FIFTH YEAR. WEDNESDAY MORNING, AUGUST 27, 1884. PRICE ONE CENT.

NO CRUELTY AT FOO CHOW

THE ASSERTION DENIED AT PARIS AND ENGLAND ABUSED.

The French Lost Five at the Bombardment—A Franco-German Alliance Advocated by Cassagnac.

FOO CHOW, Aug. 26.—The French lost five men in the recent bombardment, including an American pilot killed on the Volta.

PARIS, Aug. 26.—It is believed that after Courbet has destroyed the forts on Min River between the arsenal and the river mouth, he will join Admiral Lespel before Keelung and arrange for the occupation of that place. There is talk of an expedition from Tonquin into Yunnan at the end of the wet season, unless China accepts France's terms.

Newspapers indignantly repel the charges made by the London Times that cruelty was exercised by Courbet at Foo Chow, and indulge in violent abuse of England. Le Voltaire and the Temps say that France has no need to exculpate itself to a country which fired Alexandria. Courbet destroyed the Chinese gunboats because he could not weaken his crews by occupying them. Le Soliel and La Republique Francaise approve Courbet's course. All he did, they say, was to obey orders in the hope of effecting a prompt settlement.

Paul De Cassagnac advocates an alliance between France and Germany.

The secretary of the Chinese embassy remains in Paris.

Figaro says Gen. Millot will be recalled from Tonquin because he is considered responsible for the difficulties which have arisen since the Tien Tsin treaty was made.

Fears are expressed for the safety of catholic missionaries in China.

FOO CHOW, Aug. 29.—There has been a heavy bombardment of Mingan forts by the French fleet since daybreak this morning. The forts are believed to have been silenced. No attack has been made on Kinpai forts.

HONG KONG, Aug. 26.—The French outward bound mail boat stopped here to-day and transferred her mails to a neutral steamer. An immediate attack probable upon Woo Fung in order to clear the entrance to the port of Shanghai.

GENERAL WOLESLEY

To Proceed to Egypt Immediately.

LONDON, Aug. 27.—General Wolesley proceeds to Egypt immediately to assume command.

CAIRO, Aug. 26.—The French consul at Khartoum has been ordered to remain there even if Gordon returns with the expedition.

Smallpox South.

BUENOS AYRES, Aug. 26.—Smallpox is epidemic in the Andine provinces.

FASTEST VESSEL THAT FLOATS.

Joy of the Oregon's Owners Over Her Splendid Victory.

From the New York Truth of Monday.

To the steamship Oregon, which arrived Saturday night, was reserved the accomplishment of beating her own fastest trans-Atlantic record of 6 days, 10 hours and 10 minutes. She left Queenstown at 3 21 p.m. local time on Sunday, Aug. 17, arriving off Sandy Hook at 9.50 p.m. Saturday. Allowing for the difference in longitude, the corrected time of her passage was 6 days, 9 hours and 50 minutes, being just 20 minutes faster than her former record. The total distance made was 2818 miles. This would give an average of over 445 miles a day, and more than 18½ knots an hour.

At 9 o'clock yesterday morning she hauled alongside her dock at pier 38, North river, having on board 368 cabin, 73 intermediate and 467 steerage passengers. Her officers and crew being added to this make a total of 1182 souls all told on board. A large number of people had assembled at the pier to welcome the fleetest vessel afloat. The friends of the America, however, think she will lower the record and claim she would have made the last trip in less than six days and seven hours had she not dropped a propeller blade. The Oregon left Queenstown just six hours and ten minutes later than the Alaska.

The weather was quite rough at times and head winds were encountered which not only retarded her some but prevented her spread of canvas.

The chief officer stated that during his thirty years' experience at sea he had never been on a vessel which acted better in rough weather. "Why," said he "she'll ride through a heavy sea as gracefully as a swan and with little difference in speed from fair weather. She can't be beaten, except by herself. We are as much attached to her as if she were a person." It is said that after the season is over she will be laid up for alterations in her interior arrangements, so as to be able to accommodate at least two hundred more cabin passengers.

LOCAL NEWS PARAGRAPHED.

Judge McDougall is holding the western division court.

The police attached to the Agnes street station were kept busy locking up drunks last evening. At midnight they had 11 in their net.

Gage's Canadian readers have been authorized in British Columbia and the Northwest for exclusive use in that province and districts.

