HEAVY CATTLE MARKET DULL

Practically No Reliable Outlet For Extreme Weight Steers and Prices Were Lower.

The receipts of live stock on Tuesday were 52 carloads—729 cattle, 703 hogs, 1276 sheep and lambs, 146 calves, with 12 horses.

The demand for heavy cattle was very slack all day, and sellers experienced much difficulty in getting rid of the offerings, the market closing before they were able to make a clearance. The best export cattle were considered 10c to 15c per cwt. lower than on Monday. Choice, handy-weight butchers' cattle held steady and in some instances sold 10c higher. Weighty, unfinished steers, such as are generally bought for Montreal, were fully 10c to 15c lower, and hard to sell.

We noticed only two buyers from outside points, and they both came from Hamilton.

Exporters.

Best export steers were worth from $6.60 to $6.85, but we did not hear of any being bought for export.

Choice heavy picked butchers sold at from $6.35 to $6.85; loads of good, $5.60 to $6; medium, $5 to $5.40; common, $4.50 to $4.90; choice cows, $5.25 to $5.75; good cows, $4.50 to $5; medium cows, $3.75 to $4; canners, $2 to $3; light bulls, $3 to $3.35; heavy bulls, $5 to $5.25.

Milkers and Springers.

Milkers and springers were in demand, and a moderate number sold at $40 to $80 each.

Veal Calves

There was a good demand for good to choice veals at $8 to $8.50 per cwt.; common and medium sold at $4 to $7 per cwt.

Sheep and Lambs.

The sheep market remained about steady, at $4.50 to $5 for light ewes; heavy ewes and rams at $3.50 to $3.75; lambs sold at from $7 to $7.35, this being a drop of fully 40c per cwt. on the average, and 50c from the high mark on Monday.

EUROPEAN CROPS IN CRITICAL CONDITION

Continued Wet Weather Has Caused Irreparable Damage in Britain, France, Germany.

Broomhall's weekly summary of foreign crop conditions is as follows:

United Kingdom.—The continued wet weather when has prevailed for the past six weeks has caused irreparable damage to the wheat crop, and a considerable portion of the new wheat is useless for milling purposes, and nearly all of it unfit for immediate use. The weather today shows improvement.

France.—There are some complaints of sprouting and bad condition of the wheat owing to wet weather. Our own agent takes a more favorable view regarding both the quality and yield. The oats have suffered damage from wet weather.

Germany.—Much of the wheat and oats crop has been damaged by the continued rains, and there is an increased demand for foreign wheat. There are many complaints regarding the potato crop.

Roumania.—The outlook for the corn crop has improved. Plowing for the new wheat crop is progressing under favorable weather conditions.

Hungary.—The outlook for the corn and potato crop is good.

Italy.—Some of the threshing results are showing up under expectations. The corn crop in some parts is suffering from drought.

Spain and Portugal.—Small crops this year are confirmed.

Australia.—The wheat crop shows a healthy growth, altho it is somewhat backward.

Russia.—Our agent at Odessa states that the weather is fine, altho there has been some damage to the crops by rain. Arrivals are large. In the Volga region rain has hindered late harvesting, and some damage is feared. Arrivals are small. In the southeast the weather is unsettled after general rains, and harvest reports are unsatisfactory. Arrivals are small.

CHICAGO GOSSIP

J. P. Bickell & Co. from Logan & Bryan:

Wheat—There was a spasmodic advance in wheat last half-hour of the session. It was made on news which the trade had at midday, but for some reason did not attempt to make any bullish demonstration until near the close. Back of the bull turn in the market was the report of 625,000 bushels cash business, part of it to mills, but the greater part of it for export. Some of the cash people were claiming that the export business alone amounted to a half-million bushels. Forecast of showery conditions unfavorable for wheat standing in the fields helped the early rally somewhat. There may be enough in the situation to give a stubborn market, but it does not look like continued active bull operations.

Erickson Perkins & Co. (J. G. Beaty) wired:

Wheat—The market ruled within an extremely narrow range until after noon, when a sharp advance from the low point was recorded. The question which is most prominent at the present time as regards our own market is this: Where are future supplies to come from, and how long will the well-known fact of a big total yield continue to influence prices? It is indisputable that our own supplies at the beginning of the crop year were reduced to a minimum, and in the meantime Europe has suffered a semi-calamity.

Corn—The brilliant weather which was shown on to-day's map naturally induced more or less profit-taking, but the trend of the market thruout the session was toward higher prices, the close being at the high point of the day. We see no reason whatever to change our opinion regarding the stability of present prices for all futures.

Oats—Firmer opening, followed by a fractional decline, resulted in closing prices being at the high point of the session. The same conditions prevail in this commodity as in wheat and corn, namely, a continuation of the cash sale inquiry in large volume.

Strong, vital, manly men fascinate all who come within their influence. As true as you are a living, breathing human being, I can restore VITAL STRENGTH; there is not a shadow of a doubt as to what I can thus do. BUT there is a single condition, one restriction I put, a certain, solemn promise I exact from you before you can exact a promise from me; namely, you must unconditionally agree now at once and forever to discontinue any debilitating excess or dissipation that you may be indulging; with this out of the way, I will do all the rest. Remember what I say: no matter what your present condition, no matter what has happened in the past, just forget it and put yourself in my hands; everything will come out as you wish it. I use no drugs, no lotions, no medicines; I place no foolish restrictions upon you; just lead a natural life, get all the enjoyment you possibly can, but cease dissipation; always remember that I can then restore your vital energy; I can take you out of the half-man class and put you in the spotlight of full, healthy, contented manly courage; I can make you feel young again and keep you feeling young to a ripe old age, because I drive into your system the one thing which keeps the whole organism in balance, namely, VITALITY. My HEALTH BELT is the greatest single self-instrument remedy for VITALITY—RESTORATIVE that the world has ever known, or probably ever will know.
