TRADES PARLIAMENT

Approves the Act Raising the Tax Upon Chinese—Questions for the Aldermanic Candidates.

The Trades and Labor Council got through with the routine business of their session with no more startling developments than a proposition to increase the Chinese importation tax from $50 to $500.

The Legislation Committee felt it incumbent upon them to counsel workingmen and farmers to devote little attention to the Klondike gold fever, but rather unite in a vigorous effort to induce the Federal and Provincial Governments to inaugurate some practical scheme whereby those who so desired and were capable might be placed on the arable public lands of the country. The money expended in opening up the gold fields would have been better spent in settling those vacant public lands.

The attention of the Minister of Justice was drawn to an agreement which the Canadian Pacific Railway required laborers for the Crow's Nest Pass Railway to sign. The committee had been informed that an employment agency in the city was sending its agents to people employing domestics and offering to supply others at a less cost. If the practice was not stopped the committee would give the name of the agency.

The Municipal Committee suggested that as the Massey-Harris Company wanted two streets, they should pay for the land if the streets could be closed without inconvenience to the public. The committee had the following questions for the candidates in the present municipal bye-elections in Wards 3 and 6: 1. Will you use your best influence to compel the Toronto Railway Company to live up to its agreement with the city? 2. Will you oppose the transfer of the cattle market franchise from municipal to private control? 3. Will you support a resolution in council requiring the use of the union label on all civic printing?

F. S. Spence, J. H. Hall and R. J. Score answered the questions in the affirmative. James Gowanlock answered "yes" to the first two and "no" to the third.

Upon motion of Delegates O'Donoghue and March a resolution favorable to the act now before the Commons, raising the tax on Chinese from $50 to $500, was passed. It stated that the presence of John Chinaman in the country was injurious alike to political, moral, social and industrial interests, and that it was only a question of time when the Chinese would become a curse to the eastern as they had become in the western provinces.

Dyspepsia or Indigestion is occasioned by the want of action in the biliary ducts, loss of vitality in the stomach to secrete the gastric juices, without which digestion cannot go on; also bringing the principal cause of headache. Parmalee's Vegetable Pills taken before going to bed for a while, never fail to give relief, and effect a cure. Mr. F. W. Ashdown, Ashdown, Ont., writes: "Parmalee's Pills are taking the lead against ten other makes which I have in stock." ed

Argentine Shipments and Prospective Output—How Wheat is Selling in India—Local Receipts of Live Stock Large—Stockers Still in Good Demand—Gossip.

Friday Evening, March 11.

Wheat is weak.

The stock of spring wheat at Liverpool is exhausted.

Receipts of wheat at Minneapolis and Duluth to-day were 430 cars.

July wheat, puts 87⅝c, calls 89⅝c.

May corn, puts 30¼c, calls 30½c.

New York exports to-day: Flour, 194 barrels and 2894 sacks.

Receipts of hogs at Chicago to-day 15,000, or 6000 less than expected. Estimated for Saturday, 12,000.

Cattle receipts at Chicago to-day 3500.

To-day's clearances from Atlantic ports: Wheat and flour equal to 204,000 bushels, corn 518,018 bushels.

The Chicago wheat market verged on a panic this afternoon, July dropped 1c without a trade at one stage. It closed nearly 2c below the opening.

For the week Argentine shipments have been 856,000 bushels, against 1,604,000 last week, and 216,000 for the corresponding week last year.

The London Times' Calcutta correspondent says experts estimate 37,375 bushels of wheat will be exported from Carouper, where wheat is selling at 3 rupees 6 annas, against an average of 2 rupees 6 annas last year.

A letter from a well-informed party just back from Areagntine estimates the exportable surplus of wheat of that country at fully 40,000,000 bushels. Exportable surplus corn also large. This report inclined to have bearish effect.

In three days Liverpool receipts of wheat have been 400,000 bushels (296,000 bushels of it American). In the past six days Liverpool has received 768,000 bushels.

Receipts of hogs to-day at Western points 48,000, against 43,700 same day last year.

Provisions a little weaker in Chicago in sympathy with wheat.

Heavy rains in the West and Southwest make prospects for coming wheat crop better.

On the local market there was a large run of cattle—half of them Buffalo stockers.

LOCAL LIVE STOCK.

The receipts of live stock at the Western Cattle Market to-day were heavy, 72 loads all told, composed of 800 cattle, 250 sheep and lambs, 15 calves and 3254 hogs.

Considering the large run of cattle, of which fully one-half were feeders and stockers, trade was fairly brisk, with very little change in prices.

Export cattle sold at $3.85 to $4.25, export bulls $3.25 to $3.75, the latter price being paid for extra choice only.

