CURSE OF THE NARCOTIC HABIT.

Rector of St. James' Tells of the Wrecks Caused by Morphine, Cocaine and Chloral.

The congregation at St. James' Cathedral at the noonday service yesterday exceeded the seating accommodation. The subject of Canon DuMoulin's address was "The Narcotic Habit." This, he said, was just as slavish and ruinous as the alcoholic habit. It is wonderful what miseries we make for ourselves. God gave to man the gift of wine to make glad his heart, but man uses it to tear his heart in pieces. Physicians tell us that opium is one of God's kindest gifts to man, to alleviate pain and to abate disease. But man has prostituted this merciful use to the most degrading purposes.

The morphia habit, said the Canon, is largely increasing, particularly amongst women. It is prescribed wisely for acute neuralgia or insomnia. The effects are beneficial and delightful, and life becomes for the time a delicious dream. There is exuberance of vitality in the mental and physical regions.

This was the commencement of the habit, the insidiousness of which leads to repetitions of the delightful draught. When once morphinism is established, its victims are in the most unqualified and abject slavery. The craving is terrible; it must be used; it must be had at any, no matter what, cost. How stealthily and secretly morphine is used the Canon told—the syringe, the hypodermic injection, the pills, capsules, solutions.

Abject Slavery to the Drug.

Morphine must be had or life is not worth living. The mind refuses to act, the blood to circulate, the machinery of being is well-nigh paralyzed. Ultimately comes the great breakdown. The unhappy man, or still more unhappy woman, succumbs to the relentless tyranny of the drug and is a pitiable slave.

The Canon eloquently expatiated on the physical, mental and moral degradation caused by morphine, cocaine, chloral and other narcotics. The victims are no longer trustworthy; distinctions between right and wrong become obscured, and at last vanish. Falsehood and deceit and duplicity are rife, and everything desirable in life is wrecked.

Such is the awful result, especially among women, of taking narcotics to repair the results of a fast life, late hours, revelry and excess.

Pathetically the Canon pleaded to those just beginning the tasting of narcotics, "Deny yourselves this drug," and to the habitual, "Trust yourselves unreservedly to your physician. Don't deceive him, don't lie to him, or play tricks with him. Abide by his advice and treatment, as the old saying is, 'Tell the truth and shame the devil.' Above all, let the victims of this vice remember and imitate the example of Christ, who refused the stupefying draught, preferring the racking pains of the Cross. To those bound by this accursed habit, Jesus would say, as of Lazarus of old, 'Loose him and let him go.'"

THE JUDGE WINS HIS CASE.

The Ice Cutting Case Adjourned—Policemen Sued for Assault.

The case of E. A. Cullerton, who claims $10,000 damages from the city for having been prevented cutting ice on Small's pond, was before Mr. Justice Robertson yesterday. At the request of City Counsel Fullerton the case stands, pending the reference to a judge in Single Court on the question of the city's liability. The city's defence is that Cullerton was prohibited by Medical Health Officer Sheard, an officer of the Board of Health, which is a Government institution. "There is no doubt that such is the case," remarked His Lordship.

A Judge Recovers Rent From His Tenant.

Mr. Justice Maclennan brought suit against Richard Reynolds, shoe dealer, 462 Yonge-street, to recover arrears of rent. Judgment was given for the balance of $225 with costs, the Master-in-Chancery having already given judgment for $1025.

Suing the Police.

John Franklin Harrison sued Sergeant Edward Archer and Constable Joseph Jenkinson, claiming $5000 for false arrest and assault. Barrister Heyd appeared for complainant and City Counsel Fullerton for the policemen. Harrison was arrested last June by Jenkinson on a charge of drunkenness. He was taken to Wilton-avenue police station, where he alleges he was brutally assaulted by the defendants, the result being a broken leg. He was locked up all night and next morning the charge of drunkenness was dismissed by the Police Magistrate. Yesterday all the evidence was in and the court adjourned till this morning.

ESTIMATES COME DOWN.

The Fire and Light Committee Make a Further Trimming of $8000.

The Fire and Light Committee yesterday took $8110 off the estimates as published. It was decided to do without the new hall in Bloor-street, and the aerial truck for the Bay-street hall. This leaves the total amount $305,555, $44,636 less than last year. The feeling of the meeting was against the erection of a new central firehall.

It was decided to grant the widow of Samuel Townley $250.

Street Railway Notes.

Another conference between the city officials and the street railway company has been held. It was decided the company should submit its proposals re snow cleaning and street watering in writing for consideration by the Board of Works. The company admits about one-half of the city's $9000 claim in connection with switches, curves and crossings. President McKenzie has promised that new motors will be put on and everything possible done to prevent over-crowding at 6 p.m.

