7 King-st. W.

WHAT IS AN AQUEDUCT?

THE CITY HALL MYSTERY STILL AWAITS A SOLUTION.

A Sub-Committee Struggles With the Georgian Bay Scheme and Gives it Up—Inspector Awde Dying Hard and Fighting—The Street Commissioner Suggests Chopping off Eight Heads in the Interests of Economy.

The sub-committee of the Board of Works, appointed to deal with the aqueduct question and hear Mr. Fullerton's definition of "what is an aqueduct?" met yesterday afternoon. There were present Ald. Boustead, Lamb, Preston, Leslie and the Mayor.

Mr. Fullerton said he was not an expert on what constitutes an aqueduct and preferred not to answer the question. He stated that he had no other suggestions to offer than what was contained in his letter to the committee at its last meeting.

Ald. Preston moved a long resolution, embodying Ald. Leslie's former motion, and stating that it was the company's intention to build an aqueduct, and asking the city to grant a franchise similar to that of the Incandescent Light Company, and stipulating that the company could not charge more than one cent per hour per horse power. The motion concludes as follows:

"It is further expressly agreed by and between the parties hereto that these presents shall be void unless the company do within five years from the first day of July, 1896, develop electricity by means of their power aqueduct to the extent of at least five thousand horse power, for ten hours each day on an average, and will upon demand at any time after the expiration of five years from the first day of July, 1896, supply to persons, firms or corporations in the city of Toronto electric energy to the extent of at least five thousand horse power in the aggregate for ten hours each day on an average at any price which shall not exceed one cent per horse power per hour and if the company refuse, fail or neglect to supply electric energy to the extent aforesaid after the expiration of five years from the first day of July, 1896, upon demand being made therefor, then these presents shall be void.

"It is further agreed by and between the parties hereto that the company shall not exercise any of the rights hereby granted within the city limits until it shall have expended $200,000 for work and materials upon the actual construction of the proposed power aqueduct of the company, and these presents shall be void unless work be commenced upon the said power aqueduct on or before the first day of January, 1897, and unless the said sum of two hundred thousand dollars shall have been so expended on or before the first day of July, 1898."

The Motion Not Entertained.

Chairman Boustead ruled the motion out of order, as the committee were only empowered to make an agreement on the line of Ald. Leslie's motion, if that could be legally done. They had no right to consider any new points on the question.

The Mayor suggested that Mr. Fullerton's letter be sent on to the Board for further discussion. He stated that he was in favor of seeing a fair and equitable agreement made between the city and company.

The question was referred to the Board of Works.

THE PROPERTY COMMITTEE.

Inspector Awde's Case and Numerous Other Matters Considered

Mr. King, the lessee of St. Lawrence Market, made another application for a rebate on his lease to the Property Committee yesterday.

Ald. Sheppard made a strong fight against any allowance being made. He explained that the City Solicitor and Mr. Coatsworth reported that Mr. King had no legal or moral right to receive anything from the city. On motion of Ald. Jolliffe, the committee recommended that a rebate of $150 be given King. Ald. Sheppard and Scott opposed the motion. Subsequently Ald. Sheppard succeeded in having the question re-opened, and laid over until the next meeting of the committee.

Ald. Macdonald moved that the pedlars' license fee be reduced to $1, so as to give both rich and poor an opportunity to carry on business. This refers to owners of push carts and wagons. Consideration deferred until next meeting of the committee.

The Food Inspector's Plaint.

Inspector Awde was given an opportunity to speak on the wiping out of his department. He characterized the work of the Board of Control as a high handed proceeding. He did not think citizens would be satisfied in having to go to the police to obtain their licenses. He had been an employe of the city for 20 years and had not been consulted as to the proposed change.

Ald. Macdonald said the city owed Mr. Awde nothing, when he drew his salary at the end of the month. The city had a perfect right to make any changes it saw fit in the carrying on of its business.

Mr. Awde asked the committee to endeavor to have the question reconsidered.

Ald. Scott said Mr. Awde had been heard through courtesy, and the question should be dropped.

Ald. Spence and Sheppard suggested that the Board of Control should bring in a report showing what the saving would be to the city. Ald. Spence's motion to that effect carried.

Island Matters Considered.

John Hanlan offered to take $2200 for his six cottages at the Island. Mr. Maughan valued them at $2100. Ald. Sheppard moved that $2000 be offered Mr. Hanlan. Carried.

The committee refused an application for permission to camp on Ward's Island during the summer.

