ST. LAWRENCE MARKET.

Receipts of farm produce were 20 loads of hay, 10 loads of potatoes, with a large basket market of butter, eggs and poultry. As is usual on Saturday there was a large number of visitors and buyers at the farmers' basket market and at the butchers' stalls.

Hay—Twenty loads sold at $14 to $15 per ton for old timothy, and $9 to $10 for new.

Potatoes—Ten to fifteen loads of potatoes were brought in by farmers and market gardeners, which sold at 70c to 80c per bushel. J. J. Ryan, one of the largest wholesale dealers, bought over 300 bushels at the above prices.

Butter—Deliveries were large. Select lots of dairy to special customers sold at 24c to 25c, but not any higher and there were few farmers got these prices, the bulk selling from 22c to 23c per lb., and some lots as low as 20c.

Eggs—New-laid eggs, as is always the case in harvest time, when farm yard hens get all the grain they can eat, were more plentiful, and few farmers got the highest price, 25c per dozen, as they were slow sale at that price, the bulk selling at 22c to 23c and some held eggs sold at 20c to 21c per dozen.

Poultry—Deliveries of spring ducks and spring chickens were equal to the demand. Ducks sold at 16c to 18c per lb., early in the morning for prime lots, but later in the day prices dropped to 14c and some were offered to the butchers as low as 12c per lb. Chickens sold at 14c to 16c per lb. for the bulk of offerings, but there may have been a few extra large pairs that sold as high as 18c to 20c, but these were the exception, and not the rule. Fine chickens of last year's crop sold at 10c to 12c and 13c per lb. Turkeys, 14c to 16c per lb.

Market Notes.

R. Barron & Son, Park, Thompson & Co., John Paterson for Swan Bros., and Mr. Tomalin were the heaviest buyers of choice poultry.

Brown Bros., the St. Lawrence butchers, got 25 pairs spring chickens, averaging 8 lbs. per pair, at 18c per lb. Three prime quality new milk fed veal calves at 9½c per lb., dressed weight.

M. P. Mallon, the wholesale dealer in poultry, reports the supply as not being very heavy during the past week, but quite equal to the demand. Mr. Mallon is remodelling his place of business, which, when completed, will be up-to-date in every respect, and he then expects to do a larger trade than ever. Mr. Mallon stated that his total sales last week would not reach 150 pairs all told. The warm weather, farmers busy harvesting, and many people out of town, are some reasons for this state of the trade.

John Abate, the largest retail fruit dealer at the butchers' market, reports doing a fair trade, but choice fruit scarce and very dear to buy.

George Puddy of Puddy Bros., reports all kinds of prime quality meats as being scarce and high in price, but thinks the prices of live hogs will be lower this coming week.

E. T. Carter & Co., 85 East Front-street, reports prices for wool and hides as being easy at quotations given below. Mr. Carter reports large quantities of wool as being offered at country points, much of which has been offered to them, and some from unexpected quarters.

Chicago Gossip.

Ennis & Stoppani wired to J. L. Mitchell, McKinnon Building:

Wheat—Wheat to-day reached another low level under pressure of hedging sales, occasioned by a continuation of liberal acceptances on the part of the producers and also improved in the tenor of reports regarding the Russian crop. Aside from these items there was little in the way of news of sufficient importance to carry any weight as a market factor and the trade was very largely of a local nature. We look for lower prices next week.

Corn and oats were steady early, but yielded to the pressure of sales by local holders and also some improvement in crop news. We look for further declines.

Provisions were again featureless.

Melady & Co. had the following at the close of the market:

Wheat—Lower cables, heavy receipts, and no outside speculation created another weak market to-day. September wheat sold into new ground. There is a small foreign enquiry, but not of sufficient volume to check the decline. The weather is all that could be desired and the Russian political news is more assuring. We can see nothing to give an immediate sustained advance, unless the weather turns more unfavorable. We look for a scalping market with perhaps a downward tendency. Trade cautiously.

Corn—Lower to-day, owing to the weakness in wheat and small cash demand. This market is only a scalping affair and traders should take small profits whenever they have the opportunity.

