## News by Telegraph.

### FROM THE STATES.

NEW YORK, July 31.

It is understood that the rebel ram Stonewall is now at the service of our Government, but that she will not, at present be brought to the United States for fear of the yellow fever which is now prevalent at Havana where she lies.

Gen. Grant arrived in Boston on Saturday. He will stay there until Tuesday, when it is stated he will proceed to Halifax to make a visit to the British officers.

July 31, p.m.

The *Herald's* Toronto correspondence says the feeling of the Canadians in favor of annexation to this country is gradually growing and strengthening and it is said that unless the Provincial Parliament does something at the next session to improve business the Annexation storm will break out with fury.

The *Times* Mexican correspondence says Gwinn is at Matamoras denouncing Maximillian's Empire. Gen. Stone has also left Mexico, having met with no success.

City of New York with dates to the 20th, via Cape Race arrived. The Liberals had made a net gain of 20 in the English Elections.

Gold 143.

NEW YORK, Aug. 2.

The New York *Evening Post* gives an account of a meeting held in that city for the purpose of sympathising with Jeff. Davis, at which a committee was appointed to raise funds and secure counsel at his trial, and to adopt such other measures as may be necessary to hasten the trial of all the traitors now incarcerated by the United States Government. Speeches were made asserting that the failure of the rebellion was but temporary, and that the spirit which originated it cannot be put down. The names of several prominent citizens are given as taking part in the meeting.

Governor Holden, of North Carolina, in a public despatch says, that Northern emigrants coming to that State will meet with a cordial welcome, and be in no degree molested.

General Grant will proceed to Quebec previous to his visit to Halifax.

Aug. 2, p.m.

The steamer that took the conspirators to the Dry Tortugas has returned. The prisoners were landed on the 25th ult. When informed of their destination, they were quite depressed, but on finding a good sea breeze and the place pleasanter than anticipated, were resigned. Mudd was assigned to duty as assistant surgeon, Arnold a clerk, Spangler a carpenter, and O'Laughlin was given employment at whatever he was fitted for.—There are about 500 prisoners there.

Gold 144.

WASHINGTON, Aug. 3.

The officers who returned here to-day from their trip with the conspirators to the Dry Tortugas, say that Mudd freely admitted that he knew Booth when he came to his house on the morning after the assassination, but that he was afraid to tell of it.

Gold 144.

NEW YORK, Aug. 3.

The man arrested at the West and brought to Washington is not John H. Surratt. He gives his name as Ryan, and claims to have been a captain in the rebel army. He was arrested on suspicion of complicity in the the assassination of President Lincoln.

Steamer "Glasgow," which sailed from this port July 29th for Liverpool was burned on the 31st. Passengers and crew saved by bark Rosemond. No further particulars.

President Johnson is still prevented by indisposition from receiving visitors except a few with whom he has important business.

Gold 144 ¼.

NEW YORK, Aug. 4.

The "Commercial's" Quebec despatch says that the funeral of Sir E. P. Tache, late Prime Minister of Canada, took place yesterday with impressive ceremonies.

The appointment of a new Premier excites great interest, and there will probably be a re-construction of the Cabinet.

Messrs. Cartier and McDonald are spoken of for the position, also Mr. Couchon. The appointment is likely to turn on the question of Confederation. It is known that no effort will be spared to render the Cabinet harmonious and effective on the question of Confederation.

Aug. 5, p. m.

The Treaty between the South American States is published, it is binding for fifteen years and provides for a common defence against foreign intervention in the affairs of either, and each binding itself to non-intercourse with any nation attacking either. It is to counteract the aggressions of Napoleon and Maximilian. The States included are Salvador Batavia, Columbia, Chili, Dagrador, Peru and Vinsebula. The Richmond Republic says a riot took place at Acquia Creek on Tuesday last, between the Whites and Blacks employed there. The latter tried to drive the former away and partially succeeded. The military interferred killing one colored man and wounding many others.

Gold 145.

NEW YORK, Aug. 7.

The Steamship "Germania" arrived off Cape Race at 9 o'clock, p. m. Wednesday.

