THE TEA DIFFICULTY SETTLED

FURTHER TARIFF AMENDMENTS ANNOUNCED.

The House Spent All Day in Committee—Lively Tilt Between Controller Wallace and Mr. Campbell—Tea and Coffee To Be Free If Purchased In Bond In Any Country Levying a Duty.

OTTAWA, Ont., April 20.—The House went into committee on the tariff immediately on meeting and remained there until 6 o'clock. The progress made was not very great, only the items of oatmeal and rice being passed. The duty on oatmeal was changed from 50 cents per barrel to 20 per cent., according to notice given by Mr. Foster, and the duties on rice uncleaned, hulled, or paddy, was changed from half a cent per pound to three-tenths of a cent a pound and on cleaned rice from one cent per pound to one cent and a quarter per poond.

On the items of wheat, 15 cents and wheat flour 75 cents per barrel, the same duties as at present, a considerable discussion took place, in the course of which Mr. Campbell (Kent) said the millers of Ontario wanted free flour, as it would give them access to the American market.

A Little Spat.

Hon. Clarke Wallace: That was a remarkable statement for the hon. member to make, as he had come to him (Wallace) to ask that the duty on flour be raised to $1 per barrel.

Mr. Campbell flatly contradicted the statement.

Sir Richard Cartwright asked the chairman (Deputy Speaker Bergeron) to call on Mr. Wallace to withdraw his statement.

Mr. Wallace: I made the statement knowing it to be true. The hon. gentleman contradicts me, but he has no right to do so.

Cries of order and some little confusion.

Sir John Thompson said it was not a question of order. It was a question of act.

Mr. Campbell again denied that he had gone to the Controller of Customs and asked him to raise the duty on flour to $1.

The chairman was again appealed to, and finally said that he did not know who was to be called to order. The matter referred to something said to have occurred outside the House, and he did not see that he could interfere

Sir Richard Cartwright demanded an appeal from the ruling of the chairman to the speaker and up to 6 o'clock the Speaker had not given his decision

The house remained in Committee until 11.15 and passed a number of items down to yea. Just at the close Mr. Foster gave notice of the following changes to be made:

Tariff Changes.

Wallpaper, not including borders, printed on plain underground paper and colored with any material except bronze, gilt or flitter, 35 per cent.

All other paper hangings and borders per roll of eight yards and under and proportionally for greater lengths, 1 1-2 cents per roll and 25 per cent ad val.

Tarred paper, 25 per cent.

Tomatoes and other vegetables, including corn and baked beans in cans or other packages n.e.s. 1½ cents per lb., the weight of the cans or other packages to be included in the weight for duty, 15 cents per lb.

Stearine, 2 cents per lb.

Tea and green coffee imported direct from the country of growth and production, free. This item shall include tea and coffee purchased in bond in any country where tea and coffee are subject to customs duty, provided there be satisfactory proof that the tea or coffee so purchased in bond is such as might be entered for home consumption in the country where the same is purchased.

Senator Boulton and Hudson Bay Railway.

In the Senate to-day Senator Boulton made a speech in favor of the Hudson Bay Railway being built as a public work, the Dominion Government guaranteeing the bonds to be issued for the work at a rate of interest not to exceed 3 per cent., and wound up his speech by attempting to introduce a bill providing for the building of the road in the manner he proposed. Hon. Mr. Angers pointed out that the bill could not be received as a private bill, because notice had not been given and the fees paid, and it could not be introduced as a public bill as it had not received the assent of the Government, and under any circumstance it could not be introduced in the Senate, as it involved the expenditure of public money and must originate in the Commons. Mr. Boulton then tried to get his bill printed in the debates but failed. His speech, however, will appear.

A Military Conference.

