AGENTS.—ON JULY 27TH THE FOLLOWING appeared in the leading papers throughout the Dominion: "Lady Macdonald and Mr. Hugh John Macdonald, M. P., for Winnipeg, request us to say that the advertisements of Lieut.-Col. James Pennington Macpherson's Biography of Sir John Macdonald contain statements which are entirely incorrect. The book has no sanction nor approval, nor has the writer had any information, assistance or encouragement from either of them, nor is he in possession of any of the late Sir John Macdonald's papers, documents, or private opinions. They further desire to state that this authorization and collaboration announced in these advertisements as having been given by Sir John to this work amounted to, as they were told by Sir John himself, nothing more than a bare acquiescence in its preparation. Such acquiescence it was Sir John's custom to accord to all proposed biographies of himself, on the distinct understanding that by so doing he did not in any way imply approval, or even knowledge of their contents." Our Life of Sir John is sold to the public on its merits, and sells without the necessity of deception. Agent's wanted. Send 50 cents for Agent's Outfit. Circulars with terms mailed on application. Address Rose Publishing Co., Toronto, or R. A. H. Morrow, St. John N. B.

THE EXHIBITION.

A COLUMN OF INTERESTING POINTS ABOUT THE BIG SHOW.

The Balloon and the Boys—The Attendance Good yet, More Fine Displays—Climo's Photos—In the Machinery Hall—The Programme.

Yesterday 4228 persons paid a quarter each to see the big industrial fair and exhibition and they patronized the special attractions well. Linus the horse with the wonderful mane and tail, the roosters, the minstrels, the dog circus, the Citizen's band music, in addition to the grand display of exhibits, were attractions that drew the people and amused and instructed them, but the largest proportion of those present in the afternoon went to see the balloon ascension. There was a big crowd inside the exhibition gates who had paid to get a chance to see the aeronant go up but there was perhaps a larger crowd outside who were just as anxious and just as much determined to see the sky sailer rise. The balloon could not be got sufficiently full of gas to rise rapidly with any weight, until after 5 o'clock. Then it rose slowly and was allowed to float out to the length of a 150 foot rope held by a crowd of men on the green. In the excitement of holding it, the crowd outside the fence became impatient and they rushed into the grounds, by hundreds in spite of Secretary Cornwall's best efforts. He can do a good many things at once, but more than three boys at a time was too much for him to handle, and when once the rush came on quite a staff of policemen would have been necessary to drive the crowd back. After sailing a short time at the length of the rope the balloon was hauled down for the darkness and fog prevented any further display of its sailing qualities.

A feature of the exhibition this year, as it was last, is

CLIMO'S PHOTOGRAPH DISPLAY.

The clearness and truth of his pictures strike the visitor and on closer examination the artistic skill displayed in the positions of the subjects and the arrangement of the backgrounds show that the work has been done by a master hand. The foundation of Mr. Climo's success in photography has been his natural ability as an artist, and his business increases steadily as the merits of his work become more widely known. People from New York and other large American cities who visit St. John find that Climo can produce a better picture for them than they can get at home and as a consequence the faces of many well known Americans are on his cards. In the exhibit this year he shows pictures of many of St. John's best people, among others being those of Miss Marion Hazen and Miss Ada Dever. Both of these pictures have excited much attention for their beauty as specimens of the photographer's art, and in Dublin and London attempts have been made to equal them which have proved unsuccessful. Mr. Climo can paint his own backgrounds, where work of that kind is required, and the best test of his work, in general, is the fact that many of the pictures exhibited last year are now shown again just as good as ever, which is most convincing evidence of their strength and purity of their color.

J. ALLINGHAM

has a very tastefully arranged exhibit at the eastern end of the south-west wing. The most prominent display in this stand is a fine life size model of a horse in harness; the latter being made at Mr. Allingham's establishment, on Charlotte street. Two large show cases display to view setts of harness and stable requisites. Mr. Allingham has on exhibition bridles with rubber trimmings in the place of silver, also leather and knit twine bridles. Some very fine light driving harness may be seen, all of which were made at Mr. Allingham's store. He has also saddles, curry combs, brushes, etc. The horse boot which this gentleman makes a specialty of is something that every horseman should examine. In fact everything that is required in a stable is to be seen at the exhibit. The iron fittings, a patent magic feed box is something that all should see. These articles are almost indespensable as they prevent a horse spilling the oats, and by having one a person may economize in different ways. The exhibit which this gentleman has is a credit to himself as well as to his line of business. Visitors should call at Mr. Allingham's exhibit or his store on Charlotte street. There are also some very handsome carriage rugs on exhibition which would add greatly to the appearance of a first class turnout.

On the southern side of the building a fine

EXHIBIT OF PICTURES

and frames is made by Messrs Gorbell who make a speciality of framing and have the best of facilities for carrying on that business so as to give their patrons good work at low rates.

