORNING NEWS' LAST.—"Such as these are to have the dispensing of millions of gold in New Brunswick! *Bluff* defend us."

Now, it our recollection serves us right, the god to is described as the third son of Saturn and Rhea, a brother of Jupiter and Neptune, and on the division of the world amongst the fabled gods, the Kingdom of the Shades fell to Pluto. In other words he was god of hell. A precious divinity to be invoked in the time of need! *Plutus*, might have answered the purpose. He was god of riches.

STILL LATER!—"We find Bull in London sipping with Jonathan at *Almacks!* on the 4th July—the Duke of Wellington being the star of the evening."

Sheer nonsense. Almack's is the mere ball room of the Aristocracy in the *winter* season. Fancy the Iron Duke dancing at Almack's a bolero with one of Uncle Sam's fairest daughters on the 4th of July, or even "sipping" there at any time!

THE VERY LATEST.—"Saint Andrew's is ruled by what reader, only guess?—by "Grandees! Satraps!! and *Mandarians!!!* This needs no comment. The Morning News is the champion of the E. & N. American railway.

VIEW OF ST. JOHN.—We would remind the Citizens of St. John that it is intended to deliver the copies of this splendid picture of our City to-day, at Messrs. Chubb & Co., and we trust that very many of our people will avail themselves of the opportunity of procuring a splendid and accurate picture of the Commercial Capital of New Brunswick. Events are now in progress that will soon clothe this beautiful specimen of art with additional interest.

PLEASURE EXCURSION.—By reference to our advertising columns, it will be found that the favorite steamer *Forest Queen* makes a pleasure trip to Digby and Annapolis, to-morrow. An excellent opportunity is now afforded for—not to nothing, of recruiting health and realizing rational pleasure.

THE CROPS.—The St. Andrews *Standard* says: The labours of the Husbandman have not been so promising for years, as it is in this quarter. Wheat Barley, Oats, and Turnips, look really luxuriant; and such we learn is the case in all parts of the Country.—In a few isolated instances, the Potato-blight has made its appearance in a mitigated form. In no instance have we learned that their growth has been retarded. It is to be hoped that the malady which has been so destructive to this excellent for past years, has been averted: for this and all other blessings conferred on us, we should be humbly thankful to the Almighty Dispenser of all good gifts.

THE GREAT BRITAIN STEAM SHIP.—This splendid vessel after undergoing a thorough repair, is expected to be fit for sea in about two months. She is now in the graving dock, where she has a new keel, having been formerly flat, and a spacious and splendid saloon has been fitted up on her deck, extending the entire length, 275 feet. She will proceed on her transatlantic voyage some time during the month of October, under the command of Capt. Matthews, formerly of the Great Western, and afterwards of the City of Glasgow—a seaman whose long and successfully tried experience and judgment are justly appreciated alike by owners, shippers, and passengers.

☞ THE BOAT RACE.—The preliminaries have been settled—the Race is to come off between Indian Town and Carleton Crews on Tuesday next, at 3 p. m. Boat failing to tou the line loses stakes £400.

TELEGRAPH COMPANY.—At a meeting of the *New-Brunswick Electric Telegraph Company*, held at their office in St. John on Monday the 11th instant, the following gentlemen were unanimously elected Directors for the ensuing year:—Robert Reed, John Duncan, Edward Allison, Robert Jardine, of St. John, and James Donaldson, of Halifax; and at a subsequent meeting Mr. Jardine was re-elected President.

R. J. CLINCH, *Acting Sec'y.*

GOVERNMENT NOTICE.

THE following Bye Law or Ordinance passed by the Mayor, Aldermen and Commonality of the City of Saint John, and transmitted for approval, viz:—

"A Law to regulate the Public Wharves and Slips;" and

"A Law to regulate the Fisheries of Saint John;" have been approved by His Excellency the Lieutenant Governor in Council.

The following Bye Law or Ordinance passed and transmitted by the same, viz:—

"A Law to provide for the appointment of a Harbour Inspector for the City of Saint John;" has not been approved.

