STRATFORD.

A WIFE-BEATER PUNISHED.—A man numed Davis, living at Gadshill, was sentenced by the Police Magistrote to two years' penal servitude for wife-beating.

STRUCK BY LIGHTNING.—Last Saturday night the barn of a farmer named Stoskopf, about seven miles from here, was struck by lightning and consumed by fire. A number of sheep and some other live stock were burned. Loss $1,500. Insurance not known.

THE SHOOTING AFFRAY.—The shooting case was up again on Thursday. The evidence of the train brakeman and baggageman was taken, but neither could say positively that the prisoners were on the train at all, and their evidence was unimportant. The counsel argued the case and his Worship finally decided to send the prisoner Wilson for trial and discharge the prisoner Morten on this charge. There still remained the charge of shooting the man Johnston at the depot against the three prisoners, for which they were again remanded. The wounded man Johnston took French leave of the town on Wednesday night by slipping a rope out of the wiudow and sliding to the ground where there was a buggy in waiting. There were two constables in the hotel at the time, neither of whom heard anything. Johnston having gone will no doubt settle the case and the prisoners after serving about six weeks will be discharged.

BRUSSELS.

A BIGAMIST.—About two years ago a man named Firth came to Brussels, representing himself to be interested in the woollen factory business. He got acquainted with Miss McKinney, sister of the former proprietors of the American Hotel, and in due course they were married. After sojourning in Brussels for a while they removed to Detroit, anh ere long Mrs. Firth found out, instead of having a kind and true husband, she was married to a disguised fraud, devoid of the first principles of manhood. He has been living with another woman in Grand Rapids, of late, and to bring him to time Mrs. Firth had him arrested for adultery. Rev. Mr. Ross, of Brucefield, who married them, was summoned to Grand Rapids last week as a witness to prove the validity of the marriage. Firth got out of the adultery difficulty by proving that he had been married to this woman, with whom he had been living 14 years ago in England, and by her had a family of six or seven children. Of course this cleared him of the charge, but Mrs. Firth No. 2 proceeded to Detroit at once to get out papers to have him immediately arrested on the charge of bigamy, and have the trial in Detroit. The many friends of Mrs. Firth (or Miss McKinney) in Brussels hope to see this deeply-dyed scoundrel severely punished. Firth had rather a prepossessing appearance both in manners and dress, but it appears the best of him is all on the outside.

ELLICE.

CONSERVATIVE MEETING.—A meeting of Conservatives of this township was held at Hill's tavern, Ellice, on the evening of Monday the 27th ult., and, considering the state of the roads, a large gathering of Conservatives were present. Mr. Pearson, the retiring President, stated his reasons for calling the meeting so late, and requested the meeting to apa chairman. Mr. Philip Siebert was called to the chair and, in the absence of Mr. Mennig, the secretary, Mr. Pearson acted as secretary for the evening. After electing executive officers, and large committees in each division of the township, the following resolutions were carried amid applause:—

Moved by Mr. A. Henry, seconded by Mr. Conrad Lippert, that this meeting hereby expresses its confidence in the able and patriotic government of Sir John A. Macdonald, and highly approves of their conduct in faithfully carrying out the policy to which they were pledged in 1878, which has been the means of rapidly extending and developing the industries of our country, opening up the vast territories in the Northwest, and uniting the various Provinces of our extensive Dominion. And also their confidence in the ability and policy of the Opposition in the Local Legislature of Ontario.

Moved by Mr. F. Ruston, seconded by Mr. Siebert, that this meeting cannot separate without recording their approval of the conduct and confidence in the integrity of our member, S. R. Hesson, Esq., M. P., whose indefatigable zeal is ever willingly employed in the interest of his constituents, and in support of the sound life-giving policy of our Dominion Government. A vote of thanks was tendered the retiring President. The meeting then gave three cheers for the Queen, three more for Sir John A. Magdonald, and other three for our member, after which they separated with the full determination of giving a good account of themselves at the next general election, come when it may.—COM.

ATWOOD.

Dr. McFadden will remove shortly to Winnipeg, then there will be an opening for a good physician here.

The name of our village and post office has been changed from Newry Station to Atwood. Our popular member, Mr. Hesson, very kindly brought the matter before the Post Office authorities at Ottawa, and the change has been made without delay. Mr. Hesson will please accept the thanks of the people of this part of Elma for the interest he has taken in the matter. The G. W. R. Company have also signified their intention of changing the name of the station at an early date.

NEWTON.

One of the most prominent citizens of Millbank, Mr. Jas. Hawthorn, has passed away. His funeral was attended by the Orangemen of the district, deceased being a worthy member of the order.

