SPORTING NEWS

HOCKEY.

THE NEW O.H.A. PRESIDENT.

The name of Louis Blake Duff, who has been elected president of the O.H.A., is well-known in sporting circles. He was called to the O.H.A. executive in February, 1905, on the expulsion of the Wodstock club and the consequent withdrawal of Dr. Sinclair. In November of the same year he was elected to the executive and became second vice-president by acclamation the following year. In 1907, again by acclamation, he became first vice-president, and no change was made or election held in 1908. Now he is in line for the presidency.

Mr. Duff was secretary of the Galt Club for a number of years. He has also had a wide connection with other sports, notably Association football, both as player and official, and now holds the honorary presidency of the Western Football Asociation. Mr. Duff was president of the W. F. A. in 1906 and 1907. He was manager of the Galt club when their team toured the Canadian West. They played 17 games in twenty-eight days, winning 16 and drawing one, a remarkable record. The team scored 44 goals to 4 against them. A still greater triumph was won when Mr. Duff took his team to the World's Fain at St. Louis, in 1904, and won the Olympic championship, defeating a picked Chicago League team 4 goals to 2. He should make a most efficient head for the Ontario Hockey Association.

WRESTLING.

GOTCH TO MEET POLE.

St. Paul, Minn., Nov. 15—Frank Gotch, the world's wrestling champion, and Zbyszko, the Polish champion, have been matched to met Thanksgiving night. No definite arrangements as to the place for holding the match have been made, but it is believed Buffalo will get it.

J. H. Herman, manager of Zbyszko, who is appearing at the Star theatre this week, taking on all comers, declares that the match was pinched last week while they were in Minneapolis. At that time Mr. Herman posted $1,200 to bind the match and it was wired to Chicago.

Recently Gotch made the statement that he would agree to throw Zbyszko twice within an hour or forfeit the match. Zbyszko, through his manager snapped up the offer at once, though they were willing to agree to a straight match.

Under the agreement it is to be a straight match, but if Gotch fails to pin the Pole's shoulders to the mat twice in an hour Zybszko wins.

Several live cities are hot after the match, including Kansas City, Detroit, Pittsburg, Denver and Buffalo, but at the present time the latter place is favored, having offered fully $2,000 more than any of the other bidders.

SOCCER.

BRITISH FOOTBALL RESULTS.

London, Eng., Nov. 14—Following are the results of Saturday's football games played throughout Great Britain:

First Division.

Bradford City 1, Bolton Wanderers, 0.
Bristol City 0, Sheffield United 2.
Bury 0, Aston Villa 2.
Everton 0, Blackburn Rovers, 2.
Manchester United 2, Chelsea 0.
Notts County 2, Middlesboro 1.
Preston North End 4, Newcastle United 0.
Sheffield Wednesday 1, Woolwich Arsenal 1.
Sunderland 2, Notts Forest 1.
Tottenham Hotspurs 1, Liverpool 0.

Second Division.

Barnsley 2, Grimsby Town 1.
Birmingham 1, Lincoln City 0.
Burnley 4, Wolverhamton Wanderers 2
Derby County 4, Hull City 0.
Fulham 0, Gainsboro Trinity 1.
Glossop 3, Clapton Orient 1.
Leeds City 2, Bradford 3.
Oldham Athletic 1, Manchester City 0.
Stockport County 2, Blackpool 0.
West Bromich Albion 1, Leicester Fosse 2.

Southern League.

Leiton 2, Brentford 0.
New Brompton 0, Brighton and Hove 0.
Southampton 1, Bristol Rovers 0.
South End United 3, Coventry City 0.

Falkirk 4, Kilmarnock 0.
Hibernians 0, St. Mirren 0.
Port Glasgow 0, Motherwell 1.
Queen's Park 0, Third Lanark 0.

C.N.R's. GOOSE LAKE EXTENSION

Is Well Into Alberta, Headed for Calgary.

Calgary, Alta., Nov. 15.—C. N. R. grading outfits on the Goose Lake extension are now well into Alberta with their work, being about 25 miles west of the line, between Alberta and Saskatchewan. There are 240 teams at work and the dirt will be kept moving until the weather is too cold for grading to be carried on to advantage, but is it expected that several miles more will be completed before the camps are broken up for the season. The point where the men are working is about 150 miles east of Calgary, and 25 miles north.

Sweden and Russia Agree.

Stockholm, Sweden, Nov. 15.—A consular convention was signed today by representatives of Sweden and Russia. It gives the consuls of both nations greater power, and, it is believed, will result in negotiations of the two neighboring countries being more cordial than they have been.

