MEDICAL.

CONSUMPTION CAN BE CURED.

Ontario Pulmonary Institute
135 Church street, (opposite Metropolitan church), TORONTO, ONT.
M. HILTON WILLIAMS, M. D., Graduate of Victoria College, Toronto, and member of the College of Physicians and Surgeons of Ontario.
Proprietor.
The only Institute of the kind in the Dominion of Canada.
Permanently established for the cure of all the various diseases of the Head, Throat and Chest, viz: Catarrh, Throat Diseases, Bronchitis, Asthma, Consumption, Catarrhal Ophthalmia (Sore Eyes), and Catarrhal Deafness. Also Diseases of the Heart. Nearly 40,000 cases successfully treated during the past 16 years by our new system of Medicated Inhalation, combined with proper constitutional remedies for the blood, etc.
CHRONIC LARYNGITIS.
Laryngitis, like nearly all affections of the throat and nose, usually begins with a severe cold, and is must always attended with hoarseness. It is more frequent a mere extension of catarrh of sore throat than an original disease, the irritation escaping down and fixing itself upon the delicate organism of this part, and then gradually journeying onward to the lungs. When it occurs as a cons quence of catarrh or sore throat the symptoms are comparatively mild. There may be pain, but it is more common to find only a sense of tickling, which provokes cough. Many complain of a sensation as of "something tickling there," to get rid of which they keep up a r sping effort to clear the windpipe. The voice is always more or less affected, being rough in the early stage, but more feeble aft r the disease is established. There is often a slight tendency over that prominence of the neck known as the "Apple of Adam" (Pomum Adum), a heat and a sense of tightness, and frequently some slight difficulty in swallowing.
In this form the disease is simple and readily removed in a few weeks. In all cases it must be treated by the direct application of astringents and alternatives by inhalation to the affected parts Like catarrh and granular sore throat it is a local affection and cannot by be cured by local treatment. There is no use of torturing the unoffending stomach for an inflamed condition of the vocal chords of the larynx. Change of air is equally unavailing, for there is no climate without dust and draughts of air sufficient to feed and keep the disease alive. The inhaling instrument charged with such sedative, alternative and astringent medicine as may be indicated by the stage of disease must be used morning and evening and every night before going to bed, and the larynx fumigated by warm, sedative vapors. Treated by these means there are few cases of Chronic Laryngitis which are not readily curable.
Inhalation is the only system which will cure these diseases, and yet the treatment of the two are entirely different. In the one we must allay the irritation, while in the other we must stimulate a healthy action.
This will convince us of the necessity of fully understanding the system of Medicated Inalation in the treatment of the various diseases of the pulmonary organs, for when properly applied there is no system of medicine to be compared to it.
Those who desire treatment should spend no time in writing; if you can come to the Institute this month or this week it may be of the greatest possible value to you; it may be the turning point of your disease for fatality or recovery. Later in the season probably you cannot come more conveniently nor as well.
Consultation free, and prices within the reach of all.
The very best of references given from those already cured. If impossible to call personally at the Institute, write for a "List of Questions," and "Medical Treatise." Address
ONTARIO PULMONARY INSTITUTE, 135 Church street, Toronto, Ont. 246
Mention The World.

DEATHS.

BEARD—On Monday the 14th inst., at 204 Jarvis street, Robert Beard, (brother of the late J. G. Beard) in the 75th year of his age
Funeral to-morrow afternoon at 3 o'clock.

Bush Fires in Massachusetts.

WALTHAM, Mass., Aug. 14.—There is terror among the people of north Sandwich to-day. A orest fire which burned over two thousand acres of woodland is now burning houses. A train to Buzzards bay last evening was stopped by a woman who said the village was in danger and needed help. The fire has crossed the railroad and is making fearful havoc among valuable wood lots of that district. Women fought the flames with men night and day. Many people narrowly escaped suffocation, being obliged to lie flat on the roads to allow the flames to run over them. Hundreds of people are flocking to the fire.

THE LAND OF PHAROAH.

PROGRESS OF THE TROUBLES THAT BESET EGYPT.

The Mending of the Proclamation under Discussion—A Complaint from Germany and the Health of the Army.

