COBALT--Markets for Mining Stocks Broadens With Higher Prices

A BIG BROAD MARKET IN MINING SECURITIES

Heavy Purchases Cause Further Advances in Many of the Cobalt Stocks.

World Office,
Thursday Evening, April 30.

A big, broad market eventuated at the mining exchanges to-day. Heavy buying orders were in the hands of brokers before the opening of the markets, and attempts to fill these on the curb only forced a raly on the exchanges. The active issues to-day were Foster, Nova Scotia and Silver Leaf. The dealings in each of these issues ran into several thousands of shares. Foster jumped nearly ten points over night and only reacted three cents on the realizing of traders, who bought for the rally. Silver Queen was one of the strongest in the list, with sales as high as 122. This stock will sell ex-dividend to-morrow, and few traders were disposed to sell the shares short with the idea of having to pay the dividend. The buoyancy in the market was carried practically thruout the list. Temiskaming, Trethewey, Crown Reserve, Watts and Peterson Lake had quite a buying patronage and in each instance advances were noted in the various transactions. The markets closed steady, but there was a disposition among traders to take profits in case of a small reaction.

DAILY IMPROVEMENT IN COBALT CONDITIONS

Men in the Camp Are by No Means Surprised at the Rise in the Market.

COBALT, April 30.—(From the Man on the Spot.)—Conditions in Cobalt daily improve and the man on the street is not at all surprised at the daily improving condition of the market. The ordinary Cobalter has during the past few months been investing his savings in the stocks of the various shipping mines. He knows that he makes no mistake in doing this and is quite content to wait for a rising market. He has learned that the time to buy is when stocks are low and the mines are good.

The Foster and Trethewey look good to-day to the Cobalt investor.

Supt. John Macdonald at the Foster has 55 men and five drills in operation. The cross-cut at the lower or the 210-foot level has already tapped veins Nos. 5 and 8, and these veins look fine at this depth. Mr. Macdonald is sure he will reach veins Nos. 2 and 3 next week. He has already started to stope at the bottom level and a car will be shipped this week to the Welsh smelter at Swansea.

The Silver Queen is another property that looks good here. Supt. Bryce has 66 men working and four drills running double shift. The new plant, which has been unloaded, consists of a 12-drill compressor and a 100 H.P. boiler. This means that the Queen will have a boiler capacity of 210 H.P. An extension to the present boiler or power house will accommodate the new machinery. Another car of high-grade Queen ore will be ready for shipment within the next ten days.

At the Beaver 36 men and three drills are working double shift. Shaft No. 1 will be continued to a depth of 200 feet and work has been started on this from the present bottom of the shaft or at a depth of 110 feet. The property looks good and the new find at the Shamrock means that rich ore has been found on both sides of the Beaver.

The Shamrock lies north of the Beaver and a diamond drill has been working on it for some time. On Monday, while drilling, ore was struck that is reported to be good.

Supt. Fraleck at Cobalt Lake has 65 men working and seven drills in operation. Double shift is maintained and two cars of second grade ore will be shipped as soon as the ice in the lake breaks up, so that the ore can be got to the railway. Underground work and development under the lake are being done from shafts 4, 5 and 7.

Frank Burr Mosure.

GESTICULATING MOB.

Standard Stock Exchange a Pandemonium of Brokers.

At no time since the boom in Cobalt, a year and a half ago, has any such scene been witnessed as occurred this morning on the Standard Stock and Mining Exchange. From the ring of the gong until the close of the exchange the room which the brokers occupy represented nothing more nor less than a gesticulating mob bidding for shares, and frequently without being able to fill the orders of clients, which came in by yesterday's mail and personally, to a greater extent than even the most optimistic would have believed. The purchases represented nearly everything included in the list of securities, but public buyers are much more circumspect than they were, and generally confined their orders to the stocks of mining companies which are now shipping ore. The biggest outside orders came again from Montreal brokers, the demand from the eastern city showing up much stronger than even the local demand. Considerable of the purchases were for brokers who are short of the securities, the wise ones crawling out with a loss, which they believed might be very much heavier if they didn't cancel their contracts before prices went very much higher.

New York Curb.

R. R. Bongard (Chas. Head & Co.) reports the following transactions in Cobalt stocks on the New York curb:

Nipissing, closed 6⅞ to 7, high 7¼, low 6⅞; sales, 1500 shares. Buffalo, 1½ to 2¼. Colonial Silver, ¼ to ¾. Cobalt Central, 26 to 27, high 27, low 26½; 10,000. Foster, 83 to 84, high 84, low 81; 2500. Green-Meehan, 16 to 25. King Edward, ⅝ to ¾. McKinley, 75 to 77, high 77, low 70; 4000. Red Rock, 1-16 to 3-16. Silver Queen, 116 to 125, high 120, low 1¼; 600. Silver Leaf, 11½ to 12½, high 12, low 11; 5000. Trethewey, 85 to 90; no sales. Yukon Gold, 4⅜ to 4½; 1000 sold at 4⅜.

Boston curb: Silver Leaf, closed 11 to 12, high 12, low 11½; 5000 shares.