The Shore end of the Atlantic Cable landed successfully—connections made with instruments. The Knight of Kerry invoked success on the undertaking, and in conclusion called on Sir Robert Peel, who made an admirable address. Cheers were given for the President.

The paying out of the heavy shore end and splice completed successfully. H. M. Steamships "Terrible" and "Sphinx" accompanied the "Great Eastern."

A telegram from Valentia dated the 24th states that insulation defects took place on Monday afternoon. The mischief is supposed to exist three miles west of the shore end splice, and believed to be caused by too much strain from the Great Eastern. She hove to ten miles from the shore. The Carolina is picking up and underrunning splice and repairing the fault. It is expected that the damage will be rectified immediately—the rest of the Cable remains perfect.

A telegram from the Great Eastern dated 25th inst. says that the Cable is all right. Signals perfect. A small fault discovered and cut out.

The Great Eastern now paying out in lat. 60 lon. 12.

FRANCE.—The Municipal elections favorable to the Government everywhere—whole municipal re-elected. Trade quiet. Flour risen two francs the sack.

ITALY.—The Government received official despatch from Spanish Cabinet recognizing the Kingdom of Italy, and expressing the most friendly feeling.

Consols heavy, depressed 89¾ a 90. French Rents 67-65. U. S. Five-twenties declined.

---

The United States papers publish the following gloomy account of the state of the Mexican Empire—said to be taken from a letter received by a New York firm. It resembles the composition of a penny-a-liner very much, and the last statement it contains is now an old story. The statements respecting Mexico which appear from time to time in the United States papers are generally made up of falsehoods and gross exaggerations:

"The "Estafette" says that in order to pacify the country it will require at least one hundred thousand men; and the "New Era," another French organ says 'that the Empire needs not only soldiers but the endorsement of public opinion and the support of the people, which it has not, as is shown by events every day; for after four years fighting, and the French having all kinds of resources and possessing the chief cities, Juarez, the President elected by the people, is still safely established at Chihuahua, and his armies are everywhere throughout the country fighting as on the first day of the war.'

"In the State of Vera Cruz the Republicans now occupy the whole State, with the exception of the line of one of the roads from Vera Cruz—that by way of Orizaba—and this is now frequently cut by the Liberals. The Republican Governor of the State of Puebla is regaining possession of many of the towns of that State; the States of Tabasco and Chiapas are ruled by republican Governors, who occupy them in their whole extent; a great part of the State of Oajaca is again in open rebellion; the State of Mexico is overrun by the Liberal Governor Vicente Riva Palacios, who has under his command some two thousand men, and portions of his forces penetrate often into the Valley of Mexico, quite near to the gates of the capital. A part of this State that was submitted to the Empire through a treaty with one of the commanding officers is now in rebellion again, and the insurgents have captured Hidejutta, the chief town of the district, taking all of the garrison prisoners. General Alvarez is complete master of the State of Guerrero, where the French dare not penetrate; and in Minchoacan there is quite a respectable army under the Liberal Commander-in-chief, General Arteaga who occupies most of the state except the capital, which is now threatened. One of his lieutenants, General Rugules, lately took prisoners a Belgian garrison, which is still in their power, and we have just received news that he has also captured the garrison of Uruapan, consisting of some three hundred men.

"Two of the Imperial regiments of this State have left their banner and joined the Republicans, to whom it is said further desertions are daily being made.

"From this State the insurrection has communicated to those of Guanajunto, San Luis Potosi and Jalisco, where there are more than a dozen chiefs commanding different parties of guerillas.

"In the States of Coahuila, Nuevo Leon and Tamaulipas, though lately the French forces took possession again of the cities of Monterey and Saltillo, it was without inflicting any damage upon the Republicans, who only fell back to unite again at another place, and so kept up an exhausting and never ending struggle. The Liberal forces in these States are some five thousand strong. General Carbajan in Tamaulipas has lately taken possession of Ciudad Victoria, the capital of the State, and of Tula, whose garrison were taken prisoners.

Tampica is also threatened by the same General. In short, there is perfect disorder and insurrection everywhere, and the country is farther from being pacified to-day than ever. It is believed here that the situation cannot continue long.

