GEMS AND GEMS.

The first duty on T—Don't forget to cross it.

What's in a name again? Mr. Spitwin Damp was landed on his head out of his wagon at New Bedford, the other day.

Laborers in the Michigan woods are working for their board. That's what the woods are for, we believe.

The editor who was told that his last article was as clear as mud, promptly replied, "Well, that covers the ground, anyhow."

Cheese is mad because they have stuck a lamp post on his corner. Says its none of the town's biz what time he comes home nights.

"No, sir," said a weary looking man on a street car to an individual by his side. "I wouldn't marry the best woman alive. I've been a dry goods clerk too long for that."

"Affected with mental derangement. Incident to his employment in a brewery," is the San Francisco *Call's* description of a man who leaped from a fifth-story window.

Detroit policemen don't seem to be very good marksmen. "I want you either to hit me or stop making such a blamed racket," said a thief in that city, at whom a policeman was shooting.

Rev. H. H. Murray has an article in the *Golden Rule*, advocating lying in bed in the morning, but there seems to be no particular necessity for us to paste it in our hat.

"How are ye, Smith," said Jones. Smith pretended not to know him, and answered hesitatingly: "Sir you have the advantage of me." "Yes, I suppose so, Everybody has that's got common sense."

A subscriber to a Southwestern newspaper died recently, leaving four years' subscription unpaid. The editor appeared at the grave and deposited in the coffin a palm-leaf fan, a linen coat, and a shamoyer.

At Hawkinsville, Ga., recently, one of the two convicts in the Putnam county jail tore out part of the wall and escaped, and the other complained bitterly next day to the Sheriff that unless the walls were mended so that he would be kept warm he'd go too.

A few days since a man convicted of drunkenness stood up before His Honor at the Police Court, and His Honor said in his stern, solemn way, "I'll give you $10 or thirty days." "Well, I'll take the $10, squire," said the fellow.

An exchange astutely remarks: "Boss Tweed has escaped from justice." If Boss Tweed desired to escape from justice, he should have stayed in New York. Outside of that city he is likely to run into her arms at any time.

This is the kind of weather when a man sees his wife coming into the room with a bucket of coal, and, after she has poured every bit of it into the top of the fall stove, says: "Darn it, Hanner, you ought to 'ave asked me to do that. But it's too late now."

A rural editor, wishing to be severe upon an exchange, remarks: "A subscriber of the——in this place tried, a few days ago, to carry some lard in a copy of that paper; but, on reaching home, found that the concentrated lie had changed it to soap."

Mr. Robt. Taylor, lot 9, con. 6, Hullet, missed four head of cattle from his herd some time ago, and after searching far and near, two of them made their appearance on the 23th ult. A search being made about the premises, the other two were found dead inside a straw stack, where the other two had also been. The recovered animals were in the stack three weeks, and the others or about six weeks.

A young gentleman got neatly out of a fine scrape with his intended. She taxed him with having kissed two young ladies at some party at which she was not present. He owned up to it, but said that their united ages only made twenty-one. The simple-minded girl thought of ten and eleven, so laughed off her pout. He did not explain that one was nineteen and the other two years of age. Wasn't it artful?

Scene at a Brooklyn wedding breakfast. Company all seated about the table. A pause in the general conversation. Happy husband, to his wife's seven-year-old sister at the other end of the room: "Well, Julie, you have a new brother now." Julie: "Yes, but mother said to papa the other day that she was afraid you would never amount to much, but that it seemed to be Sarah's last chance." Intense silence for a moment, followed by a rapid play of knives and forks.

TO CORRESPONDENTS.

Œdipus sends a host of fresh puzzles, &c.

