—Rev. J. Philp, B. D., will preach anniversary sermons at Watford on Sunday. His pulpit in East London will be supplied morning and evening by Evangelist May, of St. Thomas.

—Rev. Leonard Gaetz, of Red Deer, N. W. T., formerly pastor of Queen's Avenue Methodist Church, will preach at the opening of the new Methodist church in East London on Sunday, Oct. 30.

—The members of the Young Liberal Club propose forming a debating society, and a meeting for this purpose is to be held on Monday evening next, in their club rooms, Oddfellows' Building.

—Rev. Dr. Field, delegate from the Irish Assembly to the Pan-Presbyterian Council, Toronto, has accepted the invitation of the Y. M. C. A. to address a mass meeting in Victoria Hall Sunday afternoon. Dr. Field preaches in St. James' Presbyterian Church Sunday morning and evening.

—The Falcon Concert Company's concert at St. Marys, under the auspices of the Athletic Association there, was a big success, the opera house being crowded. The soloists in the first part were: J. Flemming, S. Drennan, J. T. Leech, W. J. Element, J. O'Neil, C. Tatham and C. Williamson. The bones were: S. Drennan and C. Tatham, and the tambos E. Griffith and W. J. Element. Then followed fancy club swinging by C. Stevens, Scottish dances and Irish jigs by Messrs. Galbraith and May, "The Whistling Coon" by S. Drennan, songs and parodies by J. Flemming, and a roaring afterpiece, "Fun in an Irish Police Court." The musical director was Mr. B. Chadwick, to whose efforts much of the efficiency of the performance was due.

"Sport" at Stratford.

The St. Catherines Lacrosse Club was in the city last night and some of them looked as if they had gone through a threshing machine. They said that they had played in Stratford against the club of that city and had won by a score of three to one, and that afterward the Stratford players and their friends mobbed them and treated them in a most disgraceful manner. One man had his head cut open by a blow received, he said, at the hands of a Stratfordite, and others showed signs of having undergone similar treatment.

Funeral of the Late Thomas Green.

The funeral of the late Thomas Green yesterday was one of the largest ever held in London, all classes of citizens turning out to pay their last respects to one whom they had held in high esteem. The employes of deceased to the number of about 50 marched in a body and were followed by scores of vehicles, the funeral cortege being several blocks in length. Rev. George Boyd, Rev. J. S. Laird, Rev. Dr. Antliff, Rev. J. R. Gundy and Rev. Mr. Kennedy (London township), performed the religious rites at the house and the grave. The pall-bearers were: Thos. McCormick, Sheriff Glass, George Robinson, W. R. Hobbs, Alex. Harvey, John Christie, Samuel McBride and Col. Lewis. The remains were interred in Mount Pleasant Cemetery.

The Housekeepers' Mission.

The object of the semi-annual meeting of the Housekeepers' Mission held in the "Y's" rooms was to prepare for the winter's campaign. Very little fruit had been sent in; and the ladies hope that their friends will not forget the work, but that, as it was last year, so this year there may be abundance on hand when the monthly distributions begin with the first Saturday in November. Not only are the different homes provided with fruit, but the sick and aged among the poor so far as known are supplied with a share of these creature comforts. Ladies having little delicacies, such as creams, soups, etc., left after parties or socials, even if only a cupfull, might cheer and held some poor sick one by sending it to the "Y's" rooms, 271 Dundas street, whence it will at once be taken to some needy one whose address has been left with Miss Kirkpatrick, the energetic and never tiring secretary, to whom this society, as well as others, owe so much. The pleasure of thus carrying comfort to the needy and deserving from the common store is one of the privileges open to all the members of this worthy mission.

Collection of Taxes.