The promotion examination fraud was again perpetrated on March 31st. Some of the papers, those set for entrance to the senior third class, especially, were ridiculously hard. The manner in which the numbers were assigned to the candidates has excited among the teachers a feeling not very friendly to those who prepared the questions. It is expected that through this piece of missmanagement or carelessness, the examination will have to be cancelled.

Mr. Andrew Buchanan, the genial landlord of the "Farmers' Inn," has gone in search of green fields and pastures new. He will be missed. The hotel will be managed by the proprietress, Mrs. Henderson.

Mr. Samuel McCauley is going to Manitoba.

This is what the boys are saying now:

There is a young fellow named Merner,
Than whom there are very few sterner;
But for singing and praying,
And piccolo playing,
He would charm e'en the heart of a Turner.

March came in like a lamb and went out like a drove of sheep.—GULLIVER.

WM. SPENCE, Clerk.

THE AGRICULTURAL COMMISSION.

A Prominent Miller's Testimony—The N. P. Benefits both the Miller and the Farmer.

OTTAWA, March 30.—A meeting of the committee to inquire into the effect of the tariff upon agricultural interests, was held this morning. Mr. Orton in the chair. Mr. Thomas Dight, a prominent miller of Lucan township, was examined. He said he was brought up to the farming business in England, and had farmed in this country for ten years. He found his market for flour principally in the Maritime Provinces. Previous to the imposition of the present duties he used to send the product of his mill to commission merchants in Montreal, and export it to Liverpool. He then sent some flour to the Maritime Provinces, but very little. The capacity of his mill was about a car load a day. His last shipment of flour to Liverpool was 500 sacks, on May 31st, 1881. He tried shipping in bond through the United States to the Maritime Provinces, and a good deal of difficulty was experienced. In consequence of that difficulty he always now shipped direct by the Intercolonial. He read the quotations of wheat in Toronto and London in 1878 and 1881, showing that in the former year wheat was dearer in London than in Toronto, while last year wheat was dearer in Toronto than London. He accounted for that by the fact that in 1878 millers ground Minnesota wheat and consequently did not buy so much wheat in the market; but since the duty had been put on wheat from the United States, millers had to buy their wheat from the farmers. Millers used red winter now as a substitute for Minnesota wheat for bag flour. They found red winter made very good bag flour. He had tried Manitoba spring wheat, but he preferred red winter. In 1878 they paid two cents a bushel less for red than white wheat; now they pay five cents a bushel more for red than white. Looking over the Trade and Navigation returns for 1878 and 1880 he saw that in 1878 there was an immense lot of wheat brought into the country, and flour also. There were brought in and ground into flour 5,635,403 bushels of wheat and 315,220 barrels of flour, making a total of 1,641,497 barrels of flour. In 1881 only 76,652 bushels of wheat were brought in and 197,581 barrels of flour, making a total of 207,579 barrels of flour, showing that it would take five years, according to the figures of 1881, to import as much wheat and flour as was imported in 1878. The present tariff had given the millers better profits. Formerly they had to pay twelve cents per barrel commission and insurance; that was saved now, and they probably save five or six cents in shipping direct to the Maritime Provinces. He was positive that for every bushel of red winter wheat they paid the farmers five or six cents a bushel more than in 1878. He could not say how grinding in bond would operate, but he thought it might be a good way of keeping mills in operation. All the products of the farm commanded higher prices. He was in favor of reciprocity with the United States on equal terms; he would, for instance, be quite willing that the duty should be taken off Indian corn if they would take the duty off barley. He produced statistics showing that there was very little difference between the price of sugar in 1878 and 1882. Scythes, forks and hoes were 8½ per cent. cheaper in 1881 than in 1878; axes were 5 per cent. cheaper in 1881; shovels were also a little cheaper. He thought woollen goods were about the same now as four years ago, but cotton goods, he understood, were a little dearer. Mowers and reapers, he understood, were somewhat cheaper.

THE HANLAN-BOYD RACE.

The Canadian Retains the Championship, Winning the Race by Four Lengths, and Literally Playing with His Opponent.

Newcastle-on-Tyne, April 3.—The long-looked-for and jealously watched race between Edward Hanlan and R. W. Boyd for the sculling championship of England and £1,000 was rowed to-day over the Tyne course from the Mansion House to Scotswood Suspension Bridge, and proved an exceedingly easy victory for the Canadian champion oarsman of the world.

DETAILS OF THE RACE.

