LOCAL AND OTHER ITEMS.

Mr. P. J. Foran is revolutionizing the Cutting business. Just read his advertisement in this paper.

We trust our country subscribers will not forget that this is the time of year when accounts are settled.

The trotting at Upton Park to-morrow promises to be a grand affair, and the attendance is likely to be very large.

The barkentine *Eremo*, belonging to Peake Bros. & Co., arrived here on Sunday last, from Liverpool, with a general cargo.

Any one desirous of purchasing a good woodland farm should read the notice in our advertising columns of the farm for sale on Rollo Bay Road.

J. D. Reid is offering clothing, furnishings and Tryon tweeds at remarkably low prices. Read his advertisement in another column of this paper.

On our 3rd page to-day will be found a striking and instructive illustration of the comparative worth of the various kinds of baking powders now in the market.

Mr. John L. McKinnon, late of the Summerside *Pioneer*, who has been sojourning in Great Britain and the European Continent, has returned to the Island.

An order has been passed by the Dominion Government creating the Eastern portion of Prince County, P. E. Island, a district under the Wrecks and Salvage Act.

Stanley Brothers have adopted "low prices" as their motto, and, as will be seen by reference to our advertising columns, they have "nailed their colors to the mast."

Major James D. Irving has been promoted to the rank of Lieutenant-Colonel. We congratulate the gallant Colonel, and hope he may be long spared to wear his honors.

There are numerous enquiries as to the cause of the foreign mails arriving in this city so late at night, and whether there is a remedy, or is this state of things to continue.

Reddin's Drug Store is the best place in this city to buy drugs and medicines, toilet articles and fancy goods of every description. The advertisement will be found in this day's Herald.

Messrs. Henry J. Cunningham, of Miscouche, and C. A. Campbell, of Millcove, late students of St. Dunstan's College, left a few days ago for Rome, where they intend to enter on the study of Theology in the Propaganda College. We wish our friends every success.

The steamer *Worcester* arrived last night from Boston with the usual cargo and the following passengers: Miss Pleasances, Miss Miller, Mr. E. W. Carter, Mr. Shaw, Mrs. Shaw, Miss Robertson, Miss Mary Robertson, Miss May Harris, Miss L. Nowlan, Miss Jennie Lang.

A cablegram from London to Peake Brothers & Co. reports that their brigantine *Zeralda*, in charge of Capt. Kickham, on her way from Fernandina to Demarara with a cargo of pitch pine, became waterlogged, and was abandoned at sea. The crew were all saved. She was partly insured.

All matter intended for publication in the Herald should be in this office by noon on Tuesday. Advertisers who wish to have their advertisements changed should advise us not later than Saturday of each week, in order to ensure the necessary change in the issue of the following week. In order to avoid disappointments, we call the special attention of our friends and patrons to these facts.

We are pleased to learn that Mr. Daniel E. Morris, late Principal of the Colville School, Souris, has carried off a free scholarship in the medical department of the University of Pennsylvania, Philadelphia. Mr. Morris stood second in a large number of competitors. Each scholarship is tenable for a period of three years, and worth about five hundred dollars to the holder. We congratulate Mr. Morris on his success.

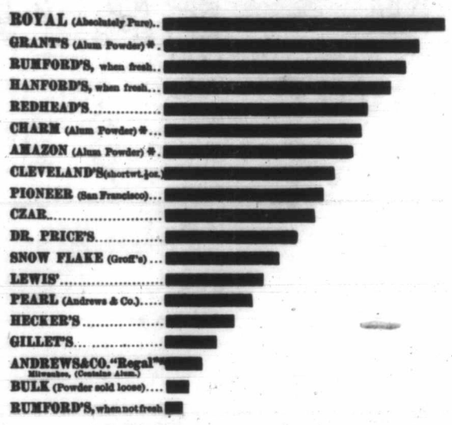
The illustrated *London News*, in its American edition of October 15th, furnishes as usual many pictures upon a variety of subjects, including a double-page picture Deer Stalking in the Highlands, three pages devoted to the British Mission to Morocco, a most pleasing and instructive picture entitled a Sad Dog's Story, Sketches of Life on Board a Man of War, the Home of Florence Nightingale, &c., &c. The supply of reading matter is also abundant and interesting, while the number complete costs at retail only 10 cents. The office of publication is 237 Potter Building, New York.

We are in receipt of the first number of the *Collegium*, a four-page monthly paper, started by the students of St. Dunstan's College. It presents a very neat appearance, and its editorial and contributed matter bear evidence of taste and care. The students deserve much credit for their enterprise in presenting to the public the product of their thoughts in this tangible form. The *Collegium* will, doubtless, prove a valuable auxiliary to them in their literary studies, while it will be an enduring record of their college days. We bid our little contemporary welcome to our exchange list.