Architect Lennox informed the committee that he could not commence work on the Court House and carry it on during the cold weather without loss.

A PROPOSED ECONOMY.

The Street Commissioner Thinks He Can Cut Expenses Over $5000

The Mayor has had several consultations with Street Commissioner Jones and the following letter is the result, which means a saving annually of $5446:

To the City Engineer:

Pursuant to request of His Worship the Mayor, under date of the 3rd inst., re the reorganization and reduction of staff, I beg leave to advise you that after fully considering the subject, I think a reduction in the number of foreman at present employed by this department can be made.

1. By reducing the present district system (9) to six wards, as at present constituted, the services of three foremen could be dispensed with.

2. Since the conversion of the street railway system and the paving of a number of thoroughfares with other special works being completed, the services of the two special foremen might also be dispensed with.

3. When the scavenging department was placed under my control the system was under the supervision of ten foremen. The services of four of these were dispensed with, and the salary of the remainder reduced to a figure very little above that of laborers' wages. Owing to the perfection of the service as now carried out, and by placing every sixth driver in charge of his fellow collectors, the services of three more can be dispensed with. This will make a total reduction in number of eight—five of whom receive $14.62 per week, a total of $3803.80 per annum—three at $10.53 per week, amounting to $1642.68 per annum, making a total saving of $5446.48 yearly.

In making these reductions it should be understood that no additional work beyond the works and services now under their supervision can be undertaken by the foremen, as the increased area of their respective districts will keep their attention fully occupied. It will also be necessary to increase the permanency of some of the laboring men employed in each division, who are acquainted with the location of the culverts, gullies, etc., and who have a general knowledge of the requirements of the work. I would suggest that an arrangement be made with the Street Railway Company, having this end in view, or that bicycles be provided. I favor the latter, on account of their successful use by the police department. The cost of procuring the machines would be trifling compared with the saving in salaries, and would permit of a more perfect supervision of the works under their control. Respectfully submitted. (Signed) JOHN JONES,

Street Commissioner.

City Hall Notes.

City Council will meet at 3 p.m. today for general business.

The difficulty over the building of the C.P.R. station at the Don has been settled. The company will be allowed to utilize a small portion of land belonging to the city. If the company is requested to move the station at any time, the city will bear the expense.

Inspector Awde is making a big fight to retain his position. He is pulling all the strings he can, forgetting, as an alderman remarked, that half a loaf is better than none.

DEATH OF ALEX. CRAIG.

An Old and Popular Torontonian Dies Unexpectedly in New York.

Word arrived from New York yesterday of the death in that city of Alexander B. Craig, chief clerk of the Waldorf Hotel. Mr. Craig was well and favorably known throughout Canada and the United States as an hotel clerk par excellence. He had filled positions in Peterboro, Belleville and in the Rossin House, Toronto, which latter he left to take the position as chief clerk in the Hotel Bartholdi, New York. From the Bartholdi he became chief clerk of the Hotel Vendome, and from there to the Grand Union, Ocean Grove, leaving there to go to New York as chief clerk of the Waldorf. Mr. Boldt, the proprietor of the Waldorf, placed great confidence in Mr. Craig, who, young man as he was, had full charge of the business portion of that large hotel. Mr. Craig's death was the result of appendicitis, and was entirely unexpected. A large number of Canadian friends will mourn his untimely end. Mr. Craig leaves a widow, to whom he was married a year or so ago, but no family.

To the Clerk of the Weather.

Editor World: If "Old Probs" can't do better than he did this morning, he had better shut up his shop in the Park. Hundreds of children were sent to school on the expectation of "Generally fair." Instead of this it was a steady downpour of rain, sleet and snow, and it appeared to be general. The youngsters suffered.

Better no probabilities than such nonsense as was issued to-day. People will then, as of old, trust to their good "horse sense" and act accordingly. It would be interesting, however, to know the cause of the "bungle."

YOUNG PROBS.

Feb. 6, 1895.

Proposed Conservative Organization.

A meeting of Conservatives has been called for Monday next at 8 p.m., at the rooms of the Young Liberal-Conservative Association, 12 and 14 Melinda-street, to discuss the formation on a popular basis of the Conservative Club. The object is to arrange headquarters for the party in Toronto, where all can meet, and Voters' Lists, both for the Dominion and Local elections, can always be seen and information given and received. The intention is to get the older members of the party and the prominent ward workers identified with and interested in the scheme, which is to be quite distinct from the work of the Young Men's Association.

