MANITOBA CROPS.

Reports Show That Vegetation Has Been Rapid and That an Abundant Yield is Probable.

Winnipeg, June 19.—(Special.)—The Northern Pacific crop report for the week ending June 17 shows a gratifying change in crop conditions throughout the whole district covered by the report. Only one point is still badly in need of rain, and that district is but a small one. The abundance of rain, accompanied by higher temperature, has brought all vegetation on at a splendid rate, and the prospects of a heavy crop are excellent.

The sum of $2000 has already been subscribed toward the Victorian Jubilee wing of the General Hospital.

ONE OF THE OLD GUARD.

Chaplain Masterman of Lincoln, Neb., Was Present at the Queen's Wedding.

Lincoln, Neb., June 19.—Chaplain Henry Masterman of the Lincoln Grand Army post received an invitation to-day to become a member of the Victoria Diamond Jubilee Association, which has been organized in Omaha for the endowment of Eleemosynary Institutions. Chaplain Masterman is probably the only man in America to-day who attended the wedding of Queen Victoria as a guard of honor. He was Lance Corporal of the Sharpshooter Regiment, second battalion, rifle brigade, commanded by Col. Sir George Brown. Chaplain Masterman was the youngest man in the regiment, just as he was the oldest in the Twenty-Eighth Iowa Volunteers during the war. He remembered the event, and speaks of the day as one of the hottest he ever experienced. For five hours the regiment stood in the broiling sun. The troops were reviewed by the Queen and Prince Albert, after the wedding. Chaplain Masterman is now 84 years of age, but is heartier than many men at 70. Chaplain Masterman is an Englishman by birth, but has lived in America for nearly half a century.

Carson, Picton; J. W. Hyatt, Sandbanks; E. T. Dorland, sr., Sophiasburg. County President William Anderson occupied the chair, and deliverd the intial address. Several of the speakers, while approving of the policy of the Laurier Administration on some points, expressed a strong dissent on others.

The meeting broke up with cheers for the Queen. The attendance is estimated by competent judges at from eight to ten thousand.

Spalding Was Surprised.

Chicago, June 19.—Charles W. Spalding, ex-president of the defunct Globe Savings Bank, and ex-treasurer of the State University, was to-day acquitted of the charge of embezzlement. The verdict was a general surprise, as the instructions of the Court to the jury left scarcely any chance for an acquittal. The first words uttered by Spalding after the verdict had been read in court were:

"Well, this is a surprise."

S. Ackerman, Commercial Traveler, Belleville, writes: "Some years ago I used Dr. Thomas' Eclectric Oil for Inflammatory Rheumatism, and three bottles effected a complete cure. I was the whole of one summer unable to move without crutches, and every movement caused excruciating pains. I am now out on the road and exposed to all kinds of weather, but have never been troubled with rheumatism since. I, however, keep a bottle of Dr. Thomas' Oil on hand, and I always recommend it to others as it did so much for me." ed

In discussing the Government crop report, The Northwestern Miller sys: Everyone believes the department, in its estimate of condition as to probable yield, to be at least 100,000,000 bush under the facts, and this amount is about two-thirds of what we ordinarily export. The report gives us enough wheat to go around, and when one adds 100,000,000 bush to that, the "bearish" feeling which takes possession of the trade is not to be wondered at.

Exports of wheat (flour included as wheat) from both coasts of the United States and Montreal this week increased sharply, amounting to 2,547,319 bushels, compared with 1,800,000 bush last week and 3,020,000 bush in the corresponding week one year ago.

NEW YORK BANK STATEMENT.

The associated bank statement shows an increase in loans for the week of $4,822,100, while deposits increased $7,417,700 during the same period. Specie increased $782,400 and legal tenders increased $1,861,500. Cash reserve increased $789,475, and the surplus is now $48,270,705, as compared with $19,918,245 a year ago and $36,544,250 two years ago.

THE EXPANSION IN LOANS.

New York, June 19.—The New York Financier says: For the first time in nearly a month the statement of the associated banks of New York shows a legitimate expansion in the different totals. Aside from the fact that one bank out of the 66 seems to have made 50 per cent. of all the loan increase, the figures indicate a general distribution of increased business among the various banks. The loans of the banks for the week just ended are $4,822,100 heavier than reported Jan. 12, and the total, $518,550,800, is the largest in the history of the clearing house, with the exception of Sept. 14, 1895, when the loans reached $522,600,000. In the last month the increase has been about $14,000,000. At no time, however, with loans approximating this figure, has the reserve been anything like that now reported.

The total deposits of the banks are now in excess of $592,000,000, a sum that has not been equalled since November, 1894. The deposits of the banks are $74,000,000 in excess of loans, which, while a very high figure, does not equal the record made in the fall of 1894, when deposits exceeded loans by nearly $100,000,000. The large expansion in loans reported last week is to be attributed, of course, to the speculation in the stock market, but the demand for commercial paper is heavier and re-discounting has set in from the south and southwest. There is no sign of a cessation of the interior movement towards centre, and bankers do not look for anything like a firmer market for some time to come.

