I DRINK

KUNTZ Regal LAGER

Because I know it's Good for Me.

My doctor says, "Drink all the 'REGAL' LAGER you want. A bottle at mealtime helps digestion—and there's nothing that brings a better night's sleep."

After a day's shopping—or sewing — or housework — you can't imagine how quickly a glass of KUNTZ "REGAL" takes away the tiredness.

POLICE REPORTER'S SERMON

Just an Incident in His Work, But Has Its Moral to Others.

Many a pathetic sight comes under the observation of the police reporter in his daily rounds.

For instance, last night a woman, respectably dressed, was brought to No. 1 station and locked up charged with drunkenness. If this were all it might pass almost unnoticed, but in the patrol wagon were two children, one about 4 years of age, the other a pretty curly headed boy of two years, crying and pleading for his mamma. The children were well dressed and groomed, and had the appearance of having been nattily dressed for a day's outing. Inside the station the wretched mother with her hair all towsy, remonstrated with the police, her tears mingling with her intoxicated condition representing the human character in its almost lowest failings. She was locked up in charge of the matron, and the little ones, peering thru the screen of the covered patrol, sobbed and sighed as the driver pulled the lines and started off for the shelter home.

COBALT IS GROWING SOME.

George Caldbeck, chief of police at Cobalt, was a visitor at police headquarters last night. Chief Caldbeck is en route for Huron and Lambton counties to spend two weeks' holidays. He is an ex-member of the local force.

He says Cobalt is now well supplied with good water from Clear Lake, and many improvements are going on. One of these is the new lockup, which is sanitary and satisfactory otherwise.

"The town," said the chief, "is gradually assuming a solid basis, and should have a gradual growth."

SMELTER FOR NEW ONTARIO TO HAVE GERMAN EMPLOYES

Three smelting companies are seeking locations in Cobalt. One may establish a small village near Divers, as the employes and their families will be brought from Germany.

HAMILTON HAPPENINGS

DOCTORS ARE RE-APPOINTED BY HOSPITAL GOVERNORS

George F. Webb Secures Contract For Building New Armouries—Wedded in Cathedral.

Hamilton, July 17.—(Special.)—At a meeting of the hospital governors this afternoon, John Billings was re-elected chairman and A. P. Kappele clerk. All the members of the medical staff were re-appointed, and Dr. Morton was made assistant oculist and aurist. The account for water showed a decrease of over 300,000 gallons, as compared with the previous month. Dr. Rennie on behalf of the medical staff complained about the ventilation of some of the closets in the new wing, and he was assured that the defects would be remedied.

Married in Cathedral.

Miss Mary Presnail, oldest daughter of Wm. Presnail, 162 North Hess-street, and Leone Lawrence Doray, Montreal, were married in St. Mary's Cathedral this morning.

Profitable Deal.

James Scott has just concluded a profitable deal in real estate. He bought the property on the corner of King and James-streets a few years ago for $55,000, and has just sold it to the C.P.R. for $103,000. The company intends to erect a handsome skyscraper, but the building may be delayed on account of the fact that the leases of several of the tenants have several years to run yet. The company is also trying to get possession of the Palace Hotel and the adjoining fruit store.

Filtering Basins.

At a special meeting of the city council Wednesday evening it is likely that the aldermen will agree to appoint a special committee to investigate the condition of the filtering basins. Ald. Macleod, chairman of the fire and water committee, favors that course. City Engineer Barrow has written a letter hinting that it was not Lieut.-Col. Van Wagner, who really wrote the letter that stirred up the trouble, and he remarks "It is a somewhat remarkable coincidence that belittling of the filtering basins should come at a time when the city is applying for a patent to a small piece of land to enlarge the basins, which piece is looked upon by some of the residents of Saltfleet as a piece of holy land; also when large corporations, such as power and railway companies, are turning covetous eyes towards the splendid real estate, which, no doubt, they would be pleased to use for railway junctions, transformer stations, etc."

Are Police Active?

Police Magistrate Jelfs criticized the police to-day, saying that they never enforced city bylaws until some damage was done.

The dates decided upon for the Hamilton Jockey Club's fall meet are from Sept. 25 to Oct. 3.

At a meeting to-morrow at Toronto it is expected that the provincial board of health will bring in a report on the coal oil inlet nuisance.

John Teeple was badly injured in a gravel pit cave-in this morning. His son was killed in the same pit about a year ago.

C. A. Herman was granted the license of the Osborne Hotel to-day on the understanding that improvements to the building are to be made.

Good Business.

W. D. Long, the John Crerar estate and P. D. Crerar are said to have cleared up about half a million dollars in connection with the sale of the Penman Manufacturing Company of Paris. They were large stockholders in the company, a controlling interest in which has been purchased by English capitalists.

New Armory Contract.

The contract for the new armory has been awarded to George F. Webb of Hamilton for $220,000 in round figures.

"Chair of Grafting" Now.

Louisville, July 17.—Graft as a course in the schools of the country was advocated by ex-Gov. Bradley in an address to-day before the teachers of Jefferson County. He wanted the subject taught in the schools so that the rising generations will know what it is and how to avoid it. Denouncing graft as a deadly curse of the United States, he said that it was necessary that something be done to check it, and he believed the public schools to be the best place.

At 87 Attempts Suicide.

New York, July 17.—Mrs. Eliza Meyers, eighty-seven years old, of Bayonne, N.J., attempted suicide yesterday by cutting her wrist with a razor. She had complained all day about the heat, and said her eyesight was growing dim.

Girl of Ten Suicides.

Huntington, W. Va., July 17.—With a rope used as a clothes line pretty Nellie Petit, aged ten years, committed suicide at Piketon, a suburb, to-day. The only reason given for the suicide is feeble mindedness. The child had been in the institution for the feeble-minded at Columbus and was home on a vacation.

Five Straight Bullseyes.

While Stuart was shooting in the Wingrove he made five straight bulls. The range officer then took possession of the Ross rifle Stuart was using and consulted another range officer as to Stuart's right to use the Ross rifle. The officer handed back the rifle, and Stuart made for his two following shots a magpie and an outer.

The secretary of the National Rifle Association, speaking to the Canadian Associated Press, expressed great regret that the range officer had acted as he had, as he had given instructions that the Ross rifle was to be allowed.