North Toronto Items.

The Long Distance Telephone Company of Toronto had a force of men in North Toronto yesterday repairing the wires, which are down as far as Cobourg. There is no telephone service now of any kind north of Bloor-street.

The School Board will hereafter hold its meetings at the Town Hall, Eglinton.

The Water, Fire and Light Committee of the council, to which was referred Engineer Cross' letter of complaint regarding insinuations as to his work and his threats to resign unless his salary was raised from $500 to $650, has decided against the increase—and will so report at the special meeting on Tuesday.

Treasurer Bonnick of the School Board is lying ill at his home on Montgomery-avenue.

Dyspepsia or Indigestion is occasioned by the want of action in the biliary ducts, loss of vitality in the stomach to secrete the gastric juices, without which digestion cannot go on; also, being the principal cause of headache. Parmelee's Vegetable Pills, taken before going to bed, for a while, never fail to give relief, and effect a cure. Mr. F. W. Ashdown, Ashdown, Ont., writes: "Parmelee's Pills are taking the lead against ten other makes which I have in stock."

Canadian National Association.

At the meeting of this association Wednesday evening, Oliver A Howland, M.L.A., who is a member of the association, gave a patriotic and interesting address on the subject: "How the Interests of the Canadian National Association Can be Best Advanced." Although only of recent formation, this association now numbers among its members many of Toronto's most prominent citizens and leading men of the day.

The Charter Extended.

The deputation representing the Pickerel River Improvement Company, which has interviewed the Ontario Government several times lately, was yesterday granted its request, which was for a 17-year extension of the company's charter.

Only those who have had experience can tell the torture corns cause. Pain with your boots on, pain with them off—pain night and day; but relief is sure to those who use Holloway's Corn Cure.

A GATHERING OF SCRIBES.

NEWSPAPER MEN MEET AND DISCUSS ALL SORTS OF BIG THINGS.

The Smoking Room at the Parliament Buildings Invaded by the Members of the Canadian Press Association—New Officers Chosen for the Current Year—A Proposed English Cable Service for Canadian Dailies.

The smoking room of the Parliament Buildings in Queen's Park yesterday held a lot of newspapermen. The 38th annual convention of the Canadian Press Association was in session, with a full representation of Ontario's journalists in attendance. President L. W. Shannon of The Ottawa Citizen, occupied the chair.

The most important item in the executive committee's report was a clause stating that Mr. John King would be retained as the association's solicitor and advising all members of the organization to employ him in case of libel suits arising.

The report presented by Mr. John A. Cooper, sec.-treas., showed the year's receipts to have been $607.58, and the expenditure $559.04, leaving a balance on hand of $8.54.

The president in his annual address commented favorably on the Hall Caine copyright compromise, spoke of the abuse of mail privileges by fake advertising publications and urged all proprietors of newspapers to do what they could to aid in the cultivation of a national spirit among the people of Canada.

New Officers Chosen.

The following officers were elected by acclamation for the ensuing year: Pres., J. E. Brierley, Journal, St. Thomas; 1st vice-pres., J. B. Maclean, Canadian Grocer, Toronto; sec.-treas., John A. Cooper, Canadian Magazine, Toronto; assistant sec.-treas., Joseph E. Atkinson, Globe, Toronto; auditors, T. A. Bellamy, Sun, Ingersoll and J. A. McKay, Record, Windsor. Major Holmes of The Clinton New Era and C. W. Young of The Cornwall Freeholder were both nominated for the second vice-presidency. The balloting will take place to-day, when the executive committee will also be appointed.

Brainy Men on Big Subjects.

The afternoon was occupied by a number of papers and discussions thereon. W. F. Nichol of Hamilton read a paper on "Advertising as Isn't;" W. S. Dingman of Stratford dealt with "Railway Advertising;" J. H. Thompson of Thorold with "The Country Weekly;" H. S. Freed, "Work and Management;" Atwood Fleming of Toronto with "Estimating for Job Work." W. E. Smallfield of Renfrew and W. Climie of Listowel talked of "Machines and Country Weeklies."

Mr. John Bayne Maclean of The Maclean Publishing Company, Toronto, addressed the association on "Newspapers and Mail Privileges." He deplored the fact that a number of advertising sheets, by representing themselves as bona fide newspapers or periodicals, were abusing the privileges of Her Majesty's mails.