Choice picked lots of butcher cattle sold at $4 to $4.12½, loads of good $3.65 to $3.80, medium $3.40 to $3.55, and common $2.85 to $3.15 per cwt.

Mr. Snell, who bought four carloads of exporters at $4 to $4.25 per cwt., reports trade as being very dull.

One lot of 16 export steers, 1311 lbs. each, sold at $4.25 per cwt., less $5 on the lot.

Two export bulls, 1440 and 1680 lbs. each, sold at $3.75.

Alex Levack bought 27 butcher cattle, 1150 lbs. each, at $3.40 to $4.

A. W. Maybee bought 100 cattle at $2.62½ to $4.25 per cwt.

Crawford & Hunnisett bought one load butcher cattle, 1000 lbs. each, at $3.70, heifers and steers.

William Levack bought 120 cattle, mixed butchers, and export, at $3 to $3.85 per cwt., and several bulls at $3.25 to $3.50 per cwt

The demand for feeders and Buffalo stockers was strong, and prices have advanced; in fact, they are selling better than the fat cattle.

R. Pugsley sold 16 feeders, 1000 lbs. each, at $3.60, and three butchers' heifers, 950 lbs. each, at $3.60.

J. L. Rountree bought one carload Buffalo stockers, 919 lbs. each, at $3.65.

Milch cows, 30 were sold at $25 to $40 each, prices being easier, especially for the common class.

Calves sold at $2 to $8 each.

Sheep, supply equal to demand, selling at $3 to $3.50 for ewes, bucks $2.50 to $3, lambs $4.75 to $5.40 per cwt., lambs, each, $3 to $5.50.

There was a large run of hogs, which sold at $5 for best selections, $4.75 for light fat, and $4.50 for thick fats; prices have a downward tendency, and about $4.90 will be the limit for next week.

Too many thick fat hogs are coming forward. Farmers will get better prices and help the trade if they will give their hogs more exercise by letting them run out, instead of keeping them penned up. It is not fat but meat that the English trade requires, and, while many hogs are just about the right weight, they are too fat. This is caused by feeding too much grain and too little exercise, and too few roots being fed.

Shipment per G. T. R.: Brown & Snell, 5 cars cattle, 1 double-deck of sheep; William Levack, 4 cars cattle, 2 for Glasgow and 2 for Liverpool; W. H. Dean, 3 cars cattle; A. McIntosh, 2 cars cattle, all via Portland.

Chicago Gossip.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

Wheat—The action of the wheat market to-day confirmed our sentiments that, with the high prices prevailing, the very large amount on ocean passage, free positions and good marketings from other exporting countries, the market will have to be constantly supported in order to maintain present values. Outside of these bearish conditions, the acute war scare prevailing, which has been forcibly felt in securities, and during the past few days in cotton, tends to create distrust among the general trade in grain, the fears being that a further panic in securities might perhaps extend to cereals, more especially wheat, owing to its relative high prices. To-day was started by free offerings of May by local houses. When the clique came to its support, July quickly declined 2c per bushel, sales being extremely hard to make on the break. There was a reaction of nearly a cent, but this did not hold, the market showing a very weak undertone the remainder of the session, closing at about the low point. Argentine shipments for the week, 856,000 bush, against 1,640,000 the week previous, and this falling off created a steady feeling at the opening. The Government report, estimating the March farm reserves at 123,000,000 bush, had no effect either way. Liverpool again closed irregular, but Paris was quoted at 5c to 25c higher.

Corn—Suffered a little setback in sympathy with the decline in wheat. Receipts were less than expected. Clearances, 518,000 bush. Around 30½c there appeared considerable long corn for sale, with a fairly good demand around 30¼c.

Provisions—Opened higher on light receipts of hogs, but later became weak and declined in sympathy with the break in wheat. Provisions were influenced somewhat by the war talk. Commission houses were the best sellers. Domestic and foreign demand continues large, and the holders of lard and ribs are not the least concerned about the recent slight decline in prices.

R. D. Fisher & Co., brokers, received the following this afternoon from Chicago:

News affecting the wheat pit Friday was of both kinds, but trading were apparently more affected by the falling off in Argentine receipts, 856,000 bush being reported for last week. Liverpool cables came at a decline of ½d, about as was expected. The better feeling was short-lived. Without any special selling pressure the market turned weak. Two features were the heavy and beneficial rains all over the West and Southwest, and the large receipts for three days at Liverpool. Northwest receipts were heavy again, 430 cars, against 313 last week and 152 a year ago. As the market slowly declined, stop orders began coming into the market, and the fall was of such rapidity as to turn the market radically weak. The coarser grains started firm, but turned weak in sympathy with wheat.

