EXCHANGE ROOMS,

WEDNESDAY, June 16.

Steamer Europa, arrived at Halifax yesterday afternoon, brought 9 officers and 164 privates of the 62d and 63d Regts.

BRITAIN.—Bill to abolish property qualification of Members of Parliament, passed third reading. Also Electric Telegraph Company Bill.

Roebuck gave notice that he would shortly call attention to the whole subject of the Hudson Bay Company.

In reply to enquiry from Mr. Wilson regarding correspondence between England and United States with respect to slave trade, Mr. FitzGerald replied that American Government had made grave charges against British officers, but no official report had been received from those officers; said such occurrence would be viewed with deepest regret by Government, and immediate explanation given. Meanwhile orders had been sent to officers in command of the squadron to make every enquiry into the subject, and that greatest caution and forbearance should be exercised towards vessels bearing American flag. London press very conciliatory towards America. The *Times* in favor of putting an end to slave trade crusade, on the ground that it will inevitably soon bring on collision between England and U. States.

Telegraph fleet returned to Plymouth on the 3d from experimental trip. Paying-out machinery pronounced perfect. Cable was payed out from 7 to 8 knots an hour. Expedition finally starts on the 9th or 10th June.

## AMERICAN AND COLONIAL ITEMS.

THE ILLINOIS TORNADO.—Through a gentleman who left Monmouth yesterday morning, we learn many interesting particulars of the sad tragedy attending the destruction of the village of Ellison by a whirlwind.

Fourteen persons were killed almost instantly, one less than was stated by telegraph, and ten more it was supposed were mortally wounded.—Of these latter two died next day, three on Monday evening, making nineteen in all.

Among the dead are a Mr. John Hand, his son, about ten years of age, and a babe, the latter of whom is supposed to have been drowned. The whole family appear to have been whirled with the fragments of their dwelling quite up into the air and deposited a considerable distance from where the house stood, near a slough.—Mrs. Hand had her infant in her arms when she struck the ground, but the concussion compelled her to let go her hold upon it, and it was tossed some distance into the slough, where she heard it cry, but owing to her severe injuries, was unable to attempt its rescue. There she remained all night, her person partly in water, and in the course of its dreary watches the dead body of her infant was drifted to the shore, and she had it in her arms when discovered in the morning.—*Chicago Press*, June 2.

MARVELLOUS ESCAPE.—The *Transcript* says, Joseph, son of Mr. J. C. Kempton, of Milton, Queens, while clearing logs at Harlow's dam fell in and was carried over the Roaring Dam, about fifty logs following him. While in the backwater below he was supposed to be either crushed to death or drowned, but in three minutes was seen to rise and pass a mill-floom where there was a large stream of water pouring out and was again submerged, after which he swam to and got on some passing logs, and finally came on shore unhurt below the Mills.

President Buchanan is unreserved in the opinion that England will disown the late outrages fully and promptly, and asserts that the relations between the two counties were never established on a more friendly footing, and cannot be disturbed.

The managers of the Grand Trunk Railroad Company of Canada have recently made some important reductions in the rates of freight over their road. Flour is now brought from Toronto to Portland for 80 cents, per barrel, from Montreal for 45 cents, and from Longueuil for 40 cents. Sugar and Molasses are taken from Portland to Montreal for $4 50, and to Quebec for $5 50 per ton.

*The Quebec Mercury* says that the frauds upon the revenues at Quebec have become so numerous that it is the intention of the Government to employ a revenue cutter at that port.—The Government have received notice of the shipment from the Royal mint of £60,000 sterling of new coin, of which £20,000 is in 20 cent pieces, $15,000 in 10c, £15,000 in 5c, and £10,000 bronze cents. One-half of the coins will be available in each section of the Province. The copper coin issued by the banks will continue in circulation, as the banks will redeem them at par.

Upwards of thirty-five Schooners from the outports, sailed from Halifax to Labrador, in two days of last week. It would be interesting to publish the number of men, and amount of tonnage, cleared this season for the fishing ground. We were informed that from LaHave and its neighborhood alone upwards of 400 men have gone in their beautiful vessels, to seek their living out of the briny deep.

His Excellency the Earl of Mulgrave proceeds to Cape Breton, in the Mail Steamer to Sydney and St. Johns, N. F., after which his Lordship intends visiting several other localities on the Eastern part of this Province.