CONSTANTINOPLE, Aug. 14.—It is understood that divergences of views exists between the Porte and Lord Dufferin respecting the wording of the proclamation against Arabi. Dufferin desires a plain, simple proclamation in Turkish and Arabic that Arabi is not Cherif but an ambitious, lawless adventurer. England insists upon commanding the Turkish troops. It is stated the question will be brought before the conference. The irade declaring Arabi a rebel and authorizing the Anglo-Turkish military convention is not yet signed. The conference met at the residence of Said Pasha to-day and discussed the question of the protection of the Suez canal, but no discussion was reached. It is believed the resolutions of the conference in relation to this matter have no immediate important bearing on the situation. It is understood the majority of ambassadors favor bringing the conference to a close or adjourn its sittings.

AT THE CONFERENCE.

Several stipulations are proposed in the military convention considered unacceptable to Turkey. The proclamation against Arabi will not be issued until the convention is signed. The session of the conference to-day was exclusively occupied by the consideration of the proposal of Count Corti, the Italian ambassador, for a collective police supervision of the Suez canal which was finally agreed to as a temporary measure, with modifications submitted by Lord Dufferin permitting the landing of troops. The propositions were then embodied in the protocol. Turkey's objection to the military convention was not brought forward by Said Pasha.

ARABI'S SUBMISSION CONFIRMED.

The News' Paris correspondent states that Caukers' telegrams from Egypt confirm the report that Arabi will submit to the Sultan.

GERMANY'S COMPLAINT.

BERLIN, Aug. 14—The National Zeitung states that petitions from the chambers of commerce throughout Germany to Bismarck regarding the edification of German merchants who suffered by riots at Alexandria is increasing, and adds that the question of the amount of compensation may form a subject of discussion between German and the Egyptian cabinets hereafter.

THE HEALTH OF THE ARMY.

ALEXANDRIA, Aug. 14—The sick list of British troops issued before the arrival of the guards show out of a total of 5400 there were 76 invalids, exclusive of wounded.

PROGRESS OF THE CAMPAIGN.

The khedive has appointed fifteen of his household officers to act as guides and interpreters to the advancing English army. Arabi's troops are unusually busy erecting earthworks beyond Millaba Junction.

Several Abyssinian pumps have been sunk about the English positions and answer the requirements of the English army. Good water is quickly found.

Last evening some shots were exchanged. Several prisoners were captured near the canal. No casualties. Lake Mareotis near Millaba junction is fast drying up. People are thus enabled to go to and from Kafre El Dewar beyond the reach of guns of our forts.

A captain in the Egyptian army, supposed to be a bearer of despatches to Arabi, was captured at Suez, a number of Arabic documents, supposed to be important, were found on him. The Bittern has returned from a mission to Jaffa. Some Sheikhs in the vicinity of Jerusalem have been arrested.

There is much excitement at Port Said. An outbreak is thought possible at any moment. The ships are ready for action. One hundred pounds of ammunition is served nightly. The steamship Palmyra arrived with a 16 pounder battery.

A man implicated in the massacre of June 11, on trial before the native tribunal, confessed guilt and declares he would do the same thing again if the opportunity offered.

Lieut. Smith Dorrien of the Invincible has undertaken a remarkable enterprise to be carried out to-night, the particulars of which will not be made public.

ENGLAND AND ASIA.

The Secretary for India on the Financial Outlook—Two Ameers Who Can't Agree—Fast Indian Troops for Egypt.

LONDON, Aug. 14.—In the house of commons the Marquis of Hartington in a speech of the Indian budget said the Indian government wanted largely to reduce the military establishment but the home government vetoed the reject. He hoped the reduction would be feasible hereafter but if reorganization was contemplated the scheme must receive the sanction of parliament. He said it was estimated that the surplus for the next financial year after providing for increased pay for subordinate officials would be £3,171,000. This will be applied solely to a reduction of the salt duties.

CALCUTTA, Aug. 14.—A fight is imminent between the troops of the ameer of Afghanistan and those of the ameer of Miamund.

It is generally believed in Calcutta that the Indian contingent for Egypt will be raised to 10,000.