Oats—Heavy to-day, there being no short interest to help sustain prices and a less urgent cash demand. We can see nothing to outs but one side, and that is to sell the May on all bulges, covering when they make new low record, in order to take advantage of the next bulge to sell again.

FRUIT WAS VERY PLENTIFUL.

Trading in Local Market Saturday Was Brisk.

Saturday's trading on the wholesale fruit market down at the foot of Scott-street was probably as heavy as any day during the season, while prices were generally well maintained. In the early forenoon there was a decided tendency to lower values and several lines, notably raspberries, made a sharp decline, but a brisk demand all thru the afternoon had the effect of toning up the market, which was sufficiently strong to fairly well clean up all Canadian stocks. With the close of the season for cherries, prices are a trifle firmer. The present week will probably be about the last for this fruit. Good peaches are hard to obtain outside of California stock, which sells at from $2.50 to $2.75 per crate. Inferior Canadian white peaches sell at about 50c a basket. Everything points to a great scarcity of plums, while apples will, it is said, yield much better than it was expected. We quote prices to-day as follows:

LUNATIC JUMPS FROM WINDOW

Last Seen on Thames Bank Gesticulating Wildly.

London, July 28.—(Special.)—Walton Hastings of Wingham, incarcerated in St. Joseph's Hospital here, insane, with a special nurse to watch him, jumped from a two-storey window on Wednesday midnight and escaped. No effort has yet been made by that institution to capture him.

It is not known yet whether or not he is drowned. The last seen of him he was running wildly along the bank of the North Thames, gesticulating and calling out: "Eternal hell and death for me!"

A posse has been organized and the countryside will be searched by the authorities.

THIRTEEN CLEAN SCORES IN GLIDDEN TROPHY RUN

Automobile Tourists Will Probably Draw Lots for the Prize.

Brettonwoods, N.H., July 28.—The thirteen automobile tourists who to-day finished the 1134 mile run thru New York, Canada, Maine and this state without penalties during the ten days' test over a great variety of roads for the second trophy offered by Chas. J. Glidden of Lowell, Mass., probably will draw lots for the prize.

Sixty-three cars started from Buffalo on July 12, and made runs averaging about 130 miles a day with three stops at Saratoga, Quebec, and Rangeley. When the tourists left the latter place this morning for the final 125 mile run to this place, 14 had clean scores. No penalties were inflicted until the cars were within six miles of Brettonwoods, when Ezra E. Kirk of Buffalo slipped a chain and lost 2 minutes.

There were two other accidents to cars which were not in the hunt for the trophy. At Dixfield, Me., a steam car, owned by Walter White of Cleveland, Ohio, caught fire, and was destroyed. A few minutes later the car of A. K. Grant of Tarrytown, N.Y., ran into a ditch and was drawn out later disabled. It was thought that many of the cars would suffer while climbing Cherry Mountain in Jefferson, near the finish, but fourteen accomplished the feat without penalty, the Kirk car having its accident some distance further on.

The following finished with clean scores: P. S. Flinn, Pittsburg; G. W. Davis, Buffalo; W. E. Wright, Springfield; W. C. Walker, Hartford; E. Keeler, Lansing, Mich.; Chas. B. Burman, Cleveland; George Soules, Toledo; F. E. Wing, Boston; G. G. Buss, Buffalo; L. A. Petre, Cleveland; C. F. Barrett, Hartford; Percy Pierce, Buffalo; A. E. Hughes, Philadelphia.

For the Deming trophy, C. W. Kelsey and A. A. Post will also have to draw lots, as both finished without penalties.

The participants in the Glidden tour, while weary from the long trip and almost continuous strain of living up to the arduous conditions, were enthusiastic over the run.

INOCULATE MICE.

Experiments May Throw Light on Treatment of Cancer.

London, July 29.—Dr. Bashford, superintendent of the laboratory of the imperial cancer research fund, gives the results of the inoculation of 100,000 mice. "Scientists," he said, "are now able to produce at will in mice all the features of spontaneous cancer, and to protect healthy mice from all the consequences of inoculating them with experimental cancer.