Canada extra family flour sold in this city on Friday at twenty five and sixpence per barrel. This ought to give us a cheap loaf. Indeed it is already twice as cheap as it was two or three years ago.—*Halifax Colonist.*

RAILWAY MANAGEMENT.—The St. John *Freeman* says: A large quantity of Railroad iron, worth, it is said, £1,200, has been lost off a wood boat on the Kennebecasis. A squall struck the boat, she careened, and the deck load, driving all before it, gently rolled off, and now lies under 150 feet of water.

MIRAMICHI.—The *Gleaner* of last Saturday contains the folewing items of local intelligence:—

The Blacksmith Shop, near Clarke's Store, owned by L. P. W. Deabrisay, Esq., was unfortunately destroyed on Tuesday last.

The River is full of fish, and we are pleased to learn that the Gaspereaux fishers are doing a good business. A large quantity of Shad has been taken in the Salmon nets.

A letter from St Petersburgh in the London Literary Gazette says that literary activity now prevails in Russia of which the like was never seen before. A great many foreign contemporary authors of renown have just been translated, and amongst them are Macaulay, Grote and Prescott. Numerous works of native authors are announced. An Illustrated St. Petersburgh News has been established. Theatrical, literary, scientific, military, maritime, and economic journals have been started; periodicals containing original tales and translations are numerous even mild imitations of Punch are not wanting. And what is regarded as little short of stupendous, some of the new journals are actually allowed to be sold in the streets as newspapers are in London.

To Mr. J. W. STEVENTON, Teacher of Music.

Dear Sir;—As the term of your engagement with us is about to expire, we the members of your Singing Class in this Settlement, consider it nothing but your due, to give you, before your departure, this public testimonial of our esteem for you as a Teacher of Music. The proficiency made by the Singing Class here, could not be otherwise than it is, under the direction of a gentleman so intimately acquainted with Music both as a science and an art, as you are. Your diligence and affability with your class, and pleasing manners in private, have gained for you the affection of your pupils, and the good-will of the Settlement in general. And rest assured, Dear Sir, that wherever the lot of yourself and your amiable companion may be cast, the best wishes of the Singing Class in Covehead will attend you.

Signed in behalf of the Singing Class.
WILLIAM SHAW.
LEMUEL MILLER.
Covehead, May 14th, 1858. RALPH CARR.

*To the committee of arrangements connected with the Covehead Singing School, and the scholars generally.*

SCHOLARS;—I feel it a duty incumbent upon me by the thousand kind considerations of regard manifested by my highly esteemed pupils and friends, both as a public and a private individual, to respond to the warm expressions of regard exercised toward me, in a sincere and proper manner.

As scholars, their exemplary conduct have gained for them my highest and sincerest attachment; an attachment which the conflict of untoward transpiring events will yield but a refining influence upon, and the memory of whose hours of pleasures will continue to cheer and encourage, long after the object of their regard has departed from the scenes which gave them birth. As scholars, I can but be sincere when I assure them that during my experience among them, both in my private capacity, as a teacher, and a gentleman, I have ever found much to praise and encourage, and but little to censure or condemn. As friends, their conduct, with that of the community in general, has ever been highly pleasing and agreeable to me; and, unless I were entirely destitute of one of the highest principles of man's nature,—it certainly is deserving of praise and commendation The hours of pleasure derived from their society, which so effectually bound me by every fond endearment to them, will bloom in remembrance, and even as a tree planted in affection's garden and watered by memory's font it will bloom ever, and its climate will be but one bright summer always. With these sincere expressions of regard, I remain your affectionate teacher,

New London. J. W. STEVENTON, Teacher of Music.

**Remarkable Cure of Dyspepsia.**

GORHAM, ME., March 14, 1854.

MR. H. H. HAY,—*Dear Sir*: Through me you may confidently recommend the *Oxygenated Bitters*, as the best, if not the only medicine that will cure Dyspepsia. I suffered for more than six years as only a dyspeptic can suffer, tried numerous medicines, and the skill of many physicians, but found no permanent relief, until I obtained from you the above Bitters.

The contents of three bottles so far restored my health, that for the last two years I have had no occasion for medicine. I strongly recommend all Dyspeptics to try it.
