"Price Current" Says Winter Wheat Continues to Improve With Encouraging Outlook.

World Office,
Thursday Evening, Dec. 31.

Liverpool wheat futures closed to-day ½d to ¼d lower and corn closed ½d higher than yesterday.

At Chicago December wheat closed ⅛c lower than yesterday, December corn 1c lower, and December oats closed ¼c higher.

Winnipeg car lots of wheat 121, against 130 this day last year.

Northwest car lots of wheat to-day 178, week ago 208, year ago 205.

Chicago car lots to-day: Wheat 18, contract 9; corn 196, contract 7; oats 83, contract 14.

Erimaries: Wheat receipts to-day 357,000 bushels; week ago, 410,000 bushels; year ago, 679,000 bushels. Shipments, 185,000, 151,000, 241,000 bushels. Corn 460,000, 543,000, 707,000; shipments 388,000, 356,000, 510,000. Oats 325,000; shipments 412,000 bushels.

Price Current says: Winter wheat continues to improve under favorable weather and outlook increasingly encouraging. Snow covering desired. Interior grain offerings moderate. Packing 490,000 v. 480,000 last year.

The Northwestern Miller says: Flour output last week decreased 96,000 barrels. The quantity turned out was 149,680 barrels, against 168,620 in 1907, and 190,885 in 1906. Most of the mills were idle Friday and Saturday account Christmas. This week mills are running on more normal basis.

ST. LAWRENCE MARKET.

Business down around the St. Lawrence Market even for the holiday season is generally regarded by the business men and traders as exceptionally slow. Considerable poultry is arriving, but prices continue firm, and no particular change in quotations is likely, owing to the limited amount available. Turkeys for the holiday were in good demand, and, while a trifle easier than at Christmas, were selling briskly at from 20c to 25c a pound, dressed. Geese sold at from 12c to 15c a pound, and spring chickens at 15c and ducks from 15c to 16c a pound.

There was more hay on the street market on Thursday than for some time, the good roads tending to heavy deliveries. The demand was good enough to absorb all the offerings, and at 4 o'clock only one load of inferior timothy remained unsold out of 55 loads. A few loads of straw went at unchanged prices from Wednesday's quotations.

Wheat—About 200 bushels of goose sold at 90c.

Oats—Three hundred bushels sold at from 41c to 42c per bushel.

Hay—Fifty-five loads of timothy sold at from $13 to $13.50 for first-class timothy, and from $8 to $10 for mixed.

Straw—Seven loads sold at from $12 to $14 a ton.

Market Notes.

Speaking of the prevailing high prices for poultry of all kinds, Mr. Marshall of Rutherford & Marshall, the well-known commission men, on Thursday said: "For the better class of poultry the demand is practically unlimited and the only regret is that so many Ontario farmers do not thoroly fatten their poultry before killing. For choice well-finished poultry the people have the money and are willing to pay the price," said Mr. Marshall, "but they want it good. Ontario loses millions of dollars thru this very source."

The World presents Mr. Marshall's view in brief, which is supported by all the best commission houses:

Chicago Gossip.

J. P. Bickell & Co. say at the close:

Wheat—Lower cables and desire on the part of longs to even up over holiday, resulted in a good reaction from yesterday's high prices. Receipts are only moderate and cash demand improving. Do not buy on bulges, but on all breaks buy wheat.

Erickson, Perkins & Co. wired J. G. Beaty, 14 West King-street, the following:

Wheat—On the last business day of the year there was a strong desire among the longs in the market to start the new year with a clean slate.

Selling out of holdings by that class was the principal feature of the day and the leading longs did nothing to stop its bearish effect.

There was further confirmation in smallness of receipts in the west and northwest to make holders who had bought the wheat as an investment, and not for purposes of such profit as might come to them in a day or two, stronger in their convictions as to the ultimate outcome being much higher prices and indifferent to reactions such as to-day's in consequence.

J. R. Heintz & Co. wired R. B. Holden:

Wheat—The local element is somewhat mixed, there has been no snap to the market and as cables did not follow our advance of yesterday, the bears seemed most confident and sold some.

Corn—Farmers are not selling very much but the crowd are so bearish they can force prices lower unless there is excellent support.