The finance committee of the council at a meeting yesterday afternoon took up the matter of having the taxes collected in the city treasurer's office in future. Ald. Parnell's ideas were submitted in writing. He viewed the question from three points —is it practicable? is it advisable? would it be beneficial? His answer to the three was yes. He thought that a good live man could be employed at $700 a year and with an assistant at $300 a year could do all the work of collecting the taxes in the treasurer's office. The council will be recommended to take no action. A letter was read from Mr. V. Cronyn, president of the London Street Railway Company, regarding the city engineer's report to the council of the amount of material furnished the company by the city. He stated that not more than one-tenth of the amount stated by the engineer had been provided, and that the engineer's object was to prejudice the minds of the widermen against the street railway company. The detailed accounts will be looked into. John Epsom, of Bayfield, wrote regarding the construction of a branch of the C. P. R. to that place. The mayor will communicate with Mr. Van Horne regarding the matter. Numerous petitions for remission of taxes were taken up and the committee adjourned. Ald. Gartshore (chairman), Dreaney, Judd, Jeffery, Yates and Leonard and Secretary Pope were present.

A Fine Concert in London West.

Mayor Spencer presided at the concert given last evening in the London West Methodist Church in aid of the organ fund. Some of the best talent in the city contributed to the entertainment, which was a rare artistic treat. Financially it was a success, as the church was filled. The programme was as follows:

THE BOARD OF WORKS.

A Variety of Things Attended To—No Funds Reported—Wharncliffe Road to be Blocked Up.

Ald. Connor (chairman), Bartlett, Shaw, Jones, O'Meara, City Engineer Graydon, Secretary Bell and Commissioner Owen attended a meeting of No. 2 committee last night. Caretaker Grant, of Victoria Park, thankfully acknowledged flower pots from Mrs. E. W. Hyman and Mrs. Harris.

County Clerk Robson asked if the city intended making a park out of the southwest part of the Court House square as suggested, otherwise the fences needed repairing. A sub-committee will report.

James Magee applied for leave to cut down four or five trees in front of his property on Albert street. Granted.

R. W. Sharpe and others asked for the immediate construction of a sewer on Oxford street, between Richmond and Wellington streets. Referred to assessment commissioner.

The question of graveling the Wortley road between Alma and Stanley streets had been referred by the council. The engineer said there was no money to the credit of the committee. "No funds" will accordingly be reported.

The ever-recurring Emery street drain came before the committee again by the council's order. The assessment commissioner's report stated that the petitioners did not represent a sufficient frontage. No action was taken.

Mr. Waldrie called attention to the condition of the south side of Stanley street, between the Wortley and Wharncliffe roads. It had been laid thirteen years, and the snowplows could not possibly be used on it. The committee will recommend that it be attended to if there are enough funds.

Alex. Harvey complained of a sidewalk at the corner of Talbot and Oxford streets which was too low. The water flowed over it in wet weather. Will be looked after.

Maurice Baldwin will be asked again to lay some blocks on Carling street west which he promised to do.

The dangerous condition of the Wharncliffe bridge was commented upon. Chairman Connor said the reeve of Westminster assured him that the township council would pay half of the cost if the county would not. The road will be blocked up until something is done.

The old asphalt walk on the east side of Adelaide street, south of Dundas, will be replaced.

Ald. Bartlett—If there's no funds how is all this going to be done?

Ald. Connor—Never mind; it's fun booking it anyway.

The weekly paysheet amounting to $163 was signed by the chairman.

A sidewalk will be laid in front of the new St. Joseph's Hospital.

The October Arena (Boston) contains a paper on Edward Hugh Sothern, the actor. It is superbly illustrated and written in a charming style by Miss Mildred Aldrich, the editor of the Mahogany Tree, of Boston. Another installment of the Bacon-Thakespeare controversy in this number will prove of general interest. Among the papers treating serious moral, political and reformative problems are the following, all of which are from the pens of eminent thinkers: Has Islam a Future? The Negro Question in the South; Should the House of Representatives be Limited to its Present Number? Social and Economic Influences of the Bicycle, The Church and the World, Astrology Fin de Siecle, A Plea for the Prohibition Party, and The True Character of Christopher Columbus, a scathing arraignment of the great discoverer. The last half of the Symposium on Women's Dress, prepared under the auspices of the National Council of Women, appears in this number. Among the contributors are Lady Harberton, of London, Octavia W. Bates and Grace Greenwood. The editor contributes an illustrated paper in favor of inprovement in woman's dress.