J. R. PARTELOW.

Secretary's Office, 25th August, 1851.

From the Fredericton Head Quarters.

Pursuant to a Requisition addressed to His Worship the Mayor, a Public Meeting was held at the County Court House on Wednesday the 20th instant, to prepare an address to Lieutenant Colonel Lockyer and the 97th Regiment on their approaching departure from the Province.

John C. Allan, Esquire, the Mayor, was called to the Chair, Mr. J. Gregory was appointed Secretary, and the Honorables the Attorney General, J. S. Saunders, and T. Baillie and Colonel Hayne were appointed a Committee to draft the address. After a short time the Committee reported an Address, which was unanimously agreed to; and a Committee consisting of the Mayor, Col. Hayne, and Mr. Gregory, was then appointed to see it engrossed and signed, and to arrange for its presentation.

All the remarks made on the occasion were highly complimentary to Colonel Lockyer and those under his command.

The departure of his Regiment will not take place as soon as we had been led to suppose; but happen when it may, it will give us much pleasure to give publicity to any expression of public opinion in reference to officers and men who have merited so well at the hands of this community.

NEW BRUNSWICK HONEY.—Yesterday we saw at the Drug Store of Messrs. Coy & Son about twenty pounds of virgin honey, which formed part of the produce of one of the hives cultivated by E. H. Wetmore, Esquire, of this City, and is as fine a specimen of of that article as can be produced in any country. The combs are deposited in two compartments, which slide into the hive like drawers, and when full can be removed at pleasure, without destroying the lives of the industrious creatures who have built the work. The sides and ends of the boxes containing the above specimen are furnished with glass, both are completely filled, with the exception of the necessary passages for the bees, and the mouths of the comb are neatly sealed. It is well worth while for those who take an interest in matters of this kind to call on the Messrs. Coy for the purpose of seeing what can be done by ingenuity and care in the culture of bees in this country. We have heard that it is the intention of the owner to send this specimen to the Provincial Exhibition in St. John, we hope the report is correct, for there can be no doubt that bees will by and by be cultivated in this Province to a much greater extent than hitherto, and with profit to those who have time and taste enough to take proper care of the hives.

PUBLIC LAMPS.—By the enterprise of Messrs. Pinsent & Snell, we have now for the first time a Lamp Post and Lantern fitted with gas on the new wharf adjoining the public landing, which was lit up for the first time yesterday evening. This is the beginning of those public conveniences in this city, and although the first effort has been made on private property, and more particularly to accommodate passengers arriving in the steamers belonging to the gentlemen just named, yet we hope the example thus set will not be lost on the city authorities, or on their constituents. We believe it is the intention of the City Council forthwith to place a very limited number of lamps in some of the most public stations, but we hope the days is not distant when the streets of Fredericton will be properly lighted up from one end of the city to the other.—*Ib.*

TREMENDOUS TORNADO NEAR BOSTON.

We learn from the Boston papers that a terrific tornado passed over the villages of Weston, Waltham, Watertown, West Cambridge and Medford, on Friday evening last, about half-past 6 o'clock, levelling in its course dwellings, barns, &c., and tearing by the roots trees of twenty to thirty years standing. The scene is described as truly terrific—timber and trees flying in all directions, and woman and children screaming through fear. The tornodo appears to have covered a space of about [illegible] appeared to be about a mile. Throughout nearly the whole of its course it was preceded by a cloud of dust, the appearance of which operated as a warning to many persons in the fields, roads, and even houses, and induced them to fly out of the track of the approaching danger. But for this circumstance the loss of life must have been immense.

No lives were lost in West Cambridge, nor limbs broken. Mr. Fessenden was taken from under the ruins of his store, in an insensible state, with his head and face much bruised and cut. Andrew Wilson, who was at work in Mr. Russel's orchard, was lifted up, and carried about 200 feet, and bruised in the back in the fall.

The two-story house of James M. Sanford, depot master at that station, was taken up and carried about 20 feet across.