The Southern Belle will carry her usual Wednesday excursion to Oakville and Burlington beach, leaving Milloy's wharf at 11 o'clock this morning.

M C Gallas, builder, reported yesterday that he was robbed of $35 in the bush near Victoria park Monday evening by two young catch acquaintances.

W. E. Ainge has been appointed by the Parkdale school trustees to audit the accounts of their public schools in consequence of the Thompson case.

Prof. Davis opens his dancing school on Sept 1, and from his experience of over twenty three years in Toronto will no doubt have his classes filled as formerly.

As a gentleman was leaving the York street pavilion last evening a sneak thief snatched at his watch chain, but a man behind seeing the action promptly knocked the thief's arm to one side. In the confusion the thief escaped.

Remember the excursion on the Southern Belle to-day to Burlington Beach and Hamilton. The energetic manager, Geo. Keith, does all in his power to give every accommodation to the passengers, and the steward has the refreshment department conducted on the best of principles.

PROGRESS OF THE PLAGUE.

The Death Rate Still Large and on the Increase.

PARIS, Aug. 26.—Cholera is increasing in Corcica. Near Yaccio 4 deaths occurred. At Marseilles there were 3 deaths last night and 2 at Toulon. The fugitives are returning to Marseilles, and there is a consequent destitution and wretchedness among the poor.

ROME, Aug. 26.—Cholera bulletin for Italy: Bergamo, 6 deaths, 13 fresh cases; cases; Campo Basso 6 deaths; Cuneo, 20 deaths, 33 new cases; Massacarrara, 3 deaths, 6 fresh cases; Parma, 4 deaths, 6 new cases; Lasperzia, 5 deaths; Porto Maurizio, 3 deaths; Turin, 3 deaths, 6 new cases.

PARIS, Aug. 26.—The deaths in the southern departments during the day were: Pyrenees Orientalas 15, Herault 6, Gard 2, Aude 5.

At Toulon there was 1 death to day and 4 new cases. At Marseilles 12 deaths to-day.

CITY OF MEXICO, Aug. 26.—There is no foundation for the reports that cholera exists at Santa Cruiz or that vessels from there are quarantined.

The Striking Miners.

COAL CENTRE, Pa., Aug. 26.—Thirty-four more coal miners were arrested this morning for trespassing on the railroad company's property. The wives of fifteen or twenty of the prisoners begged the officers to take them to jail with their husbands as they have nothing to live upon but a little cornmeal. The request was refused. The citizens are indignant at the wholesale arrests which has been made without warrants. A public meeting will probably be held. Four hundred new recruits are expected at the mines to-night. At Scaibs' mines in the third pool 150 men went to work this morning. The others are weakening.

This evening 350 miners with three brass bands arrived at camp on the steamer Alice from the lower pools. The strikers are very jubilant and claim for every arrest made there will be four new recruits. Operator Neel went to Pittsburg to-day to take counsel with the miners. The camp being is maintained for the purpose it is, it cannot be broken up and the miners forced to leave. It is held by some that merely maintaining the camp is a violation of the law.

BUCHTEL, O., Aug. 26.—The miners are coming in from the surrounding country mostly. A bitter feeling exists between the strikers and the guards. When new men were put into the mine the strikers obstructed the road, but were finally driven back by Pinkerton's men. One aged striker was knocked down by the guards, who broke one of his arms. The best sources of information anticipate trouble.

Honors to Greely.

PORTSMOUTH, N. H., Aug. 26.—Greely has accepted an invitation to attend the meeting of the British association for the advancement of science at Montreal. He has also received a letter of congratulation from De Lesseps, president of the Geographical society of Paris. It says that while the society is filled with regret at the thought that his work has cost so much suffering and so many lives, it realizes that not only the observations made at Fort Conger, but also the expeditions of different members of the party have to a marked degree enlarged the field of polar geography and that science will profit largely from such courageous efforts, even though dearly purchased.

NEW YORK, Aug. 26.—The military authorities have refused to grant a permit for the exhumation of the remains of Private Henry of the Greely party.

Cutting Railway Fares.

NEW YORK, Aug. 26.—The Erie, Baltimore and Ohio, West Shore and New York Central are now paying commissions to brokers on tickets to all competing points. The allowance on tickets to Chicago and St Louis is $4. A general warfare is probable.

