CAN SHE PRACTICE?

Clara Brett Martin's Case Has Now Soon to be Decided.

The Benchers of the Law Society are expected to decide shortly whether or not to allow Clara Brett Martin, who has just passed her final law examination, to practice as a barrister. The Legislative Act allowing a woman to become a barrister is subject to the approval of the Benchers.

Some time since the executors of the late Ben Rogers obtained a judgment for $5700 against the Toronto Public School Board, for injuries sustained by falling in a coal chute at Ryerson School, which injuries proved fatal. The school board's appeal against the verdict was heard in the Court of Appeal yesterday, judgment being reserved. The board objects to the finding on two grounds, (1) that a school board cannot be held liable in such a case; (2) that Rogers went to the school to put in coal the day before he was ordered to do so, and was therefore a trespasser when hurt.

Peter Ellis, Magistrate, is suing Toronto Junction for $1866 salary due him since 1894. He claims that the town council exceeded its power by reducing his salary from $900 to $400, and then by leaving him the fees of the position only.

Mrs. Jane Platt of Booth-avenue is suing the Princess Alberta Lodge, No. 7, of the Daughters and Maids of England, and Dr. Bray, the society's physician, for $500, because the doctor recently said she was not ill and had her removed from the hospital.

EAST OF THE CITY LIMITS.

Negotiations Prove Abortive Respecting the Railway Difficulty.

A conference re the proposed line to Munro Park, which lasted an hour, was held in the law office of Messrs. Skene & Grant yesterday afternoon between the Toronto Street Railway, represented by Acting President Porteous, Superintendent Gunn and Lawyer George Kappele, and a committee of East Toronto Council. The village adhered to its former position of refusing the right of way along Queen street, except in return for unlimited single fare to the city, and based the refusal on the ground that the Queen-street line would take away both the earning power of the Scarboro line and the traffic of the village. The concession demanded was declared an impossible one by the company. The negotiations looking to the settlement of the question are now ended.

On Tuesday Joseph Walton, a Scarboro butcher, sent James Mann, a boy of 16, who worked for him, to a neighboring blacksmith with a pair of horses that needed shoeing. After keeping the road for a short distance, Mann struck across country and tried to sell the team to some gypsies in East Toronto, and falling here, repeated the offer in Aurora and other places. The butcher meanwhile telegraphed all over the country for the missing horses and Chief of Police Lawrence of North Toronto and C.C. Shepherd made a tour in a buggy for the purpose of recovering them. After 36 hours' driving, Mann was found in Thornhill, in possession of the team. He has been lodged in Toronto Jail.

Small's Park has its formal opening next week. Twenty applications have already been made for picnics.

The grounds of the Union Quoit Club of East Toronto and Norway are being put in order for the approaching games, to be played for the medal offered by President John Warren.

Blaze in a Fireproof Building.

Minneapolis, June 4.—The Edison, one of the highest and best buildings in the city, on Hennepin-avenue, caught fire at 2 o'clock this morning. Although the building was thought to be fireproof, the flames raged fiercely. The firemen, however, gained a remarkable victory, and subdued the flames after five floors had been burned out. Several newspaper and printing establishments are in the building. Loss $50,000.

NICKEL IN MINNESOTA.

The Largest Deposits of Nickel in the United States at Pigeon River.

There is considerable interest being taken in the report that a quantity of mineral land which had been taken in Lake and Cook Counties has by degrees gone into the hands of the Johnson Nickel Mining Company, and that corporation now practically owns or controls all the best lands on the ridge extending east through the northeastern part of the state from the end of the Mesaba iron range. The value of these lands, it is said, is based, not so much on the iron which is present in large quantities as on the deposits of nickel, silver and gold, which are said to be very valuable.

The formation of the Johnson Nickel Mining Company is an interesting one. Eight years ago, a St. Paul man named Frank Johnson, a Scandinavian, came up to the range exploring. He soon became convinced of the value of the ores. Being poor he worked along until he had purchased a 40-acre tract. Another forty followed this, and soon he succeeded in interesting his family in the lands and more was purchased. Eastern capitalists were also interested and more land purchased. In all 700 square miles of land has been explored by Johnson and his surveyor, H. L. Phelps, upwards of 200 specimens being secured for assays.

Out of this land, amounting to 448,000 acres, the syndicate selected 25,000 acres, which are the cream of the land, and it is claimed by the syndicate is very valuable. Among other property purchased was the land at the mouth of Pigeon River, where an excellent harbor is placed and water power said to be as good as that of St. Anthony Falls. The purchase made of the Paulison mine in Minneapolis the other day is said to be for the purpose of affording an outlet over the P. A. D. & W. Railway, which runs to the Paulison mine and is much nearer than the Pigeon River outlet.

The ore to be mined is "titantic nicolite" nickel, and it is said that at an expense of $10 per ton it can be profitably mined. These are said to be the only good nickel lands in America, the duty on the imported article being $120 a ton. The reports of the 20 specimens sent to Minneapolis and St. Paul for assaying show the value of the metallic deposits to run from $18 to $190 per ton. It is claimed that it will cost but $3 a ton to do the mining, which will be entirely met by the gold and silver deposits in the ore. Seven of the specimens ran from 10 to 15 per cent. of aluminum to the ton, the nickel in one specimen running up as high as 21 per cent., and averaging above 10 per cent.—Ely Miner.

Letters Come.

