History of England.—We have received from the Agent, Mr. Hunter, Market Square, Nos. 2 & 3 of this excellent work. They are beautifully embellished with plates of the prominent commanders of the day. Every loyal subject should possess himself with this publication.

to reply to our last, precludes the possibility of our attending to him now, but in our next issue, he may look for a little wholesome advice.

The Church.—We are requested to state that St. Ann's Church, Musquash, will be re-opened for Divine Service, on Sunday morning next at half past ten.

☞ Brunswick Volunteer Fire Engine Company, No. 1, intend giving a Pleasure Excursion to Fredericton, on the 27th instant. From the well known spirit of this corps, we augur it will be a good one.

☞ H. M. S. Argus, having on board Rear Admiral Fanshawe, sailed for Halifax on Tuesday morning.

It is supposed here a few days ago that Captain Chatterton DeWolf, of the ship Alice, which sailed from this port, S.E., in February, and was not afterwards heard from, had perished on a raft, great numbers of horses, and many men, on the West coast of Newfoundland.—*Picton Chronicle.*

New Flour at five Dollars a Barrel in Virginia.—At Wheeling, last week, a lot of flour was offered for $5 per barrel, by an individual who had been hauling it for a long period, not being willing a short time ago to take $10 per barrel. The flour would not bring the $5, and was left on commission to find a purchaser. An order was immediately sent eastward to furnish flour from your place at $5, after harvest, but no one was found willing to purchase at that price.—*Richmond Enquirer, July 28.*

PULMONARY CONSUMPTION

Prove its having almost always baffled the most skilful medical attendants, it has very justly been termed the "*Consumption of Physicians*," and until within a few years, even generally considered incurable, although many medical men of the highest standing, among whom we may mention *Laennec and Bayle*—both distinguished authors, admit that this much dreaded disease may be cured, even in its advanced stages, when the lungs are not completely disorganized. The remedy which we now offer,

Wistar's Balsam of Wild Cherry,

for the cure of this disease not only emanates from a regular Physician, but has also been well tested in all the complaints for which it is recommended.

Look out for imitations and counterfeits. Remember the original and only genuine article always bears the written signature of I. BUTTS, upon the outside wrapper.

HORSE SHOEING

AND GENERAL

BLACKSMITHS ESTABLISHMENT

JAMES SCRYMGEOUR—

beg leave to state to the Public of New-Brunswick that he has commenced Business on his own account next to the Golden Ball corner where he is prepared to execute all work in his line in a scientific and approved system.

MR. SCRYMGEOUR having served under the celebrated Professor Dick and been taught the business of SHOEING in the most scientific manner and with all the modern improvements, he conceives himself fully master of his trade, and above making any attempt to imitate or adopt any other persons' system. The method pursued by Mr. Scrymgeour is calculated when horses have been injured in their feet by bad shoeing, to remedy the evil, and restore them again to perfect usefulness.

The subscriber respectfully solicit a call from the public, as they feel assured of giving ample satisfaction.

LIKENESSES TAKEN IN THE LATEST IMPROVED STYLE.

THE Proprietor would most respectfully call the attention of the Ladies and Gentlemen of this City to his Rooms, which have been tastefully fitted up, and he would remind the public that if they desire to procure a perfect PICTURE, it would be to their advantage to patronise his Establishment, as he flatters himself that he can produce Likenesses equal, if not superior to any Artist in North America.

Having served a regular apprenticeship at the Profession, (not having to abandon a former business, as some who are now practising the Art have done) and also having at a great expense obtained the latest improvements in Daugerreotyping, as well as the newest and most improved Apparatus, he is willing to challenge for $100 or $250, any Daugerreotypist in this City or America, to produce a picture, equal in tone, beauty, finish and appearance to that taken in his Establishment. The challenge to be decided by two of the most experienced Daugerreotype Artists in the United States.
