Up River.

[Fredericton Gleaner.]

Our Kingsclear correspondent, in giving the number of barrels of turnips raised by the different farmers in this vicinity, under-estimated the yield of Mr. Thomas Gray. He should have stated 2,732 barrels instead of 2,500.

Sneak thieves are evidently getting their work in. Several coats and umbrellas have lately been taken from the halls of residences on the back streets, and on Saturday night last a child's sleigh robe was taken from the hall of the residence of John Ferguson, King street.

Two years ago it was ploughed and sowed in buckwheat. A year ago it was turned into potatoes; and last summer the big yield of oats was taken from it.

Hiram Wetmore's Statement.

Hiram Wetmore, the man who had his money taken from him a few days ago, wishes to state that he was not on Sheffield street at the time he lost his money, that he was on Wentworth street and that he did not know who kept the house he was in, nor did he think that it was a house of ill repute. That he was down to his cousin's who lives near the pottery and about nine o'clock when he was coming back he went into this house and asked for a glass of lemonade. He paid for it, and asked for a glass of ginger beer and they gave him something that nearly poisoned him. After he drank it he felt very dizzy and could not stand up, although he could talk sensibly and knew what was going on, and that he has not been in good health from that day until now from the effects of that drink, and that he has been couching blood ever since. He says that he is a temperate man and has never been drunk during his life; that he would rather purchased his beer in a respectable house; and that was the first time he has ever been in a house of that kind to his knowledge, and he would also like to state that he had no intention of resisting Edwin J. Wetmore, of Carleton, and Maggie Ross pleaded guilty to the offence but now wants to shield her friends.

PORTLAND, Me., Nov. 30.—A meeting of the horse owners and breeders of the state was held at the Preble House tonight to discuss the proposed mile track at Scarboro. A temporary organization was effected, and will form a corporation at once, with a capital of $25,000.

An informal vote was taken upon the shape of the track to be built, and this resulted in favor of the kite, instead of the regulation track. The officers chosen are: President F. H. Briggs of Auburn: treasurer, P. Hawkins of Deering; secretary, J. F. Barrett of Deering; directors Galen C. Moses of Bath, Warren Kimball of Kennebunk, Howard Woodbury of Deering, Alonzo Libby of Westbrook, S. W. Parlin of Boston. Some four thousand was subscribed at the meeting.

Circuit Court.

Hatfield vs the St. John Gas Co., was commenced this morning.

This is an action to recover damages for an injury sustained by the plaintiff, while making the connections between the stores and the new main on Dock street, on 4th June, 1890, such injuries being that his face and hands were so badly burned by the flames of the gas, which ignited from a salamander that he was laid up for a long time and unable to do any work. The defence is that he being a co-worker with other servants of the Gas Co., they are not liable for any damages. Dr. Barker moved for a nonsuit on the close of the plaintiff's case, but that was refused. The case will last all day.

The jury in the case of the Queen vs Williams, at seven o'clock last evening found the prisoner guilty, and in reply to questions by the court found that Ellen McMillan went with him voluntarily, and that prisoner knew at the time of the taking that she was under the control and in the possession of her father.

About Ice.

The ice business promises to revive here this year, and before spring it seems probable that there will be quite extensive operations under way on the various lakes and streams where the ice crop can be gathered with the greatest facility. Reports from Maine recently are to the effect that the indications are very unfavorable for the gathering of the ice crop from the rivers in that state where operations are usually carried on every winter. The water in the rivers is so low that the ice crop is seriously threatened. This news together with other things has caused former ice operators here to wake up, and some of them are beginning to think of commencing operations early next year. It is probable that one or two operators will commence work in January.

The local demand for ice increases every year, and no doubt there will be a large amount of the crystal crop gathered for home consumption.

OTTAWA, Dec, 2.—The government are calling for tenders for the construction of three sections of the Soulnages canal on the north shore of the St. Lawrence, forty miles above Montreal. The total cost of the work will be $4,750,000. The locks will be 270 feet long with a depth of water sufficient to pass vessels drawing fourteen feet of water. The width of this canal at the bottom will be a hundred feet. This virtually means the completion of the St. Lawrence canal system.

IT IS DRAWING

near Christmas and you should not forget to keep an eye out for a place to buy a serviceable gift that will be thankfully received and cherished in years to come.

OUR PLEASURE

is almost lost when we attend the New Opera House and cannot plainly see everything on the stage, all because we are not the happy possessors of a pair of Opera Glasses.

AT A DISTANCE

we all know it is very difficult to distinguish objects. Yet we strain our eyes and keep on squinting until we are compelled to buy not only a pair of Opera Glasses, but a pair of Spectacles.

REMEMBER THIS

or it will be too late to save your eyesight, and too late to have a first choice of the fine large stock shown at my store.
