HERBERT TELLS STORY OF CRIME WHICH MAY HANG GERALD SIFTON

With No Display of Bravado, But With Some Shrinking, the Crown's Star Witness Goes Into the Details of London's Sensational Case.

Senate Reading Room 11802 SENATE FO

London, Sept. 24.—Walter Herbert went into the witness box at the trial of Gerald Sifton for the murder of his father this afternoon and told a very straight story of the crime. He admitted having struck the first blow, but said he then threw away the murderous ax. Gerald Sifton picked up the ax and struck his father on three different occasions.

The elder Sifton was coming thru a trap door in the barn on his place, when Herbert struck him a glancing blow on the side of the head. The blow dazed Sifton, but he did not fall from the ladder. Gerald Sifton then seized the ax and rained three or four blows on top of the head. The now unconscious man was pulled up thru the opening and thrown on some hay. Here Gerald struck him twice, and again he did so before the body was let fall thru an opening in the end of the barn—a fall that the defence claim was the cause of death.

Herbert was then sent around to where the body lay, and placed it as Gerald directed, together with the ax and some stones, putting blood on the latter. The injured man's head was covered with blood. Herbert said Gerald told him to hit the old man again, as there would be "Hell to pay" if he came to. He struck the prostrate man twice on the head.

The witness said that he knew nothing of Sifton's intention to kill his father until the morning of the tragedy. He was milking as usual when Sifton called him and said he was going over to his father's to do away with the old man, and if he would go along as a witness and say there was no foul play should the question be raised, he would give him $1000. He consented. Not until the deceased was about to come thru the trap door was Herbert asked to assist. He then struck one blow, but evidently disheartened, threw the ax away. The younger Sifton then grabbed the ax and while belaboring his father w[illegible] You old — you won't fool me an[illegible]"

Herbert's story carried conviction with it. There was absolutely no display of bravado. Many times he seemed on the point of breaking down. Upon not a few points in the boy's story the Crown will bring forward strong corroborative evidence, and the defence recognize that they have an up-hill fight ahead.

MORNING SESSION.

London, Ont., Sept. 24.—The court room was crowded this morning when Mr. Justice MacMahon entered and opened the court, the first case on the docket being the charge against Gerald Sifton of murdering his father.

Gerald Sifton was alone in the prisoner's dock. He appeared to be somewhat nervous, but was by no means jaded by his summer in jail.

It took 70 minutes to get a jury, most of the challenging being made by the defence. The jury finally chosen is as follows: George Tyler, Delaware; James Bradshaw, Nissouri; David Robinson, McGillivray; Malcolm Leitch, Glencoe; James McLean, East Williams; Elgin Moore, Dorchester; William A. Aitken, Metcalfe; Martin O'Sullivan, London; John W. Laidlaw, Westminster; Alex. A. McIntyre, Wardsville; Thomas G. Turnbull, Lobo; George M. Branton, Lobo.

The legal counsel are Mr. W. R. Riddell, K.C., Crown Attorney McGee, J. B. McKillop, for the Crown; Mr. E. F. B. Johnston, K.C., of Toronto, and Mr. L. F. Heilmuth, T. W. Scandrett and J. McEvoy for the defence. On the suggestion of Mr. Riddell, before proceeding with the case, the jurors were taken to the scene of the tragedy. They were cautioned by the judge to speak to no one while away, and constables in charge were given extraordinary precautions to that effect. They left at 11.30 and returned at 2 p.m., when the case was resumed.

MAYOR CHAMPIONS CHORUS

Miss Evelyn Cox Chosen to Present Bouquet to Her Royal Highness.

ROUTE OF PARADE AGAIN CHANGED

Merchants of West Queen-Street Will Have Their Wish Gratified.

The Mayor is considerate of the comfort of the adult chorus since the Council has endorsed it, and now he thinks that accommodation should be provided for them in the City Hall while they are waiting for the Duke to come. This would necessitate the removal of the patriotic column in the main corridor, and Ald. Lamb objected to this proposal in the Board of Control yesterday. The matter stands where it is for the present.

The contract for erecting the colonnade and temporary station at North Toronto was awarded to R. Dinnis & Son at $1075, and for the erection of the stand for the children's chorus, Henry Martin, $1950. Mr. Martin will also erect the stand for the adult chorus at the City Hall for $701.

Outside Addresses.

The Mayor read a letter from Major Maude, stating that the royal party would arrive in Toronto at 2 p.m., Oct. 10, and will remain until 9 a.m., Oct. 12. Major Maude asks that the Mayor make the necessary arrangements for organization of the portion of the ceremony of presenting addresses from various places in the province. His Excellency would be glad if the Mayor would reserve suitable accommodation for prominent officials and recognized representatives of the press at the public functions.