Oats—Cash houses about the only buyers.

New York Dairy Market.

TRADE FOR BUTCHERS WAS MODERATELY FAIR

Medium Class Rather Than Choice Lots Most in Demand—Market Generally Fair.

Taken altogether yesterday's cattle trade on the city market was generally a most satisfactory one by the trade in general. The deliveries were not large, 51 cars in all, but the tone of the market was steady to firm, and a satisfactory feature was the readiness with which sales were negotiated. Of export cattle there was practically none offered or wanted, shipping space being at a premium. It is understood that a number of exporters will go forward next Monday, to fill a contract.

Butchers—Choice butchers were not generally sought after on Thursday, the demand being for a good medium line of butchers' cattle, suitable for the general trade, and such as would blend in with the choice Christmas stock, large quantities of which are still on hand in this city. In the latter class the medium qualities, there was a fairly wide range of prices, running all the way from $3.45 to $4.25.

Cows—In cows there was a similar disparity in price, ranging all the way from $1.75 to $4.25 per cwt.

Milch cows and springers—The market cannot be said to be very brisk for milch cows and the quality offered is only of medium grade. Really good ones sell as high as $50, running from that down to $25, according to condition in flesh.

Canners—For canners there was the ordinary demand, prices going all the way from $1.25 to $1.75.

Calves—Good calves were wanted and as high as six cents a pound was paid.

Sheep and lambs—There was a moderate inquiry for lambs, which brought around 6 cents a pound for extra choice.

Hogs—Selects, f.o.b., are quoted at $5.75.

Cost of Fighting the Cattle Disease.

WASHINGTON, Dec. 31.—"I believe we have about gotten the foot and mouth disease corralled," declared Secretary of Agriculture Wilson to-day.

The department has had a force of 150 veterinaries and many non-professional men engaged in the work of eradicating the disease, the cost of which, it is estimated, will be fully half a million dollars in the four states affected—New York, Michigan, Pennsylvania and Maryland. The total number of animals slaughtered was 3605, valued at $88,268, of which the federal government will pay two-thirds and the states affected one-third.

LINDSAY SHORT COURSE.

Special Seed and Live Stock Judging Lectures in January.

The farmers of Victoria County and adjoining townships will find much of service to them in the short course in seed and live stock judging to be held at Lindsay from Jan. 26 to 30.

From 8.30 to 10 a.m. each day will be spent in the study of the seeds of our various farm crops. Each person will be given samples and will be taught how to judge wheat, oats, peas, barley and grass and clover seeds. Lectures will be given on the varieties best adapted for use in this district, on methods of cultivation, cleaning and testing seed, and on the improvement of seed by selection. This course will be conducted by Prof. C. A. Zavitz of the Ontario Agricultural College.

Live Stock Judging.

From 10.15 to 12 a.m. and from 1.30 to 4 p.m. of each day will be spent in studying and judging beef cattle, sheep and light and heavy horses. Typical animals of these classes will be brought in and, using a score card, the instructor will illustrate the ideal form, showing where defects may occur and emphasizing the desirable strong points. A number of animals of the different classes will then be brought in, and those in attendance will be asked to judge and place them. Then the instructor will give his placing, together with his reasons, and will discuss any special features illustrated by each class of animals. This course will be conducted by Prof. G. E. Day of the Ontario Agricultural College.

At the close of the practical work, or from 4 to 5 o'clock, discussions on the breeding, feeding and management of live stock will be led by prominent stock breeders. Lectures upon unsoundness in horses and upon the common diseases of farm animals will be given by a veterinarian.

F. H. Reed, who is the local representative, will assist everyone to secure all the information he requires.

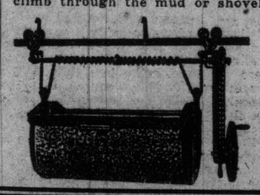
An 18 Gauge Galvanized Bucket Litter Carrier

like the BT. with their track which is heavier per foot than any otehr, is a machine which will not wear out. It is used seven days a week. Saves many steps and much disagreeable work. You do not have to climb through the mud or shovel paths if you have a BT. carrier with their strong overhead track.



Information free showing what advantages the BT. carrier has.

Special offer during January. Write:
