[illegible] from the Porte the appointment as Minister of War, with the powers of Commander-in-Chief of all the Turkish forces. On being refused, he sent in his resignation, which has been accepted. Private advices do not confirm this.

The Sultan's decree in favour of the Christians had been read in presence of the Turkish dignitaries at Constantinople.

Thirty thousand Russian are employed day and night in constructing tripple rows of piles right across the Gulf of Finland, 12 miles across and 6 miles from Cronstadt; within are a few openings, behind which is a steam fleet of 18 ships, 14 corvettes, and 70 gun boats.

A Russian ukase orders the immediate issue of treasury notes in seven series, amounting in the aggregate to 21,000,000 of roubles. Within the past few weeks large amounts of specie had been forwarded across the Russian frontier, to the address of Strightz & Co., St. Petersborgh, the Russian Court Bankers.

Great energy is manifested in Russia in advancing railways.

The relations between Russia and Persia increase in cordiality.

GREAT BRITAIN.

There is some talk, but merely talk, of an early dissolution of Parliament on a change of Government. The rumour, however, had affected the Funds.

On Wednesday the 27th, the Lord Mayor of London assembled a distinguished party at the Mansion House to meet Minister Buchanan, previous to his return to America. Unfortunately Buchanan was the same day invited to dine with the Queen, and etiquettte required him to give Victoria's dinner the preference. The Mayor made a speech regretting the absence of Mr. Buchanan, because the reception he would have met with would have proved to him the absence of all unfriendly feeling in Britain as regards the United States.

Parliamentary proceedings interesting. It is reported that Government succumbs in the Wensleydale peerage, and will issue a new hereditary patent. Lord Derby meantime has obtained a committee of the Lords to define the appelate jurisdiction of the House of Lords.

In the Common, DeLacy Evans gives notice of a resolution disapproving of the Government having refused direct offers of troops from Canada, while at the sametime abortive attempts were made to enlist men in the United States.

The Military Court of Enquiry into the Crimean Commissioners Report, is to be an open Court.

The Liberal electors of London have under consideration, whether again to contest the question of Jewish enfranchisement in the person of Baron Rothschild, or to elect a more serviceable representative.

Lowe's "Local due on shipping" bill is withdrawn, and it is rumoured that Lowe, its author offered his resignation, which Lord Palmerston refused to accept.

Muntz of Birmingham had moved for a select committee to enquire into the present monetary system, motion refused by fifty majority.

On Friday night, Mr. Roebuck moved the following resolution "that the appointment of a committee of General Officers, to report upon the report of Sir J. McNeil and Colonel Tulloch, is to substitute an inefficient for an efficient mode of enquiry, and that the effect of such appointment will be to hide the misconduct of those by whom the various departmenss of our Army have been subjected to the command of Officers who have been in-culpated by the Commissioners appointed to inquire into their conduct." This motion was intended to defeat the Ministry on a division, but after discussion was withdrawn.

The Protocol of Warsaw of 1852, relative to Danish succession was laid before the Commons.

Frauds of the late John Sadlier continue to develop; amount not known, but supposed immense. Allan & Gallispie have applied for permanent berths in Wellington dock, Liverpool, for the Montreal Ocean Steam Company. Fog guns are to be placed at Holyhead.

The Paris Constitutionnel, under the head of "the Holy Alliance," indicates that the congress will not occupy itself exclusively with the subjects arrising out of the war, and say it is not impossible that certain important events which since 1818 have modified the State of Europe, as it was defined by the congress of Vienna, will engage the attention of the conference of Paris. The editorial goes on to intimate that the treaties of 1815 will be essentially remodeled.

The Paris Patrie takes the same strain, and quotes also an editorial to the same effect from the Journal of Frankfort, endeavouring to prove that the present conference will obliterate all vestiges of the once famous alliance against France. "The revolutionary propagandism," says the Patrie, "has long made an instrument of the revision of the treaties of 1815, abusing, as in many other instances, a patriotic and national idea, to turn it into an element of disorder; but now, thanks to the imperial policy, thanks to the success of our arms, thanks to the confidence that France inspires throughout the continent, from the wisdom as well as the strength of its government, it is now, in the name of conservative ideas, that people are asking in Germany for a revision of the treaties of 1815."

We were informed last night, that Lord Cowley is expected in London this afternoon, to take the instructions of his Government on the subject.

The London "Times" says:—A number of rumours were circulated that the Conference at Paris had taken an unfavorable turn, and as some persons were ready to believe that all the precautions that were taken for secrecy, had merely proved useless against the means of information possessed by a few of the speculative dealers in Stock Exchange, a fall occurred of more than 1 per cent., as the close of business approached and none of the rumours thus put forth received confirmation, a rally occurred.

Looking at the agitation on the London Stock Exchange, the Paris money market may be considered to have exhibited great firmness.

The following American transports, are at Marseilles, namely:—The Great Republic, Albion, Tempest, William Dickie, Lady Suffolk and the steamer City of Washington.

FRANCE.

Paris is extremely gay; there is one continued round of festivities in honor of the diplomatists assembled.

It is announced that if Napoleon's child be a boy, the Emperor of Austria will be Godfather by proxy, and the Pope will come personally to Paris to baptize him.

Washington's birthday was duly celebrated by Americans in Paris.

