"Made in Canada"

The Gibraltar of the Canadian Farmstead

—enduring for all time, guarding the feeding profits of the Canadian farmer through storms, fire, heat and cold—impregnable, imperishable. Such is the Natco Everlasting Silo. It is built of vitrified hollow clay tile which are impervious to air, moisture and frost, and reinforced by bands of steel laid in the mortar. Once up, always up. No expenses for repairs, painting or resetting on base. No adjusting. Made in Canada for Canada. The silo is the most important of all business buildings on the farm, and subject to more strain. Build carefully. Build for permanency—it's economy. Erect a

Natco Everlasting Silo

"The Silo That Lasts For Generations"

Its first cost is the only cost and it builds up feeding profits in the highest pitch. It preserves summer grasses for winter and summer feeding, and ... ensilage with seed of pasture. It preserves silage perfectly in all parts, through fiercest winters and driest summers. No drying out. No waste. No wasting. No freezing. No cracked walls. No blowdowns—thus a taller silo with smaller diameter can be built, exposing less silage on top. Convenient and attractive. A silo that you'll be proud of.
