NEW YORK IS BEING EATEN.

Mosquitoes from New Jersey Make Things Lively for the People of Gotham —Private Flynn's Bite.

New York, July 26.—This city swarms with mosquitoes. Everybody is about eaten up. Last night sleep was impossible. In nearly every hotel and household people were driven by their bites from churches and public entertainments. Millions have been blown here by the wind and rain from Staten Island, Long Island and New Jersey.

Private Joseph R. Flynn of the 13th Regiment, stationed at Governor's Island, while on dress parade, met with a remarkable experience yesterday. He was bitten by a fierce mosquito under the right ear. Being in the company ranks and on dress parade before the post commandant he did not dare, from a fear of violating regimental dress parade rules, to lift his hand to stop the flow of blood that followed. A sergeant noticed the blood trickle down the neck of Private Flynn, and he reported the case to Regimental Surgeon Bronson, who ordered Flynn from the ranks and hurried him to the hospital. There heroic efforts were applied to stop the flow of blood. Surgeon Bronson stated that he had never seen or heard of a similar case, and expressed the opinion that Flynn had probably lost three-quarters of a pint of blood as the result of the mosquito's lance-like thrust, which doubtless punctured a small vein. He believes the man would have bled to death if the flow of blood had not been promptly checked.

REMARKABLE ESCAPE.

Cars Filled With Excursionists Dropped From a Trestle Into a Corn Field.

Marietta, O., July 26.—As an excursion train was returning from Zanesville, O., at 9.50 last night the trestle work over a bottom land three and a half miles from Marietta gave way and two of the four coaches were dropped to a corn field below. The coaches were filled with excursionists, but no one was killed. Fifteen persons were badly injured and all were more or less bruised. Miss Nellie Purdy will probably die. One of the coaches took fire and some of the passengers were singed before they could escape.

DIED FOR HIS BROTHER.

The Boys Went in Swimming, Couldn't Swim and One Was Lost.

Stouffville, Ont., July 26.—A sad drowning accident occurred at Glasgow, about five miles from here, on Saturday night.

Two of Mr. Simeon Davis' boys were bathing, when the smaller one got beyond his depth. The older boy jumped in to save him, and being unable to swim was drowned. The younger boy managed to cling to a root and was saved.

A Credit to Canada.

Scores, the high-class cash tailors, 77 King street west, would do credit to any city in Europe, and Canadians recognize they have right in Toronto a firm of wide reputation and keenly alive to what constitutes the most fashionable and gentlemanly attire. Experience is a good schoolmaster, and it stands to reason that Mr. Score's continual visits to the British markets give him a buying power not possessed by those who order merely from samples. Score's go right to headquarters and pay cash for the finest goods to be had for money. Any thinking person will see this redounds to the big advantage of their customers.

Others Fail—It Cures.

Dear Sirs: From my own experience I can confidently say that Dr. Fowler's Extract of Wild Strawberry possesses true merit. It was the means of saving my little girl's life last summer. She was teething and took violent diarrhoea. Dr. Fowler's Extract of Wild Strawberry cured her, and I feel that I cannot say enough in its favor.

NEW CUSTOMS REGULATION.

The new customs regulation requiring persons making entries of goods under the reciprocal tariff to furnish separate invoice of articles entitled to such entry, with a declaration annexed from the exporter or his agent, made before a notary, commission, or chief municipal officer, of a city or town, or a British consul or the secretary or president of a chamber of commerce as to the value and origin of the articles, causes a good deal of comment. Importers must see that their invoices, if made out at lower prices than fair market value, when exported to Canada, shall also show both the reduced rate and fair market value when sold for home consumption. The regulation goes into effect on August 1.

LANGLEY & HALLWORTH ASSIGNEES McKinnon Building - Toronto.

McIntyre & Wardwell (John J. Dixon) received the following despatch to-day from New York:

There was a sharp break in Sugar this afternoon, which unsettled the whole list. Aside from Sugar the declines were not material, and in several instances, notably Tobacco and Delaware & Hudson, advances were made and held. There has been, and still is, an unwieldy long interest in Sugar which would not listen to trade authorities, and specialists who insisted that the new tariff bill did not protect refiners as well as the Wilson bill. The market generally has a congested and over-bought appearance. Reports of a coal road deal with development in connection with Susquehanna & Western are current. Exchange is dull at 4.87½; 500,000 gold engaged last week was withdrawn for export to-morrow.

CHICAGO GOSSIP.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

Wheat—The market opened strong on a range from 73⅛c to 73⅝c for September option. Liverpool market was very nervous and the opening quotations came 1¼d higher for September and 1⅜d for December, but closed steady at ½d to ⅞d higher. The visible supply showed an increase of 708,000 bushels, which was about the amount anticipated. The Northwest cars were 457, against 417 last week and 478 last year. Moderate foreign orders were on both sides, but the buying led. Sentiment more recently, however, is favoring sales on bulges, and free general selling soon undermined the buying support and prices gave way easily. Grain dealers in Germany, and particularly in Berlin, are heavily handicapped by the prohibitory law greatly obstructing speculative interest and restricting necessary negotiations for the actual grain. There were more rains throughout the wheat belt yesterday, and bright summer weather would be very desirable now. Gifford appeared in the market this morning as a heavy seller and his sales are reported to aggregate fully 700,000 busnels. There was considerable speculation as to this selling. The people who are explaining everything on the ground of manipulation credit it to Armour. The export houses gave very little encouragement. Brosseau, Schwartz, Dupee, Barrett and Norton Worthington were the leading buyers. Allen Grier also took on a small line for St. Louis parties. The foreign crop news was bullish. Reports from Bulgaria state that the crop will be 50 per cent. less than last year. In Russia the harvesting of winter wheat is in full swing. According to our Nicolaieff correspondent, hot winds have done considerable dam