There a conference to-day of military men in the House with the Minister of Militia and the Major General as to the efficiency of the active militia. Among those present were Lieut.-Colonels O'Brien, Tyrwitt and Tisdale, and Majors McLennan and Hughes and Paymaster Sullivan. One thing discussed was the question of rations. The offices thought that breakfast rations should be given free, that the men should be given more money or paid better and find themselves. Major Sam Hughes had quite a time with the General, and took occasion to remind the council that this was a democratic country, and that better results would be had if greater liberty were given to officers commanding corps. It was also pointed out that there were too many colonels holding on to their corps too long, and that more rapid changes would be in the interest of the service. There was also some talk about the storing of rifles at headquarters of battalions and leaving them to companies for practice, about the issue of drill books to the force and one or two other matters.

Notes.

To-morrow's Canada Gazette will contain a copy of the Imperial Order-in-Council of 39th January last, prohibiting the catching of seals within a ten mile zone on all the Russian coasts of Behring Sea and the North Pacific Ocean, and within a zone of thirty miles around the Kormanborsky Islands and Robson Island, as provided in in the Seal Fishery Act 1893.

Thursday Government Day.

The first step in the direction of hurrying up the Government business was taken to-night when Sir John Thompson gave notice that he will move on Monday that Government orders have precedence on Thursdays for the remainder of the session after questions to the Government by members.

The Senate Committee on insolvency will meet on Thursday, and will be ready to receive deputations from Boards of Trade and other bodies.

AFFAIRS IN NEWFOUNDLAND.

Dissolution Confidently Expected Next Week—Whiteway Protests to Britain.

ST. JOHNS, N.F., April 20.—The representative of the Associated Press was assured to-day by a prominent member of the late Whiteway ministry that the dissolution of Parliament would be announced next week. This man declared that the Governor was convinced that no other course was possible now. Should his information prove correct the present Government is likely to have a short reign. St. Johns is very pronounced against the new Cabinet. The feeling among the lower classes is that the new Ministry secured office by taking unfair advantage of others. Ex-Prime Minister Whiteway and the members of the late Cabinet will forward at once to the British Government a strong protest against its enacting any measure extending the operations of the revenue bill, which expires on June 11.

THE JONIAUX MURDER MYSTERY.

The Defence Will Be That Her Brother Was a Morphine Fiend.

BRUSSELS, April 21.—Great excitement prevails in Belgium about the Joniaux murder mystery, and the wildest rumors are in circulation. It is asserted Mme. Fabre, the first mother-in-law of Mme. Joniaux, long suspected the latter of having poisoned her first husband, and communicated her suspicions to the autorities. Fabre was insured in favor of his wife and died in 1886, supposedly from natural causes.

The Government has only ascertained facts going to prove that a considerable dose of morphine was found in the body of Alfred Ablay and that of Mme. Joniaux had purchased a quantity of morphine herself from a Brussels chemist two days before his death.

Mme. Joniaux's defence will probably be that her brother was a victim of morphinamania, but it is asserted M. Hayort, the Judge L'Instruction, at present conducting the investigation in Paris, where Alfred Ablay usually presided, found no confirmation of this.

It is freely rumored in Antwerp that M. Joniaux is about to be arrested. Public opinion is very divided as to his guilt. He is closeted in his house and said to be terribly downcast, whereas Mme. Joniaux is represented as maintaining a very calm demeanor in prison.

THE CZAREWITCH TO MARRY.

His Betrothal To Princess Alix Victoria of Hesse Announced.

ST. PETERSBURG, April 21.—The betrothal is announced of the Czarewitch (Grand Duke Nicholas) to the Princess Alix Victorio Helena-Louise Beatrice of Hesse. A few days ago it was reported that the Czarewitch intended resigning his succession to the throne in favor of his younger brother, the Grand Duke Michael. The belief was that this action was contemplated on account of the opposition of the Czar to his marriage with the Princess Alix. It was also stated at the time that the Czarewitch would never marry. But all obstacles to the happiness of the young couple seem to have been removed, and the announcement of their betrothal at this time before this disposal of the many royal personages who had assembled for the wedding of yesterday affords opportunity for the customary congratulations. Emperor William of Germany was the first to communicate the news of the bethrothal to Queen Victoria, who expressed herself as being highly pleased. Emperor William then walked from the ducal schloss to the Edinburgh Palace, accompanied by Col. L. V. Swayne, the British military attach at Berlin, and communicated the news to the Duke of Saxe-Coburg-Gotha. Emperor William is believed to have been mainly instrumental in bringing about the bethrothal from the fact that he had the news before Queen Victoria or the Duke and Saxe-Coburg-Gotha and the evident delight of his Imperial Majesty is cited as evidence of the importance which he attached to the alliance.

