CHIGNECTO POST AND BORDERER

SACKVILLE, N. B., JAN. 12, 1890.

The Result in Westmorland.

The election on Monday was a protest against personal combinations of party leaders on either side for the purpose of dividing up between themselves the representation of the county. Messrs Powell and Stevens ran to vindicate a righteous political principle. They entered upon the contest at great personal risk—both rising from sick beds to hurry into a contest, heated to a week's duration. The bosses were all against them; the Acadian vote had been apparently pledged against them; the Liberal party supported its own friends and Mr. Hanington, a conservative leader, had gone over bag and baggage and placed the conservative vote in support of the coalition. The odds were so enormous that no politician in the county would venture to face the almost certainty of defeat and go on the track with them. The pluck and determined vim with which they entered upon the contest is deserving of all praise.

In a week the whole face of things was changed. They appealed to the people on the broad ground of sound and honest political principles, against log rolling and barter of the representation, and they have been nobly sustained. The heart of the electorate responded to the core and responded unanimously to the appeal against the ill-assorted, illogical, inconsistent coalition led by Mr. Hanington, whose members were not bound together by one single political principle or aim in common, beyond the desire of being office.

This paper being the first to denounce the coalition when being formed, cannot but feel gratified to have its action vindicated.

Personal grounds we are with those who sympathise with Messrs Powell and Anderson in their disappointment. Mr. Killam has done a party some good service in the past and is too big hearted a man to be classed among selfish politicians. Mr. Wood has occupied a number of positions with credit to himself and a strong man locally and under auspices might have confidently looked forward to a seat in the Commons.

Mr. Hanington (unlike his colleagues) has, according to his wont made his political contest a personal fight and the Post, cannot claim any concession at our hands, but we will bear in mind the very unfortunate position he has predicament in which Mr. Hanington has placed himself, beyond the fact that it affords another opportunity to himself of the fact, that he is a great enemy to his friends and to the Conservative party, that politics is not his game and that they will in the future as in the past twenty years yield him only fruitless labor, defeats and disappointments. Mr Hanington would do well if he looks to law and politics for success and distinction.

The splendid anti-coalition verdict in this county was greatly influenced by the spirited speech on Nomination Day of Mr. W. W. Wells and his services afterwards as well as by the able speech by Hon. P. A. Landry who once again shewn himself to be a sound and energetic politician.

NOTES.

The opposition claim that the seats were won by the government in York by the most flagrant acts of bribery and corruption by money and whisky. A list has been subscribed and a petition will be entered at once.

At Dorchester the result was known in Westmorland the following telegrams were received by Mr. Stevens

DORCHESTER, Jan 20.

Stevens, M P P: Our most hearty congratulations. Bravo! We have won amid most trying circumstances. Here particularly

P. A. Landry,
H. T. McGrath,
P. S McManus.

SACKVILLE, Jan. 20.

H. R. Stevens:

The Sackville committee sends congratulations on the magnificent victory won by yourself and Powell.

E. Cogswell,
Abner Smith.

WHAT NEXT?

Election returns show the House will have 19 pledged opposition members and a number of independents including Mr. Melanson, Mr. Palmer and others. Giving the independents to Mr. Blair it would appear impossible for him to carry on the government with so slight a majority as two or three members, independent over other difficulties satisfactorily.

Joining the St John contingent at the outset of the session bring on a vote of want of confidence on the question of the propriety of the dismissal of Mr Peters from the Police Magistracy of St John, against the wishes of the St John representatives it is not possible they may muster a majority. St. John having spoken so emphatically in condemning this, must exert a strong moral influence on other constituencies.

This question may no doubt become a burning one in the assembling of the Legislature. Mr Blair is an adroit party manager and he may succeed in holding his own. His first difficulty will be to secure a provincial Secretary in place of Mr McLean defeated in St John. He can safely enough give this position to Mr Wilson of York or to Hon Wm Pugsley, of Kings Co. or he can let it go for the present to some occupant of the Legislative Council and trade over the difficulties provided he can muster support in the House.

—During the past ten months England has imported 301,249 hundred weight canned meat from the United States, 52,244 hundred-weight from Australia, 11,388 hundred-weight from Belgium and 122,420 hundred weight from other countries. The receipts from the United States are 95,634 hundred-weight greater this year than last.

THE ELECTIONS.

THE GOVERNMENT VIRTUALLY DEFEATED.

Nineteen Opposition and Several Independents.

WHAT NEXT?

THE RETURNS BY COUNTIES.

Monday last was the one of the most lively local Election Days New Brunswick has ever witnessed, although the vote polled was not exceptionally large.

The Government had predicted sweeping the stakes in every constituency, but the results of Monday's work has far from fulfilled their expectations. In St. John the canvass was from the start lively and bitter. The action of the Blair government is unseating Mr. Peters from the Magistracy of the city became a stay point in the canvass of both parties. In Fredericton the friends of both parties worked to the utmost, each feeling confident of victory to the last.

