VIA MONTREAL AND TROY LINE.

NEW YORK, April 8.

The *Hermann* arrived here yesterday with 70 passengers and a valuable cargo of French, German and Swiss goods.

A letter received here by the British Consul, at Fort Snelling, March 16th, says that, the others coast of America, at this season, has been explored by Commodore Moore, of the brig Pioneer, from Behring Straits to Wainright's Inlet, thence to the mouth of Mackenzie River by Rae, considerably east of the Coppermine; nothing has been seen or heard of Sir John Franklin and party.

The Steamer *Niagara*, from Boston, arrived at Halifax on the 5th of April at 10, A. M., and left at 12 M. for Liverpool.

BALTIMORE, April 7.—Sadlier & Son's Jewelry store, in Baltimore Street, was last night robbed of $6000 worth of goods.

COLUMBUS, April 6.—The Convention for revising the State Constitution will be Democratic by a considerable majority.

WASHINGTON, April 7.—The rumors of a Cabinet re-organization are assuming a more tangible shape, and Messrs. Webster, T. D. King, Stanton and Evans, are mentioned as the probable successors.

WASHINGTON, April 8.—In Senate, Mr. Benton presented a Petition from numerous inhabitants of San Diego, asking for separate Districts for that portion of California. Mr. Badger recommended the Petition from the Colonization Society, praying that the Republic of Liberia be recognized. Mr. Cass presented a Petition from Officers of the Army in Oregon for relief, which was carried. The Chair decided that Mr. Benton was entitled to the floor, and he is now speaking.

HOUSE.—The Judiciary Committee reported the Census Bill, which was made the Order of the Day for Thursday next. Mr. Vinton offered a Joint-Resolution, seconding Mr. Grinnell's proposition to supply his vessels with Naval Officers to go in search of Sir John Franklin. The House refused to suspend the Rules, and Petitions being in order, were called for; but, on motion of Mr. Bayley, it was decided, by a vote of 85 to 67, that the House resolve itself into a Committee of the Whole on the state of the Union. Mr. Walsh moved the floor, and is now addressing the House on the Slavery question.

BOSTON, April 8.—The Bark *Rothschild* brings Buenos Ayres dates to February 9. Mr. Southron, the English Minister, had been received with great attention; salutes were fired in honor of his reception. No change of moment in commercial affairs.

NEW YORK, April 8.—Mr. Barclay, the British Consul for this city, has received two letters expressly despatches to be forwarded to England. The first is from Dr. Rae, as follows:—

McKENZIE RIVER, Sept. 26, 1849.—30 miles below Fort Simpson.—Sir,—It is the desire of Sir Pelly Richardson, who commanded the recent overland searching expedition that I inclose to your address the accompanying despatch, with the humble request that it may be forwarded to England without loss of time.

I may mention that it contains a short account of my summer's visit to the Arctic Sea, via Coppermine River, which has proved quite unsuccessful. The great quantities of ice preventing my getting to Wellington's Landing Island.

I am, &c.,

(Signed) "JOHN RAE."

The following extract is from a letter from Chas. Bullinger, Chief Factor of the Hudson's Bay Company, dated Fort George, Red River Settlement, February 15, 1850, with the Fort Snelling post-mark:—"Nothing has been heard of Sir John Franklin by the Overland Searching Expedition."

DREADFUL ACCIDENT.—As some men were employed, a little before noon to-day, in pulling down a wall, some 20 feet high, and about 60 feet long, on Hunt's Wharf, the whole of it fell, unexpectedly, burying a man, by the name of Armstrong, under the ruins, and wounding another man very seriously. A great number of men are now employed in digging for the unfortunate man who lies buried under an immense heap of stones.

NEW YORK, April 9—6, P. M.

FROM WASHINGTON.—A Treaty between Great Britain and the United States, relative to the Nicaragua dispute, is believed to have been signed here on Tuesday morning. Terms, a mutual compromise.

BOSTON, April 9—Dr. Edwd. Beecher, of Park Street Church, being appealed to, has thus explained, in the *Traveller*, the circumstance which gave rise to the student's story:—"A gentleman residing in the vicinity of the Medical College, saw a light in Professor Webster's room on Friday night, the 23rd November. It being unusual, he took his spy-glass, and saw a man cutting up a human body, but supposing it to be an anatomical dissection, it being previous to the news of Dr. Parkman's disappearance, he took no further notice of it." Dr. Beecher, not being at liberty to concede any thing that might be of importance in the case, interrogated the Attorney General upon a hypothetical case, and learning that the testimony would be inadmissible, as seen through a glass, pursued the subject no longer.

POTASH KETTLES.

FOR SALE, by the Subscribers, deliverable on the first opening of the Navigation between this place and Three Rivers, which will probably be about the 15th instant,

THREE HUNDRED ST. MAURICE WARRANTED POTASH KETTLES,

Assorted all weights, from 3½ to 11 cwt. These KETTLES, as announced by previous advertisements, are made altogether from St. Maurice Ore, smelted only with charcoal, which renders them quite superior to any other make. They are, moreover, made in the most approved manner, being thin on the edges and upper part of the sides, and extra thick in the bottoms.

The Subscribers continue their practice of undertaking to EXCHANGE every KETTLE that may Fly, Crack, or Leak, at any time during the first three months after it is put into use; and they are enabled to state, that, out of upwards of 300 sold in this neighborhood during the past Winter, only one has been returned, the defect being merely a sand hole, which caused it to leak. With this exception, they have not heard a complaint.

Purchasers at a distance are reminded that SCOTCH KETTLES (of which there are none now in Market) cannot, in all probability, be delivered here before the end of May or beginning of June—too late for Spring work.

They have also on hand—
750 Flat Bottomed COOLERS, 23 x 14 inch.
2000 Common Shape do, assorted, all sizes.
500 American-pattern BOILERS and CALDRONS, assorted, 25, 40, 50 and 60 gallons.