"Maximilian evidently foresees a change, and is preparing for it, as there are now sent in to him at the palace ten thousand dollars a day, and he is sending funds out of the country by every opportunity."

---

Santa Anna, who so often ruled Mexico, and who finally accepted Maximilian as Emperor, has issued from the Island of St. Thomas, where he is now an exile, a proclamation to the Mexican people, in which he says:—

"From this hospitable island I contemplate with increasing indignation the scaffold which the tyranny of an usurping people are raising in our beloved country to stain it with the blood of our brothers, and for the destruction of our people. From this island I have contemplated also, with pride, your struggle for life with the invaders of your country, the soldiers called forth by the intervention, and the trumpet of the free has made my heart palpitate with joy, as in the happy days in which we combated together in defence of our firesides and our outraged rights. The hopes of those who sought in monarchy the repose which the Republic denied them have been disappointed; the National dignity has been condemned; justice derided; our holy rights trodden under foot; though enslaved; prostitution elevated and virtue vilified; the sanctuary draped in mourning; and the Church afflicted with tribulation. Texas is seated upon the scaffold, brandishing over the patriots the knife of extermination. War to the invaders! Liberty or death should be the cry of every generous bosom, in which honor has her home, independence her altar, and liberty her rites.

We thought that the Archduke Maximilian, of Austria, would restore to us peace, and he has been the new element of discord; that with wise laws he would enrich our treasury, and he has impoverished it in an incredible manner; that he would bring us happiness, and the misfortunes are innumerable which in so short a time he has heaped upon the ruins of ensanguined Mexico; that in fine, he would be consistent in his principles and promises, if he accepted the views of President Juarez in all that related to reform, at the same time that he persecutes him and gives him to the knife.—European adventurers formed his guard of honor. The French bayonets are the foundations of his throne, and in the meantime so many see themselves condemned to oblivion, to the contempt of the veterans of independence, once the glory of our nation, and now objects of derision and mockery for the foreign soldiery. Such insults cannot be tolerated any longer. The hour has come in which we should exterminate from the sacred soil of the free the farcical rabble who profane the land with their feet, and insult us with their presence. Liberals and conservatives, forget our fratricidal contentions and advance to the rescue. Let us unite together against the common enemy! One banner covers us: the flag of liberty! One thought alone animates us, that of war and death to the invaders who destroy our towns and cities, and behead our brothers. Eternal execration to the tyrants of our country!"

---

### NEW BRUNSWICK DELEGATION.

We copy the following from the "Fredricton Head Quarters," July 26th. It will no doubt be anything but a crumb of comfort to the "Red-hot Unionist" of Charlottetown.

"Our delegates" have been heard from. They wrote by the last mail, to some of their friends there, and, we believe, in the best of spirits. Their reception at the Colonial Office was not only, of course, courteous in the extreme, but such as to convince them that their visit was really welcome. We hear that the Hon. Mr. Cardwell said that it was most opportune. It is very pleasant to hear this, and also that our delegates have received marked attention from that honorable gentleman and other nobilities, when one remembers all the ridicule that the opposition last session attempted to heap upon the proposed delegation; when one calls to mind their prophecies of a cold reception and the imaginary conversations in the Colonial Office—in which the delegates were to play so poor a part—that Messrs. McMillan, M'Leilan, and Connell indulged in. It would hardly be proper, at this time, to say much of the conversations at the interviews our delegates had been favored with, but it may be said that the legislature did most wisely to sustain the delegation, and that good results will follow. Generally, we believe, the British Government have given "our delegates" to understand that they do not entertain the policy of coercion, that they will not press the Province to the extremity of again testing its mind upon the question of Confederation. Though favorable to the principles of Union, they are not wedded to the Quebec scheme. They look upon union as, in their minds, calculated to make the defence of the Province more efficient. Defence is the main anxiety, and the one great reason why they desire union, but the particular terms of any union and the time of effecting it, must be settled by the people most concerned. They will come to modify their opinion on the importance of union for the defence when they hear "our delegates" and receive convincing proof from them of the loyalty of the Anti-Confederate people of this Province.