A two story house, nearly finished by Chas. Rollins, for B. E. Bates, Esquire, and worth $600, was torn to pieces, which were so scattered, that even a small pile of them was not to be seen.

At West Medford, the house of a Mr. Huffmaster, a German farmer, was completely riddled, and he was found buried under the fragments, having received a violent contusion of the brain, which proved fatal. He died on Saturday night, and was buried on Sunday.

The windows of the railroad depot were all broken, and a heavy baggage car was lifted from the track and rolled a distance of 150 yards.

Several persons were more or less injured by flying timbers or bricks. Among them were George Maxwell, whose skull was fractured, and Luke Costello, who had an arm broken. Both were taken to the hospital.

The wife of Mr. Caldwell, residing on the hill, while standing in the doorway, was caught up and carried across the field and over fences about 500 yards, but received no injury.

The damage done to buildings, gardens, orchards, &c., has been estimated at $100,000, and it will probably quite reach that sum. It will take a large sum to replace the fruit trees alone.

CHINA WOMAN AND THE (ST. FRANCISCO) VIGILANCE COMMITTEE.—The members of the Vigilance Committee have had rather a busy time of it for some days past: in addition to the trial of Stuart for murder, and some half dozen others for larceny, in addition to their labors in inspection cargoes of passengers arrived, and selling by some three or four the list of passengers departed, they have had the pleasant task on hand of trying three or four china woman, on charges of murder, larceny, arson, drugging poisoning, and Heaven knows what else, preferred against them by Assing, Ating, Aching, Acky, and the whole of the Chinese population of San Francisco.

What the motives of the Chinaman may be in endeavoring to keep the woman from emigrating to this country, we cannot say; but that they have done their best to effect that end, is evident. In the present instance these woman were arrested at the prayer of Assing, who has been in the States long enough to know what he is about.

A great number of Chinamen appeared and swore that these women were engaged in drugging sailors; that they had been at the same lady-like and profitable employment in Canton; that they had set fire to houses there; that they had stolen goods of all sorts, including babies and children, and, in fact, as each individual Chinaman added his mite to swell the heap of testimony, and as each one seemed to feel that he should surpass his neighbor in order to do any good, natural consequence was that such a mountain of evidence was collected that it was quite incredible; and the characters of the poor women were so blackened that they assumed the appearance of calumniated angels. They were consequently released, and not sent back to China, in accordance with the petition, and left the house with the consciousness of triumph which caused several patriarchal Chinamen to gnash their teeth until half the enamel was destroyed. It was stated in evidence upon the trial that two thousand Chinamen, including several women, were either on the ocean or were preparing to leave the Celestial Empire for California.

The Troop Ship *Apollo*, with the Royal Regiment, arrived at Portsmouth on the 21st ult., in only *fourteen days* from Halifax. Lieut. Pugh died on the third day after sailing, and was buried at sea on the Banks of Newfoundland.

☞ The English Mail to meet the sailing of the Packet at Halifax, will be closed at the Post Office, in this City, on Tuesday morning next, at 8 a. m.

Married.

On Wednesday evening, 27th inst, by the Rev. W. Temple, Wesleyan Minister, St Andrews, Thos. Turner Udell, Esquire, Merchant, St. Andrews, to Emma, youngest daughter of Mr. Alexander McGrotty, Carleton.

REMOVAL.

WILLIAM W. EMSLIE

GRATEFUL for past favours, and hoping that, by diligence in business, and punctuality in attending to the commands of those who employ him, he may still merit a continuance of the same—begs leave, most respectfully, to inform the Inhabitants of St. John, that he has Removed his BOOT and SHOE Establishment to

No. 17, West Side DOCK STREET,

where he will keep on hand an Assortment of Ladies' and Gentlemen's Boots and Shoes, of the best description and LATEST FASHIONS, manufactured under his immediate inspection, which he wants to give satisfaction.

W. W. E. flatters himself, that from his long experience in Business, he can insure a second call, as he is both able and willing to please.

P S.—A few Good WORKMEN Wanted, to whom constant Employment will be given.