Letters come day by day telling us that this person has been cured of dyspepsia, that person of Bad Blood, and another of Headache, still another of Biliousness, and yet others of various complaints of the Stomach, Liver, Bowels or Blood, all through the intelligent use of Burdock Blood Bitters.

It is the voice of the people recognizing the fact that Burdock Blood Bitters cures all diseases of the Stomach, Liver, Bowels and Blood.

Mr. T. G. Ludlow, 334 Colborne Street, Brantford, Ont., says: During seven years prior to 1886, my wife was sick all the time with violent headaches. Her head was so hot that it felt like burning up. She was weak, run down, and so feeble that she could hardly do anything, and so nervous that the least noise startled her. Night or day she could not rest and life was a misery to her. I tried all kinds of medicines and treatment for her but she steadily grew worse until I bought six bottles of Burdock Blood Bitters from C. Stork & Son, of Brampton, Ont., for which I paid $5.00, and it was the best investment I ever made in my life. Mrs. Ludlow took four out of the six bottles—there was no need of the other two, for those four bottles made her a strong, healthy woman, and removed every ailment from which she had suffered, and she enjoyed the most vigorous health. That five dollars saved me lots of money in medicine and attendance thereafter, and better than that it made home a comfort to me.

TRADE IN CANADA.

Dun & Co. say: With regard to the trade situation at Montreal there are few new features calling for any special comment. Trade as a whole is not active, nor is there an apparent anticipation of much change in the near future. The partial improvement in payments which some lines have reported during the month of May seems fairly maintained, but general collections cannot be called good, and the very low prices prevailing for butter and cheese must naturally have a very material effect upon the volume of circulation in the country. Leather is about the only line showing any improved demand, with some advance in certain lines. Tanners are buying hides more liberally, and the accumulation of stock is moving off very fairly at steady prices. It is now between seasons in the dry goods trade, and stock taking and the revision of samples for the fall trip are now en regle. Groceries rule very quiet, and the sugar market is if anything a shade weaker; some outside operators who have been holding fair lots of granulated for several months would like to unload, it is said.

There is little of an encouraging nature to say with regard to the trade situation at Toronto. Travelers find country merchants acting with the greatest caution, and the demand for goods is restricted to the barest necessities. As stated by us last week this state of things is not likely to change for the better until after the elections on the 23rd inst. There is a further decline in the prices of grain, and including all cereals prices in Ontario now are the lowest remembered by the oldest dealers. This is very discouraging to farmers, and accounts for the low prices of good Ontario agricultural lands. Cattle, cheese, butter and hogs are also lower than usual at this season of the year. The outlook for this season's grain crops, however, is not very encouraging; on the other hand the yield in Ontario is likely to be smaller than last year, while in Manitoba the acreage in wheat is ten per cent. less than in 1895. This may have some effect later on the prices of produce. Discounts at the banks are unchanged, while the offerings of funds on stock collateral are a little more liberal.

Toronto's Greatest Tailoring Store.

77 King St. West, June 4, 1896.

Our Over-Stocked Sale

We are reducing our stock day by day, and our low charges, consistent with high-class tailoring, have done it. We still have a large assortment to select from, but we feel confident that by the end of this month our stock will be normal.

The Month of June

is the last month of summer that one can expect to do a large business—during July and August so many leave for an outing or go abroad in search of rest and health. In consequence of this we have determined to make our prices right.

Purchasing Ability

It means considerable for one to purchase their own goods. Our Mr. R. J. Score crosses the Atlantic 4 times a year in search of the newest and best materials that can be purchased for money, and that is how we can sell you a pair of trousers for a Guinea as cheap as you can get them in London, England.

Quotations for June:

Bicycle Suits, Knickerbockers (with continuations), cut by a special cutter, made in the proper Old Country style; our old credit price was $20, June price **$15.00**

A few very special lines purchased in Scotland from a manufacturer whose firm was in liquidation; price under the old regime of high-class tailoring Thirty Dollars; our June sale price **$22.50**

Genuine Scotch Tweed Suit, made from a very excellent Scotchman, which we make and fit in the most up-to-date style; we did sell them at $24, this month **$18.00**

Just a few very high-class suitings purchased in Golden-square, London, England, personally by Mr. Score; one suit to the pattern; old credit price $36.00; this month **$28.00**

A very good imported Blue or Black Serge, which makes a very proper business suit of clothes; former price $26.00, this month you can have one made for **$20.00**

We have in stock about 50 suit lengths of Clay's Fancy Worsted Suitings, which we are making up very thinly for a hot day; our old credit price was $30.00; we have decided to cut them at **$25.00**

We are making for this month only a very fine uncut Worsted Coat and Waistcoat, lined all through with X silk, made single breasted, cutaway, tailored and fitted in the best possible manner; old credit price $35.00; this month **$29.00**

Score's Celebrated Guinea Trousers are made of imported British materials, and every pair absolutely guaranteed; these trousers cannot be purchased elsewhere for less than $8.00; our price **$5.25**

Those who have been wearing high-class garments must not be prejudiced by the above low quotations; it's simply not paying for those who never pay at all that you are doing, hence the prices.

McIntyre & Wardwell send the following despatch to their branch office in Toronto: A little scattered covering of room traders' short contracts gave us a somewhat better tone to the share list this afternoon, but the Anthracite coal stocks were the only ones in which the advance amounted to anything. News of any kind has been lacking. The market for foreign exchange has been unsteady at 4.88¼ to 4.88½. Northwest's annual report was a very favorable document, showing as it did a surplus over all divisions of $1,848,000, against a deficit of $273,000 last year.