"This having been achieved," he adds, "it is not too much to hope that the further developments of the experimental study of cancer will yield results having a direct bearing on the nature and treatment of the disease."

After repeated failures during the thirty years, the fund has been able to obtain offspring from mice suffering naturally from the disease, and in the near future it may, in consequence, be possible to conclude whether cancer in man is or is not hereditary. Sixty per cent. of the spontaneous cancers which Bashford referred to had been got to grow in mice previously healthy, and, in the view of scientists, this points to the conclusion that all malignant growths are transplantable.

The experiments were so successful that, whereas, of 100 ordinary mice, ninety developed tumors after inoculation, none of the "protected" animals developed the disease. Dr. Bashford added a note of warning for fear the results might give rise to exaggerated expectations. It was not possible, he said, to arrest the progress of experimental tumors, much less to effect a cure of the disease occurring naturally.

DID SELWOOD SUICIDE?

George Selwood, a local real estate man, is dead. He was found in his bed at 210 West Richmond-street on Saturday. Asphyxiation was the cause of death. Selwood was quiet and about 55 years of age, and well-known. The body is at Miles' undertaking establishment on College-street, and Coroner Pickering has issued a warrant for an inquest to-night. The circumstances point to suicide.

Los Angeles, Calif., July 28.—A local Southern Pacific passenger train today ran into a Sierra Madre electric car of the Pacific electric road at Onenta station, crossing near Pasadena, killing a Mexican woman and injuring sixty persons, several probably fatally.

The dead and most of the injured were passengers on the electric car, all being residents of Sierra Madre.

The conductor of the electric car stepped from his car just before reaching the crossing and went ahead to see if the crossing was clear. He did not see the train approaching rapidly around a curve, and signalled the motorman to go ahead. The locomotive struck the street car in the middle, lifted it from the tracks and carried it 200 feet down the tracks. Passengers were hurled in every direction. The locomotive and the first coach of the train ran into a ditch.

They went on the lake about 9 o'clock, and the young men began to skylark. This was more than the boat could stand, and all four were thrown into the water.

The young men were unable to rescue the girls. When the men found they could not save the girls, they tried to escape thru the woods, but were captured and placed under arrest.

TO COMBAT SMOKE BYLAW.

The Employers' Association has in its possession a fine panoramic view of Toronto, taken from the Temple Building by a new swing view camera mounted by W. J. Johnston, an Ontario man now resident in Rock Springs, Wyoming. It is 5 1-2 feet long and will be utilized by the association in combatting the smoke nuisance regulations. The picture takes in the entire factory district from Adelaide on the south, and shows that the only serious smoke nuisance is from the Toronto Railway and Toronto Electric Light Company chimneys, with the addition of another large stack in the east end.

NO "MRS. WARREN" AGAIN.

Actor Daly Has No Desire to Produce Shaw Play.

New York, July 29.—Arnold Daly, an actor, who has made the American public acquainted with many of Bernard Shaw's plays, returned from Europe yesterday, after a six weeks' stay in Europe, most of which he divided between Carlsbad and Ostend.

Mr. Daly brought back the rights to several new plays, but said that he would not this year produce any new Shaw plays, and, furthermore, that although he had been upheld by the courts he did not intend to produce again "Mrs. Warren's Profession," except perhaps at one matinee.

"I transacted all my business with Mr. Shaw this time by letter," said Mr. Daly yesterday. "It is more interesting and correspondents may blackguard each other with comparative safety. Mr. Shaw has been trying to persuade me to 'do' another piece of his over here, but I have decided otherwise.

"With the Shaw plays I have already produced 'Candida,' 'How He Lied to Her Husband,' 'You Never Can Tell' and 'The Man of Destiny.' I shall have enough of repertoire for my season on the road, which begins in Philadelphia on Oct. 1.

