AT THE SESSIONS.

Business Before the Court on Saturday—Adjournment Till Tuesday.

In the Sessions on Saturday James Kane, caretaker of the Canadian Institute, was found not guilty of the charge of stealing a quantity of clothes from Joseph Rom, a Jew, living at 46 Richmond-street east. It took the jury nearly two hours to come to a decision.

George Lawford, who was charged with having committed an aggravated assault on David A. Dunn on March 29 last, was placed on trial, when, on the advice of his counsel, he pleaded guilty of common assault. He paid the doctor's bill and was then allowed to go on suspended sentence.

G. W. Prescott, traveler for the Toronto Brewing Co., is suing D. B. Cockburn, a contractor, for $200 damages for an alleged assault in October last, in which the plaintiff's thumb was chewed by defendant. The case was not completed, and was adjourned until Tuesday morning.

TROLLEY WENT OVER HIM.

Yet John E. Macklin of Hespeler is Alive to Tell About It.

Hespeler, Ont., May 15.—A most miraculous escape from death occurred here to-day, when Mr. John E. Macklin was run over by an electric car on the Galt, Preston & Hespeler Railway. He was walking on the track, and evidently did not know the car was behind him. The motorman sounded the alarm repeatedly, but Mr. Macklim could not hear it owing to the noise made by a railway train passing close by. Owing to the down grade the car was running rapidly and could not be stopped in time, and the young man was struck fairly in the back. The car passed over him, but fortunately he escaped the wheels. He was stunned and very badly shaken up, but no serious results are anticipated.

Arrested Under the Charlton Act.

Blenheim, Ont., May 15.—Constables Hallmond and Grant arrested a young man named Thomas Bonnar, who lives near Ridley, for an offence under the Charlton Act. The complainant is Miss Ella Gable, Ridley. The accused will be tried before Magistrate Gosnell here Monday.

The Rite of Confirmation.

The Bishop of Huron, assisted by the rector, Rev. A. Hart, held confirmation services in St. Mary's Church, Bloor-street and Concord-avenue, yesterday morning. There were 21 candidates—9 males and 12 females—presented for confirmation.

Business Embarrassments.

J. F. Saunders, dry goods, Digby, N.S., is offering 40c on the dollar in 3, 6, 9 and 12 months. Several Toronto houses are interested.

An offer of 40c on the dollar has been made by W. Fry, general store, of Seguin Falls. The liabilities are $2000.

Cucumbers and melons are "forbidden fruit" to many persons so constituted that the least indulgence is followed by attacks of cholera, dysentery, griping, etc. These persons are not aware that they can indulge to their heart's content if they have on hand a bottle of Dr. J. D. Kellogg's Dysentery Cordial, a medicine that will give immediate relief, and is a sure cure for all summer complaints. ed

FINANCIAL.

Business on the local stock exchange was quiet and featureless.

There was no session of the Montreal Stock Exchange to-day.

Consols are 1-16 to ⅛ higher to-day, closing at 113⅝ for money, and at 113 7-16 for account.

Canadian Pacific ¼ weaker in London at 55¼.

American securities in London were quiet and irregular to-day. St. Paul closed at 74¾, Erie at 12¼, Reading at 9¼, N. Y. C. at 101½, and Ill. Central at 95.

In Paris 3 per cent. rentes are easier at 103 f. 32c.

The total bank clearings of the leading cities in the United States for the week ended May 13 were $1,003,409,490, a decrease of 1.8 per cent. as compared with the corresponding week of last year. Outside of New York City the clearances were $447,806,803, a decrease of 4 per cent.

The Bank of Montreal annual statement is out. It shows a net decrease of $10,634 as compared with the previous year. The net profits for the year are $1,230,569 as against $1,241,196 last year, $1,210,436 in 1895 and $1,313,289 in 1894. The balance of profit and loss carried forward amounts to $886,900.08, an increase of $30,561.74.

NEW YORK BANK STATEMENT.

The Associated Bank statement was favorable to-day. Cash reserves increased $394,525, and the surplus is now $44,470,275 as against $18,577,970 a year ago, and $37,587,900 two years ago. Loans increased $1,031,000 during the week, specie increased $561,500, legal tenders increased $295,000, deposits increased $1,851,500, and circulation decreased $188,200.

GOLD EXPORTS.

Henry Clews & Co. say: Gold shipments for the week are expected to aggregate about $3,000,000. At the current rates of exchange, gold can be shipped to the Continent at a moderate profit, and as the supply of produce bills is not large there is no visible prospect of an immediate cessation of the outflow. In estimating the importance of this movement, however, it is to be kept in mind that the current remittances are due chiefly, if not entirely, to quick payments for the extraordinary importations being made in anticipation of an advance in tariff duties; the effect of which will be to correspondingly diminish remittances which, in the ordinary course, would have occurred some months later.