IN THE MACHINERY HALL

one of the most interesting machines to be seen working is the baby machine which shows in a small way how nails are made in the extensive nail factory of Messrs. S. R. Foster & Son, on Georges street. The operations of the small machine are watched with interest.

In the firm's factory 13 machines are running full blast all the time turning out immense quantities of wire nails of all sizes. Besides these they are 42 nail and tack machines and a big spike machine weighing about eight tons, and these turn out cut and pressed nails, tacks and spikes ranging from the smallest tacks to the largest spikes. Nine polishing machines brighten up the products of the factory. About 60 employees are kept steadily at work and the business of this enterprising firm is yearly growing. Although such a demand has sprung up for wire nails the firm hold that the claims made for them are more than are warranted and that the old fashioned cut nail has much the best holding qualities. The cut nail separates the fibres of the wood and allows them to spring back, while the wire nail makes a clean smooth hole for itself and easily drawn out. Tests have proven that cut nails have over double the holding power of the wire nails. The cut nails made by this firm are the strongest and best to be procured anywhere.

THE WOOD WORKING COMPANY.

A. Christie & Co., make an attractive exhibit of their line of work in the south building. Doors, sashes, window blinds and shutters of the best quality and neatest make up are shown and samples of the many styles of moulding, balusters and jig-saw work made in their factory are also displayed. The exhibit shows that in the wood working business St John cannot be beaten and the firm have certainly shown great enterprise in making such an interesting exhibit of their work.

COLES, PARSONS & SHARP.

This enterprising firm are showing samples of pieced tinware of their own manufacture and a fine line of ranges and heating stoves, made by the Burrell-Johnson Iron Co., (Ltd.), Yarmouth, N. S., for whom Messrs. Coles, Parsons & Sharp, are agents here. The Model Grand range with its new ventilating oven door attachments is pronounced by all who are using it the best they have ever had. This range is made with many different attachments including upper and lower hot closets, mantel shelf and reservoir. For heating purposes no better stoves can be had than the New Silver Moon, Peri or the pretty Orient Franklin. The New Silver Moon with its upper and lower fire pots and anti-clinker grate, is pronounced by all the best self-feeder made giving the most heal from the least fuel. For offices, small halls, etc., the Peri which burns hard or soft coal cannot be surpassed and if you have a nice room and want a nice stove be sure you see the Orient Franklin and you will be suited all right. If you want a new range or heating stove or want to change your old one call on Coles, Parsons & Sharp at their store 90 Charlotte street, where they keep a full line of the above mentioned stoves together with all kinds of tinware and kitchen furnishings.

BURRELL-JOHNSON IRON CO., LTD.

Have on exhibition in the machinery hall several steam pumps in motion which are attracting considerable attention, the largest of which is a wrecking pump with a capacity of 60,000 gallons per hour. This firm makes all kinds of machinery, pumps and engines at their works at Yarmouth. Mr. Leonard G. Holder who has charge of this exhibit will be pleased to give any information regarding the goods manufactured by the firm. They are introducing Magnolia anti-friction metal, a new metal for machinery bearings, claimed to be superior to all other metals used for such purposes, and already used by eight leading governments; it can be obtained from Mr. Holder ot the exhibition or from Coles, Parsons & Sharp 90 Charlotte street, agents for St. John. All persons using machinery should se and try Magnolia anti-friction metal.

The new circular saw that rips cross cuts and mitres for which Elsey & Co. are the selling agents, can now be seen at machinery hall in Messrs. J. & J. D. Howe's exhibit who give away samples of work done by the saw.

METHODIST CHURCH OF CANADA.

Meeting of the General Missionary Board in Centenary Church.

The general missionary board of the Methodist church of Canada met in Centenary this morning at ten o'clock. Rev. Dr. Carman general superintendent, occupied the chair and conducted devotional exercises. On roll call by Rev. Dr. Sutherland, general secretary, the following responded:

Rev, Dr. Shaw, Toronto; Rev. Dr. Douglas, Montreal; Rev. Dr. T. G. Williams, Montreal; Rev. S. F. Huestis, Halifax; Rev. Dr. Potts, Toronto; Rev. Dr. Griffin, Guelph; Rev. Geo. Webber, Toronto; Rev. Dr. Hannon, Kincardine, Ont.; Rev. J. S. Williamson, Montreal; Rev. Dr. Briggs, Toronto, Rev. J. R. Sundy, Sarnia, Ont.; Rev. J. Wakefield, Thorold, Ont.; Rev. J. W. Holme, Stratford, Ont.; Rev. E. Roberts, Bowmanville, Ont.; Rev. Dr. Antliff, Montreal; Rev. W. Heartz, Yarmouth; Rev. E. Evans, St. John; Rev. Wm. Swann, Newfoundland, Rev. J. Woodsworth, Manitoba; Rev. J. McDougall, North West; Rev. J. F. Betts, British Columbia; W. M. Gray, Seaforth, Ont.; W. F. Hall, Napanee, Ont.; W. H. Lambly, Inverness, Ont.; A. J. Donley, Simcoe, Ont.; R. J. C. Dawson, London, Ont.; J. E. Irvine, St. John; John W. Beynow, Brampton; C. Sanders, Sarnia, Ont.; Walter M. Gibson, St. Catherines, Ont.; G. D. Platt, Picton; S. E. Mitchell, Pembroke, Ont.; C. F. Wright, Nova Scotia; A. C. Wills, British Columbia.