When a cold becomes settled in the system, it will take several days' treatment to cure it, and the best remedy to use is Chamberlain's Cough Remedy. It will cure quicker than any other, and also leaves the system in a natural and healthy condition. Sold by all dealers.

ABANDON HOPE OF RESCUING MINERS

Heart Broken Women Leave Mouth of Mine at Cherry—Death List Will Exceed 400.

Cherry, Ill., Nov. 15.—Nothing lives in the St. Paul mine. The shafts and drifts were partly explored today by men wearing oxygen helmets. They met great piles of bodies, but were unable to remove them.

The unsealing of the main entrance, however, caused the fire to flare up again in the miles of soft coal tunnels.

Tonight the air tight cover is over the opening again, and hope is dead even in the hearts of the dazed and heart-broken women and the lamps in the rows of cottages are out.

A house to house canvas resulted in the names of 256 men and boys known to have been in the mines, but the pay rolls show that there were 338 in the mine only of day laborers. T. W. Taylor, general superintendent of the mine, admits a fear that the dead may exceed 400, and a high official of the mine, who is in a position to know the facts, stated today that there were 585 men in the morning shift in the mine and preparing to quit work when the fire broke out.

At Cage Door.

It was at the cage door that the dead were strewn, the exploring party reported today, after a descent in the gloomy, smoke-choked chamber.

It will be twenty-four hours, however, before one of these bodies can be brought up for the white-faced women to look at and try to identify. It will take 24 hours, experts say, to quench and stifle the flames which burst forth again this afternoon, when it was hoped and believed that the fire had burned itself out.

Thus far there have been two funerals; those of Forento and Suprey, who were in that cage load of heroes, who went down to aid their fellows in the first minutes of terror and flame and death. A long line of carriages followed both carriages to the cemetery, the pathos of the ceremony taking on a striking dignity in that the mourners, who rode in the cortege, each carried his or her own burden of personal sorow, yet each willingly and gladly laid aside his or her private grief to join in the general homag paid to the heroic dead.

Nine More Funerals.

Nine more funerals of those who died for others will be held tomorrow. That of Isaac Lewis, well beloved in life and in death, also glorified by the simple mining people, will be held Tuesday at ten o'clock in the morning. The others will be in the afternoon. Ernest P. Bucknell, president of the National Red Cross Society, is also on the scene, and, together with S. C. Kingsbury, director of the United Charities of Chicago, will hold a meeting of the survivors Tuesday morning in the Town Hall at Cherry, for the purpose of determining just what are the needs of those afflicted. Physicians and nurses are already in demand, many of the women requiring their attention, and in about twenty-five cases the patients are in a more or less critical condition. These women are about to became mothers, and the excitement, grief, fear and hysteria of the past few days has produced an alarming state of affairs.

Austrian Consul H. Silvesteri, at Chicago, has deputized E. Kominik to investigate the condition of the Austrian families stricken by the disaster, to relieve distress, assist in the investigation and locate the heirs of the dead Austrians.

Distress Committee.

President Earling, of the St. Paul Railway, has appointed Mayor Connolly, of Cherry; President of the Local Mine Workers Henny and Superintendent of Mines W. W. Taylor, as a committee to provide for the immediate necessities of the distressed families, and to this committee has been added the name of Partrick Clarr, of Ladd. One hundred deputies, including most of the newspaper men on the ground, were sworn in as special deputies by States Attorney Rekert in anticipation of trouble resulting when the bodies were being brought from the mine, but the fire prevented any trouble today. Trouble is, nevertheless, expected when the bodies are brought out. Both Sheriff Scogland and States Attorney Rekert are determined that peaceful means shall be used in keeping the crowd back, and after administering the oath to the deputies, Mr. Rekert made a speech adminishing all to try their best to sooth the crowd and use persuasion instead of force in quelling any disorder.

Blanket Verdict to Be Given.

The jury sworn in by Coroner Mahm has not yet rendered a verdict, nor will any be rendered until the bodies have been taken from the mine. Then a blanket verdict, covering all, will be given. Neither the jurymen, nor Coroner Mahm, will make any statement nor will any of the state inspectors give an opinion regarding the responsibility for the catastrophe, but it appears, nevertheless, certain that the verdict of both bodies will be a severe condemnation of the coal company on account of the construction of the main shaft. Notwithstanding the main shaft runs through to the 500 foot level, the hoist only extends to the 380 foot level. This necessitates walking from the main shaft to the air shaft to go to the lower level on entering the mine, and vice versa when emerging.