Miss Cox Will Present the Bouquet.

The Reception Committee met yesterday, and Miss Evelyn Cox, daughter of Chairman Cox, was chosen as the young lady to present the bouquet to the Duchess. A plan for the illumination and decoration of the City Hall was presented by City Commissioner Coatsworth, whose ideas include a British coat-of-arms and maple leaves over the main entrance, Prince of Wales' badge over the windows of the County Court room, arms of the Duke of Cornwall over the windows of the Mayor's office, illumination of the clock dial and outlining of the tower with electric lights. The entire building will be lit up.

Col. Otter has been asked by Chairman Cox to entrust to the aldermen a number of reserved seats to sell and account for, with a view to foiling speculators.

The route of the royal procession may be slightly changed. After leaving the City Hall it is now proposed to have it proceed to Victoria-street, to Adelaide, to Church, to King-street, to Government House. The authorities at Ottawa will be asked to sanction the change.

The route to be followed by the royal party from Government House to the Exhibition grounds on the day of the review as arranged so far is via Simcoe-street, to Queen-street, to Jameson-avenue, to King-street, to Dufferin-street.

READING FOR THE RACE.

CHAIR OF DEATH AWAITS ASSASSIN SENTENCE TO BE PASSED THURSDAY

Jury Only Thirty-Three Minutes in Determining His Guilt—Medical Testimony Throws New Light on President's Death—Czolgosz Shows No Signs of Emotion.

Buffalo, N.Y., Sept. 24.—Leon F. Czolgosz, alias Fred Nieman, was to-day found guilty of murder in the first degree by a jury in part III. of the Supreme Court, in having on the sixth day of September shot President William McKinley, the wounds inflicted by such gunshots afterwards resulting in the death of the President.

The wheels of justice moved swiftly. The trial of the assassin consumed eight hours and twenty-six minutes, and covered a period of only two days. Practically all of this time was occupied by the prosecution in presenting a case so clear, so conclusive that even had the prisoner entered the plea of insanity it is doubtful if the jury would have returned a verdict different from the one rendered to-day.

The announcement made this afternoon by the attorneys for Czolgosz that the eminent alienists summoned by the Erie County Bar Association and by the District Attorney to examine Czolgosz and to determine his exact mental condition had declared him to be perfectly sane, destroyed the only vestige of a defence that Judges Lewis and Titus could have put together.

Before adjournment Justice White announced that he would pronounce sentence upon the defendant on Thursday afternoon at 2 o'clock. Czolgosz was immediately taken thru the tunnel under Delaware-avenue back to the jail. To all appearances he was in no way affected by the result of the trial.

The crowd which gathered at City Hall to-day was the largest which has seen him since his arrest. People were lined up on both sides of the big rotunda on the second floor, where court convened, and fringed the stairs leading from the floor above. There was no demonstration, except that of curiosity. A large number of women witnessed to-day's proceedings.

Several witnesses were examined at the morning session of the court, and gave details of the shooting and the confession of the assassin, which have already appeared in the press. Important evidence was given by Dr. Mann as to the wounds from which the President died.

Dr. Mann's testimony was in part as follows:

"Was the condition which you found at the autopsy to be expected from the nature of the wounds which the President received?" asked Mr. Lewis.

"It was not expected and was very unusual. I never saw anything just exactly like it," replied Dr. Mann.

"To what then do you attribute the symptoms or indications which you have discovered, the gangrenous condition of the wound?"

"It is very difficult to explain it. It may be due to one of several things, I think it would be necessary for further examinations to be made before any definite explanation could be made. That would be the duty of the pathologists."

"You have no opinion on the matter?"

"I have no positive opinion," answered the doctor.

Those Optimistic Bulletins.

"I presume, therefore, that the optimistic bulletins that were issued from time to time by the physicians were without any knowledge or suspicion of these symptoms that were afterwards discovered?" said Mr. Lewis.

"The bulletins on the conditions were optimistic in that they gave no idea of what was to come," was the reply.

"They expressed no opinion. They merely stated facts."

"But the opinions which were held by the staff seemed to be fully warranted by the condition of the President?"

"We had no reason to suspect the existence of any such state of affairs as was found," replied the witness.

"Now, doctor, you say it was due to several causes. Can you give either of them?"

"The entrance of germs into the parts may have been one of the causes. The very low state of vitality may have been one cause. The action of the pancreatic juice may have been one; undoubtedly it contributed to it."

"The germs which you speak of are present, I understand, in all our bodies?"

"Yes."