Mr. A. H. U. Colquhoun of Printer and Publisher, Toronto, spoke interestingly upon the question of the "Telegraphic and Cable Service." He pointed out that the Canadian dailies were supplied with cable despatches written to please the United States public and noted the serious effects such an inaccurate service was likely to have upon Canadian ideas of European and especially British affairs. He advised that the proprietors of Canadian dailies combine and procure a service of their own.

Mr. J. S. Willison of The Globe, Toronto, took a stand on this question opposed to that of Mr. Colquhoun. He said that after a long study of our present cable service, he had made up his mind that it was a very accurate and reliable one.

The committee on resolutions will likely bring up the question raised by Mr. Colquhoun to-day.

An enjoyable smoker at Harry Webb's concluded the day's doings. The convention will be continued to-day and to-morrow.

Mr. Andrew Pattullo will move, seconded by Mr. A. S. Wigmore, a strong resolution expressive of a determination to adhere to the Motherland and at the same time maintain, if possible, friendly relations with the Republic to the south.

Death of Mrs. John Bickle.

Woodstock, Ont., Feb. 6.—An old resident of this town passed away Tuesday evening in the person of Mrs. Bickle, relict of the late John Bickle. The deceased lady came with her husband from Devonshire, England, in 1854, and has lived here ever since, much respected by the whole community. Her only son is Mr. John Bickle of this town; one daughter is the wife of Mr. George Adams of this town; another the wife of N.H. Buchner of Toronto, and the third is Miss Ellen, who has been the companion of her mother.

Completing the Union Station.

The work of furnishing and decorating the new Union Station is progressing very fast. The new ticket offices at the left of the Front-street vestibule are practically in shape for occupancy and are of much greater capacity and convenience than the ones now in use. It is probable, however, that they will not be occupied till the new waiting room is in shape, which will not be for some time yet.

THE workman often eats his lunch on the same bench where he does his work. The office man snatches a few minutes from his occupation and turns his desk into a dining-table. Neither gets the exercise he needs, neither takes the proper time for eating. It is small wonder that the digestion of both gets out of order.

Nature works as hard as she can, but there are some things she cannot stand. If a man gets some foreign substance into the works of his watch, he doesn't expect the watch to run until the impediment is removed. His own digestive system is a much more wonderful and delicate mechanism than that of his watch, and yet he neglects it and abuses it. He lets it get out of order, and refuses to help it. In the end his neglect reacts with terrible force upon himself. The reaction comes on gradually, however, so that sometimes he scarcely suspects the cause.

The cause of nine-tenths of the sickness of the world is constipation—a condition so common that four people out of five take it as a matter of course. From this one cause come indigestion; disorders of the stomach, liver and kidneys; biliousness, headaches, flatulence, heartburn, impurity of the blood and the serious complications that follow. To begin with, constipation is a little thing, and a little thing will cure it. Dr. Pierce's Pleasant Pellets are tiny, sugar-coated granules. They give to nature just the little help she needs. They are as gentle as they are efficient, and will perfectly cure the worst cases of constipation. There is nothing in the world like them, so there can be nothing "just as good." The druggist who tries to sell you something else has his own interest in view and not yours.

For a free sample package of from 4 to 7 doses, address World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y.

Any one sending 31 one-cent stamps to cover cost of customs and mailing *only*, will receive free a copy of Dr. Pierce's Common Sense Medical Adviser. The expense of producing this wonderful book has been paid by the sale of 680,000 copies at the regular price, $1.50. It has now been decided to give away *absolutely free*, an edition of 200,000 copies. Address as above.

The woman pinned down

to one or two uses of Pearline will have to be talked to. Why is she throwing away all the gain and help that she can get from it in other ways? If you have proved to yourself that Pearline washes clothes, for instance, in the easiest, quickest, safest way, you ought to be ready to believe that Pearline is the best for washing and cleaning everything. That's the truth, anyway. Try it and see. Into every drop of water that's to be used for cleansing anything, put some Pearline. 476

LIKELY TO GET $2500.

Hon. Mr. Hardy Favors Granting This Sum to the Horse Show.

The deputation which waited upon the Ontario Government yesterday to ask for $2500 to be distributed in prizes among the breeding classes at the Easter Horse Show included: Robt. Davies, president; Dr. Andrew Smith, vice-president; William Hendrie, jr., J. Crossley, Robert Beith, M.P., Alex. Gibbs, H. Carghill, M.P., Joseph Wells, Nicholas Awrey, ex-M.L.A., J. Guardhouse and Henry Wade. In the absence of Sir Oliver Mowat, Hon. Mr. Hardy stated that he personally favored the grant asked, and would submit the proposition to his colleagues.