Ther returns by counties is as below:

St John city	—	2
St John county	—	4
Sunbury	1	1
Victoria	—	1
Westmorland	1	3
York	4	—
	22	19

As it now stands the new House is as follows:

Albert—Lewis and Turner.
Carleton—Atkinson and Ketchum.
Charlotte—Douglas, Mitchell, Russell, Hibbard.
Gloucester—Ryan, Poirier.
Kent—LeBlanc, Phinney.
Kings—Pugsley, Taylor, White.
Madawaska—Theriault.
Northumberland—Robinson, Burchill, Tweedie, O'Brien.
Queens—Palmer, Hetherington.
Restigouche—Murray, Labillois.
St. John City—Alward, Smith.
St. John county—Stockton, Rourke, McKeown, Shaw.
Sunbury—Harrison, Perley.
Victoria—Baird.
Westmorland—Hanington, Melanson, Powell, Stevens.
York—Blair, Wilson, Bellamy, Anderson.

Dominion Parliament.

Opening of the House of Commons.—The Speech from the Throne.

On Friday 16th Parliament was opened by the usual ceremonies. Before the appointed hour a guard of honor consisting of the Governor General's Foot Guards and 100 volunteers was drawn up in front of the main entrance and shortly after, amid salutes from the cannons, Governor General Stanley escorted by the Dragoon Guards entered the grounds and drove between the line of soldiers to the doors of the house. His Excellency entered the senate chamber and took his seat upon the throne. Lady Stanley owing to illness was not present. Shortly after, the commons met and the Governor General sent for them to the Senate chamber to hear the

SPEECH FROM THE THRONE

His Excellency congratulated the members upon the continued success and prosperity of the country. During the recess he had visited Manitoba, British Columbia and the Northwest Territories and was in every case received with the loyalty and goodwill which he understood to be characteristic of Canadians. He was pleased to note the advance made in the settlement of that part of the Dominion and the development of her great mineral and agricultural resources. In consequence of the repeated seizures of Canadian vessels by the United States cruisers while catching seals in Behring Sea, the home government had strongly represented to Her Majesty's Ministers the necessity of protecting our shipping while engaged in their lawful calling, and also against the assumption by any nation of exclusive proprietary rights in those waters. He felt confident that those representatives had had due weight and hoped to be able during the present session to announce a settlement of the differences. In view of the importance given by the Imperial authorities to the catching, curing and packing fish, he deemed it expedient to have a commission sent to Scotland and Holland to examine and report upon the subject during the fishing season. The information thus granted would be invaluable to our fishermen in developing the industry. Measures for the amendment of the Labor laws will be placed before the House during the coming session. the report of the Royal Commission on Labor having been distributed over the country. The early termination of the acts of incorporation of the principal institutions of the Dominion necessitates a review of our present banking system and an adjustment of the terms under which the charters should be renewed. A bill to promote the efficiency of the Northwest Mounted Police and to facilitate the administration of affairs in that region will be presented.

Measures will be laid before the House relating to Bills of Exchange and Promissory Notes, to improve the laws respecting patents of invention and discovery, to amend the Adulteration Act, and the law respecting the Inland revenue, to amend also the Act respecting the Geological and Natural History Survey of Canada, and to provide for the better organisation of the National Printing Establishment.

In closing his speech Lord Stanley said:

Gentlemen of the House of Commons:

The accounts for the past year will be laid before you. It will be found that the Estimates of Revenue have been realized, and that after having fully provided for the various public services of the country, a substantial surplus will remain. The estimates for next year have been framed with a due regard to the requirements of the Public Service.

Honorable Gentlemen of the Senate:

Gentlemen of the House of Commons:

I commit these weighty matters, and all others which may come before your earnest consideration, and I rely upon your wisdom and prudence to deal with them in the manner which, under Divine Providence, may prove most conducive to the happiness and prosperity of Canada.

After hearing the speech the following members elected during the recess were introduced to the House:

Hon. Charles Colby, member for the Electoral District of Stanstead, introduced by Sir John A Macdonald and Sir Hector Langevin

Thomas Earle Esq, member for the Electoral District of Victoria, B. C., introduced by Sir John A. Macdonald and Mr. Prior.

R. R. Pope, Esq, member for the Electoral District of Compton, introduced by Sir John A. Macdonald and the Hon. C C. Colby.

Mr. Rufus Pope moved the address in reply to the speech and was seconded by Mr. Prior of the British Columbia.