"And make their work prominent when the body is in any way injured?"

"That is true."

"That you expected, of course, in this case?"

"If the operation is carefully and pro-

Continued on Page 8.

NEW TEMPERANCE CRUSADE

Seventeen Non-Conforming Religious Bodies Have Pledged Support to Organization.

INAUGURAL MEETING TO-DAY.

Expected That 1,000,000 Abstinence Pledges Will Be Secured—To Fight the Demon.

Chicago, Sept. 24.—The Record-Herald's London correspondent wires: Exeter Hall to-morrow afternoon will witness the formal launching of the greatest temperance agitation ever undertaken in this country. Several meetings have already been held, but only for the purpose of exciting interest in to-morrow's elaborate inaugural movement, which is called "The Free Church Million Pledges Temperance Crusade." It has the organized support of seventeen non-conforming religious bodies in the United Kingdom.

Rev. Frederick B. Meyer is the leader of the crusade forces, and his principal active lieutenant is Dr. J. Q. A. Henry, superintendent of the Anti-Saloon League of New York. The entire country has been divided into districts and placed in charge of organizers. The free churches promise to break all records by their zeal and hard work, and finally to celebrate the acquisition of 1,000,000 total abstinence pledges.

Meetings in Every Hamlet.

Dr. Henry said to-night: "The most powerful preachers and the greatest Christian laymen of the kingdom have dedicated themselves to this holy war against alcohol. I shall address many hundred meetings in the chief cities of the country, and expect to perfect the organization, with their able assistance, and to make a deep impression. These efforts will represent only the central part of the agitation. Meetings of like character will go on simultaneously in every town and hamlet in these islands. We expect to put such pressure on the temperance people of Great Britain within the next two months as has never before been attempted.

Facing a Crisis.

"The country's need of this movement is imperative. All really great Britishers realize that they are face to face with a crisis. When Right Honorable Joseph Chamberlain, British Colonial Secretary, was Mayor of Birmingham, he said: 'England must conquer drink or drink will conquer England.' Thus far the fortune of war has been chiefly on the side of drink. The intelligence and morality of the kingdom are ranging themselves for a tremendous struggle."

Rev. Frederick B. Meyer said: "We have lost all hope that the government will help us in coping with drunkenness, since the government depends so largely for revenue on the drinking business; therefore the free churches have felt compelled to organize the most comprehensive and mightiest temperance crusade of modern times."

ROYAL PARTY SPEEDING WESTWARD LOYAL GREETINGS AT MANY POINTS

Ten Minutes' Stop at Renfrew Gave the Citizens a Chance to Present Bouquets and Raise Cheers—Train in Two Sections, Thirty Minutes Apart.

Sudbury, Sept. 25.—The Royal train passed here, westbound, at 12.25 a.m.

North Bay, Sept. 24.—The Royal train passed here, westbound, at 9.15 p.m.

WINNIPEG WAITING.

Winnipeg, Sept. 24.—Winnipeg is being soaked with rain to-night, and the flags and bunting already up for the Duke's visit on Thursday are somewhat bedraggled looking.

General Superintendent Leonard has gone to Fort William, where he will meet Their Royal Highnesses and accompany them over his division.

A special train, with detachment of eighty men, with officers of the Northwest Mounted Police, will leave Regina for Calgary to-morrow. The detachment will act as escort to Their Royal Highnesses during their visit to Calgary.

RECEIVED AT RENFREW.

Renfrew, Ont., Sept. 24.—As this is one of the chief stopping places of the C.P.R., the townspeople expected to get a good look at the royal party, and they were not disappointed.

The day was declared a part holiday, and between 2000 and 3000 people were massed about the station, the school children carrying flags. An enthusiastic welcome was accorded the royal couple as the train drew in almost on time. The Duke and Duchess graciously acknowledged the enthusiasm. Mayor Smallfield, Hon. Justice Craig, A. A. Wright, M.P., J. H. Watford and A. Gravelle, chairman of the Board of Education, John Mackay, president of the Board of Trade, and Miss Louise Barnet, who offered a beautiful bouquet of lilies of the valley, were present.

After about 10 minutes' stay, the train drew out amid hearty cheers. The local volunteer company, under Lieut. H. J. Airth, were proud of having received a command from the Duke. Renfrew is just a little more enthusiastically loyal than ever to-night.

FLED BY PEMBROKE.

Pembroke, Ont., Sept. 24.—Pembroke's Mayor proclaimed this a half-holiday to honor the passing of Their Royal Highnesses the Duke and Duchess of York and Cornwall, and also the arrival of Monsignor Falconio, the delegate of His Holiness, Pope Leo XIII. The town was en fete, and two pretty arches, one at the cathedral and one at the Bishop's Palace, were erected. The grounds of both places were beautifully decorated.