The starting boats were moored opposite the Mansion House, about 100 yards above the high level bridge, and thirty yards apart. The rivals appeared at the starting point within a few minutes of each other, Hanlan using his Phelps & Peters boat and Boyd the Brittania, built by Swaddle & Winship. Boyd dashed away with a start, and was half a length ahead in a few strokes. Hanlan, however, sculling in good form, caught him, and in half a mile he was clear of him. Time to Redheugh Bridge, 3 min. 23 sec. By this time Hanlan was two lengths in front, and the race was over. The Canadian was in magnificent form, sculling easily and well, pulling not more than twenty-eight strokes to the minute, and winning easily. Boyd was labouring and in evident trouble, pulling a very bad course. Above the bridge it was quite evident that the Canadian could play with Boyd, and soon began his old tricks, playing with his oars, and every now and again stopping dead for several seconds. Boyd struggled gamely on, doing his best, but quite ineffectually. Hanlan stopped, held up his hands, blew his nose and generally disported himself, but directly Boyd got anywhere near him the champion pulled a dozen or more powerful strokes and went right ahead. It was as easy a task for Hanlan as the Laycock race was. The course was splendidly kept, there not being the slightest obstacle in the way. The main feature of the day was the enormous number of spectators, which is estimated at hundreds of thousands, lining the whole course. Hanlan won by four lengths in 21 minutes, six seconds, Hanlan made the first mile in 5.45, the fastest on record on the Tyne. There were on the river at least twenty closely-packed steamers, besides the umpire's boat. A strong tide was running, and the conditions were extremely favorable for the race. There was not much betting. Five to two was offered on Hanlan, with few takers, although three to one would be taken to a considerable amount.

Newcastle is idolizing Hanlan. He was presented with a gold watch at the theatre this evening.

NEW LAND REGULATIONS.—The Canada Pacific Railway Company have issued a new set of regulations which will for the present govern all their sales of land. In order to prevent speculative purchases of their land they have raised the nominal price to $5 an acre, one-fourth of the purchase money to be paid at the time of sale and balance in five years with interest. The rebate for land brought under cultivation is very large, being in fact three-fourths of the original five dollars per acre. Failure to fulfil the conditions as to the time and amount of the payments made by the settler entail, as before, absolute forfeiture, and it is now added that the option reserved to the Company of resuming the forfeited lands "is not to interfere with or to supersede the ordinary legal or equitable remedies they may have for the recovery of the purchase money with interest. Unwilling to deal with the troublesome question of squatters claims, the Syndicate by the new regulations give the purchaser of their land the option of either ejecting anyone who may have squatted on it or of giving up the land.

The marriage of Prince Leopold has again been postponed until June, and now probably will never take place. The health of the prince, never good, has of late been growing worse. Much sympathy is felt for the Princess Helena of Waldeck.

G. W. R. CHANGES.—Mr. Charles Stiff, superintendent of the Great Western railway, is appointed assistant general manager. The office of superintendent will be filled by Mr. Burton, an old employee of the company, and lately manager of the Detroit and Milwaukee Ry.

Labor troubles at Toronto—300 female operators in boot and shoe manufactories are on strike; the Grand Trunk freight sheds employes quit work Tuesday; the plasterers are still out; two or three master carpenters have agreed to the advance asked by the men; about 500 still remain on strike.

Tremendous Sales.

The druggists of this city are doing a big business now in the sale of St. Jacobs Oil. One druggist on whom we called on Saturday afternoon, stated that although his sales were large at first they have doubled lately.

Another said that so popular has the Oil become that he could hardly keep the supply up. Not one to whom we have spoken but gave it a high recommendation and said that it must be affecting scores of cures, or there would not be such a demand for it.

The people have got the St. Jacobs Oil fever bad and no mistake, and confidence in its curing qualities is still growing stranger. Of course, this would not be so, unless the remedy was fully meeting its every promise.—*Ex.*

A Remarkable Escape.

Mrs. Geo. C. Clarke, of Port Dalhousie, Ontario, states that she had been confined to her room for a long time with that dreadful disease, Consumption. The doctors said she could not escape an early grave, but fortunately she began taking Dr. King's New Discovery for Consumption, and in a short time was completely cured. Doubting ones, please write Mrs. Clarke, and be convinced. Trial bottles free at Michener's Drug Store. Large size $1.00.

ESTABLISHED IN 1836.

Having fully tested MOORE'S EARLY and BRIGHTON, two new grapes, I unhesitatingly advise my patrons to plant them. You will not be disappointed. Moore's Early is the very best early black grape yet grown in Canada. It has stood thirty degrees below zero unhurt. Brighton is a delicious red grape, ripening just after Moore's Early. They are both large in bunch and berry, and very productive. I will mail both to any address, post paid, on receipt of $2, or either for $1. Agents wanted.