In addition to these several of the city and visiting clergymen, including Revs. Dr. Sprague, Dr. Wilson, Mr. Shenton, Mr. Daniel, Dr. Pope and others, watched the proceedings.

The minutes of meetings of the committee of consultation and finance were read by Dr. Sutherland and adopted.

Rev. Geo. Steele, was appointed official reporter for the Outlook, the Guardian and the Wesleyan.

The general secretary reported that he was able to lay on the table a few advance copies of the annual reports and that they would soon be ready for general distribution. He submitted an abstract of this report. It speaks of the great amount of work yet to be done and asserts a quickening of the conscience of the church and a greater feeling of personal responsibility. A great sign of the time is the students volunteer movement for foreign missions, which places some thousands of the most promising young men and women of Canadian and American colleges at the disposal of the churches for foreign missionary work and, says the report, "if this offer is met by corresponding liberality, the next generation may witness the dawning of millenial light." In the Japan mission there has been a gain in the membership for the year of 103. The event of the year was the dedication of the new brick mission church in the Chinese quarter of Victoria. The cost of the building was $6,000, of which the Chinese contributed $1,000. The gain in the Chinese mission is 38. A new church is to be erected in New Westminster and a new mission is to be established. The out gain in the Indian membership is 76, while the home work shows a gain of 1800, more than half of which is contributed by the Montreal and Manitoba conferences.

The statistical report in connection with this shows that there are 399 domestic missions, 47 Indian, 7 French, 3 Chinese and 19 Japanese, total 475; employing 414 missionaries, 118 assistants, 47 teachers, 15 interpreters. The total income was $243,015,43; an increase of $22,989,00 over last year. The expenditure is $219,980,78; an increase of $8,498,-00; a surplus of $23,034,65.

Bros. Guffin, Lambly, and Huestis were appointed a committee of communication.

Several communications were read by the secretary including one from Dr. Esty relating to two missioners at Tokyo, Japan and several from Dr. Macdonald on the same subject.

W. H. Lambly reported for the committee of communications the following names for the various committees:

Appropriations and estimates for domestic work—Revs. S. F. Huestis, Dr. Williams, J. Woodworth, J. Shaw, W. H. Lambly, W. G. Hall, J. E. Irvine, W. M. Gray, W. H. Donnelly.

Japan affairs—Rev. I. Waxefield, Rev. E. Evans, Rev. J. Holmes, Dr, McLaren, W. McGibbon, W. Heard, S. Finlay, T. Hilliard.

Indian affairs—Dr. Briggs, Dr. Harrison, Rev I. R. Lundy, J. McDougall, Rev. F. Woodsworth, Rev. I.T. Betts, R. Dawson, O. F. Wright, S. E. Mitchell, A. C. Webb, J. W. Beyman.

Chinese work—Dr. Griffen, Dr. Douglas, Rev. J. S. Williamson, Rev. W. H. Hentz, Hon. I. Aikins, G. D. Platt, J. W. Beyman, C. Sanders.

French work—Dr. Douglas, Dr. Williams, Dr. Antliff, Rev. Geo. Webber, Rev. E. Roberts, Rev. Wm. Swann, Hon. J. J. Rodgerson, O. H. Dingman, S. Finlay, W. H. Lambly.

Dr. Carman and Dr. Sutherland to be ex-officio members of each committee.

Adjournment.

To-night a public missionary meeting will be held in Centenary church at 8 o'clock. Mr. J. E. Irvine of this city will preside according to decision at this morning session. Brief addresses will be delivered by Dr. Briggs, Rev. David Hill, of China; Rev. Robert Whitington, of Japan; Rev. John McDongall, of the North West; Dr. Sutherland, and Dr. Carman.

CHARTERED. Bark Highland is chartered at 45 shillings, to carry deals from St. John to the West Coast of England.

PASSENGERS, going across the bay by the steamer Monticello can procure breakfast on board.

TEMPUS FUGIT.

That's what time has been doing ever since the world began—flying.

There is one thing observable about the flight of time that is not observable in the flight of anything else, that I know of; it never varies in its speed, some days seem to go faster than others, but it is only imaginary, time is neither too fast or too slow, and I have a lot of fine

GOLD AND SILVER WATCHES

and an assortment of CLOCKS that are trained to keep exactly on a level with the old gent, FATHER TIME. Call and see them if you or your friends are in need of some thing that you can depend upon will keep you with him in the race.