WHY NOT?

You have corns, warts, bunions, moles or cancers? Why are they not cured? You ask a reasonable question. It demands a candid answer. You have it here: You bought a corn cure. You thought you had Barkwell's, but it was not the genuine; you got a counterfeit. It was no more use than water. We missed the sale of what you wanted. So far, it is your money gone; our money is gone too. You get another and think it is the genuine. You have made a mistake and we are in disgrace. More of your money's gone; more of our money is gone. Your corns are no better; our reputation no better. You make up your mind they cannot be cured. We have lost a customer. You have got hold of the wrong end of the fact. You have got hold of the wrong bottle. Both our moneys are gone. Not only our moneys are gone but our opinions of one another are wrong. We don't know you by sight or name. You don't know us. We think "how dull you are to get an imitation when you might as well get Barkwell's Sure Corn Cure." And you think "what fools the manufacturers of that corn cure are to cheat so." Let's get acquainted with one another. Let's get acquainted with Barkwell's Sure Corn Cure. The manufacturer is not the unhandsome name you call him by. And you can't help it. Come on. Nobody deals more handsomely. Nobody ever loses a cent by getting Barkwell's Sure Corn Cure, but they always lose a corn. We never had any trouble except by these infernal counterfeiters. Neither do you with Barkwell's Sure Corn Cure. v

ENGLAND AND THE CONTINENT.

Mr. Sutherland Gives His Audience a Peep at Some Portions—An Interesting Lecture.

"A Peep at England and the Continent" was the title of a lecture last evening in Victoria Hall by Mr. J. Burt Sutherland, of Montreal, formerly of London. It was gratuitously given by Mr. Sutherland in aid of the Y. M. C. A. building fund. The speaker depicted faithfully in fine language the scenes he had visited while abroad, and related many interesting facts, figures reminiscences and associations connected therewith. In those of his audience who had been over the ground traversed by Mr. Sutherland, it awakened delightful recollections, and it proved both entertaining and instructive to all. Many of the cathedrals and historic places of old England were graphically described. The lecturer dwelt on the marvels of the world's metropolis. London's birth rate was 46,000 souls annually; it had over 1,000 ships and 10,000 seamen in in its port every day; had beer shops and gin palaces which, placed side by side, would stretch 78 miles; had 38,000 drunkards yearly before its magistrates and had 70 miles of open shops every Sunday. There were 298,000,000 letters delivered annually; 850 trains passed Clapham station daily and 1,211 underground trains were run; 130 persons were killed and 2,600 injured on the streets yearly by vehicles, it being more dangerous to walk than to go by rail. The city had 15,000 cabmen, 15,000 policemen and 15,000 officials in the postoffice. Its sewage system was superb and the death rate very low. The streets stretched in a line would reach from New York to Liverpool; the population to pass in a procession walking in twos would take nine days and nine hours to pass a given point.

The speaker then glanced at Europe, principally Switzerland. In descriptive Mr. Sutherland is particularly good and he gave perfect word pictures of the points he had visited. He told of the beautiful cathedral at Antwerp, 500 years old, and of the immortal painting of the great Ruebens, portraying the ascent to and the descent from the cross by the Saviour. The beautiful city of Brussels was taken in, and from there the speaker drove to the battlefield of Waterloo, which aroused many stirring thoughts of the great event which marked the downfall of the "Man of Ambition." The charms of Switzerland, the land of mountains and lakes, fragrant with the memories of Calvin, Knox, Gibbons, Byron and other great men who found pleasure, rest and inspiration in its beauteous environments, were vividly brought to mind, no spot of note escaping the lecturer.

At the conclusion, the chairman, Mr. J. Frith Jeffers, tendered Mr. Sutherland a vote of thanks which was carried with tokens of appreciation. A collection was taken up in aid of the purpose already mentioned.

While in this state a friend recommended me to try a bottle of Northrup & Lyman's Vegetable Discovery. I used one bottle, and the permanent manner in which it has cured and made a new man of me is such that I cannot withhold from the proprietors this expression of my gratitude."