As early as 2 o'clock the crowds gathered at the C.P.R. Station to await the arrival of the different trains, and fully 2000 people spent the afternoon in joyous expectation of a glimpse of the Duke and Duchess, but the train fled by at 4.30 p.m. without even slowing up.

The Imperial Limited arrived a few minutes later, bringing the distinguished guest, Monsignor Falconio. At the station a procession was formed, headed by the Citizens' Band, followed by the different societies, school children, the delegate and clergy, also some prominent citizens in carriages. At the Palace Bishop Lorraine welcomed the distinguished delegate, and also the several clergy who arrived on the same train. To-night several addresses of welcome were read at the Cathedral, which was crowded, after which benediction was sung.

AGAIN AT ARNPRIOR.

Arnprior, Ont., Sept. 24.—The special train conveying the Duke and Duchess of York stopped a few minutes here on the way to the Coast. The station was lavishly decorated; over 3000 people were at the

LA PATRIE ON THE TROUBLE

Has Nothing to Say at Present, But Hints at What It Will Have to Say.

THREE KNIGHTHOODS RECOMMENDED

Mayor Prefontaine Again States That Changes Were Made Without Prime Minister's Voice.

Montreal, Sept. 24.—Hon. Mr. Tarte is in town to-day, and the expected article appears in La Patrie concerning the trouble in Montreal over the visit of Their Royal Highnesses.

"La Patrie," the article says, "has nothing to say at present; later on when we will have better knowledge of what really took place, we will see and judge for ourselves what has been the role played by His Excellency the Governor-General. La Patrie does not know yet. It must not be forgotten that Lord Minto can do nothing in such matters without the Colonial Secretary and the Imperial government. The Conservative newspapers say that Sir Wilfrid Laurier has been ignored. If such is the case it will be necessary to decide once for all if in the British colonies the Secretary of the Colonies can and does distribute honors on the personal advice of the Governor-General."

The Herald this evening says it is now stated on good authority that the Canadian government recommended that Knighthoods be conferred on the Mayors of Quebec, Toronto and Montreal, and on Senator George Drummond, and that the information that only C.M.G.'s would be offered the three former was not received until a short time before the Duke's arrival.

Mayor Prefontaine was approached this afternoon as to the truth of the foregoing. "It is quite correct," said he, "the names in question were recommended, but the Governor-General, without consulting his Prime Minister, undertook to change the recommendation. Such a thing is unheard of."

ONE POINT ABOUT THE VICTOR.

A Case in Which a $3.50 Boot Excels Other Boots at All Prices.

Many a man with a small foot has experienced the trouble of getting a pair of boots to suit him. The difficulty is that men's sizes begin at sixes. Below sixes they are called boy's boots, and are boy's boots, being more clumsy in shape and appearance and less finely finished. For a boy who wears out a pair of boots so quickly, a pair of the finely-made boots such as a carefully dressed gentleman wears would be an extravagance. But there are men who take boots smaller than sixes. What are such men to do? Heretofore they must either wear a clumsy pair of boys' boots or have a pair made to order at considerable extra expense. Victor shoes, however, are distinctive in this as in so many points—that they are made in both the five and five and a half sizes. This fact will be appreciated by men whose boot sizes do not come within the standard figures, as ordained by the long established custom of boot manufacturers.

Go to James Harris, manufacturing furrier. First-class work at moderate prices. Refitting a specialty. 71 King West, first flat. ed

Rare and Costly Furniture By Auction To-Morrow.

Mr. Charles M. Henderson will sell to-morrow, commencing at 11 o'clock, all the rare and costly household furniture, pianoforte, valuable paintings, bronzes, carpets, etc., in residence No. 99 Bedford-road, the property of Mr. James Wylie, who is leaving for England. Parties in want of high class furniture should avail themselves of this grand opportunity.

Edwards and Hart-Smith, Chartered Accountants, offices Canadian Bank of Commerce Building, Toronto.

There's Pleasure.

When you have smoked "Clubb's Dollar Mixture" you'll say: Ah! there's pleasure, and it pure and unalloyed. It smokes cool and will "positively not burn the tongue." It costs no more than the common kinds of tobacco. 1-lb. tin, $1; ½-lb. tin, 50c; ¼-lb. package, 25c; sample package sent anywhere on receipt of 10c. A. Clubb & Sons, 49 King West.

Perfection smoking mixture, cool and fragrant. Try it.—Alive Bollard.

RAILWAY WAR IN SIGHT.