Direct to Muskoka Lakes.

The Grand Trunk Railway System's 8.10 a.m. train, which leaves Toronto daily, except Sunday, makes connection with Muskoka Navigation Company at Muskoka Wharf for all points on the lakes. Return connection is made with train, arriving in Toronto at 3.25 p.m. Full information at City Office, northwest corner King and Yonge-streets.

COBALT ORE SHIPMENTS.

Following are the weekly shipments from Cobalt camp, and those from Jan. 1 to date:

	Week end. April 25. Ore in lbs.	Since Jan. 1. Ore in lbs.		Week end. April 25. Ore in lbs.	Since Jan. 1. Ore in lbs.

Nipissing	101,170	1,044,600	Watts	...	114,430
Nova Scotia	...	120,730			

The total shipments for the week were 680,170 pounds, or 340 tons. The total shipments from Jan. 1 to date are 10,195,488 pounds, or 5097 tons. The total shipments for the year 1907 were 28,061,010 lbs., or 14,040 tons, valued at $6,000,000. In 1904 the camp produced 158 tons, valued at $130,217; in 1905, 2144 tons, valued at $1,473,196; in 1906, 5129 tons, valued at $3,900,000.

Cobalt IMPROVING EVERY DAY

We advised you to watch Silver Queen some months ago, as this company were doing things. They have done big things and will do more. Now we advise you to buy Trethewey. These people are also doing good work, and we look for great things from this company. The whole camp is looking better to-day than ever before.

Watch Foster, Temiskaming, Nipissing, Nova Scotia, Peterson Lake, Silver Leaf, Cobalt Lake and all good shipping mines, as we look for big profits in all of these stocks to people who purchase now.

COTTON WAGE REDUCTION.

Employes Asked to Get Along With Ten Per Cent. Less.

MONTREAL, April 30.—Canadian cotton mill operatives must stand a reduction of 10 per cent. in wages.

It is understood that all the big Canadian companies have agreed to join in the movement, and declare they will stand together.

If the employes resent a reduction in one firm it means that bosses in all others will aid the one attacked, and, if necessary, all mills close down.

SWANSEA.

Ratepayers Endorse Plan to Give Increased School Accommodation.

SWANSEA, April 30.—(Special).—At a representative meeting of the ratepayers of Swansea held last night, R. C. Smith presiding, a resolution was unanimously adopted empowering the trustees to proceed at once with the erection of an addition to the school building. Secretary Fred Hawke read a letter from Inspector Rotheringham in which the latter outlined the needs of the district. The addition will cost between $6000 and $7000, which will be provided for by the issue of debentures. If possible larger grounds will be secured. Dr. Spaulding, a member of the school board, gave a detailed estimate of the whole plan. Work will begin shortly.

Force to Punish Kurds.

ST. PETERSBURG, April 30.—A despatch received here from Tabriz states that orders have been received from Teheran to organize a force of 10,000 troops to punish the Kurds. Recently Kurdish tribes have been pillaging the villages around Urumiah, in Persian Armenia, and, according to reports, have massacred several persons.

Gomez Hailed by Electors.

SANTIAGO, April 30.—Gen. Jose Miguel Gomez, recently nominated for president of Cuba, by the Miguelist as, arrived here to-day and was given an enthusiatic reception, not only by the residents of the city, but by country delegations. Many of these were negroes. Arrangements have been made for the feting of Gen. Gomez for the next three days.

Will Use Same Poles.

GUELPH, April 30.—(Special.)—The Great North Western Telegraph Company has notified the board of works that it will, in accordance with the board's wishes, run its wire on Wyndham-street, the main street in the city, thru a cable and on the same poles as used for the conveyance of the civic light and power wires.

Guelph Board of Trade.

GUELPH, April 30.—(Special.)—The striking committee of the board of trade appointed at the annual meeting has recommended the election of the following officers for the ensuing year: R. C. Scholfield, president; David Allen, vice-president; James Watt, secretary-treasurer. Ald George J. Thorp was appointed to represent the board at the meeting to be held at Toronto on May 20.

City Aid Asked.

The National Battlegrounds Committee have written to the board of control asking for a grant. The city solicitor will make a report.

MICHIGAN CENTRAL RY. SETTLES ESSEX CLAIM

Prisoner in Manslaughter Case Suffered Mental Tortures While Judge Was in Detroit.

WINDSOR, April 30.—After the verdict for $8000 in favor of Miss May Cockburn for damages due to the Essex dynamite explosion the solicitors for the Michigan Central considered it wise to settle the remaining actions. Dahlel and Green were awarded $2100 for destruction of their elevator. In the McNary case the sum of $5000 was agreed to.

Other suits were settled, but the amounts of damages were not announced.

Absence Cause of Comment.

The absence of Justice Anglin for three hours last night after the jury in the Chevalier manslaughter case had retired has caused considerable comment. His lordship attended a function in Detroit and did not return, because he did not understand over the telephone that the jury was ready with a verdict. Court officials had an exciting time trying to locate his lordship. Altho aware that the jury was ready with a verdict the prisoner kept up wonderfully well, but he admitted after getting his freedom that the three hourse he sat in the dock seemed like three years.