He stated that the Indian government roughly estimated the expense of the Indian contingent for Egypt at £1,830,000 for three months.

Railway Collision.

HILGERS CROSSING, Ohio, Aug. 14—A collision occurred yesterday between passenger and freight trains on the Cleveland, Marietta railway. Both locomotives were wrecked and many passengers injured. Miss Josie Carr was pushed from the caboose by some excited person and run over and killed.

Gladstone on the Cloture.

LONDON, Aug. 14.—Mr. Gladstone stated the condition on which the government offered to accept a compromise on the cloture. The resolutions having been changed they decided to adhere to the original proposal of a simple majority. He said he would be ready to consider any changes the house regarded desirable.

Inspecting Canadian Boats.

WASHINGTON, Aug. 14.—The supervising inspector of steam vessels is preparing instructions regulating the governing of the inspection of foreign vessels under the recent act of congress. Two New York inspectors were detailed for duty on the lakes at certain periods. The steamers first inspected will be those of New York and Canadian and New York and West Indian lines.

WAS SHE MURDERED?

A Drunken Woman and Her End.

HAMILTON, Aug. 14.—Elizabeth Thorpe was found dead in her bed in Ancaster village this morning. She and her husband were drunk all day Sunday. A wound was found on the side of her head produced by a blunt instrument. A stone was found in the room which might have produced the wound. Her husband denies any knowledge of the affair. An inquest will be held.

A COSTLY KISS.

An Artist and Magazine Agent Arrested in Passaic, N. J.

PASSAIC, N. J., August 12.—A man giving the name of David Andrews was arrested here to day for kissing the fourteen year-old daughter of Mrs. Tucker, who resides on Madison street, this city. He was representing himself as an artist, and as an agent for a publication called Fashion Magazine. He was offering two chromos as an inducement to subscribers and giving a receipt for $1 on account, the rest to be paid on delivery of the publication. It seems that he became infatuated with the little daughter of Mrs. Tucker against her knowledge, and offered the mother the two pictures for the privilege of allowing him to sketch her daughter's arm. They went to the parlor, and he requested the mother to retire for a few moments. While she was absent he kissed the girl. The daughter's screams attracted her mother, who rushed for an officer and had Andrews arrested. He was brought before justice Norton, who placed him under $200 bonds, which not being obtained, he was committed to Paterson Jail. He gave his business as travelling agent for Brady & Company, No. 143 Broadway.

UNITED STATES NEWS.

The hop crop promises a low yield.

John McCurtain has been elected principal chief of the Choctaw nation, beating Smallwood, the anti-railroad candidate, by a large majority.

The first bale of the new cotton has reached New Orleans. It is two weeks late.

Archbishop Nestor of the Russian church, who has charge of the diocese of Alaska, while on passage from St. Michaels jumped overboard. He was of unsound mind.

MANITOBA NEWS.

Progress of Track Laying—The Thunder Bay Branch not to be Opened this Year.

WINNIPEG, Aug. 14.—The rails are laid 347 miles west of Winnipeg.

The Times announces officially that the Thunder Bay section of the Pacific railway will not be opened for traffic this year.

The Heir Apparent's Health

LONDON, Aug. 14—The Times says that the Prince of Wales has been urged by his medical advisers to drink the waters at a German bath.

Duellists on Trial in Virginia.

MEHERREN, Va., Aug. 14—The trial of Richard Garland, indicted for the murder of James Addison in a duel on July 14 began to-day. The grand jury also found true bills against W. Boswell and John Roache as principals. The trial creates a great sensation.

THE GATES OF DERRY.

Demonstration of the Y.M.P.B.A.—Concert in the Evening.

The Young Mens' Protestant Benevolent Association (formerely Orange Young Britons) held a demonstration in this city in honor of the anniversary of the closing of the gates of Derry. There were lodges from Hamilton, London, Ingersoll, Kingston, Oakville, etc., numbering about one thousand in all. They marched through the city in full regalia, with bands and banners, and presented a creditable appearance. In the afternoon they held a picnic at the Adelaide street rink where speeches were also delivered by Grand Master Lucas of London, Harper of Hamilton, Past Master Gibson of Toronto, Rev. Mr. Adams of Hamilton, and Richard Reynolds. There were two cane contests, the first going to G. M. Lucas of London, and the other to Bro. Harper of Hamilton. In the evening a hop and concert came off in the skating rink.