ST. PAUL, Aug. 26.—The Lake Superior transit company to meet the cut on railroad rates east have reduced the passenger rates by lake: Second-class to Boston and New York is cut $9, second-class to Buffalo and Erie is cut $11, second-class to Cleveland and Detroit is cut $10.

Chicago Labor Troubles.

CHICAGO, Aug. 25.—The police were called upon to quell trouble between striking and non-union brickmakers at the lake this morning. The strikers attacked the non-union men, who were driven away. They then stoned the house of an employer named Bleudahl and seriously injured his wife.

Another Bank President.

JAMESTOWN, Dak., Aug. 26.—R. E Wallace, president of the First National bank, has made confession of judgment in the sum of $80,000. The bank has suspended. Depositors will be protected by securities.

A Backsliding Brother.

BALTIMORE, Aug 26.—In the conference of the colored methodist protestant church to day charges of drunkenness and of having voted against prohibition were preferred against Rev. W C Brown, a member of the committee on temperance.

A Family's Sickness.

NEW YORK, Aug 26.—The Carroll family at Mount Vernon not having been seen for several days the neighbors burst the doors and found them all ill with something like cholera morbus. Mrs. Carroll died, but the others are cared for.

Young to Rob a Bank.

ST PAUL, Aug. 26.—The People's bank has been robbed of $10,000. The bank officials are confident that the criminal is Edward Mason, aged 16, and book-keeper in the bank, who has been missing since the robbery was discovered.

The Fasting Girl.

FORT PLAIN, Aug. 26.—Miss Smulsey's condition is about the same. The physicians differ regarding her case. The family assert positively that she has taken no nourishment.

The Belgian Educational Bill.

BRUSSELS, Aug. 26.—In the chambers to day the first clause of the educational bill was adopted by 78 to 50.

An earthquake lasting thirty seconds was felt yesterday on the island of Jersey.

Last week the city carriers delivered 365,869 letters and 35,279 newspapers.

A Challenge to Sullivan.

BOSTON, Aug. 26.—McCaffrey, alleging unfair treatment, challenges McCoy to fight at New York for from $1000 to $5000 a side. If McCoy declines he challenges Sullivan, whom he always barred; but after Sullivan's Monday's transactions he is prepared to meet him any time and place for any amount.

Notes.

The Duke of Portland has given $3750 for a hunter.

Maud S. was named after a young lady in Captain George N Stone's family.

It is said that Henry Ward Beecher, at his farm in Peekskill, can ride his tricycle like a thing of life.

Wm. Farnan, the Australian champion, is on his way to America, and will try to knock out all of the big sluggers.

The speed trials by Phallas and Jay-Eye-See did not take place yesterday, rain having made the track too heavy.

The Centrals (lacrosse) of Toronto beat the second team of the Athletics of St. Catherines yesterday by 3 to 2 games.

Harvester and Busybody, winners of the Derby and Oaks, have been sent to the right about in the betting on the St. Leger, run this day fortnight.

The chances of a fall meeting at Woodbine are not looking quite so rosy as they did, and it is probable that the Hunt club will provide two day's sport, which will take its place.

The annual rifle match of the Royal Grenadiers will occur on Garrison common on Aug. 30, commencing at 9 a.m. The rifle committee are Capt. Bruce, Lieut. Irving and Davidson.

Daniel Cosgrove and Charles Allendale, Chicago toughs, met Monday night before a select company and with bare knuckles pounded each other out of all semblance to their original selves. The fight was called a draw.

Eleven scores of 100 or upwards have been made against the Australians in England, viz: W. G. Grace, thrice; A. G. Steel, twice; Scolton, G. H Wyatt, H. Phillips, Barnes, Brain and W. W. Read once each.

The Buffalo police tug-of-war team will go to Toronto Sept. 6 to down the Canucks again.—Buffalo News. The Buffalo team had better not get in any "ringers" this time and the Canucks will take good care that they are not downed.

Robert Bonner has engaged Bair to take Maud S to Hartford and speed her to beat the record after she has been trained three or four weeks. The exhibition will be free. Bonner is negotiating for the purchase of Jay-Eye-See.

We beg to call attention of our patrons to the magnificent silver water pitcher now on exhibition in Messrs. Sucklings window, Yonge street. This valuable prize was won by the Toronto Bicycle club at the annual games of the Woodstock Amateur Athletic association at Woodstock, Aug. 25.