"I am thinking of Ibsen's 'Pere Gynt.' I have an option on a new play by a French author, whose name I am not yet at liberty to mention, which Beerbohm Tree is going to do in London. Then I have 'The Monkey's Paw,' by W. W. Jacobs, which Louis J. Parker is to dramatize; a play by Cosmo Hamilton, which he wrote for Sir Henry Irving, called 'Grandfather Coquesne,' and another called 'The Flag Station,' over the authorship of which there is a quarrel just now.

"Besides these I have obtained the dramatic success of Paris, 'Apres l'Opera,' which has been played at the Grand Guignol. This story is by Jean Reibach, and the dramatization by Georges Docquois. I expect that this play will make a success.

"I should like to say most decidedly that 'Mrs. Warren's Profession' will not be played, altho the courts have decided I am at perfect liberty to produce it. After the notoriety it had last season it would attract none but the morbidly curious, whom I have no desire to cater to. The play will not be played except for a matinee on some particular event, perhaps for the benefit of broken down newspaper men."

ONE BED FOR ALL.

A group of drummers were trading yarns on the subject of hospitality, when one, a little Virginian with humorous eyes and a delightful drawl, took up his parable thus:

"I was down in Louisiana last month travelin' cross country with S. J. Carey, when we kinder got lost in a mighty lonesome sort of road just about dark. We rode along a right good piece after sundown, and when we saw a light ahead, I tell you it looked first-rate. We drove up to the light, finding 'twas a house, and when I hollered like a lost calf the man came out and we asked him to take us in for the night. He looked at us mighty hard, then said: 'Wal, I recon I kin stand it if you kin.' So we unhitched, went in, and found 'twas only a two-room shanty and just swarmin' with children. He had six, from 4 to 11 years old, and as there did'nt seem to be but one bed, me an' Stony was wonderin' what in thunder would become of us.

"They gave us supper, good hog and homing, the best they had, and then the old women put the two youngest kids to bed. They went straight to sleep. Then she took these out, laid them over in the corner, put the next two to bed, and so on. After all the children were asleep on the floor the old folk went in the other room and told us we could go to bed if we wanted to, and bein' powerful tired out, we did.

"Well, sir, the next morning when we woke up we were lying over in the corner with the kids, and the old man and the old woman had the bed."—Lippincott's Magazine.

TRAINS ROBBED IN POLAND BOOTY IS TAKEN FROM EACH

Skirmish Follows First Hold-Up and High Officers of Army Are Killed.

Sly 28.—Two daring train robberies were committed in Russian Poland to-day, one of them resulting in considerable loss of life.

A train from the frontier station Herby, bound for Czenstochowa, was carrying money received from the customs house to the branch of the Imperial Bank under protection of seven frontier guardsmen. Gen. Zukat, chief of the frontier guards; General Weitenring, chief of the customs service of Warsaw, and Colonel Brazezicki and Captain Laguma were passengers.

Fifteen persons boarded the train at a way station. They evidently had been waiting for it and made an attack on the guardsmen, who were reinforced by the officers named. A skirmish followed, in which the two generals, two officials, five soldiers and one robber were killed, and Colonel Brzezicki and one robber wounded. All the wounded and dead were taken to Czenstochowa. The robbers escaped, taking $8000 and the arms of those who had attempted to defend the train against robbery.

The second robbery was committed to-night on the Warsaw-Vienna Railway, six miles from Warsaw. While the train was under way, unknown persons pulled the danger signal, causing it to stop. Robbers, who were aboard, jumped out and seized the locomotive and detached the mail car from the train and ran it down the line. They secured $37,500 of government money.

The robbers were fully informed that the train had the money on board. They carried red flags and are supposed to be members of the Polish socialist party. The train was without a guard and hence there was no fighting and no casualties. Efforts to capture the robbers failed.

The robber who lies wounded at Czenstochowa is in a serious condition. He refused to give any information concerning his accomplices.

Public disorder is growing daily thruout Russian Poland, and scarcely a day passes without some robbery or other crime being recorded.

To-day a panic occurred in a public park here. Many shots were fired, and one person was killed and four were wounded. It is believed to have been an attempt by revolutionary agents to precipitate an outbreak.
