At 6 o'clock on Wednesday evening last at her home, Victoria street, Athens, Miss Jennie Hartwell was united in marriage with Mr. Geo. LeGard of Chicago, the ceremony being performed by Rev. J. A. Kennedy in the presence of a number of relatives and friends of the contracting parties. The apartments were beautifully decorated for the occasion, flowers abounding everywhere. A large bank of foliage dotted with flowers occupied a corner of the parlor and before this the vows were made, the token given. The bride looked charming, being most becomingly attired in pink silk with cream satin trimming, and carrying a shower bouquet of blush roses. At the conclusi n of the ceremony the happy coup'e received the congratulations of the wedding guests, and then all partook of a delightful repast. During the hour of social intercourse that followed, the Citizens' band assembled in front of the house and rendered several fine selections. The bride was the recipient of many useful and beautiful tokens of esteem from her friends. Among the guests present from a distance were Mrs. J. C. Miller and Dr. Chamberlain of Toronto, Mrs. Judd and Mrs. Jones of Morton, Miss Bellamy of Prescott, Miss Devana of Kingston, and Mr. S. Robinson of Delta.

By the departure of Mrs. LeGard Athens loses a highly estimable lady and this branch of the Baptist church a valued member. Miss Hartwell has been an indefatigable worker in endeavoring to promote the Baptist cause in Athens and was prominently identified with several worthy societies. On Monday Miss Hartwell was invited to meet several of her Baptist friends in the church when in behalf of the congregation they testified their appreciation of her services and the regret they felt at her departure by the following address, accompanied with an elegant silver card receiver:

TO MISS JENNIE HARTWELL.

ATHENS, ONT., June 3rd, 1895.

DEAR SISTER,—As the time is at hand when you are about to sever your connection from our midst, we, the members of the Athens' Baptist church and choir, cannot permit you to take your departure to a home far removed in the West, without in some way expressing our sincere regret that in the future we must be deprived of your presence and service.

During your life in Athens you have closely endeared yourself to all who came within the range of your influence, and even though now this tie of personal presence must be broken, you can rest assured that you will not be forgotten. Though absent in presence you will ever be cherished in our memories as one of the faithful ones who labored with untiring efforts in our Sabbath school, as organist, and in all our means of grace held for the promotion of righteousness.

We cannot let the opportunity go by without in some way showing our appreciation of the earnest service you have rendered, and at the same time remind you wherever you go that the Master's work requires diligent and never ceasing laborers. You will be followed by our prayers and sympathies that some broader field of christian usefulness will be presented, into which we trust you will enter with the blessing of God resting upon you. We ask you to accept this present, not for its intrinsic value, but as a slight token of the esteem and affection in which you are held by us.

With our best wishes and kind regards in your behalf, that you may enjoy in the fullest extent a happy, enjoyable, and peaceful united life.

Signed on behalf of the Church and choir.

The horn-fly has no roosting place,
But he gets there just the same.

So sings a York State poet, but this is disputed by a Reporter correspondent who says that dehorned cows have "no flies about the head." We have a number of farmers in this section with dehorned cattle and would like some of them to favor us with their experience respecting the fly.

Just before noon on Thursday last an alarm of fire called the brigade to Elgin st. north. The fire was found to have started in the roof of the Carss house, and a line of hose was quickly laid and a stream of water thrown on the building. Neighbors had previously got the blaze under control so that there was fortunately little need for the brigade's services, but the promptitude with which they responded to the call and the force of the stream thrown by the engine gained for them fresh laurels in the minds of all citizens. Though the run was a long one, in four minutes from the sounding of the alarm the brigade had a stream playing on the building.

The Athens Bicycle Club enjoyed the first run of the season last evening. Fourteen members lined up shortly after eight o'clock and they presented a very interesting, inspiring sight as, swiftly and silently, they glided through the village streets. The silent feature of the event, let us here remark, was confined to the wheels; for occasionally the unearthly tones of "Devilines" would vibrate on the still night air, making the dew-worms roll over and shudder as the wheelmen dashed by. It was a fine evening and all enjoyed the run so much that there will be no difficulty in securing a full attendance of members at the frequent events of a like kind now in contemplation.

The Festivities in Ballycanoe.

The congregation of St. James' church, under the direction of the Rev. J. J. Kelly and substantially aided by the energetic committee, held their annual pic-nic on Saturday last, which in every respect surpassed all pic-nics held by this congregation for the last three years. Too much praise cannot be offered the ladies who cooked, for the variety, taste, and general manner in which they acquitted themselves towards their church and the public whom they so cordially entertained. The day was all that could be desired for an outing. The beautiful groves, shaded by the foliage of the oak, elm and maple, lent a picturesque aspect to the grounds, and the sweet music of the Patterson orchestra, to which a large crowd danced very gracefully, sealed with special eclat the happy event.