Pennsylvania Railway Makes a Big Demand on George Gould.

Philadelphia, Sept. 24.—The Inquirer to-day says:

"A. J. Cassitt, president of the Pennsylvania Railroad Company, has demanded of George Gould the surrender of the Wabash Railroad system and the Wheeling and Lake Erie at a price which will net a profit to the Goulds, under threat of cutting off the whole of the Western Union Telegraph lines from the entire Pennsylvania Railroad system as well as from the Vanderbilt lines which agreed to the deal.

"This is a threat that means a war greater than any that has ever taken place in this country, and is comparable only with that of the Beech Creek and South Pennsylvania in 1886, which resulted in the abandonment of these lines, except as built, which were swallowed up by the Vanderbilts and the Pennsylvania.

"The penalty means that the Western Union will suffer the greatest blow in its history, and will lose many of its profitable lines which will be turned over to its great rival, the Postal Telegraph Company.

"This ultimatum means more than any other railway deal in the history of this country. It is believed that the Goulds will accede to the demand, and that the Pennsylvania will not only add nearly 3000 concomitant miles to its trackage, but will also get rid of a rival for the Carnegie steel business, which is the largest factor in the whole matter, resulting from a contract made by Mr. Carnegie with the Wheeling and Lake Erie, before the United States Steel Corporation was formed, and to carry out which the Goulds were trying to build a line into Pittsburg."

KILLED BY A TROLLEY.

Man Said to Be a Resident of Toronto Dies at Buffalo.

Buffalo, Sept. 24.—The Buffalo News says: Alexander Van Durand died at the Emergency Hospital this morning. On Sunday night, Sept. 17, Van Durand was riding a wheel on Main-street above Chippewa, when, in some manner, he was struck by a trolley car and thrown to the ground. His skull was fractured, as it proved, on examination, and in spite of the best medical skill, he passed away after lingering until to-day.

Van Durand had once lived in the city, on Brinker-street, but had changed his residence to Toronto, and was about to make that city his home. He leaves a widow, but no children.

There is no such name in the city directory.

WALKED INTO DEATH TRAP.

Rock Island, Ill., Sept. 24.—Frederick Lindloff, an aged farmer of Coal Valley, and his son John, lost their lives in a peculiar manner within the last forty-eight hours. The young man disappeared yesterday morning and the father started in search of him. The bodies of the two were found to-day in an abandoned coal mine on the Lindloff farm. They had been suffocated by gas.

Palm Garden open all winter. Delicious Hot Soda with Whipped Cream and Ice Cream Soda. Bingham's Drug Store, 100 Yonge Street.

REPORT DENIED.

The rumor that Mr. Henry Duncan, the Reeve of York, and the nominee in the Conservative interest for East York, has resigned the nomination, seems to be premature. Mr. Duncan has been confined to his home owing to an accident for the past two weeks, and is only now able to get down stairs to his meals. Mr. W. B. Clark, the clerk of York Township, when spoken to by The World last evening was emphatic in his opinion that there was nothing in the report.

Patents — Fetherstonhaugh & Co., King-street West, Toronto, also Montreal, Ottawa and Washington. ed

CLARKE WALLACE SICK.

Hon. N. Clarke Wallace, M.P., who returned to his home at Woodbridge a few days ago from a rather extensive journey, is reported to be confined to his house thru ill health.

Use Gibbons' Toothache Gum. Sold by all druggists. Price 10c.

COL. TUCKER SAFE.

St. John, N.B., Sept. 24.—The election petition against Col. J. J. Tucker, member for St. John City, in the Dominion House, was before Judges Hannington and Gregory to-day and was dismissed.

TO FEED STUDENTS CHEAPLY.

Chicago University Will Establish Experiment Station.

Chicago, Sept. 24.—The University of Chicago is planning to conduct an experiment station for the purpose of learning how cheaply it can prepare food for its students. It was announced at the university yesterday that the experiments would be carried on at a cafe in Ellis-avenue, opposite the campus. It will be the aim of Miss Yeomans, who will be in charge, to provide as many 5-cent dishes as possible.

This move by the university is for the purpose of getting experience which will be of value when the new commons is complete and furnished. Dr. T. W. Goodspeed said that the university would not plan to make money at the commons, but would feed the students good food at the lowest possible rates.

PRINTERS' HOME FLOURISHES.