An Auxiliary Hoist.

In order to go up or down in the air shaft below the 380 foot level it has been necessary to either use a long ladder or the air shaft coal hoist. Below the 380 foot level, in the main shaft there is supposed to be an auxiliary hoist, to be used in case of emergency. Whether or not this hoist was in condition is not yet to be deetrmined, and whether or not it is there it was not used. The coal hoist in the air shaft was not used when the fire was raging, according to very positive statements from men who were in the mine when the fire ocurred and the only means of exit from the lower level lay in climbing a ladder more than 125 feet in length. When the fan was reversed during the fire a wall of flame shot across the face of the air shafts, absolutely cutting off the escape of those below.

Horribly Burned.

In Lasalle Hospital are two men, the Bardini Brothers, who are horribly burned. They were in the 500 foot level, climbed the ladder and fought their way through the flames, just after the fan had been reversed, coming up in the fourth load from the main shaft. They were taken home and not until Sunday night was tehir terrible plight discovered by the mine officials and they were taken to Lasalle Hospital, where Dr. M. Orr and Dr. B. E. Fahreney spent three hours each dressing their burns. Their feet seemed almost the only portion of their bodies entirely escaping from the flames. Their faces, heads, arms, legs and bodies were so horribly burned that lack of attendance from Saturday afternoon until Sunday afternoon had caused them to swell to nearly twice their natural size, yet they will live.

Piled High With Bodies.

It is considered certain that the bottom of the air shaft will be found piled high with the bodies and word can hardly picture the horror of the plight of the men, climbing desperately for life, a long line coming up the ladder, only to see their escape cut off by a wall of flame, clinging for life to the ladder till their strength failed, and then to drop to the bottom of the shaft suffocated and dead. Now that the fire has broken out afresh, fears are entertained that the mine may become filled with gas, with the result of incomplete combustion of some of the wood and coal that has been in the path of the flames, and when the work of taking the bodies out is again resumed, those doing so will first have to the danger of an explosion, provided it does not come before the work can be started.

STATE TROOPS ARE CALLED IN

(Continued from Page One.)

dead miners, but as a preventive measure it has been thought best to have the troops on the scene. When the bodies are brought to the surface there is sure to be a wild rush.

Coroner Mam called another meeting of his jury today and the story was again discussed, but no verdict will be rendered until later. The Bardini brothers, who are now at the La Salle Hospital, burned after being caught on the ladder running from the lower level to the top vein, will be most valuable witnesses. The verdict will probably not be rendered for some time.

Paying Off Women.

Paying off was a trying job for Frederick Buck, the young paymaster, and the sweat stood out on his forehead as one woman after another came up to the window, received the check formerly drawn by her husband, then turned away, bursting into tears, and sometimes collapsing on the floor.

Eighty-eight coffins arrived today, one hundred and twelve are here and fifty more have been ordered. Additional fire apparatus has arrived and more is on the way. It is more than likely that a high pressure apparatus will be brought from Chicago. Chief Horan, of Chicago, arrived this morning, and, after seeing the condition of the shaft, said that extraordinary measures would have to be taken to subdue the fire.

O'BRIEN COMING OUT AGAIN

Belfast, Nov. 15.—It is stated that Wm. O'Brien the former Irish leader, is about to re-enter political life. Twenty members of the Irish party have promised him their support and a number of seats now held by followers of John Dillon, will be contested. The followers of O'Brien say that they believe popular indignation over the budget, with what they call the subserviency of the Nationalist party to the Liberals, will assure their success.

OLDS ENDORSES NEW MINISTER

(Continued from Page One).

cessful student in eastern universities, dealt in a clever manner with the opportunities of the west and the disparagement of education made by the Socialist speakers.

Mr. Stauffer, of Didsbury, followed in humorous fashion and received a splendid ovation from those present, who were acquainted with his painstaking worth in the district as homestead inspector.

Jos. Clarke Closes Meeting.

Mr. Jos. Clarke, of Edmonton, was called by Chairman Hainstock as the last speaker of the meeting, referred humorously to the wisdom of a Socialist, conversant with his own argument, refusing to allow discussion. Wherever intelligent Socialists were to be found, he said, they were anxious for discussion. It was only where some one like Mr. O'Brien, ignorant of the case and anxious to insult the absent or the gagged, was to be found, that such a preposterous insult to the intelligence of the electorate could take place.

The meeting closed with three rousing cheers and a tiger for Mr. Marshall.

