NIAGARA FALLS SUSPENSION BRIDGE.—It is with much pleasure we direct attention to an advertisement in another column, by which it will be seen that the success of this Company has justified a dividend of two per cent. per share, for the half year ending 31st December last. It will be recollected that the operations of the Company were commenced but a little more than a twelve-month ago.—*Hamilton Gazette.*

The steamer *Alliance* arrived from Montreal yesterday, with several vessels in tow, among them the schooner *Empire*, Captain Wilson, from St. Catherines, with 3,000 barrels flour, for James Gibb, Esq. She is a splendid craft and can carry 3,100 brls. under hatches, which may give our American neighbours an idea of the capacity of our canals. The *Empire* might have passed from Chicago to Quebec without breaking bulk.—*Quebec Chronicle.*

The Mayor of New York has issued a proclamation against the opening of houses for the sale of liquors on Sundays, and the Police have received orders to inform and prosecute for all infractions of it.

The Boston Daily Advertiser disbelieves that there is any prospect of a severance of the relations with England, or that there is any organized party in Canada for effecting such a measure. The Advertiser says:—

"It must be borne in mind that whenever it shall become a question of annexation, on the part of the people of Canada, it is a question which is to be considered also in this country. We trust that the people of the United States will be disposed to deliberate maturely upon a proposition, of sharing on equal terms, the privileges and powers of our government, with a people who do not speak our language, and know nothing of our institution, before they will be prepared to adopt it. Indeed, we believe that the public sentiment at present, is prepared to repel at once such a union, were it proposed."

THE ARCTIC EXPEDITION.—The *Gazette* tells us that information has been received from the Hudson's Bay Territory, *via* Sault St. Marie, bringing news from Fort Simpson, dated the 4th of October. From it we learn that the Expedition sent in search of Sir John Franklin has returned from Fort Confidence, having examined the whole coast from the Mackenzie River to the Coppermine, but without finding a vestige of Sir John Franklin's expedition. Sir John Richardson was to return to Canada as soon as the ice in Mackenzie River breaks up. Mr. Rae, with one boat, returns to the coast. We are truly afraid that nothing will ever be heard of Sir John Franklin and his unfortunate crew.—*Montreal Courier.*

SHOCKING STEAMBOAT ACCIDENT ON THE ST. LAWRENCE.—We gave a few days ago, under the telegraph head a brief account of a shocking accident on board the *Passport*, a steamboat plying between Montreal and Kingston. The following more particular account, compiled from the Toronto *Globe*, will be read with interest. The accident occurred last Thursday evening on the upward passage of the boat. It is represented by passengers that the engineer was absent, the assistant in his berth, and the boat left in charge of an incompetent person. When off Lancaster, 15 miles below Cornwall, about nine o'clock in the evening, the boat struck the ground. The under deck was loaded with steerage passengers.

The order to stop the engine and back out was promptly given, but the ignorance of the person in charge of the engine, led to a most sad catastrophe. Instead of backing he opened a cock which let the steam in among the steerage passengers. A shriek instantly broke forth which was heard for several miles. The nature of the accident being for some time unknown, the steam continued to be discharged upon the poor creatures, adding to the insufferable agony. Four persons jumped overboard, two of whom were drowned. The nature of the accident being at length ascertained, the steam was at once shut off.

Medical assistance was soon procured, when it was found that forty-four persons was severely scalded. The scene during the night is represented to have been horrible in the extreme; men women and children, in dreadful agony, continued their shrieks throughout the night. When the boat reached Cornwall, nine persons had died.—About twenty were left at that place, and the remainder taken to Kingston, where four more had died, and many others were in a critical state, they were all immigrants.

THE FOURTH IN NEW YORK.—The celebration was unusually quiet in New York, but as one of the papers says, the day was generally observed in a sensible manner, by the suspension of ordinary business, and by pic nics in the country, and by private fireworks in the back yards. A less number of fatal accidents are reported than usual, and fewer fires from the carelessness of boys with fire crackers. Pistols appear to have been the most mischievous article used—some seven or eight persons having been injured by premature discharges, or by their bursting. A man named Gilbert was shot in the shoulder by a boy and was taken to the Hospital. A boy was so badly jammed between the cars on the Harlem Railroad, that he died during the day.

A large meeting of foreigners—Hungarians, Germans, French, and others, was held to make a demonstration of sympathy for the Hungarians. Speeches were made, an Address was read, and songs were sung. The flag to be presented to Kossuth was borne to the ground in procession, it was a beautiful tricolor, green, white and crimson with a Goddess of Liberty in the centre, and on one side the inscription, "Washington, the Liberator of America," and on the other, "Kossuth, the Liberator of Hungary." At the foot were the words, "Unity, Liberty, Glory." On the obverse side, "The free Hungarians in America, to the liberated Hungarians in their native land."

FOURTH JULY ACCIDENTS.—Andrew Gould was killed in Malden, by the bursting of a log filled with gunpowder. Gould belonged to Porter, Me. A drunken man named Moise, on the Medford railroad, had his left arm cut off on Wednesday night, by a train of cars. Thomas Barber, Jr. of Hopkington, was drowned in North Pond, in that town on Wednesday.

The steamship Washington, from Bremen, arrived at New York yesterday morning. It was stated in Havre that the whole of the freight-room of the American steamers Hermann and Washington, for their next passage had been secured by Paris Houses, and consequently all hope of shipping goods by many parties had been abandoned.

☞ In our notice of the disturbance yesterday, we omitted to mention that in the afternoon a Meeting of Magistrates was held at the Common Council Chamber, and Resolutions were passed to swear in a number of special Constables for protecting the public peace. A large number of Magistrates were present.