Colorado Springs, Colo, Sept. 24.—The trustees of the Childs-Drexel International Union Printers' Home met here in annual session to-day. President J. M. Lynch and Secretary J. W. Bramwood of the International Typographical Union, William A. Mason of Nashville, Tenn., L. C. Shepherd of Chicago, R. L. Tatem of Philadelphia, and Thomas McCaffery of Colorado Springs were present. Meetings will be held thruout the week. Business of importance will be transacted. The home is full of beneficiaries. The affairs of the home during the past year have been successfully conducted. The institution was established in 1892.

SPANISH PORTS IN BAD SHAPE.

Gibraltar, Sept. 24.—Gen. Weyler, Minister of War, recently examined the military condition of Ceuta and Algeciras, the fortresses on the African and Spanish coasts respectively, which are of so much importance strategically with regard to the British fortress of Gibraltar. He discovered that even the most ordinary precautions had been neglected, and that the equipment was scandalously deficient. The Minister dismissed the two Governors from office, and ordered their immediate retirement.

SUBMARINE A SUCCESS.

Rio Janeiro, Brazil, Sept. 24.—Complete success has attended the tests of the submarine vessel Marques. The experiments were made in an aquarium and in the presence of representatives of the Brazilian navy. The question of longitudinal and transverse nautical stability was settled.

The press urges the Minister of Marine to begin the construction of submarines of this type.

Temple Cafe, Temple Building, corner Bay and Richmond Sts., city, acknowledged by all the finest restaurant in the Dominion. No place in Toronto can you secure the same service. Everything in season. Why? We have our own cold storage plant. Our charges are just as cheap as any of our competitors. A pleasure to show you through our dining rooms at all times. Open from 6.30 a.m. until midnight.—T. G. Davey, Manager.

POUNDED TO PIECES.

Wiarton, Sept. 24.—While the steamer Swallow was putting into Lion's Head this morning for shelter, the tow line parted and the tow barge Dacotah, partially loaded with ties, went on the rocks and pounded to pieces. The crew were taken off safely.

Cook's Turkish and Russian Baths Bath and bed, $1. 202 and 204 King W.

MAY BE MURDERED.

Gibraltar, Sept. 24.—It is currently reported that the two Spaniards, a boy and a girl, kidnapped last May by a marauding tribe at Arzilla, on the Atlantic coast of Morocco, have been murdered.

Pember's Baths and Sleeping Accommodation. 129 Yonge.

CONGRESS OF SOCIALISTS.

Bernstein Reappears After Exile—Prussia is Taking Notes.

Berlin, Sept. 24.—Herr Bebel, who was one of the principal speakers at yesterday's session of the German Socialist Congress in Lubeck, exhorted the delegates to moderation and self-control during the debates, which, he said, would develop sharp diversities of opinion.

An interesting feature of the Congress is the presence of Herr Eduard Bernstein, leader of the wing which discarded some of the chief doctrines of Karl Marx. This is Herr Bernstein's first appearance at the annual convention of the Socialists since his return from his long banishment.

At to-day's session it was announced that the Swiss Cruetli Association had decided to join the Social Democratic movement.

Herr Bebel, attacking the editor of The Vorwaerts, the Socialist organ, for not reporting Herr Bernstein's famous lecture, "Is Scientific Socialism Possible?" brought up the long expected Berustein debate. A violent attack by Herr Hoffmann brought Herr Bernstein into the arena.

Herr Bernstein bears a striking resemblance to M. Zola. He was listened to in absolute silence. He declared that he had nothing to retract, and he repudiated a decree to damage the party or to demoralize the proletariat. His contention was that scientific criticism of Socialism had a salutary effect and was necessary to its development.

"Is the doctrine of Marx," he asked, "an infallible bible of truth and incapable of improvement?" He asserted that if the Congress excluded him from the party it would be to the detriment of the party, as it would prove that the party feared the light of criticism.

The speech was greatly applauded, and after a slight discussion the Congress adjourned.

The Prussian Minister of the Interior has sent two official stenographers to make verbatim reports of the proceedings.

Maple Leaf Canned Salmon are packed from selected fish with great care. Every can is perfect. Ask your grocer for them. Nearly all grocers keep them.

SMALLPOX IN OTTAWA.

Of Seventeen Patients Only Four Have so Far Recovered.

Ottawa, Sept. 24.—The outbreak of smallpox in the city does not show any encouraging signs of abatement. For the past few days new cases have been reported daily.

One of the latest victims of the disease is a young man named Ernest McEwan, living at 32 Slater-street. Dr. Robillard diagnosed his case as one of smallpox, and he was removed to Porter's Island last night.

This morning a new case was reported to the Health Office from Bell-street, where a man named Brisbois is down with it. How the cases originated is difficult to ascertain.

So far 17 people have developed smallpox in the city. Of this number four have recovered and have been discharged from the Isolation Hospital.