Mrs. C. W. Storms, Dresden, Ont., says: "I have been taking Miller's Compound Iron Pills for two months; have increased in weight 12 pounds and feel better than for years."

The Epworth League.

The Executive Committee of the Epworth League, a young people's auxiliary society, connected with the Methodist Church, met in Rev. Dr. Sutherland's office yesterday afternoon. The reports to be presented to the conference which begins business at Dunn-avenue Methodist Church today were considered. The president, Mr. N. W. Rowell, occupied the chair.

THE PERFECT DRESS INTERLINING.

This sketch is a reproduction of the original picture of two ladies shadowgraphed by the aid of Professor Roentgen's X Rays. One of these ladies wore a dress lined with TEXTILE BUCKSKIN, which is impervious to the cathode rays.

So few things resist the searching X rays of the new photography that the test with woven Textile Buckskin, mentioned in the above telegam is a noteworthy demonstration of a very special and important advantage of this famous interlining which ladies will appreciate. Dress material of every kind, and even furs, appear like opaque mist in these cathode pictures, the X rays passing through everything but bone. But the woven Textile Buckskin interlining, of whatever grade, from gossamer to heavy weight, affords an impenetrable shield against the mortifying possibilities of the surreptitious use of this new photographic wonder. The test made with Textile Buckskin in this instance, by one of America's leading scientists, marks the surpassing perfection of this interlining for every purpose. Its lightness, indestructible springiness, and its known imperviousness to rain or moisture are advantages which have been tested by the experience of thousands who wear the woven Textile Buckskin interlining in their garments; and it is safety recommended on its peerless merits by reliable dealers everywhere.

YORK COUNTY MUTUAL.

The New Insurance Company Formed and Now Ready for Business.

The meeting called to discuss the formation of a mutual fire insurance company, to operate throughout the Province of Ontario, was held at the Tremont House yesterday. A large number of business men and municipal representatives were present, and there was a strong and unanimous feeling for the immediate operation of the new venture. Among the prominent freeholders at the meeting, who pledged themselves to insure in the company, were: John Richardson, M.L.A., Reeve J. D. Evans, Reeve W. J. Hill, Reeve D. McDonald, William Shunk, J. Goulding, W. Slyvester, Alex Bruce, H. Duncan, D. Duncan, S. W. Armstrong, J. Beasley, Alex Malloy, J. Brown, etc.

With Reeve Evans in the chair and Mr. J. C. Wilgar as secretary, the meeting got to work, and upon the motion of H. Duncan, seconded by William Shunk, the name decided on for the organization was the York County Mutual Fire Insurance Co., with headquarters at Toronto.

The election of a board of directors was next taken up and resulted in the selection of Henry Duncan, East York; J. D. Evans, Etobicoke; William Shunk, Vaughan; D. McDonald, Georgina; J. Richardson, M.L.A., Scarboro; W. J. Hill, York; Alex Bruce, Markham; J. Goulding, York; J. Beasley, Weston village.

The public meeting thereupon dissolved and the board held its first sitting. It elected as president W. J. Hill; vice-president, J. D. Evans; secretary, J. C. Wilgar; and decided that the classes of property that the company would insure would be farm property, churches, schools and isolated risks. All conditions are now fulfilled and a license will be applied for to-day.

KELLY AFTER HIS MONEY.

He Takes Measures to Secure His Judgment Against the Inspectors.

Wm Kelly, of Sunday bug case fame, yesterday secured an order at Osgoode Hall preventing the payment out of court of $400 paid in by Inspectors Archibald and Barton, as security for costs in their recently dismissed appeal to the Court of Appeal.

Inasmuch as the Police Commissioners have decided that the inspectors must pay the judgment against them, Mr. Kelly's solicitor thought it wise to take this action.

A motion will be made to-morrow that $300 of the money in court be applied towards the satisfaction of the judgment in the case.

A short road to health was opened to those suffering from chronic coughs, asthma, bronchitis, catarrh, lumbago, tumors, rheumatism, excoriated nipples or inflamed breasts, and kidney complaints, by the introduction of the inexpensive and effective remedy, Dr. Thomas' Electric Oil.

Death of Father Hogan.

News has been received at St. Michael's Palace of the death of Rev. Father Hogan at Uptergrove, Ont., a village near Orillia. Father Hogan was well known and popular among the Roman Catholics of Toronto. He came here from New York 10 years ago, and was at once appointed to the parish of Uptergrove.