Fire This Morning.

At 4 o'clock this morning a fire broke out in one of the workshops of Currie's old boiler-works, foot of Frederick street. The flames were extinguished in twenty minutes.

Rescuing a Prisoner.

At 3 o'clock this morning when the steamer Queen Victoria reached her wharf Officer Leggat was attacked by a gang of roughs and a prisoner whom he had arrested for disorderly conduct was released. The officer was roughly handled.

DOINGS OVER THE DON.

Kew gardens were crowded yesterday with private excursion parties, they were provided with lunch baskets and enjoyed themselves immensely.

Yesterday afternoon the grounds of Victoria park presented an animated scene. Crowds poured in by boat, tram cars and private conveyances all bent on pleasure intent. Aldermen Irwin was all around seeing that the visitors were comfortable.

Last evening at 6 o'clock the scene of the crowds coming back from the races at Kingston Road toll gate reminded one of an English Derby day. The toll collector was badly worked about every two minutes, he having to close his gates owing to the jam of vehicles preventing him picking up the dimes quick enough. County Constable Elliot was present to preserve order.

It was hoped that the report of the fatal accident at Winnipeg to Mr. S. Booth, (late of Riverside where he had resided many years,) did not allude to the deceased gentleman, but yesterday further telegrams were received confirming the sad intelligence. Mr. Booth, who lost his wife a few years ago, was highly respected over the Don and in Toronto, where he had carried on business as a builder for a number of years. He leaves a family of three daughters and one son, eldest 19 years.

The Letter-Carrier.

His daily round with patient tread
The trusty letter-carrier goes,
Though summer suns beat on his head,
Or round him whirl the winter's snows;
Through rain and sleet, through cold and heat,
He follows his appointed beat.

So day by day, through lengthening years,
The trusty carrier comes and goes,
Unconscious scattering smiles and tears,
Life's radiant joys, its sombre woes,
And seeking still, with patient will,
His humble duty to fulfil.

GEORGE BONUS LAIDLAW

AN INTRODUCTORY CHAPTER TO THE RAILWAY SWINDLE.

The Story of the Promoters—What they Told the Farmers—Spending the Bonds and then Wrecking them—A Sorry Record.

George Laidlaw was once known as the Canadian Railway King. He was a man full of go—of a certain kind—he had a knack of interesting people in his schemes, and a swashbuckler manner that did him good service when pressed for particulars which it would not have been convenient for him to give. He rode and drove through the country hunting bonuses:

HE TOLD THE FARMERS

and the municipal councils how that the railway monopolies shaved so many cents from each bushel of their grain and how that every head of stock would be worth so many dollars more a head if they had only railway competition; the buyers were to come to their doors and leave their shekels in the farmer's hand; farmers were to get good value for their right of way, new stations were to be built; the villages and small towns were to feel the impetus which competition brought; instead of the throb of trade they would hear a thump; Toronto was to be the great queen city of the west, seated upon the figurative hill, and twenty independent and competing lines of railway were to have their twenty stations along the Esplanade; in short universal prosperity was to reign—provided always the bonuses which the Laidlaw asked for were only voted by the sturdy yeomanry and enterprising villages he had the honor of addressing. Lesser lights followed in the same strain,

THE VILLAGE TAVERN

did a thriving trade, the council soon met, the by-law was submitted to the ratepayers, they sanctioned it, the debentures were made and sold, the money was handed over to the directors—and now the poor taxpaying gulls are yearly making up heavy interest and sinking fund bills, they have no railway competition, the monopoly is worse than before, rates are higher and things generally are in a sadder plight than ever. But the delusion and deceit practised on the innocent countrymen was not the worst part of this sorry record.