25 SAILORS FACE DEATH ON WRECK

Steel Freighter James Hoyt Being Battered to Pieces on Reef in Lake Superior.

Duluth, Minn., Nov. 14.—Helpless against the fury of a northeast gale, the steel steamer James Hoyt, of Duluth, owned by the Wolvin Steamship Company, lies on a reef in Lake Superior twenty miles northeast of Hayfield, Wisconsin.

With a crew of 25 men facing death, the boat is being slowly battered to pieces. The Hoyt was bound to a Lake Erie port with iron ore from Duluth and was grounded at four o'clock Saturday morning.

Tugs attempting to rescue the big freighter have been driven back by the neavy seas, and the effort to rescue the crew of 25 men has been abandoned until the storm subsides. It is feared that the sailors have perished, as the temperature is down toward zero and the upper works of the ship, the only place in which they could find shelter, have been so battered by the waves that icy water is rushing through them. Great masses of ice have formed on the wreck from the surf which is running over her, and freezing as it falls on the decks.

The tugs, Moose and Ferris, are now at hand making preparations to try and reach the Hoyt. The boats which went out for this purpose last night were unable to go farther than Oak Island, one of the inner of the group. The stranded ship was favored somewhat today by a shift of the wind. If the gale should swing to the northwest, as it is predicted by the weather bureau, nothing can save the Hoyt, and her crew, if the latter have not already perished. The temperature is rapidly sinking and flurries of snow are blowing across the lake here before a fierce gale.

LABOR DEPARTMENT REPORT.

Fewer Strikes This Year Than Last—Lemieux Act Settles Many Disputes.

Ottawa, Nov. 12.—The annual report of the Department of Labor today shows that the total number of disputes referred for settlement under the terms of the Lemieux Act, during the first two years of its operation, has been fifty-five, of which fifty-three were disposed of, without strikes or lock-outs following. The Deputy Minister says:

"When it is remembered that the Act does not undertake to prevent or settle all industrial disputes but only to aid in prevention or settlement of disputes of a certain class, it will doubtless be conceded that the law has established an admirable record for the first two years of its life. In May it may be noted that several American states have framed measures approximating that of Canada and an act has recently been introduced in the Transvaal legislature modelled on Canadian law." The calendar year 1908 was remarkable for the few strikes and lockouts in Canada, the number reported to the department being less than that of any of the seven previous years. There were 69 strikes and lockouts, a decrease of 82 as compared with the previous year.

The only disputes of severe consequence were the cotton mill strikes in the province of Quebec, and the strike of the C. P. R. machinists in the west. The total number of employees involved in trade disputes was 26,250 as compared with 34,972 in 1907. The loss of time to employees through trade disputes last year amounted approximately to 706,556 working days. Twelve of the disputes were in the building trades, ten in mining industries, and nine in metal working and shipbuildiing trades. In all 1,272 fatal and 2,277 non-fatal accidents to industrial workers were reported in 1908, as compared with 1,353 fatal, and 2,752 non-fatal in 1907. The decrease is doubtless due to the falling off in the general industrial activity during the period of depression. In the railway service no fewer than 326 lives were lost. Agriculture ranks second with a loss of 225 lives. Fatalities in other industries were as follows: Mining, 1,484; lumbering, 113; navigation, 84; metal trades, 63; general transportation, 54; building trades, 47; fishing and hunting, 376. During the year 315 fair wage schedules were prepared by the fair wage officers of the department for insertion in public contracts, or 93 in excess of number for year preceding.

FLOOD DAMAGE IS ENORMOUS.

In West Indies—Eighteen Deaths Reported by Drowning.

Kingston, Jamaica, Nov. 15.—Restoration of communication with the interior of the island shows that the flood damage is more extensive than believed at first. The British barque Carpascian is a wreck on the northern coast and a Norwegian barque is ashore. One man of the latter's crew was drowned. Eighteen deaths by drowning in various parts of the island have been reported. The damage to bananas has been enormous. It is estimated that the United Fruit Company has lost 100,000 trees, of which 20,000 were on one plantation.

Purchase Valuable Silver-Lead Mine.

Nelson, B.C., Nov. 15.—The Van Roi Mining Company, which has been working the property of the Vancouver Group Mining Company on Four Mile Creek, near Silverton, on an option, has made payment of the full purchase price. The property is said to be one of the best silver-lead mines in the country.

CAUSE AND CURE OF NEURALGIA

Modern Methods Dispose of the Cause instead of Treating the Symptoms.

