LITERATURE.

"MEMOIRS OF MARGARET FULLER OSSOLI."—2 vols.—[Boston: Phillips, Sampson & Co. 1852.

Our readers can scarcely have forgotten the narrative which appeared in all our newspapers, of the fearful shipwreck of the Barque "Elizabeth," on the coast of New-Jersey, just as she was on the point of reaching her desired haven, Philadelphia, on the 19th of July, 1850; by which catastrophe the fair and talented lady above named, her husband, the Marchese Ossoli, and their only child, met an untimely and melancholy end. The volumes before us contain a highly interesting memoir of MARGARET FULLER, one of the most gifted and talented of the many intellectual females who figure in the literary history of the United States; who afterwards, by marriage with an Italian nobleman, became the Marchesa Ossoli; and whose deplorable death by shipwreck, within sight of her native land, has added a melancholy romance to the details of her interesting career. Those who can enjoy the records of the sayings and doings of a noble-minded and highly gifted woman; and mental communion with the spirit of such a being, by a perusal of many of her stirring thoughts and words, will derive the greatest gratification from these attractive volumes; and we therefore heartily recommend them to the perusal of every literary mind.

HINTS ON HEALTH; *with familiar instructions for the treatment and preservation of the Skin, Hair, Teeth, Eyes, &c.*"—By WILLIAM EDWARD COALE, M. D., Member of the Boston Society for Medical Improvement; Fellow of the Massachusetts Medical Society, &c.—[Boston: Phillips, Sampson & Co. 1852. 16mo. pp. 207.

A truly valuable little Treatise; conveying most important information and practical directions, relative to the physical characteristics, proper treatment and preservation of the various external components of the human body. The *Skin*, the *Hair*, the *Nails*, the *Teeth*, the *Eyes*, the *Ear*, the *Hands* and the *Feet* are successively treated upon, on philosophical and medical principles; all the diseases to which those important members and their respective functions are subject, the abuses habitually practised upon them by their misguiding proprietors, and their proper remedies, are most lucidly and instructively developed; and the whole forms a practical treatise of the greatest utility to every human being.—Writing at a great distance from home, we cannot conveniently accompany this brief notice with extracts from the work; or we should be strongly tempted to append some valuable excerpts, especially on the interesting subjects of *tight shoes* and *tight lacing*; but we cordially recommend the little book to general perusal, both masculine and feminine.

Peter's Island Light.

The Light Beacon erected on Peter's Island, at the South entrance of Westport, on the East side of the Bay of Fundy, shows Two WHITE LIGHTS, horizontally placed, (to distinguish it from Brier Island Light) at an elevation of 40 feet above high water mark. This beacon is intended to lead vessels into Westport or through Grand Passage, and will be seen on the approach from Seaward and St Mary's Bay, until abreast the S. W. point of Brier Island, bearing from it S. 51 deg. W. and Darmouth Point on Long Island side, S. 20 deg. E., and on the North side, (coming out of the Bay) between N. 11½ deg. E. and N. 25 deg. E. When in the Passage, or fair-way through, the Light will be seen all round and can be passed on either side; but the Eastern Passage is the deepest and widest, and is recommended to strangers. The best anchorage is on the Brier Island, or Western side of the Harbour.