REFUSED A MAN A BALLOT.

Declining to Pay the Fine, Will Spend a Year in Jail.

DUNNVILLE, Ont., April 21.—David Pollard of Gainsboro, who was in December last fined $25 and costs, was yesterday taken to Cayuga by a sheriff's deputy in payment of the judgment.

The prisoner acted as deputy-returning officer at the bye-election in Monck in 1892, and refused to give one Piper a ballot.

The prisoner ignored the duties he was undertaking, acted under the advise of a man sent up from St. Catharines and will now have a year in which to regret that he did so.

This is, it is believed, the first imprisonment under the Election Act in Ontario.

FOUR COLUMNS A MINUTE.

Remarkable Fluency of the American Congressman.

WASHINGTON, April 20.—There was a passage at arms, figuratively speaking, between representatives Burrows and Wheeler to-day. Mr. Wheeler was taunted with talking four columns of The Congressional Record in precisely one minute and retorted that protest came with bad grace from one whose hands "were red with parliamentary murder." Mr. Burrows recalled a previous example of Mr. Wheeler's fluency, a speech that occupied five minutes in the delivery, having taken up 14 columns of The Record. A motion was made to refer the subject to the Committee on Printing but Mr. Wheeler cried quits by asking leave to withdraw his remarks.

DUKE OF EDINBURG'S ANNUITY

A MOTION FOR ITS ABOLITION DEFEATED IN THE COMMONS.

Labouchere Seconds the Motion—Lord Randolph Churchill Attacks It and Sir William Harcourt Warmly Defends the Grant—Mr. Balfour Agrees and the Motion Finds Only Sixty-Seven Supporters.

LONDON, April 20.—Alpheus Cleophas Morton, Liberal, moved in the House of Commons this evening that the annuity of £10,000 drawn by the Duke of Saxe-Coburg-Gotha, in his capacity of Duke of Edinburgh, be forthwith abolished.

Henry Labouchere, the Radical leader, seconded the motion. The Duke, he said, did not need the money, as his income from other sources was ample. From Coburg, which was a rich principality, he drew £30,000 yearly. By his marriage he had obtained £15,000 yearly. The Duke, moreover, was a foreign sovereign As such he might at any time find his obligations opposed to the interests of Great Britain there was no reason why England should help support the Duke of Saxe-Coburg-Gotha.

Lord Randolph Churchill attacked Mr. Morton's motion warmly.

Sir William Hancourt defended the grant. It was perfectly regular and proper. A more inauspicious moment than the present one could not have been selected for proposing the ungracious motion under consideration. The abolition of the grant would not commend itself to the sentiments of the nation.

Mr. Balfour said that he deplored deeply the objectionable debate which had been initiated at the most inopportune moment. He agreed fully with the declaration of the Chancellor ot the Exchequer. Mr. Morton's motion was defeated by a vote of 298 to 67.

Sir Edward Gray, Parliamentary Secretary to the Foreign Office, stated no communication had reached the Foreign Office concerning the alleged movement of the powers toward a reduction of their military and naval strength. The Government knew nothing of any such movement.

THE EVICTED TENANTS BILL

So Coldly Received That It May Never Reach the Final Vote.

LONDON, April 20.—The Evicted Tenants Bill which Mr. Morley introduced in the House of Commons yesterday fell like a wet blanket upon the Government supporters. What little enthusiasm was manifested by them was plainly perfunctory, and it is doubtful whether the measure will be pushed to a final vote. The apathetic attitude which many of the Irish members have assumed towards the bill, and the open hostility displayed toward it by the remainder of the Irish party cannot fail to have a disheartening effect upon the moderate Liberals. The Radicals may possibly support the bill, but it is ascertained that the Unionists will not, as it is known that the Conservatives will fight it tooth and nail.