The crop movement will require some of the surplus money now lying in the New York banks—how much it is difficult to estimate. But, taking the 1895 movement as normal, it is interesting to note that between June 15 and Sept. 14, that year, the expansion in loans was no less than $15,000,000. A similar increase this year, it is unnecessary to say, would make the loans of the New York banks by far the largest ever known. As the prospects are much better than at that time, it would not be surprising if this proved to be the case.

The market closed steady.

Earnings of Missouri Pacific for the second week of June increased $4000.

The most active stocks to-day were: Sugar 22,700 shares, St. Paul 4600, W.U. 3,100, R.I. 2200, U.P. 4100, N.Q. 4400, L. & N. 1600, Burlington 3600, Chicago Gas 7800, Manhattan 1800, Leather, pref., 800.

McIntyre & Wardwell (John J. Dixon) received the following despatch from New York to-day:

The stock market was dull to-day and closed about the same as yesterday. Sugar lost a point on Washington selling. Northern Pacific preferred was lower and heavy and Union Pacific was weak on London selling. Western Union was bulled on reports that the ticker situation would not be changed. This week's bank statement shows loans increased $4,822,000, deposits increased $7,412,000, circulation decreased $259,000, legal tenders increased $1,8[illegible],000, specie increased $782,000, and surplus increased $[illegible]. Trade reports for the week show moderate improvements in activity and prices. Clearings for week increased about 1½ per cent. Gross earnings of 30 roads for second week June increased 5½ per cent. and 72 roads for first week 3 per cent. Boston has rumors of an extra dividend on sugar and that new and strong people are to enter the directory. The new Chicago Gas stock will be issued in July. Two to three millions in gold expected to go out on Tuesday. Exchange is firm at $4.87½. The Senate is making less progress with the Tariff Bill.

BUTTER AND EGGS.

Fresh packed tubs and pails grass butter are coming forward now, for which there is good demand at 11c to 12c, roll butter easy at 10c to 12c, eggs firm at 9c to 9½c. Consignments solicited. Rutherford, Marshall & Co., 62 Front-st. east, Toronto.

CHICAGO GOSSIP.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

The market opened about ¼c lower than last night's closing prices, and remained stagnant during the short session within a narrow range of prices. The English markets were quiet, ½d lower. The brilliant weather and the approaching foreign holidays affect the market unfavorably. Har[illegible] road officials and private crop reporters who have been generally nearly right are daily growing more confident that the crops of the country and especially that of wheat are not only safe for the averages, but bid fair for bumper crops. In Europe the advancing season also brings report of improvement, though the Russian winter wheat crop is likely considerably damaged. Harvesting of wheat by daylight and by moonlight is said to be in full progress in Texas. The uncertainty concerning the possibilities of a "squeeze" or of a "liquidation" in July wheat is quite as much a bear as a bull factor in deterring investment buyers as well as intimidating short sales. The wheat movement of the Northwest is light. The weekly visible supply of wheat on Monday next is expected to show a big decrease of from 2,000,000 to 3,000,000 bushels. Minneapolis and Duluth are estimated to show decrease of 650,000 bushels and 100,000 bushels respectively. The trading was mostly of a local character and the greater part was "switching." Even the scalping trading element, which is ever ready to shift position at the least evidence of change, was without occupation.

Corn and Oats—Ruled quiet and steady within a narrow range. Commission houses bought a little corn. Receipts were 400 cars corn and 258 cars oats.

Provisions—Larger hog receipts here and at Western points than expected caused provisions to open weak and rule lower. Packers were generally on the selling side. Cash demand was rather light. Receipts were 22,000 hogs, with 45,000 estimated for Monday. The close was dull and weak.

Lawn Mowers, Rubber Hose, Nozzles, Doolittle Couplings, etc.

AIKENHEAD HARDWARE CO., 6 ADELAIDE ST. E.

McIntyre & Wardwell (John J. Dixon) received the following despatch from Chicago to-day:

Provisions—Opened lower on 9000 more hogs than expected and liberal receipts at Western points. John Cudahy's brokers sold Sept. pork. Packers sold Sept. ribs. The estimate of hogs for next week is large and this fact caused a weak feeling for product. The market closes easy at about the lowest prices of the day. Estimated hogs Monday 44,000, next week 185,000.

Wheat — The wheat market closed dull to-day and not far from the average price of the week. Trading was of a desultory scalping character and without improvement as to volume of outside business. Outlook presents no evidence of increased activity in immediate future and for better markets it seems requisite to have more wheat in circulation. It, therefore, looks probable volume of trade will not materially increase until new crop begins to move freely. Southwestern advices are more encouraging as to quantity and quality of new crop, and it looks probable that the movement thence will soon be under way. Cables were in the nature of a surprise, in view of reported favorable weather conditions abroad. Liverpool market is apparently fluctuating as erratically as ours. New York reported some foreign buying, about six loads. The market has not changed its conditions that we can see and we rather expect irregular markets for some time to come. It will give excellent opportunity to trade on either side for quick turns.