The two most interesting features of the day were political speeches by Messrs. G. Taylor, M. P., and H. Horton, who, during their discourses, were listened to with great attention, irrespective of creed or politics. At 4.30 a foot-ball match took place between the Quabbin team and the Wexford team. They played with intense enthusiasm for over an hour and wound up as ties. Both teams are to be highly congratulated for the able manner in which they played, but, justly speaking, an extra share of compliments should be meted out to the Wexford team, who but three weeks ago began for the first time their athletic exercises at foot-ball and who had not the time to procure foot-ball costumes for the day, and thus labored under more or less disadvantage.

At the close of the evening, the large assembly being gathered around the platform, Father Kelly ascended the hustings and gratefully thanked the speakers of the day, the athletes, his devoted people and the public in general, for their generous patronage, and concluded by explaining these words so familiar to all readers of sacred scripture—words spoken by the heavenly messenger at the birth of Christ, "peace on earth to men of good will." That is to say, that we the community of this fair county and prosperous province, composed of so many denominations, should be full of good will to each other, banishing from our hearts religious bigotry, prejudice, and all that might hatch discord and friction between the children of the great common Father.

DOMINION DAY.

To be Observed Right Royally by the Citizens of Athens—A Large List of Sports and Attractions—Splendid prizes to the Successful Contestants—Everything Free to the Public.

The citizens of Athens have decided to celebrate the birthday of our Dominion by a grand celebration, and at a meeting held last (Monday) evening, decided on offering over $300.00 in prizes and purses for sports on that day. The following is a brief outline of the day's attractions (posters and dodgers to be issued at once will give full particulars): At 10.30 a.m. a base ball match, open to all comers, will take place on the grounds of the Driving Park Association, near the station, for a silver trophy, valued at $15.00. At 1 p.m. sharp the races will be called, when purses aggregating over $100 will be hung up for competition. The Park Associaton have spent hundreds of dollars in fitting up the track for these, the first, trials of speed held on the track. No admission fee will be charged to see the trials of speed and sports on the grounds. The Athens Bicycle Club, numbering over 20 members, will, during the intermissions of the races, give a few drill exhibitions. At 4 p.m., the Athens Fire Brigade will make a time run from the engine house to the tank at the Dowsley Block and throw a stream of water over the Gamble House. Immediately afterwards a number of sports will take place on Main street for liberal prizes. These will include a foot race, wheelbarrow race, sack race, hen race, and climbing greasy pole. At six o'clock sharp the sensation of the day will take place. A body of 75 calithumpian terribles, headed by the Citizens' band, will march in procession through the principal streets to a position in front of the Central block, when Prof. Pontas Magoria from "Away Back" will deliver an oration. At 7.30 a magnificent display of fireworks, costing $100, will be let off from some convenient point, and at 8.30 the village band will open a grand variety concert in the town hall, for programme of which see small bills to distributed during the day. From the above it will be seen that the people of Athens are to the front in providing a day's sport for the people of the surrounding country and we trust that the crowds who take in the many good things provided for their amusement will be the largest ever seen in the village.

We understand that Mr. Robeson, Rappell's genial clerk, has said good bye to his many friends here. His late employer speaks of him as a young man of many good qualities and joins the public in wishing him unbounded success in his new field of labor.

Good Health

And a good appetite go hand in hand. With the loss of appetite, the system cannot long sustain itself. Thus the fortifications of good health are broken down and the system is liable to attacks of disease. It is in such cases that the medicinal powers of Hood's Sarsaparilla are clearly shown. Thousands who have taken Hood's Sarsaparilla testify to its great merits as a purifier of the blood, its powers to sharpen the appetite and promote a healthy actions of the digestive organs.

Annual Pic-nic.

The date for the annual pic-nic of the Methodist Sabbath school has been fixed for Saturday next, and, as usual, the objective point will be Charleston Lake. Only those directly concerned with the management of such an event know the full extent of the labor connected therewith. This year it is hoped that, more even than in the past, a spirit of willingness to help will be manifested by all interested. Those who intend to contribute teams or boats should communicate with the superintendent, Mr. D. Fisher. All the young people of the village are invited to attend and assist in making this outing what it has always proved—a brilliant success.

Death of Levi Stevens.

The sad news reached Athens on Monday morning of the death of one of the oldest and most respected residents of Plum Hollow. Born on the old Stevens homestead, in the most beautiful and romantic portion of far-famed Plum Hollow, Levi Stevens grew up, lived and died on the farm settled on by his father, one of the early pioneers of the county of Leeds. Mr. Stevens was twice married, his first wife, a Miss Bogart also of Plum Hollow, bearing him six children, three sons and three daughters. His second wife was a Miss Hunt of Newboyne, by whom he had one son and two daughters. Mr. Stevens was 66 years and 4 mos. old at the time of his death. On Friday evening last our football team went to Addison to play that team a return match, and after a hard play it turned out as usual, except that the teams made one goal each. Addison kicked on our team's goal, but the referee settled the dispute in favor of Toledo by going according to the football rules. At this decision some of the Addison men, knowing that our boys were having the best of the fun, and that they could play when they got warmed up, refused to play again and the game was broken up. After the game the boys were treated to ice-cream and cake by the young ladies of Addison, and the ladies were so charming that some of the bashful boys had a hard time to get the rest of the lads started for home.