The Standard says: The bill reflects credit on Mr. Morley's sentiments of justice and moderation, but will hardly need Mr. Barrington's prophecy of a revival of the reign of terror to realize that the Government's plan of pacification may end in the return of chaos."

Examinations British Institute of Actuaries.

The examinations of this body, to which reference was made recently in our columns, opened yesterday, under the supervision of Mr. Ramsay of the Canada Life, and Mr. McCabe of the North American Life, and will be continued to-day. The paper presented to the candidates yesterday was drawn by Prof. Loney, M.A., a Wrangler at Cambridge University in 1882, probably one of the best mathematicians in Britain and most competent for this work.

The same questions were given to all the candidates at the examinations held simultaneously to-day in Great Britain, Australia and Montreal.

THE ASYLUM STEWARD DEAD.

Had Held the Position For 35 Years Past.

Mr. Robert Blair, for 35 years steward of the Toronto Insane Asylum, and eight years steward of Rockwood Insane Asylum, Kingston, died yesterday morning at the advanced age of 77 years. The deceased was born in the Cape of Good Hope, and was the son of an artillery officer. His father was killed in the dreadful hurricane at Barbados, West India Islands, in 1831, which completely devastated the island, and caused a large loss of life, his wife soon after returning to her native home in Ireland with her children. The deceased was married there when quite young to Margaret Alexander, and in 1849 came to Canada, first settling in Toronto, and soon was appointed steward of the Insane Asylum, but a short time afterward he went to Kingston to take a like position, where he remained for eight years. He then returned to his old place in Toronto, which position he continued to hold with great credit to himself and satisfaction to the officials of the Asylum, until his death.

The deceased was a most kindly gentleman and a careful and efficient official. He leaves a wife, who is in feeble health, two sisters and three sons, Hugh of Orillia, Henry and William of Toronto. The deceased was in fairly good health until about two weeks ago, when he was forced to take to his bed. He leaves his widow well provided for.

WENTWORTH SHRIEVALTY.

John W. Murton of Hamilton Said to Have Been Appointed.

HAMILTON, April 20.—The rumor is current here to-day that John W. Murton has secured the shrievalty of Wentworth County, and the new sheriff is being congratulated on all sides to-day. Mr. Murton on being interviewed indicated positively that the rumor was correct. Dr. McMahon of Dundas, who was a candidate for the office, has sold his practice in the Valley City and is moving to Toronto.

ALL CLASSES INFECTED.

An Epidemic That Has Left Its Scars in This City.

Who would have supposed that the real estate fever which raged in Toronto four years ago would have infected all classes? See foreclosure judgment of the court in The Recorder (for sale by John P. Niagara Falls Line.

The favorite and popular steamer Empress of India of the above line will commence the season early in May. During the past winter a large amount of work has been done and a number of improvements made and the Empress will, in fact, be practically new. She will have the sole connection with the G.T.R. at Port Dalhousie, and the time table for this year will be the most convenient for the public that has ever been offered. The Empress is of one our finest excursion steamers, and those contemplating excursions will do well to see the management of this popular steamer before closing elsewhere. Family books have been reduced this year to $8 for forty trips and are also good on the steamer Lakeside. The World bespeaks for this popular steamer a good season's business.

CAPTURED IN EDMONTON.

A PARKHILL MERCHANT CHARGED WITH ARSON.

Government Detective Greer to Leave For the Northwest This Morning to Bring the Accused Back—The Man's Landlord Swears Out the Warrant For His Arrest.

Government Detective Greer will leave for Edmonton, N.W.T., this morning to bring back James Short, arrested on a charge of arson.