Smallpox has broken out in the Census Department. This morning a young man named Jamieson, who was employed there and had been ailing for a few days, was examined by Dr. Robillard and was pronounced a victim of smallpox. He was sent to Porter's Island. Jamieson stayed in a boarding-house on O'Connor-street, where he came in contact with many people.

Several cases reported of late have developed in boarding-houses, and it is impossible to estimate the number exposed to the infection. Dr. Robillard states that the outlook is serious.

Cook's Turkish and Russian Baths, Bath and bed, $1. 202 and 204 King W.

OXYGEN NULLIFIES POISONS

Found to Be Antidote for Morphine, Strychnine and Arsenic.

Berlin, Sept. 24.—The discovery that pure oxygen is an antidote for many poisons is the startling result of experiments now in progress in the Berlin Institute of Physical Diagnosis, under the direction of Dr. Rogevin, a Russian medical scientist, in conjunction with Dr. William Cowl of New York. Numerous experiments in cases of morphine, strychnine and arsenic poisoning were made with cats, rats, mice and guinea pigs. In each case where oxygen was given an unqualified cure was effected.

The experiments were conducted in the utmost privacy, with the intention of making their result known for the first time at the German Medical Congress in 1902.

The health authorities of Berlin are keenly interested in the experiments on account of the possibility of saving the lives of suicides by this means. It is pointed out that 90 per cent. of suicides by poison are the result of morphine dyspnoea, against which medical autidotes are powerless.

SHEEP IN A GLACIER.

Prospector Finds Them Frozen at a Height of 8000 Feet.

Vancouver, Sept. 24.—The Dawson News prints a remarkable story about the prospecting tour, just completed, of H. W. Bracken, who has returned to Dawson after six months in Northern Alaska.

Bracken says that about 1000 miles from Dawson he and his servants ascended a glacier 8000 feet high. There they found a herd of mountain sheep frozen in the ice. The theory is that some extreme midwinter blizzard caught them while stampeding over the dome, and the sheep huddled together and perished, the snow gradually forming an icy coating.

Whatever parts of the bodies were above the ice had been devoured by Arctic bears and wolves.

Bracken is said to be a scientific miner, of 25 years' experience, having lived three years in the Yukon.

RUSHED THE VILLAGE,

But Brigands Had Gone Into Bulgaria With Miss Stone.

London, Sept. 25.—"Turkish troops," says a despatch to The Daily Telegraph from Constantinople, "rushed the village, where it was supposed the brigands held Miss Helen Stone, the abducted American missionary, but found it empty, the brigands having gone into Bulgaria with their captive."

Visitors to Toronto will not see the city without they visit the Temple Building, the finest Cafe in America. Everything in season.

TO-DAY IN TORONTO.

Canadian Conference of Charities, Normal School, 2 p.m.

Meeting of ladies re presentation to Duchess of Cornwall and York, Parliament Buildings, 3 p.m.

PRINCIPAL GRANT'S CONDITION.

Had a Comfortable Day—Slight Chill Shortly After Six.

Kingston, Sept. 24.—Principal Grant had a comfortable day with no change in the favorable conditions. He is very weak, consequent on the severe illness.

Among the many callers at the hospital to enquire as to his condition were Archbishop Gauthrie, Bishop Mills and Chief Justice Meredith.

Telegrams from all over Canada have been constantly received, expressing deep regret. Among the telegrams received was one from Lord Strathcona, who also sent a message of congratulation to the Principal on the royal honor he had received.

Shortly after 6 o'clock Principal Grant had a slight chill, which, however, speedily disappeared. Dr. Garrett at 8.30 o'clock reported that no serious effects had so far followed the unfavorable symptoms. The patient was resting nicely.

CHINA TO JAPAN.

Apology for Murder Couched in Terms of the Deepest Regret.

London, Sept. 25.—The Tokio correspondent of The Times gives the text of the apology of Emperor Kwang Su to Emperor Mutsuhito, for the murder of Sugiyama Akira, Chancellor of the Japanese legation in Pekin at the beginning of the "Boxer" outrage.

The apology is couched in terms of the deepest regret and deference, testifying that the benevolent humane attitude of Japan has happily preserved the general situation in the Orient intact and asking the Mikado to be graciously disposed to draw closer the bonds of friendship uniting the two Empires.

The Mikado, in a gracious reply to the Chinese envoy, expressed a belief that the relations between the two countries would be closer in the future.

WAR ON ANARCHISTS

Russia and Germany Agree on Common Measures to Be Taken.