MR. PATTERSON WINS.

Victory for Man Who Wants to Build School.

STRATFORD, April 30.—In one of the most interesting municipal contests ever held in the city Robert Patterson defeated Dr. Eldt for the public school trusteeship of Shakespeare Ward to-day by a majority of 63.

Mr. Patterson polled 195 votes and Mr. Eldt 132.

The extraordinary interest attached to the contest arose out of the respective platforms the candidates had taken in regard to the proposed new school, the erection of which in a certain locality is strenuously objected to. Mr. Patterson was in favor of the new school being built, while Dr. Eldt vigorously opposed, and thus the issue was fought out on these grounds.

POLITICS IN NORTH GREY.

Hon. A. G. MacKay's Opponent May Be George Carnahan.

OWEN SOUND, April 30.—(Special.)—The political situation in North Grey is interesting indeed so far as the Conservative party is concerned.

For the legislature two candidates seek the task of opposing Hon. A. G. MacKay. George M. Boyd, ex-M.L.A., is ready to enter the contest, but a large element in the party do not want to place their money on a thrice beaten horse, and are looking with confidence to George Carnahan, the brilliant young orator from Meaford. Mr. Carnahan certainly has some elements of strength which make his nomination desirable. He could carry Meaford and St. Vincent in all probability by a substantial majority. This would off-set Mr. MacKay's strength in Sydenham and Owen Sound. With Sarawak, a strong Tory township, balancing Derby, Sullivan and Keppel, it would look like a neck-and-neck race between Carnahan and MacKay.

For the federal nomination there is also a peculiar situation. T. I. Thomson, ex-M.P., of Owen Sound, has suffered one defeat, but by many has been regarded as the logical choice of the convention. A strong element of the party have, however, determined to dispose of their string of "selling platers," and take on new blood. Hence ex-Mayor W. S. Middlebro of Owen Sound has announced his candidacy for the nomination, and his following is growing. He is a young barrister, a splendid platform speaker, and no doubt would make a strong run.

That T. I. Thomson fears Mr. Middlebro's success at the convention is indicated by the fact that the former threatens to run as an independent if not regularly nominated. Mr. Thomson's strength, stripped of the party nomination, is, however, problematic. The threat, too, some Conservatives regard as a sort of party repudiation, and it may act as a boomerang.

The convention will be held on May 6. It is worth watching.

Morawitz Resigning.

NEW YORK, April 30—Victor Morawitz, chairman of the executive committee of the Atchison, Topeka and Sante Fe Railroad, said to-day in reference to reports of his intended resignation:

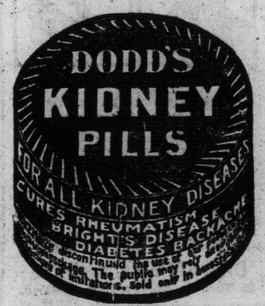
"I expect to retire, at least temporarily, from the Atchison management, in order to obtain rest and also to obtain time for other work, which I have been compelled to lay aside for several years."

Big Girder Fell.

A five-ton steel column, 40 feet long, broke the boom of the big crane in the construction plant at the new Simpson building just as the column was being lowered into the foundation. The fall destroyed 40 feet of the temporary covered sidewalk and gave Dave Peters, who was just beside it, a bad fright.

Transferred Hotel License.

GUELPH, April 30.—(Special.)—The license commissioners at their meeting yesterday afternoon agreed to transfer the license of the Fountain House from Albert Reinhart to Norman Reinhart.



Saturday Savings

Just Because You Can't Come

to our store is no reason why you should not avail yourself of our extraordinary values. Come if you can, phone or send your order by mail if you cannot, and we will execute your orders with promptitude and intelligence. Just make a trial along these lines and see if we do not make good.

Do You Use Paste?

Try "Harvey's Stick-Fast" Paste Powder. Just mix with cold water, stir, and you have the best paste ever made. Snow white, strongly adhesive, keeps sweet, and nice for home and office use, for paperhangers, for shippers, for factory use; in fact, for any occasion where the best paste is needed. We sell it.

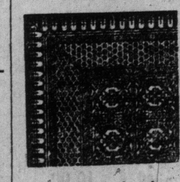
Two Lbs. for Twenty-five Cents.

Have You Seen It?

The new Ridgley Flexible quarter-cut graining roll, makes a perfect pattern, is quickly and easily handled, enabling the operator to move rapidly over a large area of surface. Good regular $1.00 value. Saturday special, the price is only

Sixty-nine Cents.

There is no Getting Over These Facts



That metallic walls and ceilings are best for the dwelling-house, store or factory, because they are durable. Never crack and fall like plaster, costs nothing for repairs, are proof against fire, water, dirt and vermin, do not absorb germs, and can be kept perfectly clean, can be made to harmonize all decorative styles and painted as desired, will last as long as the house stands, and cost you, per square foot, only

Three and a Half Cents.