On March 30 the boot and shoe store conducted by Short at Parkhill was destroyed by fire. The insurance companies paid the loss without comment, but the proprietor of the building occupied by Short, Mr. McTavish, suspected that his tenant had burned the premises. Short left a few days after the insurance had been paid and McTavish swore out a warrant for his arrest and communicated with the Attorney-General's Department.

Detective Greer learned that Short had purchased a ticket in Toronto for Edmonton and wired the authorities there to be on the lookout for him. Yesterday a despatch was received notifying him of Short's arrest.

The accused will be brought back to London for trial.

WILL MAKE IT WARM

For Some of His Competitors.

A very startling fact has just come to light showing up what is the best proof that one of The World's advertisers is one of the most formidable competitors in his line of business. He is without question the keenest buyer that ever existed. He does what is called a "cut rate" business. As the day appears so has it been that he offers certain lines of goods at less than his competitors know how to purchase them. The merchant referred to is an ex-wholesale agent and a thoroughly practical and experienced man in his business, having sold to the largest dealers in Canada for many years. The discovery referred to is that his competitors have set in practice a scheme to outdo him by sending "pickets" to buy up his lines at "cut rates" on their cost. He intends to soon make public their names and teach them a lesson. We might mention that the "wide-awake cut-rate dealer" is Mr. Howell of 112 Queen east and 542 Queen west.

We Are Not a Wealthy People

And are not selling suits at half their value, but we are practical tailors and are willing to give you value for value received, therefore if you are in search of a suit or pants for less than cost, ones that will only wear half as long as those that you long for a little over cost. Don't remember our address, we don't keep them, but if you are limited in cash and want to make the best use you can of it in purchasing your spring suit or trousers, Waterson is our name, and 126 Yonge-street is the place to get value that is lasting.

Every bottle of "Sprudel," "King of all mineral waters," is put up at the celebrated Mt. Clemens Spring. It is sold at all first-class hotels at 5 cents per glass, or 10 cents with Native Wine, Lemon Juice or Spirits. Hotelkeepers may be able to give Toronto mineral waters in 5 cent drinks, but no one can afford to sell genuine Sprudel for less than the above. Anyone doing so will no longer be supplied. But when people ask for Sprudel, and are willing to pay for it, they should be supplied with no substitute.

THE SUBWAY WIDENING.

Opening of Dufferin-street a Necessity, Say the Ratepayers.

A meeting of the ratepayers of Ward 6 was held in the old Town Hall, Parkdale, last night to discuss the opening of Dufferin-street and the widening of the Queen-street subway.

There was a small attendance, but those who were there were very earnest, and all united as regards the requirements of the ward.

Ex-Ald. Defoe occupied the chair.

Speeches were delivered by Hon. S. C. Biggs and Messrs. Defoe, Christian, McMath, Westwood, Pocock, Dr. Lynd, Dr. Spence and Ald. Graham.

A resolution was unanimously carried, moved by Messrs. Stewart and Dr. Spence: That it is the conviction of the meeting that the Sixth Ward is a unit in demanding the opening of Dufferin-street as a necessity to the ward and as a fulfilment of the city's solemn agreement with the town of Parkdale.

Another resolution was passed: Moved by Messrs. Westwood and Pocock, That the ratepayers of Ward 6 strongly protest against the proposed diversion of Dufferin-street to Gladstone-avenue, and pledge themselves to vote against any bylaw submitted to the ratepayers which involves any such proposal, as it would be absolutely useless as a public work, would serve only private interests and would be a misuse of public money.

The meeting then adjourned until next Friday evening at St. Mark's Hall, Brockton.

Grand's Repository.