The Toronto licensed victuallers' baseball club went to Barrie yesterday and played the crack club of that town. The score was: Toronto 36, Barrie just 30 less. The L. V's play the Bayside rowing club team this afternoon on the Jarvis street grounds and the return match with Barrie, Monday.

Of the three matches between England and Australia, England won the first in one innings and the next two have been drawn in favor rather of Australia. In the last match Australia scored 551 in the first innings, of which Murdoch figures for 211, McDonnell 103 and Scott 102. England put together 316 and had to follow on, scoring 85 for two wickets. This was cricket!

The stands at the Woodbine have been moved back to the Kingston road fence, thus giving considerable additional space in front of them. Dressing and weighing rooms are also being constructed under the supervision of Mr. D. Roberts, architect. The two inconvenient staircases at the ends of the ladies stand have been abolished, and half dozen a entrances and a platform have been provided along the front of the building.

A game of lacrosse was played in Queen's park Saturday afternoon between the Albion and Queen City clubs which resulted in a draw, the former scoring the first and second games in 21 and 25 minutes. The third game was taken by the latter in 55 minutes, when time was called. A. Gourlay of the latter club played a splendid game on goal. J. Robson of Parkdale Maple Leafs acted as referee to the satisfaction of both clubs.

H. P Davis and W. G. Hurst, who represented the Wanderers at Woodstock on Monday, leave this morning for Buffalo to compete in the race there to-day. At Woodstock on Monday out of five open events these two riders captured three first prizes and one second. The Canadian records for the one mile and half mile were lowered. Messrs. Orr, Duff and Fitzgerald will accompany them to Buffalo.

HARRY LEE FOUND GUILTY.

His Crime Named as Forgery—Sentence Not Yet Passed.

A despatch from Cincinnati to The World received last night states that Harry Lee, the defaulting bookkeeper of Woodrow & McParlin, saw makers of Cincinnati, had been convicted of forgery. Sentence was deferred.

Harry Lee was arrested in a house on Simcoe street in Toronto by Detectives Reid of Toronto, and Hazen of Cincinnati, about six months ago. He had forged checks of the firm to the extent of $13,000. After a tedious litigation he was extradited to the United States and as last night's despatch says he has been found guilty. Lee belongs to a highly respectable family in Cincinnati and his brother, who is manager of large piano warerooms in that city, spent money lavishly in attempting to clear him. The firm whom he robbed, however, were equally lavish in securing his conviction.

THE ALDERMAN'S HOLIDAY.

How the Civic Fathers of Guelph Propose to Enjoy Themselves.

GUELPH, Aug. 26.—On Saturday evening a private special meeting of the city council was held, Mayor Chase in the chair. Every alderman was in his seat except Ald. Hogg, who, in a telegraphic despatch to his worship, regretted his inability to be present, as he was attending the annual meeting of the Chatauqua literary and scientific society at Chatauqua, N. Y.

Mayor Chase stated that the meeting had been called to decide as to whether the civic parents (no implications) should take a few days' recreation. He for one was in favor of such being done.

Ald Stevenson regretted the absence of Ald. Hogg and suggested that a twelve-hour excursion to Grimsby camp grounds would benefit the council.

Ald. Hatch suggested a trip to Card's grove. Mr Card had extended an invitation to the council to enjoy a day's trout fishing in his preserves.

Ald. Goldie suggested a picnic to Puslinch lake, each to bring (which, being interpreted meaneth, every one find their own grub).

Ald. Macdonald was the only sensible man of the lot. He was not in favor of any excursion at the public expense.

Ald. O'Connor desired the postponement of the entertainment until the new opera house was ready.

Ald. Finlay said he always paid for his own cigars, smoked none but Flora Regalia, and declined to indulge at the public expense.

Ald. Hall was busy with the new fountain. If he was assured that pure cold water would be the staple beverage he would go, otherwise not.

Ald. Burns coincided, as also did Ald. Bruce.

Ald Coffee objected to the whole thing. He could "welt the flure" with any of them, and he was proud of it, but as a consistent member of Capt. Churchill's brigade he could not countenance the intended excursion.

Ald. Walker had fulfilled the scriptural injunction. He had married a wife and could not come.

And so the tale was told. The council rose, undecided as to whether they would excurt to Toledo, Puslinch lake, Card's pond, or do as sensible aldermen should do, each take a trip at their own expense.