---

Mr. Bennett of the Herald has bought the lot on which the Museum stood for the handsome sum of $650,000. The lot measures 56 feet by 100, and the purchaser pays $450,000 in twelve years time. Mr. Barnum, however, had a lease with nearly 12 years to run, and for this he received $200,000, or nearly one half the value of the property. It enables him to reflect with some equanimity upon the loss of his Museum.

---

On board the steamer Armenia, on Thursday afternoon, on her trip from Albany to New York, a respectable looking woman, who was accompanied by four children, and was on her way to meet her husband, leaped overboard with a babe in her arms, and both were drowned. No cause could be assigned for the act.

---

Boston papers say that General Grant has given up his Halifax trip. It appears that the arrangements were modified from Halifax to Quebec, because General Doyle, whom General Grant is going to see, is at the latter place, instead of the former, as was expected.

---

We understand that at the Annual Easter Meeting of the Parishioners of St. Eleanor's, the Rev. J. W. Forsythe, M. A., was presented the incumbency of that Parish, and was puplicly inducted on the 12th inst., in due form of law.—*Com. to Isl.*

---

MURRAY HARBOR PRESBYTERIAN TEA, NORTH SIDE.—According to previous appointment, the above Tea took place on Wednesday, the 27th ultime. Though the time for giving notice had been short, the attendance notwithstanding was numerous and respectable. The ladies, it is unnecessary to state, did their part creditably. The viands prepared were such as might satisfy the most fastidious taste. Much credit is also due to the young men for the handsome manner in which they decorated the grounds for the occasion. There was no address given, as was intended, owing to occasional showers of rain, which dispersed the company at an early hour. The sum realized was £25 1s 6d. —*Com. to Patriot.*

---

ATLANTIC CABLE!—News was received by telegraph at the Reading Room last night of the successful laying out of 450 miles of the Atlantic Cable by the "Great Eastern" up to the 27th ult. News of the successful laying of the whole cable is expected hourly.

---

### Medical Notices.

A Crown of Gold or a cornet of pearls is the privilege of few to have, but any lady can rejoice in a fine head of hair—Nature's own diadem and title to dignity—by the use of Mrs. S. A. Allen's World's Hair Restorer and Zylobalsamum, or Hair Dressing. Every Druggist sells them.

A Neglected Cough, Cold, or Sore Throat, which might be checked by a simple remedy, like "Brown's Bronchial Troches," if allowed to progress may terminate seriously. For Bronchitis, Asthma, Catarrh, and Consumptive Coughs, "The Troches" are used with advantage, giving oftentimes immediate relief.

HOLLOWAY'S PILLS.—Fever, influenza.—For the subjugation of disease and the preservation of health, it is all-important to maintain the purity of the blood, and to keep its channels clear, that no foulness or obstructions shall impede the life-sustaining current. By these means are Holloway's Pills all-powerful in restoring and protecting the human frame and freeing it from fevers, influenza, congestions, inflammations, neuralgic and gouty pains—in short, from the the many dangerous maladies arising from bad blood. A pure circulation is good security for life and health, when it is right the nerves are in excellent condition, and on the order, harmony, and completeness of these two systems dedends the perfection of life—energy, health, and happiness.

---

### Married.

At the residence of the Bride's Aunt, Mrs. Lewis, on the 1st inst., by the Rev. Thomas Duncan, Mr. John Edward Cox, of this City, to Mary Stewart, daughter of Mr. Philip Irving, Cape Traverse.

On Thursday last, at the residence of the Bride's father, by the Rev. David Fitzgerald, Mr. H. Cooper, Printer, to Elizabeth Ann, second daughter of Mr. R. M. Gidley.

---

### Died.

On the 6th inst., HENRIETTA, infant daughter of Mr. Henry B. Smith, Great George Street, Charlottetown, aged 12 months.

The rose I've seen send forth its buds,
And flowers, and gorgeous bloom,
The air around with fragrance filled:
It was beautiful at noon.

I looked again, but found it not,
It had withered out of sight,
Nor leaf, nor scent, remained behind,
Which had gave me such delight.

And so it was with this fair babe,
The Conqueror came too soon,
And bore the rising bud away,
Ere it had time to bloom.

---