Messrs. Silver & Smith's great sale Tuesday next, April 24, commencing sharp at 11 a.m., should call together the best class of horse and carriage buyers, as the stock advertised is all A 1. Among the horses will be found Topsy, the property of T. C. Patteson, Esq. This beautiful mare is sired by the great stallion Mikado, he standing at the head of all the stallions in Canada, if not of the world. Mr. Patteson says this is one of the best mares he has bred for some time. The chestnut team, Howard and Cameo, are equal to anything that has been offered in Toronto for many months. They stand 15 hands 3 inches high, are full brothers and sired by Patriot Boy, dam Longfellow. They are a perfect gentleman's pair. The spider phaeton is also worthy of special mention, it being the very newest style of carriage now built; is suited for private gentleman or doctor. Also two wheel cart by Stiver & Abbott of Chicago, is the newest cart of the kind in Canada, having been shipped direct from the World's Fair here. Horses and carriages all on view on Monday next previous to sale.

DEATH ENDED THEIR PLAY.

FATALLY CRUSHED BETWEEN AN ELEVATOR AND FLOOR.

An Eight-Year-Old Boy Meets With a Shocking Accident in a King-Street Factory—His Back Broken and He Receives Other Serious Injuries — Only Lived Four Hours.

While returning home from school yesterday afternoon Charles Sintzel, the 8-year-old son of Thomas Sintzel, 321 King-street west, visited James Robertson & Co.'s lead works, in company with the son of one of the workmen and another lad. They visited the cellar and, unnoticed by the several men who were working near by, the three little fellows began playing around the hydraulic elevator. This elevator only runs from the cellar up to the first floor, a distance of ten feet, but goes very rapidly. Two of the boys stepped onto the elevator and started it upwards. Young Sintzel made an attempt to gain a place on the platform, but was only partially successful, climbing partly on and balancing himself on his chest on the edge of the elevator platform.

Being in this position when the elevator reached the top he was brought into violent collision with the floor.

His Back Broken.

After being extricated he was carried home and Dr. Riordan summoned. It was found that the boy's back was broken and the lower portion of his body completely paralyzed. He had sustained serious internal injuries in addition. He died four hours later.

No blame is attached to anyone, the sad affair being purely accidental. The funeral will take place this afternoon at 2.30 to Mount Pleasant Cemetery.

Murray's Is Crowded These Days.

Have you seen the crowds who have been attending Murray's mammoth silk sale? It is without a parallel either in the past or present. Never before have the ladies of Toronto been presented with such opportunities. The increase in the sale of silks of this year over any other previous year is astonishing. And this is no half-day sale, with the goods all gone when you arrive. Been going on since Tuesday morning with increasing sales every day. Huge cases of the finest materials the looms of the Orient can produce arriving constantly. The fact that this has been the most successful sale ever inaugurated by this firm is easily understood when you remember that the choicest and most desirable goods are being offered at exactly half-price. Silks of the most excellent quality to suit the taste of the most fastidious are sold at 50 cents per yard, and thousands of pieces to choose from. Everybody's taste can be met and everybody's desire fulfilled. Laces, cotton goods and all wash fabrics are being sold at equally low prices.

But before you enter take a glance at the window to the left. It is a perfect gem, containing beautiful and tasty ladies' shirt waists. Every article guaranteed a perfect fit and equal in every respect to tailor-made goods. Complaints have arisen because of the poor satisfaction given by Canadian goods in this line, consequently this stock has been purchased in the English, French and American markets. Be sure you have a look at this window.

HERE IT IS!

Dineens' New Hat for Little Girls—The Cutest Thing Out.

Here we show The Little Admiral.

It is the most original idea in children's headgear ever presented to the people of this city. It is a modification of the traditional cocked hat of an admiral, and as manufactured by W. & D. Dineen is a most becoming hat for a little girl.

Bring your children down to Dineens' today. It's children's day, and they will be delighted with the beautiful hats and caps in Dineens' stock.

You will be pleased yourself.

Dineen has the biggest assortment of high quality children's headgear ever seen in Toronto.

When we say "high quality" it seems to frighten some people. They say "O, that means high prices!"

It means nothing of the kind. In children's hats and caps, as in men's, Dineens' customers get the highest value in new style goods for the lowest reasonable price.

Remember this: At Dineens' you get a better hat for a moderate price than any other hatter can sell.

Bring your boys and girls down to Dineen's. The stores at King and Yonge-streets and 254 Y