—At the customs department a statement is in course of preparation which will show the quantities and values of United States and other foreign produce which found its way to Europe through our territory lasd year, Montreal being the port of transhipment. Butter, cheese and lard are among the principal items, there having been 5,590,000 lbs of American cheese and lard carried over Canadian railways. Canned meats shipped to Europe reach the enormous total of 33 750 000 lbs. The total value of merchandise received from the United State and transhipped at Montreal last year was $10,314,396 in 1888 it was $8,058,889; in 1887, $7,945,393 and in 1886, $5,745,606.

—Of the total quantity of 92,590,000 cigars produced in Canada last year, more than one half or 47,824,000 were manufactured in Montreal. 10,790,000 were manufactured in London Ont., 9,242 000 in Toronto, 4,585,000 in Hamilton, 3,460,000 in Belleville, Quebec, 2,303,000 in Sherbrooke, 2,725,000 in Brantford, 2,415,000 in Guelph, and 3,166,000 in Victoria, B. C.

—The value of the cotton crop in the United States is valued at $350,000,000 or $360,000,000, of the corn crop is about $530,000,000 of the wheat crop about $400,000,000.

Maritime Matters.

—The old Boot and Shoe factory at Sussex was burned on the 15th inst.

—Mr. and Mrs Andrew Cowie of Liverpool N. S celebrated the 70th anniversary of their wedding last week.

—Large quantities of eels are being shipped from different parts of Nova Scotia to New York and Philadelphia markets.

—The mule which was among the number of railway horses sent to Truro last week from Sydney, C. B., is said to be 73 years of age.

—The barque Midas, of Maitland, put into Lockport last week for a harbour. She is one hundred and two days out from Montevideo and some of the crew are frost bitten.

—Mr. Percy H Hanington a son of T. B Hanington of St. John while skating on the Kennebecasis River at Rothesay on Thusday last, went through the thin ice and was drowned.

—Capt. Morrell of the steamship Missouri, reports the formation of dangerous shoals off Cape Race, which, he claims is due to the debris carried down by the Labrador currents and icebergs.

—The advance tables of Dominion Customs returns of last year show a total customs revenue of $25 000.000, of which Nova Scotia collected $2 369-000; New Brunswick, $1.588 000; and P E Island, $188 000.

—During the recent cold snap ice formed across the "Narrows" at St John strong enough to carry a man. This is something that has never before occurred in the recollection of the oldest inhabitant.

—A teen-aged son of Mr. Henry Newcomb, of Summerside, N. S came home a few weeks ago complaining of the treatment he had received from his schoolmates. He was taken ill soon after and died.

—The schools at Port Hastings, C. B. have closed on account of a malignant type of diphtheria being given several families there. Several houses have been quarantined to prevent its spreading, but no immediate danger is apprehended.

—Last Saturday the schooner Bessie G. Capt Merriam, was blown ashore at St Anthony's Cove near St. John's. She was considerably damaged and Harvey Milton of Port Greville was knocked overboard and drowned.

—Mr. Moore, Manager of the Vale Colliery, New Glasgow, informed a reporter, on Tuesday, that in his opinion, the fire was out or nearly out in the mine. He said that the temperature was very low, and that the mine was full of choke damp in which fire could not live.

—Last Saturday week Artemus McLean a tailor of Summerside was drinking at the house of Daniel Noonan at that place. About four o'clock Sunday he was found walking through the house and Noonan ejected him. Since tha time he has not been seen and Noonan is being held on the charge of murder.

—Willard Ball, of Woodstock met with a painful death on Thursday last. He was chopping in the woods and in order to fall a larger tree had cut a small cedar. When the larger tree fell it came in the direction of Mr. Ball which, escaping, fell on the stump of the cedar and was caught by the falling tree and sustained injuries which resulted in his death.

—There were 12 new vessels built on the Island during the past year, the total number of tons being 1503; six others—total tonnage, 312—were transferred from other ports; two (117 tons) were purchased from foreigners, and one (65 tons) was registered anew. This makes in all 21 vessels, the total tonnage being 2098 and the average 135 tons.

—Donald Chisholm, of James River, Antigonish, perished in the snow storm on Thursday evening while on his way home from Antigonish. He left there about four o'clock in the afternoon, and as he did not arrive home search was made for him on Friday afternoon. The sleigh was found in some low bushes about two and a half miles from town, and near it was the horse, which Chisholm had evidently unharnessed. The body was found not far from the sleigh. Friday night the thermometer fell to thirty-four below zero.

—A medium sized man, not very muscular called at the St John *Globe* office and stated his desire to challenge any man in New Brunswick or Nova Scotia to a weight lifting contest. He gave his name as Alfred C Fullerton of Parrsboro N. S. and proceeded to make arrangements for an exhibition in the Mechanics Institute. On the night of the show the attendance not being large, the door-keeper advised him to return the seven quarters to the audience and close up. After the performer had departed the ticket-seller mounted the stage to inspect the heavy things. Fullerton was going to lift. The barrel of flour which was to have been thrown over his head by his teeth was found to be empty and the other things equally deceptive.
