LOBSTER PACKING.—The Portland Packing Company are only operating two of their Botsford factories this year. The factory at Ezra's Cove employs 20 hands and has 1,000 traps and the one at Cape Tormentine has 2,500 traps and employs 30 hands. CONFIRMATION.—His Lordship the Metropolitan administered the rite of Confirmation in St. Paul's Church on Tuesday evening. Rev. J. Roy Campbell, Rector of Dorchester and Rural Dean, and Rev. D. Bliss, Rector of Westmorland, took part in the ceremony, and several members of Trinity church choir assisted in the musical part of the service. At the close of the confirmation service His Lordship delivered a brief but very impressive address to the candidates. His Lordship has long passed the alloted age of man, but his eye is not dim nor his natural force abated.

MUSICAL.—Miss Ella Stevens, one of the graduates in music at Mt. Allison, where her performances at the anniversary exercises were highly appreciated, has already turned her musical talents and knowledge to practical account. She has succeeded in securing a class of music pupils at Midgic, and will no doubt prove as successful in giving instruction as she has been in acquiring the art. Miss Stevens, who is a daughter of Mr. E. L. Stevens, of Sackville, deserves great credit for the diligence with which she has perfected her musical education, for besides four years training at college under Professors Cranz and Mack, she studied three years with such excellent teachers as Miss Mabel Fawcett, of Sackville, and Miss Steeves of Moncton. The people of Midgic have now an opportunity of securing musical instruction such as can seldom be obtained in a country village.

—On Saturday last $10,000 of the stolen St. Martins' bonds were found under a culvert near that place by a man who was digging in that vicinity. This covers the most valuable part of the securities which were lost. Dugar, who was suspected of the robbery, has at last been captured, and is now in prison. He says he is innocent, but there is strong circumstantial evidence against him.

—On Sunday, 5th inst., Mrs. Thibedeau, of St. Leonard's Station, on the New Brunswick railway, gave birth to a son. On the third and final day of the meeting it was showery, with dull clouds above when it did not rain, and deep nasty, mud below. About four hundred people were present. Many of the horses were scratched, the time was slow and the day a generally dreary and uneventful one. The Pony race, ¾ mile, had 5 entries. —The American House under the management of Mrs. Siewerts is still the attractive resort of travellers and tourists, and the pleasant home of a number of permanent boarders.

—Farmers are somewhat backward with their seeding owing to prevailing cold, wet weather. A change has now taken place for the better, temperature decidedly higher and vegetation advancing rapidly. Hay crop prospects good, strawberries and fruit trees generally show abundance of blossoms, except plums, of which there are none.

—The barque Sarah deal laden by Black & Co., sailed on the 13th for England; barque Emma Parker is loading for same destination, also barque Harmonie and Mirjam discharging ballast. Two schooners are in River Philip fishing alewives, one belonging to the enterprising firm of Clay Bros., the other two Captain John Maskell, from Jeddore both doing well.

—Death, the persistent monitor of our race, has not failed to repeatedly remind us of the certainty of our doom "dust thou art and to dust thou shall return." Among those who have succumbed to the inevitable this spring I may mention three aged widows, viz. Mrs. James Black, aged 82, Mrs. Collin Read, 92, and Mrs. Henry Heather, 72, also Mr. John Asb, 80, and last Friday Harmon Carter, eldest son of Hazen Carter, of consumption, aged 15 years. A number more in the surrounding community have passed away.

—Preparatory to the advent of the "Short Line," the town is being brushed up and made to look some what more attractive than it has of late. Among the improvements are first the repairing and painting the house and premises which was the residence and estate of the late James Black Esq. and wife who have deceased—the latter about two months ago; then a new house being built by Joseph Clark on Water Street just below Brown's Brick building. Stewart & Demings are the Contractors. Mrs. Joseph Clark senr. has improved her premises with a neat paling fence inclosing the front yard; L. Borden & Co. have the foundations of their new building completed, and will in a short time have the superstructure erected. Mr. C. Read has the contract for work, the proprietors furnishing material. R. L. McDonald purchaser of H. G. Pineo place is having the premises thoroughly repaired, remodeled and improved, and they will be (when the old spruce hedge is removed and replaced with a new artistic fence) much more attractive in appearance. Various other improvements are going on.

Moncton.

—The estate of the Peters Combination Lock Co., was on Tuesday the 14th inst., sold by the liquidators and bought by D. A. Duffey for $8000.00.

—Geo. P. Thomas, Barrister, comes before Sitting Magistrate Grant on Saturday 18th inst., on a charge of perjury preferred by Chas. E. Knapp.

—Civic Government by the "voice" of the people is a relict of the past in Moncton. Civic matters are now administered by three "clericals" who operate through their "automatons" at the "Council" Board. As an instance the Mayor asked the board to confirm his "unauthorized" appointment of David Grant as solicitor for the town in the Scott Act injunction case now before the courts. Councillor McSweeney vigorously denounced the proceedings as an outrage on the taxpayers involving the town in a liability for heavy law costs and as against the wishes of the taxpayers, and stated that the opinions of two of the best lawyers in the county were that the guarantee of indemnity given by the Temperance Committee was worthless, not as good as so much blank paper. Mayor McKenzie laid great stress on the moral obligations of these people, but in this enlightened age legal obligations hold more particularly when Civic funds are involved. However the "automatons" voted confirming the action of the Mayor and by the casting vote of the Mayor the Mayor's own action was endorsed and approved. Then for the amusement of the taxpayers the farce of an annual election is gone through in order to keep up the illusion that the people govern themselves, when they are virtually governed by three irresponsible individuals.