London, Sept. 24.—A despatch from Copenhagen says: "It is authoritatively announced that the Russian Minister of Foreign Affairs, Count Lamsdorff, and the German Imperial Chancellor, Count Von Buelow, at their recent conferences agreed upon common measures to be taken against Amarchists, and that they are now communicating with the powers on the subject. Count Lamsdorff and Count Von Buelow have decided to completely suppress the Anarchist press."

TELEGRAPH OPEN TO DAWSON.

Governor Ross Sent the First Message Thru Last Night.

Vancouver, B. C., Sept. 24.—Vancouver-Dawson Dominion Government telegraph line was operated thru to Dawson for first time to-night, Governor Ross of Yukon sending the first message thru before he left on the steamer Hating at 9 p.m. on his return north.

MARQUIS ITO COMING.

Japanese Statesman Will Arrive in Victoria Next Tuesday.

Victoria, B.C., Sept. 24.—Marquis Ito, the Japanese statesman, will arrive here on Tuesday next by the steamer Tosa Maru on a visit to America for his health. It was previously announced that he would land at San Francisco, but to-day the agent of the Nippon Yusen Kaisha was notified that he was on the company's steamer. As the Duke and Duchess of York are to arrive the same day it is possible that the Marquis will be asked to take part in the reception.

Lowe Inlet Canned Salmon give great satisfaction. They are growing in favor every day. 36

WHEAT DELIVERY.

Winnipeg, Sept. 24.—Owing to the wet weather yesterday the wheat deliveries at C.P.R. points were exceptionally small. Only 83,000 bushels of wheat was marketed. The weather this morning in the country is reported damp and chilly.

BIRTHS.

REESOR—At Balmy Beach, Toronto, Sept. 23, the wife of William J. Reesor of a son.

DEATHS.

CARVETH—At Balmy Beach, Toronto, on Tuesday morning, Sept. 24, 1901, Mary P. (Polly), wife of Mr. J. Alva Carveth. Funeral Thursday, 26th, at 2 o'clock p.m. Private.

KRUGER SEEKS ROOSEVELT.

Special Mission Will Not Be Sent Because Boer Funds Are at a Low Ebb.

CANADIAN CASUALTIES REPORTED

Bluejackets to Be Landed at Simons Town and Used in Trenches at Mossel Bay.

The Hague, Sept. 24.—The Associated Press representative here learns that the announcement made in The Soir of Brussels that Mr. Kruger has decided to send a special mission to President Roosevelt is not correct. The expenses incurred since Mr. Kruger came to Europe has reduced the Transvaal funds to a small sum. In fact some of the Boers here are even destitute, and all of them agree that Mr. Kruger has scarcely enough for himself. The course probably to be adopted will be instructed to approach the United States government.

BLUEJACKETS FOR TRENCHES.

London, Sept. 24.—A despatch to The Exchange Telegraph Company from Cape Town says the British cruiser Barracouta has arrived at Simons Town and that all the available bluejackets will be used in the trenches to defend Mossel Bay.

Mossel Bay is 242 miles east of Cape Town.

ANOTHER CANADIAN DEAD.

London, Sept. 24.—The following are official reports concerning the Canadian scouts in South Africa:

Killed—27,561, John Dougall, at Duster's Rock, on Sept. 15.

Dangerously ill—Sergt. James Walsh and Sergt. John Finstlove Wood, enteric fever, at Pretoria, on Sept. 19.

BOER PRISONERS ESCAPE.

Hamilton, Bermuda, Sept. 24.—Three of the Boer prisoners of war escaped from Darrel's Island, Friday night, and have not yet been recaptured. Troops are scouring the islands for the fugitives.

KITCHENER'S LAST "BAG."

London, Sept. 24.—Lord Kitchener reports that 29 Boers have been killed, 16 wounder and 350 made prisoners, and that 48 have surrendered between Sept. 16 and 23.

New Fall Hats.

If you haven't got your new fall hat yet don't waste any more good time. The Dineen Company's assortment is complete in every way, and each day particular lines are reinforced by the arrival of new shipments. Yesterday a complete lot of the various high-class fedoras and Alpines, manufactured by J. B. Stetson of Philadelphia, arrived, and so, if you have a particular liking for this hat, you'll find all the newest on view. Remember also that Dineen Company is sole Canadian agent for Dunlap of New York and Henry Heath of London, two of the greatest hatters in the world.

FAIR TO CLOUDY.

Meteorological Office, Toronto, Sept. 24.—(8 p.m.)—The weather continues cold and windy in Manitoba and the Northwest Territories, and snow is falling in parts of Assiniboia and Saskatchewan. From the lake region to the Maritime Provinces it is fair.

Minimum and maximum temperatures—Victoria,
