THE EXHIBITION.

The Directors of the Association to Make the Final Decision Tuesday.

A meeting of the Exhibition Association directors was held yesterday afternoon to consider the report of the special committee appointed to consider the feasibilty of holding an exhibition.

The secretary read the report of the special committee. They reported that in view of both the local government and city council having refused to assist, by grant or guarantee, the association, it would not be advisable to undertake an exhibition embracing both agricultural and industrial interests, and that from a very general expression of public feeling in favor of maintaining annual exhibitions, a guarantee fund had already been subscribed amounting to $1,800; and upwards of 100 of the local manufacturers had determined to make exhibits, should an exhibition be held. Therefore they felt encouraged in reporting in favor of holding an industrial exhibition this year, at the time already selected by the board.

The estimates for this year were:—$2,000 on buildings and $1,000 on machinery hall; $750 for lighting as against $778 last year; $3,000 for special attractions against $2,000 last year; nothing for prizes and judges against $4,200 last year; $500 for police against $700 last year; $100 for furniture; $2,000 for advertising; $400 for gates and tickets; $100 for horses and cab hire; $110 for insurance, all the same as last year; $100 for postages against $400 last year; $1,700 for salaries against $1,206 last year; $100 for sundries against $50 last year. This made the total expense for the present year $11,910, and the income would probably be $13,150. There had been an expenditure of $4,900 at Moosepath which would not now be required. They had on hand cash $900 from last year; also a guarantee fund of at least $1,800, which would probably reach about $2,000.

Mr. W. H. Thorne who read these moved the adoption of the report and it was seconded by J. McA. Hutchings.

After the matter had been discussed for sometime, however, the meeting was adjourned till Tuesday next at 3 o'clock p. m. when the matter of holding an exhibition this year is to be finally settled.

THE EQUITY COURT.

Before His Honor Mr. Justice Palmer Judge in Equity.

Robertson vs The Moss Litter Company, on application, made on behalf of the plaintiff, was again postponed until July 10.

Dr. Barker called His Honor's attention to the fact that a deed from Mrs. William Parks to H. H. McLean, receiver of Parks and Son (limited), which deed had been drawn by Mr. J. G. Forbes, has been submitted to him. He presumed it was drawn in accordance with the judgment formulated by His Honor, but he thought, it should be conveyed in trust, in order to prevent the raising of any question of dower. His Honor said he thought there would be no trouble that way, that a simple deed was all that was necessary, but that it must of course be made to "his heirs."

In re Goodill vs Miller, a Charlotte County case, stands over until this afternoon, when the matter will be taken up and probably a partial hearing had.

In re William A Wilmot and Thomas J. Wilmot vs Frederick E. Demill and Elizabeth Demell, trustees under the last will and testament of Elizabeth Bentley deceased, Jane Wilmot, Martha Wilmot, Elizabeth Peach and others. Application was made on behalf of Martha Wilmot, an infant for the appointment of Thomas L. Nixon as her guardian. The petition and affidavit and consent of Mr. Nixon were read and His Honor ordered as moved.

J. J. Porter for the petitioner.

T., delivered a humorous address, and the following programme was well rendered: Duet, Miss Agnes Law and Mrs. J. F. Cameron pleaded guilty to lurking near the premises and was fined $20, in default of paying which he will go to jail for three months.

John Doherty was charged with having a quantity of stone on the corner of Charlotte and St. James street. He stated that the stone did not belong to to him, but to John Flood, and was allowed to go.

SUMMER TRAVEL.

How the International Steamship Company's Steamers Will be Run After the 22nd. Inst.

As already mentioned in THE GAZETTE the tide of summer travel from the United States to the provinces by rail is beginning to flow in strongly enough to make quite an increase in the number of passengers by the trains from the west. During the past week a large increase in travel from Boston to St. John has also been noticeable on the International Steamship Company's steamers, the number of passengers being about 50 per trip on an average, as compared with an average of about half that number or less during the weeks previous. Thus it would seem as if summer travel was setting in at an encouraging rate quite early, and the indications are that the summer will be a good one for hotels and for people generally who make money out of the floating population and summer tourists.

In preparation for a big run of travel, and so as to give the best accommodation possible for it the I. S. S. Co., have arranged to have one of their steamers leave St. John and another leave Boston every day, except Sundays during the summer. Thus there will be one of their steamers leaving and another arriving here every week day and also one arriving Sunday afternoons.

Under the new arrangement which goes into effect the 22nd inst., and continues in force until the 12th of September inclusive the steamers will run as follows:—

Going West—Steamers leave St. John, Monday, 7.25 a. m., and Eastport at noon for Boston direct; Tuesday, 7.25 a. m., and Eastport at noon, to Portland, connecting with Boston & Maine R. R. train, due in Boston at 11.10 a. m.; Wednesday, 7.25 a. m., and Eastport at noon, for Boston direct; Thursday, 7.25 a. m., and Eastport at noon, for Boston direct; Friday, 7.25 a. m., and Eastport at noon, to Portland connecting with Boston & Maine R. R. train, due in Boston at 11.10 a. m.; Saturday, 7.25 a. m., and Eastport at noon, for Boston direct.