The only disturbing factor in sight is the revival of the Cuban question now under discussion in the United States Senate. This is calculated to cause some selling of long stocks and a lower range of prices in consequence.

TIPS FROM WALL STREET.

The market closed steady at a slight rally from the lowest prices of the day.

The annual report of Rock Island, to be published early next month, will show that the physical condition of the property has been thoroughly kept up. Earnings upon the dividend will not vary much from the figures of the previous year, showing about 1 per cent. in excess of the 2 per cent. payments. The company has a surplus of $3,000,000, in round figures, and is expected to benefit—in addition to the favorable indications for a large corn crop—its main source of revenue—by one of the largest winter wheat crops ever harvested on the company's lines.

The most active stocks to-day were: Sugar 9700 shares, W. U. 2200, R. I. 2200, St. Paul 3400, Jersey Central 2000, Reading 3000, L. & N. 2000, Burlington 8300, Omaha 2900, Chicago Gas 11,600, Leather, pref., 3500.

McIntyre & Wardwell (John J. Dixon) received the following despatch to-day from New York:

The stock market was weak and more active to-day. The Grangers were a feature with a rather sharp decline in Burlington. It was notable that there were no reports from the news agencies to-day on "glorious spring wheat prospects." It is apparent now that the bull pool were selling when those reports were so numerous a few days ago. Chicago Gas declined rapidly apparently on liquidation. There was no news from Springfield or otherwise affecting it. Evidently the Cuban situation has provoked quite a little liquidation in the general stock market, but the bears are cautious and in the trading to-day it seemed they took long stock. Sugar as usual was contrary to the general list. It recovered an early decline, closing the same as last night. Cuban affairs are expected to be the influence in speculation Monday. Fighting still going on between the Greeks and Turks, and the Sultan has refused an armistice. On this the European markets are waiting ones. London did nothing here to-day. This week's bank statement shows an unexpected increase of $800,000 in cash, in spite of the continued gold shipments, indicating that idle money is coming from the interior. Deposits increased $1,851,000. Trade reports for the week are negative. Many iron and steel establishments are suspending operations. Clearings this week decreased 1.9 per cent. For the ten months which ended April 3 the United States shows an excess of $269,000,000 in the value of exports over imports. Foreign exchange is dull at $4.87¼, but it is thought further gold shipments will occur next week.

CHICAGO GOSSIP.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

Wheat—The market opened at 73⅝c, an advance of ¼c over last night's closing price. Armour commenced to buy early and prices went up only a fraction, then Farnum, Bartlett, Ross, Gearhart and Norton Worthington jumped into the market, and started to dump large lines, and the price quickly declined to 72⅝c and 73½c for July options. The San Francisco market was very weak, and that clique sent considerable bearish gossip, which had a weakening tendency on this market. The export demand continues good, and there was about 28 loads worked to-day, and it extends all the way to October shipments. It was rumored that Mitchell sold out his line early, and was a good buyer in the last hour, causing prices to harden slightly. There were good sales of cash wheat here. The liberal sales at Duluth, the stiff premiums for May wheat at the seaboard markets, the talk of low reserves and prospects of unusual reductions before new wheat can be had, all ought to help to make a higher market next week. The present situation in the wheat trade was never before known with the price under $1. It is an absurdity that is phenomenal and consequently cannot last long. Our stocks have been melting away rapidly under domestic demand alone. The clearances now beginning of wheat bought for foreign account will, if they continue, cause alarm among our traders who have relied upon the indifference of the consumptive and the absence of speculative trade.

Corn and Oats—Opened up strong this morning, and ruled very active during most of the session. On the advance commission houses became free sellers and the price quickly receded about ⅝c, where a little buying by room operators took place, and steadied matters a little. Receipts were small, 105 cars corn and 200 cars oats. Cash demand brisk, early. The close was rather tame.

Provisions—But little support was given to provisions to-day. Packers and professionals were free sellers. Receipts were also liberal, 16,000 hogs, with 42,000 estimated for Monday. Prices broke sharply and ruled weak all day. Buying orders were small and insignificant. The close was weak at about lowest prices for the day.

McIntyre & Wardwell (John J. Dixon) received the following despatch to-day from Chicago:

Wheat—The decline of ½c in wheat today was due to persistence of short sellers, and as there was not much outside support, the market could not resist the load of wheat thrown upon it. The news was not bearish. Cables steady and there was a good demand for wheat in this market. We think sales will aggregate fully 250,000 bushels. It looks as though the visible supply will show over 2,000,000 bushels decrease on Monday. We can see no reason for any decline, and firmly believe that there are "breakers ahead" for the bears.

Provisions—Opened steady and sold lower on free offerings of July pork and ribs by John Cudahy's brokers. Patten sold September lard. Receipts of hogs continue too large to hold the product at present figures. Estimated hogs Monday 43,000; next week 160,000.