Blackmailing a Toronto Merchant.

HAMILTON, Aug. 26.—Mrs. Emma Moore, a widow residing on St. James street, in this city, was up in the police court this forenoon on a charge of black mail, preferred by G. H. Furner, a wholesale millinery and mantle dealer of Toronto, formerly of this city for some years. Mrs. Moore has been writing letters to Mr. Furner. She had a child several years ago. She alleges that Mr. Furner is its father. The trial lasted for a long time and resulted in Mrs. Moore being committed for trial at the next assizes.

Two Railway Accidents.

ST. THOMAS, Aug. 26.—Jas Ainley met with a serious accident to-day. He was driving across the Canada Southern track on William street when his buggy was struck by a locomotive. Mr. Ainley was thrown into the ditch. It was found that both his hip and leg were broken.

A 3-year old child of John Miller of Putnam was run over and killed by an express train on the Credit Valley this morning.

No Cabinet Changes at Present.

RIVERE DU LOUP (en bas), Aug. 26.—At an interview to-day with Sir John Macdonald, the premier stated decisively that no serious changes were at present contemplated in the dominion cabinet. As to the Quebec lieut.-governorship, Sir John stated that as yet the matter had not even been discussed in council. Sir John is enjoying the best of health.

Ordering up the Storm Signals.

The meteorological office, Toronto, has ordered up cautionary storm signal No. 2 at Midland, Collingwood, Presqu' Isle, Owen Sound, Sarnia, Kincardine, Goderich, Saugeen, Bayfield, Port Stanley, Port Dover, Port Colborne, Port Burwell, Amherstburg, Port Dalhousie, Burlington Beach, Oakville, Port Credit, Toronto, Cobourg, Port Hope, Deseronto and Picton.

The Exchange Bank.

MONTREAL, Aug. 26.—The stockholders of the Exchange bank are making a good move in deciding not to have a liquidator in winding up that institution. Mr. Campbell has not been a success as a liquidator in this case or in a former one—for the shareholders and noteholders.

The Governor's Visit.

QUEBEC, Aug. 26.—The Governor-general and Lady Lansdowne will leave Quebec on Saturday, Sep 13, arriving in Toronto on Sunday evening. They will be the guests of Lieut Gov. Robinson. His excellency will visit the industrial exhibition on Tuesday, Sept. 16.

Fun Over Myrtle's Marriage.

There has been fun around a tenement house at Sherbourne and Duke streets for the past three nights. A man named C. F Myrtle lives on a lower floor. Some of the neighbors accuse him of getting married and others of a serious offence. No bride could be found around the place last night. However, the young toughs of the neighborhood have gathered nightly and gave Myrtle a distinctive charivari. Last night they broke all the windows and Frank Coyle, who lives up stairs, was struck on the head with a stone. Myrtle gave the gang $1 25 to go away, and about fifty who would not go were routed by Policemen Armstrong and Geddes.

VOLUNTEER CRACK SHOTS

SECOND DAY OF THE ONTARIO RIFLE ASSOCIATION MATCHES.

A Heavy West Wind Sweeps Over Garrison Common—Echoes on the Commons.

The day opened brightly with a heavy wind from the west, which blew across the ranges from the right, making the shooting very doubtful. As will be seen from the scores, some of the best shots went to pieces at 600 yards in the "Gordon" match. The feature of the day was the "Walker" match, competed for by affiliated associations, with the first prize the "Ladies' challenge cup." To-day will be the most interesting one of the meeting, all the competitors appearing in uniform in the "Tait-Brassey match," open to the teams from the battalions of the province, as well as teams from different companies. The prize for the former is the "Sir Peter Tait cup," and for the latter the "Brassey cup."

The scores are as follows:

ECHOES ON THE FIELD.

Master Sergt. Swanson officiates at the "big gun."

Col. O'Malley's well-known face is much missed from the grounds.

Major Draper of the C. O. P. S has not yet put in an appearance at the revolver match.

Lieut.-Col. Aylmer walks around the field with as great regularity as if he were on duty.

Col. Alger began paying out the prize money yesterday.

Dick Hogan was tooting his horn as usual.

There are five Mitchell brothers present this year, and it is probable that there is not such a family of shots in the world. They are all good shots and stand well up on the lists.

The winners in the Walker match will be announced to-day.