A number of the many friends of the Hon. Pierre A. and Mrs. Landry assembled at their residence, in Dorchester, N. B., on Saturday evening, the occasion being the celebration of their crystal wedding. During the evening Mr. Landry was presented with an address, which was read by ex-Sheriff R. A. Chapman. Accompanying the address was a magnificent silver and crystal Epergne, a beautiful Dinner Set, and several other costly articles. Mr. Landry most feelingly replied, thanking the donors for their beautiful and costly presents, their sympathy and generosity in the past, and their kind good wishes for the future, and wishing particularly to thank those friends who, on account of distance and other causes, were unable to be present. A very sociable evening was spent by those present.—*Ex.*

Next to Mt. St. Elias in Alaska, Mt. Tacoma is the loftiest peak in the United States. Its ascent is very difficult, and the scenery is extremely wild. An illustrated account of a climb to the highest attainable point will be given by C. D. Hendrickson in the November American Magazine.

COMPARATIVE WORTH OF BAKING POWDERS.



REPORTS OF GOVERNMENT CHEMISTS

As to Purity and Wholesomeness of the Royal Baking Powder.

"I have tested a package of Royal Baking Powder, which I purchased in the open market, and find it composed of pure and wholesome ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates, or other injurious substances. E. G. Love, Ph.D."

"It is a scientific fact that the Royal Baking Powder is absolutely pure. "H. A. Mott, Ph.D."

"I have examined a package of Royal Baking Powder, purchased by myself in the market. I find it entirely free from alum, terra alba, or any other injurious substance. Henry Morton, Ph.D., President of Stevens Institute of Technology."

"I have analyzed a package of Royal Baking Powder. The materials of which it is composed are pure and wholesome. S. Dana Hayes, State Assayer, Mass."

The Royal Baking Powder received the highest award over all competitors at the Vienna World's Exposition, 1873; at the Centennial, Philadelphia, 1876; at the American Institute, New York, and at State Fairs throughout the country.

No other article of human food has ever received such high, emphatic, and universal endorsement from eminent chemists, physicians, scientists, and Boards of Health all over the world.

Note—The above Diagram illustrates the comparative worth of various Baking Powders, as shown by Chemical Analysis and experiments made by Prof. Schedler. A pound can of each powder was taken, the total leavening power or volume in each can calculated, the result being as indicated. This practical test for worth by Prof. Schedler only proves what every observant consumer of the Royal Baking Powder knows by practical experience, that, while it costs a few cents per pound more than ordinary kinds, it is far more economical, and, besides, affords the advantage of better work. A single trial of the Royal Baking Powder will convince any fair-minded person of these facts.

* While the diagram shows some of the alum powders to be of a higher degree of strength than other powders ranked below them, it is not to be taken as indicating that they have any value. All alum powders, no matter how high their strength, are to be avoided as dangerous.

A German Silver Key Check and Ring only 20 Cents. A thing all persons who carry keys should have in their name and address on them. Persons losing keys, in many cases never get them returned to them, for the reason that the persons finding them think them of very little value, and never take the trouble to find the owner. In this way valuable keys are often lost, and the result is they have to buy new locks, or get new keys made at double the former cost; but by having your name and address on them they will, in most every case, be returned to the owner. I will mail, post-paid, to any address in Canada, one of my German Silver Key Checks, as illustrated above, with your name and address on it, together with a strong Nickel-plated Key Ring, on receipt of price, Twenty Cents. I have also another style for attaching to Umbrellas, price Ten Cents, or both for Twenty-five Cents. Write your name and address very plainly. WHY THE

Columbus Watch

IS THE BEST.

THE Main Spring barrel is completely covered, making the Watch perfectly dust proof. There can be no interference between the Balance and the Barrel. The Regulator is nearly double the length of others, rendering accurate regulation a very simple matter. To replace a broken Main Spring, the Barrel can be removed without disturbing the Balance or interfering with the regulation. The pins of the Regulator are so formed and located that two or more coils of the Hair Spring cannot reach between the Pins and cause the Watch to stop or gain time at an unusual rate. The balance comes under the round, or edge, the strongest part of the case, not as with all others, under the centre and weakest part. The Main Spring Power is the lightest used in American Watches. The calculation of the Train is such that this Watch runs 8 to 10 hours longer than others, with one winding, giving more uniform power and rate. These are improvements that cannot be claimed by any other manufacturers, and once seen, all must agree with us in saying that this is the strongest and best Watch made; and with all the above improvements, the Columbus Watches cost no more than others.