Provisions opened firm. Commission houses' orders were good from the start, and prices fell in sympathy with the rest. McIntyre & Wardwell's Chicago despatch to-day says:

Wheat—The market opened weak this morning on the slightly lower cables. There was considerable outside selling, and the aggressively bearish sentiment among local operators soon had the market on a downward tack. Support was of the feeblest character. The closing was weak at lowest prices of the day and 2c lower than last night's prices. The Government report, while about meeting popular expectation, was one of the features of the weakness, but the most potential seems to be the perfect weather in the winter wheat country. Growing crop receives benefit of the kind most needed—high temperature for this time of the year and generous rains. The most influential traders are bearish in their views, and it seems to us that if the crop escapes from adverse weather conditions the market will sell considerably lower. The Letter brokers were in the market all day, from the opening until the closing bidding, $1.04 for May wheat. A fair amount, however, changed hands under the "pegged" price, owing to increasing disposition of the trade to ignore the manipulators. This is not only true of the smaller trading, but of several leading houses. Letter, however, managed to add about 1,500,000 bush to his line of May. Cables weaker, but, despite our decline, New York was able to confirm only 10 loads taken. While we continue to feel bearish, we realize that the short interest is apt to get too cumbersome, and therefore would advise sales on the bulges only.

Corn—The market was disposed to rule firm to-day, but for the action and influence of wheat, and closed ⅛c to ¼c below yesterday's last figures. Government report was construed bullishly by the trade, and commission houses were buyers for outside account, but local longs were fairly liberal sellers. Lighter receipts and small offerings from country holders, as a natural result of wet weather and bad roads, held the market in check, but with any improvement in these conditions we look for a more liberal movement; 85 loads reported sold for export. Clearances, 570,000 bush; estimated receipts to-morrow, 330 cars.

Oats—Opened firm, and sold down, with lower wheat and corn. Export sales, 110,000 bush. Clearances, 161,000 bush. Estimated receipts to-morrow, 235 cars.

Provisions—Opened strong and higher. On advance packers again sold, causing small decline. Towards the close the market ruled weak and lower, with a decline in wheat, and closed easy at about the lowest prices of the day. Estimated receipts tomorrow, 15,000.

Cotton Markets.

New York, March 11.—Cotton—Futures closed steady; sales 167,400 bales. March 5.95, April 5.98, May 5.99, June 6.00, July 6.03, Aug. 6.06, Sept. 6.04, Oct. 6.02, Nov. 6.01, Dec. 6.03, Jan. 6.06.

New York Lists Also Suffer Severely All Along the Line.

Cable Very Weak—Toronto Street Railway and Montreal Street Railway Both Slump, Selling Freely—Manhattan, Sugar and Tobacco Lower—London Markets.

Friday Evening, March 11.

Stocks continue uncertain. Owing to the disturbing rumors in the air, the London market was heavy, and in New York stocks followed suit. Sugar, Tobacco, Manhattan, Metropolitan Traction and other stocks closed from 1 to 3 lower than yesterday's best figures. The Toronto and Montreal markets showed sympathy, and there was a general falling off in prices. Both Toronto Street Railway and Montreal Street Railway sold freely and closed about 2 below yesterday's closing. Cable was very weak, Richelieu and Ontario fell an extreme 5 points in Toronto.

Consols are ⅛ lower.

Canadian Pacifics fell off 1⅞ in London to-day, and American rails were weak.

The amount of bullion paid out of the Bank of England on balance today was £102,000, chiefly in American eagles.

Paris 3 per cent. rentes quoted at 104.

Messrs. A. E. Ames & Co.'s London cables to-day say Grand Trunk 4 per cent. guaranteed stock was quoted at 73⅝. Grand Trunk first pref. at 65⅝, second pref. at 45½, third pref. at 22⅛.

Chesapeake and Ohio Railway earnings for the first week in March fell off $28,873.

Standard Oil was quoted in New York yesterday at 361½ and 362½. Some sold at 360½.

Union Pacific system reports that its net profits for January showed an increase of $175,862 over the previous January.

Chicago and Great Western receipts increased $15,441 for the first week in March; since July 1 the increase over same period 1897 has been $331,816.

A New York despatch this evening says the bears hint at another break to-morrow, based on a possible uprising against Americans in Havana. The bear side is not of the strongest kind, but no one has nerve enough to offset the bear pressure.

Spanish 4's weak in London at 55¼.

A Washington despatch to-day denies any intention to cooperate between England and the United States.

Further troops left Spain for Cuba today.

C. P. R. earnings for the first week in March were $455,000, an increase of $29,000 over the same week last year. The Grand Trunk's corresponding figures are $445,048 and $47,461.

Money Markets.