Torrie vs. Clarke was concluded on Thursday. A verdict of "no cause of action" was returned, the jury standing four to one. Hanington, Q. C., for plaintiff; Wells for defendant.

Meeks vs. McKean was then taken up. This was an undefended action on a note. The jury assessed the damages as claimed.

Mr. Wells brought up the matter of John Glendenning, who had been promised that he would be let off if he would turn Queen's evidence. His Honor said he would give a merely nominal sentence.

Dunlap and McDonald vs. Sherwood was taken up Friday morning. Being undefended the jury returned a verdict for the amount claimed. F. A. McCully for plaintiff.

Railway, fell near the engine the other day and in falling threw out his right arm to save himself; his hand struck the rail and, strange to say, but one finger was taken off by the wheel, that being the one next the little finger. He should be very thankful as it might have been his head.

Our Wealthy Men.

Much has been said in newspapers of men who have made large fortunes in comparatively a few years in various business industries. Many of these articles are written by correspondents of prominent newspapers, and copied into others of lesser note. Correspondents generally are seldom men of business qualifications and wrongfully picture these men and their business as a thing of accident: this is not the case with those we have met. We find that where men have made large fortunes by their own business talent and industry they chose with sagacity and forethought such businesses as would lead to success when handled with business judgment. No man has been brought before the public as an example of success, both in wealth and magnitude of his business (outside of stock and railroad men) more prominently than Dr. G. G. Green of Woodbury, N. J. He is at the head of many large business industries, and yet comparatively a young man. When the fact that August Flower, for dyspepsia and liver complaint, and Boschee's German Syrup, for coughs and lung troubles, has grown to a wonderful sale in all parts of the world, it proves that it was not an accident or spontaneous strike at wealth. His medicines are recognized as valuable and established remedies, and the business has grown gradually and permanently during the last eighteen years on account not alone of Dr. Green's abilities as a business man or his "good luck," but on the actual merits of the two preparations.—*Copied from the N. Y. Weekly Sun of Dec. 22, 1886.*

Living Miracle.

"My infant daughter was taken ill with cholera infantum, the doctor said she could not live. The Reverend Wm. McWilliams would not allow her head to be lifted when he baptised her, she was so weak. Dr. Fowler's Wild Strawberry gave immediate relief. She is a living miracle, hale and hearty. Since that time (7 years) our house has never been without that remedy." * * * * From statement of George Johnstone, Hardwood, Ont.

How to Gain Flesh and Strength.

Use after each meal Scott's Emulsion; it is as palatable as milk. Delicate people improve rapidly upon its use. For Consumption, Throat affections and Bronchitis it is unequalled. Dr. Thos. Prim, Ala., says: "I used Scott's Emulsion on a child eight months old; he gained four pounds in a month." Put up in 50c. and $1 size.

Nature Makes No Mistakes.

Nature's own remedy for bowel complaints, cholera morbus, cholic, cramps, vomiting, sea sickness, cholera infantum, diarrhœa, dysentry, and all diseases of a like natnre belonging to the summer season, is Dr. Fowler's Extract of wildstrawberry, which can be obtained of all dealers in medicine.

Depend upon it, mothers; there is no mistake about it. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price twenty-five cents a bottle. Be sure and ask for "MRS. WINSLOW'S SOOTHING SYRUP," and take no other kind.

THE REV. GEO. H. THAYER, of Bourbon, Ind., says: "Both myself and wife owe our lives to SHILOH'S CONSUMPTION CURE." Sold only by A. Dixon, Druggist.

All the cases have been certioraried, and the end is not yet.

Chignecto Ship Railway.

Mr. H. G. C. Ketchum, C. E., has just published a pamphlet, entitled "Public Opinion on the Chignecto Ship Railway," which gives in a concise form a large amount of practical and interesting information concerning this important projected enterprise. The pamphlet contains a consensus of opinions on the commercial value of isthmian transit between the Gulf of St. Lawrence and the Bay of Fundy, statistics of existing trade, and estimates of the traffic that will follow the construction of the ship railway. It also gives the opinions of eminent engineers and naval architects with regard to the practicability, safety and economy of the proposed railway. Copies of the pamphlet may be had free at this office.

—A terrible accident happened at Halifax Sunday night which will likely result in the death of a prominent society young lady. Ed. Kearney and Miss Cecconi were to be married on Tuesday. On Sunday afternoon they went out driving and on returning their horse shied at the top of Sackville street, a very steep street, and rushed down hill at a tremendous speed. When near the bottom of the hill the axle broke and both were thrown out with great violence. Miss Cecconi's jaw was smashed and her skull fractured. She was still unconscious at midnight. Mr. Kearney was badly injured. Both were prominent singers and musicians.

Boston Market Report.

(Prepared for this paper by Messrs. Hatheway & Co.)

BOSTON, June 11, 1887.

BUTTER.

There has been a good demand for fine grades and the market has developed a firmer tone. Medium grades continue slow and unsettled. Dairy lots meet with a fair sale at 16 to 18c., but 18c. is an extreme price for extra. Fair to good lots are plentiful at 14 to 15c.

CHEESE.

There is a more liberal supply of desirable stock and extreme prices are not so easily obtained. Sales have been principally at 10 to 10½c. per pound, and 10½c is now the top of the market.

EGGS.

There has been a light supply during the week and prices ruled firm. Sales of Eastern extras at 15½c., and Western and Provincial at 14½ to 15c. per dozen.

POTATOES.

The market maintains a firm tone, with a good demand for best stock. Houlton Hebrons command $1 to $1.05, and some extras go higher. Best Rose and Prolifics are selling at 90 to 95c.