Neurlagia means simply "nerve pain," so there may be a great variation in the character and intensity of the pain and any nerve in the body may be affected. There are a number of causes of neuralgia, but the most common is a general run-down condition of the system. The discovery of this fact from reliable statistics led to the new treatment for neuralgia which consists in building up the general health by the tonic treatment and so disposing of the cause of the trouble.

Persons reduced by acute sickness, or by severe mental or physical strain, or by loss of sleep are frequently victims of neuralgia and it is common in the case of those suffering from anaemia or bloodlessness. This brings us to the actual cause of neuralgia, which is nerve starvation. The blood which in normal health carries to the nerves all of their nourishment, is unable to perform this duty satisfactorily when it is weak or impure. Build up the blood and the neuralgia pain will disappear as the nerves become better nourished. Dr. Williams' Pink Pills are a blood-making tonic, and for this reason cure even the most obstinate case of neuralgia. Every dose ofthis medicine makes new, rich blood, which feeds the starved veins and drives out the sharp, darting, stabbing pains of neuralgia. Mrs. John Tibert, Little River, N.S., says:—" Afew years ago I was a great sufferer from neuralgia in my head and face. At times the attacks were simply excruciating, and I would be forced to remain in bed. I tried doctors' medicines, but did not receive any benefit until I began using Dr. Williams' Pink Pills, and I am happy to say that the benefit I received from these was wonderful. I may also add that Dr. Williams' Pink Pills cured my daughter of anaemia and indigestion, at a time when we began to dispair of her getting better. I can ihghly recommend these Pills to anyone suffering from these troubles."

You can get Dr. Williams' Pink Pills from any dealer in medicines or they will be sent by mail at 50 cents a box or six boxes for $2.50 by The Dr. William's Medicine Co., Brockville, Ont.

TOWER'S FISH BRAND
SLICKERS

Is Your Husband a Drunkard
Is Your Father a Drinking Man?
Is Your Son on the Downward Way?
YOU CAN SAVE HIM
Write to This Woman To-Day
She cured her husband, her brother and several of her neighbors, and now she generously offers to tell you of the simple, inexpensive remedy that she so successfully used. The remedy can be given to the patient unnoticed so there is no publicity of your private affairs. She is anxious to help others so we earnestly advise every one of our readers who has a dear one who drinks to drop her a line today. She makes no charge for this help, she has nothing to sell (she asks for no money and accepts none) so there is no reason why you should not write her at once. Of course, she expects that you are yourself personally interested in curing one who drinks, and are not writing out of mere curiosity. Send your letter in confidence to her home. Simply write your name and full address plainly in the coupon below and send it to her.
MRS. MARGARET ANDERSON,
249 Home Avenue, Hillburn, N. Y.
Please tell me about the remedy you used to cure your husband, as I am personally interested in one who drinks.

SAVED FROM SUFFERING IN HIS OLD AGE.
Gin Pills cured him.
Annapolis, N.S., May 14, 1909
I am over 80 years of age and have been suffering from Kidney and Bladder trouble for fifteen years. I took doctor's medicine but got no help. I want to thank you for sending me the sample box of Gin Pills, which helped me.
I have taken six boxes of Gin Pills altogether but got relief before I had taken near that amount. I had to get up some nights every fifteen minutes and had to use an instrument before I could urinate. Now, I can lie in bed four or five hours without getting up. I can say that Gin Pills have nearly cured me and shall always keep a box in the house.
Thanking you for your timely help, I am your sincere friend and well-wisher,
W. H. PIERCE.
And all as a result of sending for a free sample box of Gin Pills.
Do you suffer with your Kidneys or Bladder? Send to the National Drug & Chemical Co. of Canada Dept. AD Toronto, and get a sample free by return mail. Regular size, at all stores, 50c. a box—or 6 for $2.50 1

BIG PUBLIC SALE

—of—

CHRISTIE GIBSON,

Who is moving at once to British Columbia,

Wednesday, Dec. 1st

At 11 o'clock a.m., at the above home (section 4-55-23), 6 miles north and 1 mile east of the Halfway Hotel, 5 miles west and 1 mile north of Fort Saskatchewan, I will offer the following described property, to wit:

My home, consisting of 160 acres (n.e. 1-4 of section 4-55-23, west of the Fourth Meridian). An excellent black quarter of nicely undulating land, 75 acres of which is in good state of cultivation, comfortable frame house, good barn, new frame granary, good well and good fences. Sold subject to a small reserve bid. Terms on land $2,000 cash; balance easy; terms 6 per cent.
