Concerning Bishop Spencer College.

Dear Sir.—A short paragraph appeared in your columns yesterday concerning Bishop Spencer College, which I feel is a little previous and may be misleading to the general public. It is perfectly true that certain members of the teachng staff cannot reach St. John's until the return of the "Sachem," but the Directors have not made any decision concerning the date of opening. Those members of the staff who are coming by the "Sachem" will probably not reach here until about the 24th of September, but an effort will be made to open the College before that date.

You may be interested to have a note of some of the new appointments to the Teaching Staff. One is Miss Westherhead, B.A., and Teacher's Diploma Liverpool. For three and a half years, during the war, she did educational work in France among the troops for the Y.M.C.A. Before that she held a post in the well known school of St. Andrew's, called St. Leonard's, for three years previously was Mistress in a large High School. She will specialize in English and History. Another is Miss Clarke, who will specialise in Modern Languages. She received her training in France and in Switzerland, and has had a number of years of successful experience, including appointments at Edgehill and Bishop's Hospital. Another is Miss Reith who, until now, has been second mistress, Girls' High School, Worthing. She holds the Froebel Higher Certificate, and has also trained for teaching high-class terms. Her record is a good one. Another is Miss Harris, who holds the Froebel Froebal Union Certificate and has had six years training and experience in Kindergarten work. Her references all say that the children are fond of her, and that th Kindergartens increase rapidly under her. She will take charge of the re-organized Kindergarten of the C. of E. College, which is to be held in the Bishop Spencer College building. The other members of the staff, in addition to the principal, Miss Richards, are Miss Cox, C.T.; Miss Elizabeth Steed, London University; Miss Roil, A.A.; Miss Cox, A.A.; Miss Gertrude Sharpe, C. and possibly another. In addition Mr. Herbert Stirling will preside over the Music Department, Miss Bremner over the Needlework Department, Miss Cox over the Art Department, while night classes will attend the Household Science School, which is under the direction of Miss Alice Furneaux. The opening date of the College will probably be announced to-morrow.

Yours faithfully,
W. W. BLACKALL,
Supt. C. E. College.

Crown Lands Office Please Note.

There are over twenty five hundred men working on the Deer Lake-Bonne Bay road which we understand is being completed for motor traffic. To make the road a success, however, it is necessary to bridge the Humber. We do not know whether it is the intention of the Government to do that work or not, but we trust it is. This road we learn is going through a tract of splendid agricultural land. Surely the Government will have it marked off in blocks and not allow any one individual or concern to control any great portion of the frontage. This has already been too much practiced in this country with the result that agriculture has not developed as it otherwise would have.—Advertiser.