The Brandon rifle association has affiliated with the Ontario rifle association, and the O. R. A members are so pleased with the idea that they have given the B. R. A. a medal to compete for. This is the first association in the Northwest that has joined the Ontarios.

Stole 50 Yards of Overalling.

Frank N. Shaefer, aged 20, and Wm. Shirlow, aged 40, two packers employed by S. Patton & Co. of Front street west, were arrested by Detectives Reburn and Hodgins last evening for stealing fifty yards of overalling from the warehouse of R. H. Gray & Co. of 17 Front st. west. They went to Mr. Friendly of Front street yesterday afternoon and wanted to sell him the goods and he notified the police.

Cool August Evenings.

The evenings of the past few days have been very cool. Sunday, Monday and last evening many overcoats could be seen on the streets, and but few promenaders were out after 10 o'clock.

Federal at Winnipeg.

Ex-General Manager Scrathy of the Federal has been appointed manager of the Winnipeg branch of the bank. He will leave for the Northwest at an early date.

GEORGE STEPHEN'S LETTERS.

What a Business Man Thinks of the Globe's Course.

There is this about Mr. Stephen's letters to the Globe, said a merchant yesterday, that they were intended to gain public sympathy and they have accomplished it. Mr. Stephen does not argue in them; he asks that men who have put their means and energy into carrying out an immense undertaking be at least given fair play. This the Globe has not given the syndicate. The measure by which the action of that paper in this case ought to be judged is this: is that paper more anxious to do the country a service than it is to injure political opponents. I must say, said the merchant, that it is this latter which appears to animate the Globe. But business men will sympathise with the syndicate, and the Globe is floating that out. What makes the Globe's action all the more discreditable is that it is not only animated by a desire to injure political opponents, but it is also doing the defamatory work of the Grand Trunk. That is the Globe is trying to damage the syndicate from two standpoints: first for a political end in so far that if it could make out that the company was a swindle or a failure the conservative party would have to assume the responsibility; second, if it can damage the Pacific, then the rival road, the Grand Trunk would benefit thereby, and the Grand Trunk you know is influential in the control of the Globe. Zeal to embarass the conservative party and to serve the Grand Trunk are the mainsprings of the Globe's recent attacks. I am not a strong party man—I voted for the N P. in dominion elections and with Mr. Mowat in provincial one—but I must say that I am disgusted at the course of the Globe. And other business men I find are like minded.

A CHOLERA SCARE.

How a World Reporter Was Made to Light out.

A World reporter stood near the main door of the Queen's hotel at about 12 30 this morning. He had just left the hotel on his last round for "items." A man, carrying a seedy looking carpet-bag, approached the reporter and asked to be directed to a doctor. In the bright glimmer of the electric light at the corner of York street the reporter could see that the man's face was deadly pale and he seemed to stagger on his legs. He was informed where the nearest doctor resided—York and Wellington streets—and the stranger walked towards York street by the side of The World. When the two had passed the west end of the Queen's a young man without a coat darted from the shade on the opposite side of the street and yelled out:

"Say, friend, if you don't want to catch the cholera, don't walk near that man. He came in on the train from the east with me, and he has got cholera sure. Keep away from him."

On being further questioned, the young man without the coat said the stranger had just arrived from Quebec, where he had landed from the last European steamer. The young man was certain that it was a case of cholera. The reporter did not follow the stranger, but he seemed to be suffering from some terrible malady, and a sickening smell was emitted from his person.

THE NEWSBOY AND THE PUBLICAN

Comfort For Aching Teeth and a Start in Business.

"I witnessed a very kind act of a hotelkeeper not a hundred miles from the National club," said a big policeman to The World yesterday. "Saturday a little ragged newsboy sat crying near the corner of Bay and King streets. The gentleman in question approached the gamin and said: 'Sonny, what's the matter?' The little fellow did not answer at first, but held a dirty little hand over his cheek. Then he said: 'Oh, all my teeth is aching.' Taking hold of the youngster's hand, the hotelkeeper took him to the nearest dentist, expended a couple of dollars in having the aching molars extracted, and made the youngster further happy by handing him 60 cents to buy papers. I thought that a kindly act," concluded the b. p. as he continued down the beat.

The Horses of the Fire Department.

EDITOR WORLD: SIR—Would you please inform me if there is any way of compelling the contractor to supply suitable horses to the fire department?

