Call money on Stocks	6 to 6½ per cent.
On Bonds	6 to 6 "
On Commercial Paper	6 to 7 "
On Real Estate	6 to 6½ "

While the rates are the same, the tendency seems to indicate that the rate for interest may be a little easier. Loans negotiated on stocks 6c to 6½.

All settlements with brokers passed off satisfactorily. They were very large, owing to so many stock books being opened for settlement-to-day. Seven of the city banks paid their half-yearly dividends to-day.

WHY DON'T THEY SETTLE.

The Important Questions at Issue Before the Waterworks Committee.

Chairman Boustead presided over the meeting of the Waterworks Committee yesterday. Among the communications received was one from S. Frank Wilson, proprietor of Truth. He stated that owing to the confusion attendant upon Friday night's fire in his building the payment of the water rates on Saturday had been overlooked. He asked for the customary rebate and the application was granted.

Mr. E. W. D. Butler appeared before the committee to ask on behalf of Deer Park residents that the city put up an electric light on Yonge-street opposite Rose Hill-avenue. He stated that the residents of Deer Park had signed an agreement to subscribe $13 per year each towards putting up six electric lights on Yonge-street. The matter was referred to the superintendent.

The committee again undertook to make the employes of the department pay their debts. George C. Small, a barber, wrote stating that Fred. Williams owed him $16.20 for cigars, shaving, etc. A. W. Mishaw, whose case was brought up before the committee at last meeting, sent in quite a grand, eloquent communication. He owes the price of a gold watch purchased from a city jeweler. He said in his letter: "If all my accounts were sent to the committee I would be unable to pay them off at once, but will endeavor to get square as soon as possible. Should I lose my situation it will prevent me from settling and also from providing bread for my family. Indiscretion on my part, I hope, will not destroy humanity on yours. Chastisement from the Grand Architect of the Universe ought to be punishment enough without humiliating me and my family in the public press. Hoping you will endeavor to set those things aside."

It was decided to order Mr. Meshaw to pay his debts within 10 days. Mr. Williams' case was referred to the superintendent.

The report from the superintendent was then taken up and adopted with the exception of this clause:

In reference to the letter from Mr. Law respecting the use of iron instead of steel flanges for the 30 inch pipe, I beg to say that there is plenty of strength in the iron, and that iron will answer the purpose as well as steel. I would therefore recommend that he be allowed to use the iron.

The committee refused to make the change. The report from the sub-committee on salaries, recommending certain increases already published, was adopted without amendment.

DO DOCTORS PROLONG LIFE?

An Eminent Physician Presents Facts And Figures on the Subject.

At a recent meeting of one of our medical societies, a paper on "Longevity" was read. This possessed great intrinsic interest, and, at the same time, was gratifying as showing how much medical and sanitary science has done to prolong life and how much better in every way are the conditions of to-day than of those "good old times," for the return of which sentimentalists vainly sigh.

The doctor ascribed the great and progressive changes for the better to advanced medical knowledge, better drainage and diet, greater cleanliness, vaccination, and the use of anæsthetics and Paine's Celery Compound. He thinks that Paine's Celery Compound alone has added two years to the average life of civilized man in Canada and the United States, where it has been used in large quantities.

Men and women whose digestion had given out, whose brain had grown befogged, tongue coated, and head aching, have found in this wonderful discovery a medicine which completely restored them to health and removed in a most remarkable manner the results of their overwork. Now their sleep is restful and refreshing; they have a good appetite; digestion is no longer unpleasant; muscles have grown strong, headaches and back aches are banished, and happiness has taken the place of the melancholy and gloomy spirits which for merly made life one prolonged burden.

There is not a city or village in the Dominion which does not number among its inhabitants those who have proved for themselves the great value of Paine's Celery Compound in restoring lost energy and invigorating the weakened vital powers of both old and young. It is a positive and yet harmless cure for all nervous diseases, and is prescribed freely by the medical profession.

JEALOUSY AROUSED

By the Success of Advertising Specialists—A Fair View of the Case.

The jealousy of the general practitioner of medicine in Toronto has been aroused by the success of the advertising specialists, and is the sole reason why they take the negative side of the question "Is it right for doctors to advertise their success?" This question is wrong and can only be taken on purely selfish grounds, as any one with common sense knows that a specialist who makes particular diseases his special study will be more competent to deal with them than the general practitioner, who treats all the diseases known to man. Below we give an illustration wherein a party was perfectly cured by an advertising specialist. Mr. John Stitt of No. 236 Ontario-street, had been for years treated by general practitioners of medicine, and had grown from bad to worse until his case was to him hopeless. He was so bad he had to abandon his work, but he noticed the advertisement of the Medical Institution for the cure of catarrh, dyspepsia and chronic diseases, located at 198 King-street west, and resolved to give them a trial. Mr. Stitt had chronic dyspepsia, his appetite was gone, he had nasty pains and burning sensations in his stomach attended by occasional vomiting, was bloated, had palpitation of the heart, headache, dizziness, pain in the back, feet worn out on the least exertion, had no ambition. He took medicine two weeks and is now entirely well and a happy man. He can be seen by any one who wishes to call on him and will gladly tell his story.

We have hundreds of similar testimonials which can be seen on application at our office. No testimonials published without consent of patient. Medical Institution, 198 King-street west. Office hours, from 9 a.m. to 8 p.m.; Sundays, 1 p.m. to 3 p.m.