CORRUPTION OF THE MOST UNBLUSHING

kind was indulged in. Newspapers and editors were subsidized; and so were "stumpers" and members of the legislatures. A new and convenient form of bribery was invented or appropriated—we do not know which—the distribution of bonds among the needy. As soon as the Laidlow had hunted enough bonuses to put the road in shape and had the government interviewed by a "large and influential delegation" of the ratepayers suffering from the grinding monopolies of the then railways and had touched the heart of the ministers so that a subsidy was promised, his next move was

TO BOND THE ROAD,

a delicate and withal necessary operation. The directors would meet and a motion would be passed to bond the road at so many thousand dollars a mile. The promoter-in-chief would then hie off to the printer or lithographer and the bonds were duly executed and numbered. They were next placed on the market at ruinously low figures and some were sold; but the great bulk of them were "distributed." The directors would meet and first of all they would vote large doses of bonds to themselves; they ought to qualify in stock or bonds; they could not be expected to leave their business and stump the country for nothing; and so they voted themselves as in the case of the Crooked Valley $20,000 in stock and $10,000 in bonds, while

LAIDLAW GOT ALL HE WISHED.

All they had to do was to hunt them and vote them! What with the bonuses and the government grants and the proceeds of the bonds sold the roads were built. But somehow the roads when opened did not "pan out." The Crooked Valley was in constant financial difficulties. The directors had the bonds they had voted themselves, but they were worth little. The great question then was, how could they realize on these bonds? Only one way. That was to

WRECK THE RAILWAY

and get some rich man or other railway to gobble the line up. Then the bonds would be worth something. Accordingly every one of these "independent and coupling lines" was allowed to go to pieces; there were bold buccaneers on the shore waiting for the wreck; they bought up the bonds at low rates and entered into possession. Goodenham & Worts got the Toronto & Nipissing in this way; George Stephen the Crooked Valley; the Grand Trunk the Midland; Rice Lewis & Co. the Victoria; and so on through the list. These firms and men bought up the bonds from the wreckers and the roads passed into the hands of monopolies, the directors and promoters made money out of the deal, while the province and the municipalities were

UNMERCIFULLY SWINDLED.

To-morrow we will take up the Crooked Valley railway and give the details of Mr. Laidlaw's mismanagement of this line; how he distributed the bonds, who got them, and what they did for them. The other roads will follow. It is well that the public should know who were the men that talked them and the legislature out of twelve millions of dollars for independent and competing lines that have passed into the hands of the monopolies, thereby enabling these monopolies to be more exacting than ever.

A CHAPTER OF ACCIDENTS.

A Midland Brakeman's End—A Windsor Lumber Merchant Killed—A Leg Lost—Boy Crushed by a Tree—Was the Bridegroom Drunk with Prospective Joy?

PORT HOPE, Aug. 14.—A brakeman named Barnes was killed on the Midland, Saturday night, at Summit station, four miles from here. His train was on the grade and as he ran forward to the brakes he fell between the cars on to the track, the wheels passing over his neck. Death was instantaneous. The remains were sent to his home in Keppel, near Owen Sound.

While John Wright, coal dealer, was superintending the running of the donkey engine engaged in unloading coal his foot caught in one of the cog wheels and was mashed. The doctors say they may have to amputate the foot above the ankle.

ROMNEY, Aug. 14—An accident occurred seven miles below this place, in which James McAlister, son of John McAlister, a well-known lumber and timber merchant of Windsor, was killed. The timber was on a skidway and while the men were canting one piece, the stick behind, on which McAlister was standing, started to roll. McAlister losing his balance fell forward off the stick to the bottom of the bank. The stick following killed him instantly.

MARMORA, Aug. 14.—An accident occurred on the Ontario Central railroad near Wolf Creek by the falling of a tree. A young man named Mason, a son of Mrs. Mason of Marmora, was badly crushed, having his leg broken in two places and otherwise internally injured. His recovery is doubtful.

TRURO, N.S., Aug. 14.—On Saturday evening, Wesley Smith was dressing in his bedroom for his wedding which was to take place that night. He went to sit down on the window sill, the window being open. He lost his balance, fell out on the street and severely, perhaps fatally, injured his back.

THE NEW KIND OF DARK KNIGHT AND DARK HORSE.

In the olden days of chivalry according to the tales, a stranger knight, with covered visage