Catarrh is a common disease,—so common that snuffing, spitting, and blowing of the nose, meet us at every turn on the street. Your feet slips in these nasty discharges on the sidewalks and in the public conveyance; and its disagreeable odor, contaminating the breath of the afflicted, renders them offensive to their associates. There is the highest medical authority for stating that with fully one-half, if not two-thirds, of those afflicted with Consumption of the Lungs, the disease commences as Catarrh in the nose or head, the next step being to the throat and bronchial tubes—lastly to the lungs. How important then to give early and prompt attention to Catarrh? To cure this loathsome disease correct the system by using Dr. Pierce's Golden Medical Discovery, which tones it up, cleanses the blood, and heals the diseased glands by a specific influence upon them; and to assist, use Dr. Sage's Catarrh Remedy with Dr. Pierce's Nasal Douche. This is the only way to reach the upper and back cavities where the discharge comes from. No danger from this treatment, and it is pleasant to use. The two medicines with istrument are sold by dealers in medicines.

Fashion Notes.

A dress without outside pockets is considered "old fashioned."

A "pearl wedding" occurs on the sixth anniversary of the marriage day.

A "party suit" should be made with a very small train, the contrast is great.

Corduroys made of cloth, making the color in black, shrink and be spoiled with velvet. Silk is a more proper material.

Combination suits are still popular.

To dress up an old suit, fix it off of ribbon around the centre. It will not only cover up much of the worn part, but will also be in exact imitation of a fashion for new suits.

Birthday sentiments are officially cut out for children. Those in one solid color matching the dress or sash are at present in high favor.

Ulsters for girls are made loose in front and double breasted, with buttons down each side. A belt is placed in the back to hold the garment to the figure. They are sometimes made of waterproof, but generally of basket-woven cloths.

It is almost impossible to describe the fashionable overskirts of this season. They are caught up on one side and left down on the other, or are draped in the back and made plain in front and on the sides; in fact, it takes an experienced modiste to adjust them in a properly graceful manner.

"Children," said a country minister, addressing a Sunday school. "Why are we like flowers? What do we have that flowers have?" And a small boy in the infant class, whose breath smelled of vermifuge, rose up and made reply, "Worms," and the minister crept under the pulpit chair to hide his emotion.

☞The first approaches of consumption are so insidious that thousands remain unconscious of its presence until it has brought them to the verge of the grave. The immediate use of "Bryan's Pulmonic Wafers" upon the first appearance of the cough, pain or soreness of the throat or chest, would generally preclude a fatal result; therefore, when you take a cold use "Bryan's Pulmonic Wafers," and thus prevent the necessity for taking them in more dangerous complaints. To be obtained of all Druggists and country dealers. Price 25 cents per box.

A few days since a man convicted of drunkenness stood up before His Honor at the Police Court, and His Honor said in his stern, solemn way, "I'll give you $10 or thirty days." "Well, I'll take the $10, squire," said the fellow.

An exchange astutely remarks: "Boss Tweed has escaped from justice." If Boss Tweed desired to escape from justice, he should have stayed in New York. Outside of that city he is likely to run into her arms at any time.

WAR AND COMMERCE.—It is urged by some that English trade has gained largely by the Franco-German war, and that she has been serving both belligerents to the great advantage of her commercial interest; but official statements prove that such has not been the case. But it is true that the sales of the "Canadian Pain Destroyer" are rapidly increasing, and gaining the confidence of the public, for curing coughs, colds, rheumatism, neuralgia, summer complaints, &c For sale by all Druggists and country dealers. Price 25 cents per bottle.