Paris, Feb. 29th.—The Congress has not met to-day, but will sit to-morrow. Rumoured break up of the Conference. Agitation in the Money Market.

The Morning Advertiser says:—"It is not improbable that the result of this new mode of the artful diplomatists of Russia may be, the immediate breaking up of the conference."

A very grave hitch in the conference has already occurred—though the fifth point is the last of all, it is agreed to take it first. It was accordingly on the second meeting of the conference submitted for the consideration of the plenipotentiaries. No sooner had it been formally laid on the table, then Count Orloff and Baron Brunow took objections to its being taken into consideration with a view to its being decided by the Conference; they proposed that it should be referred to a Congress of all the crowned heads in Europe; if so referred, they pledged themselves in the name of the Czar to abide by whatever decision that congress might come to; this new and unexpected phaze in the Eastern question has produced consternation in Paris, and caused a further fall in French funds. It has also no less surprised and alarmed our own Government.

SPAIN.—It is reported that Gen. Concha will be created Count or Marquis of Havanna.

SWEDEN.—Stockholm to be fortified by land and sea, including valley of Maular.

MR. WILMOT'S SPEECH.

We publish the manly, and highly satisfactory vindication of the honorable gentleman, with much pleasure. We do not recollect ever having read a more triumphant refutation of foul and calumnious charges against a public character, than the one now before us. Not satisfied, however, with vindicating his own reputation, so maliciously assailed by the Provincial Secretary, Mr. Wilmot fearlessly walks into the camp of the enemy—scatters his sophisms to the winds, and ably exposes a large amount of unmitigated hypocrisy.

The new Engine belonging to No. 2, Fire Engine Company, underwent a public trial in the Market Square, on Wednesday afternoon, which proved most satisfactory in every respect. This really beautiful machine surpasses in elegance all other Engines in the City, and we best judge of its capabilities, from the opinion expressed by the members of No. 2. Company that their Engine is *quite* a match for either of the seven imported and very excellent engines now in this City. Mr. Lorenzo T. Langan conducted the trial, and we understand Mr. L. has been most untiring in his exertions in bringing forward this splendid article, which is wholly of domestic manufacture.

THE NAUTICAL MAGAZINE for March has been received. It contains more than the usual amount of valuable information in Naval matters, besides several practical plates on the same subject. No Ship builder should be without a copy of this valuable work.

"A BOOK FOR THE YOUNG."—This is the title of another work recently published by the Messrs. McMillan, from the pen of Mrs. SARAH FRENCH. It is a pleasing and instructive volume, upon various subjects, and contains 176 pages. We trust the talented authoress will be generously supported in her laudable endeavours to disseminate useful instruction among the rising population.

FREDERICTON, March 13.

There was another discussion in the House this morning in reference to the rule for receiving Bills of a local nature. The Bill provided for the amendment of the Charter of the City of Fredericton, and the decision of the House resulted in the suspension of the rule.

A Bill to amend the Act relating to highways introduced by Mr. McLellan, was postponed for three months. There was a discussion similar to that which occurred yesterday, on a Bill relating to the extension of the Gaol Limits of Carleton County. Bill postponed for 3 months.

The Bill to continue the Act incorporating the Sons of Temperance, was again taken up—Mr. Stevens in the Chair.

The Bill was opposed by McPhelim, Allan, Gray, J. A. Harding, Watters, and End.

Supported by the Speaker, McLellan, Connell, McAdam, and Tilley.

Mr. Allan moved its postponement for three month—lost by vote 14 to 22.

Mr. End moved that the Charter extend only to 1859. Also lost. Bill read section by section and adopted. Charter to extend to 1863.

House adjourned a few minutes after 6.

CITY ELECTION.—On Monday last the annual election for Mayor took place in this city. The candidate were W. H. Needham, Esq., (the last year's Mayor) and Robert Gowan, Esq. Mr. End retired from the contest. The return showed Mr. Needham 302 votes, and Mr. Gowan 257 majority 45. Many electors staid away from the poll. The friends of Mr. Gowan did not bring him into the field until last Saturday night, consequently he had but little chance of success.—*Head Quarters.*

A most astonishing cure of a Bad Breast by Holloway's Ointment and Pills—Mrs. Holt, of Quebec, was for a long time afflicted with a bad breast, every thing medical aid could do to cure her was unavailing, indeed, it became much worse, and the family surgeon finally suggested that the only hope of saving her life consisted in having the breast cut off. She determined to wait a short time to consider, and a sister of the sufferer who called in brought a quantity of Holloway's Ointment and Pills, which she insisted on using *and* rare at first, this was continued for a few days, which improved her so much that she was induced to continue them, and the expiration of six weeks, her breast was completely cured, and has remained well ever since.

Dr. Noble's Invigorating Balm.

THIS admirable preparation is the most effectual remedy known for Baldness and falling off of the Hair, giving it a rich glossy appearance, unequalled by anything of the kind. It contains no alcohol or alkaline substance, (as all the washes do which are now used,) and will restore the natural colour after those articles have deprived the hair of it. We can refer enquirers to persons, both old and young, many of them who have been bald several years, and have had their hair stored by this preparation. It acts by assisting nature and will in no way prove injurious. Prepared and Sold by FELLOWS & CO.