Perhaps an instance will suffice to show what kind of broken-down, balky animals are used for that purpose here now.

The men of the St Paul's ward hall have been unable to get to a fire for some time past on account of the horse being balky and used up. They frequently have to stop on the road and await the horse's convenience to convey them further. They have had to get off and walk, unharness the horse and walk him around, that he may forget about stopping, etc., in fact they are totally disheartened.

As a property owner I ask is there no way of remedying this and providing some protection for residents in this ward against fire. Because we seldom require the services of the firemen is no reason that we never shall and when they are wanted they had better carry the hose in hope of getting there. PROTECTION.

The Prospects of the Northwest.

Mr. J. W. Gage returned to town the day before yesterday after a visit of about five weeks to the Northwest. He went beyond the present terminus of the Pacific railway in the Rocky mountains, and made several excursions in a northerly direction from the line of the road at various points. He was thus enabled to see the country and to judge of its agricultural capacity. His personal inspection of the farms and contact with the farmers led him to the opinion that the agricultural prospects of the country are first class. Ontario men, said Mr. Gage, are the men who succeed best in the Northwest, and if they are workers they are bound to own an excellent farm and will have money to their credit in the bank. In his travels he visited the townships of the Saskatchewan homestead company and found the settlers on them in a flourishing condition.

York Pioneers' Excursion.

About 500 persons went to Peterboro yesterday, over the Ontario and Quebec railway, on the York pioneers' excursion. The faithful flag of St. Lawrence hall floated at full mast all day. The excursion was a very successful one.

An Advance in Teas.

Advices received in the city yesterday from New York stated that an advance in teas had just taken place.

AS BUSY AS HONEY BEES.

RUSHING THROUGH THE BUSINESS FOR THE GREAT FAIR.

Meeting of the Board of Directors Last Night—Bouncing the Fakirs From the Grounds—Visit of the Governor-General.

The industrial exhibition, which is now nearing its opening, is on the boom. The manager and clerks at the board rooms in the public library building are up to their eyes in business during the day and night. The fair of 1884 will be far ahead of all others.

The board of directors met last night and transacted a large amount of routine business. President Withrow occupied the chair. Owing to the largely increased entries of horses, a number of additional stalls were ordered to be built. The dining room was given to Mr. Hughes of the Leader restaurant, he to furnish a dinner approved of by the board for 50 cents and breakfast and supper for 25 cents. It was decided to rigidly exclude all fakirs, patent medicine sneaps and the general run of fair amusements. The transfer of the exhibition wharf from the the Victoria park ferry company to the Humber company was agreed to. The Y. M.C.A. will erect their gospel tent as usual. There will be a portion of the ground allotted to the newspapers, to be known as "Newspaper row."

Marquis and Lady Lansdowne and suite will visit the fair on Sept. 16.

The committee having in charge the fireman's tournament on Sept. 11 met yesterday afternoon. They decided to ask J. B Boustead to act as starter, Chiefs Patton of Montreal and Fowler of Sarnia as judges, and J. E Ellis as timekeeper in the hose-reel race. Police Sergt. Stark and J. F. Scholes will be requested as judges in the flat races and tugs of war. This tournament ought to be a great one.

A CURIOSITY FROM CHICAGO.

What Manager Hill was Presented with by a Packing Man.

The World picked up a black colored object, nearly round and as big as a large orange, on the table of Manager Hill in the Industrial Exhibition rooms last night. "What is this?" Mr. Hill was asked. "That is a curiosity from Chicago. Mr. Cute of Armour's great packing house in Chicago gave it me. It is a solid mass of hair and the black covering on it is blood. It was found in a bullock's stomach. One bullock licks another's hide and the hair taken off forms into a solid mass in the stomach. When the bullocks are killed in the great slaughter houses of Chicago these balls are often found, but the one in your hand is an exceptionally large one." A portion of the black surface had been cut away, and a portion of hair protruded through it. To the reporter the presence of such a large undigested mass in an animal's stomach seemed a real curiosity.

Work for Another Police Court.

Toronto is getting to be a big city, and with the addition of population comes the petty evil doer. If these petty crimes increase much more, a new police court will have to be established. It is nothing new to see Col. Denison have a calleuder with fifty names on it when he goes on the bench in the morning. A court might be established, presided over say by one of the deputy chiefs of police, for trying such cases as drunkenness, petty assaults, vagrancy, family jars, etc.