Going East—Steamers leave Boston, Monday, 5.00 p. m., direct to Eastport and St. John; Tuesday, 5.00 p. m., direct to Eastport and St. John; Wednesday, 1.00 p. m., by Boston & Maine R. R., connecting at Portland with steamer for Eastport and St. John; Thursday, 5.00 p. m., direct to Eastport and St John; Friday, 5.00 p. m., direct to Eastport and St. John; Saturday, 1.00 p. m. by Boston & Maine R. R., connecting at Portland with steamer for Eastport and St. John

In Maine.
(Bangor Commercial.)

In the public schools of Portland, Maine, are two children, a boy and a girl aged respective 10 and 12 years, no relation at all, both of whom are as bald as the traditional billiard ball, and each of whom wears a wig.

Here's another illustration of the help a smart wife can be to a man. When one of the Maine Memorial day orators was taken sick and so was unable to deliver the address he had prepared for the occasion, his wife came to the rescue and read it for him—and did it as well as he could have done it too, they say.

They are planting a few potatoes in the Aroostook region this spring, as it seems. The past week has been so favorable for planting that a great amount of territory, has been covered. On the centre road from Caribou to Woodland Centre, a distance of about six miles, there have been planted about 100 acres of potatoes. Potato seed is very scarce and high. Potatoes were sold last week at $4 per barrel the highest price ever paid in Aroostook for common stock.

The following story is told by a prominent minister in the Eastern Maine M. E. Conference: In the fall of 1872, when Grant was up for a second term as president, the Millerites were holding a campmeeting in a certain Maine town one evening and one of the leading elders was delivering a sermon about the immediate destruction of the world. He had set the final day for October 1st, preceding the presidential election in November. Whenever he made allusions to the world's end, he noticed that a man in the front seat appeared very enthusiastic, and so, after the meeting was over, the minister approached him and asked why he was so demonstrative about such a matter as that. "Oh, said he, "anything to beat Grant!"

ELECTION OF OFFICERS.—The St. John Medical society, held their annual meeting Wednesday evening June 3rd. and elected the following officers for the ensuing term: President G.R.J. Crawford M. D.; vice president 1st. M. McLaren M. D.; vice president 2nd. A.F. Emery M. D.; recording secretary L. A. McAlpine M. D; corresponding B. N. McCleary M. D.; treasurer, Thos. Walker M. D.

A QUIET WEDDING took place at Alma street, on Wednesday last when Wm. J. Blaine, son of Col. Blaine, and Miss Sarah Emery, daughter of the late Edward Emery, were united in marriage. Rev. W. O. Raymond officiated, and the ceremony took place at the residence of the bride's uncle. Among the many gifts were a handsome willow easy chair from the groom's fellow employee's at Messrs. J. A. McMillan's, and a fancy lamp from two of his intimate friends at the same establishment.

He Was not an Exodian.

It must be painful for the Globe to have one after another of its happy exodus items refuted, and to read of the steady stream of people who are moving into the provinces from the states, as is shown by the lots of household furniture coming in by both steamer and rail; but it is likely that these little things will be heard of with anything but pleasure by the general public. Not long ago the Globe had the pleasure of chronicling for a fact the departure for the United States of a young man named John Kenney who had been on a conservative committee in the election held this spring. According to the Globe Kenney had to go away to seek for work and this made the item a particularly good one. Mr. Kenney is not now working in the land of the free as the readers of the Globe might suppose, for he has returned and is at work in this city. This morning he told a GAZETTE reporter that he went away only for a trip and in passing through several portions of the eastern states he had found that work was more scarce than men, and that there were great numbers out of employment. In Boston especially there were so many Italians and other foreigners that wages were cut very low, and the occupation of the ordinary working man was taken away by these people. Expenses were so high there and also in Rhode Island that a man could not do nearly as well at the current rate of wages as he could do here. He had made inquiries about work in all the places he visited and had not heard of anything that would induce him to become a resident of the United States. He went to work immediately on his return home and is indignant at the idea of the Globe making him out an exodian, for from his experience while away he has not the least desire to be one.

A despatch from Digby says the rails of the missing link were connected with the rails of the Western counties railway last Wednesday afternoon. The roadbed is all ballasted within a quarter of a mile of Digby and in ten days the line will be all ready for traffic.

Miss Wortman, of Salisbury, who was lost in the woods while on her way to school a few days ago, has not yet been found. A rubber shoe, supposed to be one worn by her, was discovered yesterday about five miles from her home. Hundreds of the neighbors are searching for her.

Three young sports went to Bonney River on Monday for a day's fishing. They made a big haul, landing about one hundred and fifty fish. When they came to examine the fish, they found that there were only four trout among them, the remainder consisting of chubs.—St. Croix Courier.

Miss F. J. Darling, of Nauwidgewalk near St. John, who recently came to Amherst to commence a studio for painting and drawing is now exhibiting several of her pictures in Chapman Bros. window. They have been much admired by many passers by and Miss Darling's talents will no doubt bring her prominently before the Amherst public.—Amherst Press.

Daniel Mosher, of Cow Bay, was in town this morning getting his large Newfoundland dog photographed. This dog was partly instrumental in saving the lives of the crew of the American schooner Senator Morgan, wrecked at Cow Bay last February. The high sea raging at the time would not permit of the launching of boats either from the shore or vessel. A line was thrown from the schooner and the dog swam through the surf, caught it in his mouth and brought it to shore. One end of the line was made fast on the shore and the other to the vessel and the sailors came ashore by the rope.—Halifax Mail.

ALL CLIMO'S EMPLOYEES are art workers. Thus are obtained his splendid effects in photography. 85 Germain street.