READ THIS TWICE.—Five to thirty drops of THOMAS' ECLECTRIC OIL, will cure common Sore Throat. It never fails in Croup. It will cure a Cold or Cough in twenty-four to forty-eight hours. One bottle has cured Bronchitis of eight years standing, recent cases are cured in three to six days. It has restored the voice where the person had not spoken above a whisper in five years. As an outward application in all cases of pain or lameness, nothing like it has ever been known. One bottle will cure any case of Lame Back or Crick in the Back. For diseases of the Spine and Contraction of the Muscles it is unequaled. In Rheumatism or any other pain the first application does you good. It stops Ear Ache and the pain of a Burn in three minutes, and is altogether the best and cheapest medicine ever offered to the people—the cheapest, because it takes so little to do you good. It is composed of six of the best oils known, and nothing but oils. It is worth its weight in gold. Why not buy it to-day?—A. B. Dee Rochers, assistant postmaster, Arthabaskaville P. Q., writes:—"Thirteen years ago I was seized by a violent attack of Rheumatism in the head, from which I have nearly constantly suffered. After having used "Thomas' Eclectric Oil" for nine days, bathing the forehead, I have been completely cured and have only used half a bottle. This I can certify under oath if you wish."—Rev. J. Mallory, Wyoming, N. Y. writes: "Dr. Thomas Eclectric Oil cured me of Bronchitis in one week. Dealers all over the country say, "We have never sold a medicine that has given such complete satisfaction as this."

DR. WHEELER'S COMPOUND ELIXIR OF PHOSPHATES AND GALISAYA

The Compound Elixir of Phospha and Calisaya prescribed by you I have been for two years using largely in my practice, and I assure you that in my judgment there is no preparation of its kind that can compare with it where it is applicable. With feeble, anæmic women, of whom we have a great and in cases convalescent from prevailing diseases I should hardly know how to get along without it. Its appearance is sure like a charm—in fact in any of the long list of exhaustive diseases it is the remedy.

Brown's Chemical Gelatine, San Francisco.—"By a thorough chemical analysis the natural laws which govern the assimilation of food for nutrition, and by a careful analysis of the food properties of well-known articles of diet, we have invented our Gelatine, which, when added to improved beverages which may give to the heavy Gelatine bills, it is by scientific use of such articles of diet that a consumptive may be gradually built up where other means have failed. In every tendency to pulmonary disease, the Gelatine is a most valuable food, by supplying the system with the material for healthy blood, which, wherever there is a tendency to consumption, is many a fatal shaft, by its use, is rendered well fortified with pure blood and a properly nourished frame."—*Dietl Service Gazette.* Sold only in packets labelled—"JAMES BROWN & SON, Sole Agents, Chemists, 48, Threadneedle-street and 170, Piccadilly, London.

Beware of Counterfeits.

For the protection of the Public of British North America, I deem it my duty to state that my Pills and Ointment are neither manufactured nor sold in any part of the United States.

Each Pot and Box bears the *British Government Stamp*, with the words, "Holloway's Pills and Ointment, London," engraved thereon. On the label is the address, 533, Oxford Street, London.

This notice has become necessary, in consequence of vile and spurious imitations of "Holloway's Pills and Ointment," being fabricated at 78, Maiden Lane, New York, by parties styling themselves "Holloway & Co.," with an assumed trade mark, thus—

Unprincipled vendors can obtain this trash at a very low price, and so deceive you by selling the same for my genuine Holloway's Pills and ointment, which are manufactured only at 533 Oxford Street, London.

Persons who may be so deceived will be pleased to communicate with me.

Many respectable Firms in the British Provinces, who obtain my medicines direct from here, have very properly suggested that I should, for the benefit of themselves and the public, insert their names in the papers, that it may be known that my medicines can be had genuine from them.

The following is a list of the Firms alluded to; and I particularly recommend those who desire to get my medicines to apply to some of the Houses named:—

THE GREAT REMEDY FOR

CONSUMPTION

which can be cured by a timely resort to this standard preparation, as has been proved by the hundreds of testimonials received by the proprietors. It is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the relief and cure of all Lung complaints, and is offered to the public, sanctioned by the experience of over forty years. When resorted to in season it seldom fails to effect a speedy cure in the most severe cases of Coughs, Bronchitis, Croup, Whooping Cough, Influenza, Asthma, Colds, Sore Throat, Pains or Soreness in the Chest and Side, Liver Complaint, Bleeding at the Lungs, &c. Wistar's Balsam does not dry up a Cough, and leave the cause behind, as is the case with most preparations, but it loosens and cleanses the lungs, and allays irritation, thus removing the cause of the complaint.