FOR Q.O.R. SURGEON.

Dr. Palmer Likely to Get the Assistant Surgeonship of the Corps.

It is stated in well-informed military circles that Dr. L. L. Palmer is likely to be appointed assistant-surgeon of the Queen's Own Rifles.

The Doctor now holds a lieutenancy in the corps, and would, it is said, like to exchange his berth for a surgeonship.

Influence has been brought to bear on his behalf, and any number of The Canada Gazette may contain an announcement of his appointment.

Told of Canadian Heroes.

An audience of 200 persons listened to an admirable lecture by Hon. G. W. Ross in Association Hall last evening. The subject was "Canadian Heroism," and in graphic style the lecturer recited the story of the heroes who had fought for Canada in days gone by. The same spirit of bravery, Mr. Ross believed would be evinced whenever the necessity should arise. Rev. Dr. Parker presided. The lecture was the first of a series on "Canada," given under the auspices of the Education Committee of the Y.M.C.A.

Woodgreen Tabernacle.

The revival services just closed in the Woodgreen Tabernacle, conducted by the pastor, Rev. W. J. Barkwell, and Mrs. Rev. Aikenhead, have resulted in great blessing to the community, and the addition of 112 new members to the church. The "Love Feast" on Wednesday evening was the largest ever held in the church, as attested by the oldest members. The Epworth League, under the presidency of Mr. E. J. Harte, is receiving large additions, as a result of the revival.

The Woman's Art Association.

At a meeting of the Woman's Art Association held in the studio, 89 Canada Life Building, a resolution of sympathy with the Royal Academy in the loss sustained by the death of the president, Lord Leighton, was passed, and the secretary instructed to forward it. A similar resolution was also passed in the Montreal branch of the association.

The newly formed Hamilton branch of the association will hold its first exhibition, opening Feb. 18. Mr. John Calder, the president of the Hamilton branch, attended the executive meeting Wednesday and reported a large number of members and much interest there.

Pharmacy Finances

The executive and financial committees of the Ontario College of Pharmacy presented their reports yesterday. They recommended that $2500 be set aside towards reduction of the mortgage on the building. With $1000 now in the bank this would reduce the mortgage to $8000. During the last four years $9000 has been paid off.

East Toronto School News.

The new village school regulation, barring out the children of non-residents, is now in force and about 30 children are looking for their education elsewhere. The families affected contributed nothing in the way of taxes to the schools, but the main reason for the enactment is that in view of the present state of the finances the village wishes to avoid the expense of building another school house.

If Your Druggist

Does not keep Dr. Laviolette's Syrup of Tar, get another druggist. Insist upon getting the best—nothing "just as good." Tar cures, you know. 25c—25 doses. 6 will cure a cold.

CANADIAN PACIFIC RY.

EVERY TUESDAY IN MARCH AND APRIL FOR MANITOBA —AND— Canadian North-West

A Colonist Sleeper will be attached to Pacific Express leaving Toronto 12.20 noon on same date. Ask or write for pamphlet "SETTLER'S TRAINS."

Intercolonial Railway OF CANADA.

The direct route between the West and all points on the Lower St. Lawrence and Baie des Chaleurs, Province of Quebec, also for New Brunswick, Nova Scotia, Prince Edward and Cape Britain Islands, Newfoundland and St. Pierre.

Express trains leave Montreal and Halifax daily (Sunday excepted), and run through without change between these points.

The through express train cars on the Intercolonial Railway are brilliantly lighted by electricity and heated by steam from the locomotive, thus greatly increasing the comfort and safety of travellers.

Comfortable and elegant buffet sleeping and day cars are run on all through express trains.

The popular summer sea bathing and fishing resorts of Canada are along the Intercolonial or are reached by that route.

Canadian-European Mail and Passenger Route.

Passengers for Great Britain or the Continent, leaving Montreal Friday morning, will join outward mail steamer at Halifax on Saturday.

The attention of shippers is directed to the superior facilities offered by this route for the transport of flour and general merchandise intended for the Eastern Provinces, Newfoundland and the West Indies; also for shipments of grain and produce intended for the European market.

Tickets may be obtained and all information about the route, also freight and general passenger rates on application to

N. WEATHERSTON, Western Freight and Passenger Agent, 93 Rossin House Block, York-street, Toronto.
