QUALITY OF CATTLE WAS GENERALLY GOOD

Majority of Butchers' Stuff Was Handyweight Steers of Excellent Feeding.

HOG OFFERING LIGHT

Competitive Bidding Sent Prices Up to Nine Dollars and Ten Cents.

Receipts of live stock at the Union Stock Yards on Tuesday were 42 carloads, comprising 751 cattle, 567 hogs, 192 sheep and lambs and 23 calves.

Butchers' Cattle.—The general quality of the offerings was good, the majority being hand-weight steers, and several loads showed good feeding. The trade opened slow, and the price fell off 10c to 15c per cwt. Buyers did not seem overanxious, and several loads stood over. Choice cows and bulls had the most ready sale, and canners were in demand at steady prices.

Stockers and Feeders.—Choice steers and yearlings were lacking, and these are the only kind in demand up to $6.65. The light eastern kind, of which there were several loads, sold out at $4.50 to $5.

Milkers and Springers.—This division had no choice animals present, and few of any kind, and there was, consequently, little doing.

Lambs and Sheep.—Lambs with a light run sold strong up to $10.75, and sheep up to $7.50.

Calves.—There were only 24, and these sold out steady, with $10 for the top.

Hogs.—The light consignment caused competitive bidding, and three different sales were noted at $8.90, $9 and $9.10 for small lots.

Milkers and Springers.

Choice milkers and springers at $90 to $100; good cows at $70 to $85; common cows at $45 to $65.

Veal Calves.

Extra choice veal at $10 to $10.25; best veal calves at $9 to $9.60; good at $7.25 to $8.50; medium at $5.75 to $6.75; heavy fat calves at $5.75 to $7; common calves at $4.75 to $5.25; grassers at $3.75 to $4.50.

Sheep and Lambs.

Light sheep, $6.50 to $7.50; heavy sheep at $4 to $5.50; lambs at $10 to $10.60; cull lambs at $6.75 to $7.50.

Hogs.

Selects, fed and watered, $8.75; 50c is being deducted for heavy, fat hogs, and thin, light hogs; $2.50 off for sows and $4 off for stags, from prices paid for selects.

WINNIPEG GRAIN MARKET.

WINNIPEG, Dec. 28.—After a fluctuation of 3c to 4⅝c, Winnipeg closed today 2¼c to 2¾ lower for wheat. Oats were unchanged to ⅛c higher, and flax was unchanged.

Winnipeg No. 1 northern closed 4¼c to 5⅛c under.

Offerings of both wheat and oats were light, but apparently no one wanted spot wheat except in houses on C.P.R. tracks.

Export trade was nearly as dull as cash, for the simple reason that there was no assurance of being able to deliver. The real crux of the situation seems to be the congested condition of all ports and the almost complete embargo on any seaboard movement.

Cash: Wheat—No. 1 northern, $1.13¼; No. 2 northern, $1.10¼; No. 3 northern, $1.05¾; No. 4, $1.02½; No. 5, 93½c; No. 6, 83c; feed, 73½c.

ACTIVITY CONTINUES IN MINING STOCKS

Jupiter a Strong Feature, Selling Up a Point From the Opening.

There was a substantial increase in the volume of business transacted at the Standard Mining Exchange yesterday, as against the day before, 128,227 shares being traded in during the day.

The market was again strong, with McIntyre, Jupiter, Teck-Hughes, the outstanding features. The strength of the market was not, however, confined to these issues, but was distributed thruout the entire list. There is reported to be a large public buying power behind the market, and orders are beginning to come in in increasing volume. New York interests are also said to be big buyers, and brokers who have just returned from the New York curb expect big business from this centre. A surprising feature of the market is the scarcity of stocks, dealers claiming that not for years during the holiday season have there been such light supplies of floating stocks offered.

In the Porcupines, Apex opened steady at the previous close, but declined a ½ point, to 7.

Dome Extension opened slightly easier, at 37¾, tightened up to 38, and after a slight reaction to 35¾, closed at 37. Accumulation is going on in this stock by strong financial interests, and higher prices are said to be expected. Big Dome was inactive, with only one sale of 100 shares at the strong price of $29.00.

A strong feature of the market was Jupiter, which sold up to 20½, at which high figure it closed. Big orders have been in the market for this stock lately, which have taken up practically all the floating supply. The development on this property is showing better values than was expected.

Some years ago Jupiter was thought to be one of the richest properties in the Porcupine camp, and it begins to look as if the prediction would be confirmed.

McIntyre was strong, selling up to 109. Wagers have been made on the floor that this stock will cross its high point—112—before the end of the week. There is said to be a large short interest in McIntyre, and a run-in of shorts is expected any day.

With so much stock going out of the market for investment, it is expected that in such a contingency the price would make a sharp advance. Porcupine Vipond was steady, selling at from 64 to 66, and closing at 65.

An advance was scored by Teck-Hughes, which was one of the features, opening at 15 and selling up to 17 on the close. The Buffalo Mines are in control of this property, and word was received yesterday that developments were showing up exceedingly well. It was stated that 20 was offered for a large block of this stock on the street, but none was forthcoming, even at this price.

West Dome sold up to 16, closing a quarter of a point lower. New York interests are said to be optimistic regarding the future of this stock.

The probability is that the major portion of the speculation will be in the new West Dome Consolidated. Moneta was strong, closing at 13. Dome Consolidated was active and stronger at 22 to 22½ bid at the close.

In the Cobalt list, Timiskaming was steady, opening at 65, the previous close, and closing at the same point. The party of New York capitalists who have just returned from Timiskaming predict that this mine will be a feature of the camp. Chambers-Ferland was easier, selling up to 31½, and closing at 31.

For Peterson Lake, the opening at 37½ was slightly easier, but it strengthened up, closing at 38. This is another stock in which there is a large short interest, and at present it is the scarcest stock on the street.

Efforts are being made to reopen the Gifford mine, and on the strength of it the stock was bid up to 3¼. It is said that strong financial interests are willing to re-finance the company, and it is generally thought that this will be done in a very short time. Gifford has a good location, and with intelligent management should make good. Nipissing was steady around $7.75 bid.

MONTREAL GRAIN MARKET.

MONTREAL, Dec. 28.—A few orders were received from foreign buyers for Manitoba spring wheat today, which resulted in a little business being done, but the demand on the whole is poor, and the market is quiet. There was some demand from local buyers for oats, and the tone of the local market is firmer at an advance of ½ cent per bushel. In flour, the feeling is firm, but business on the whole is quieter. Demand for millfeed is good. Butter is quiet but firm.

Demand for cheese is good, and sales of somee round lots on spot were made to the government. The egg market is firm, with a fair demand.

WEST DOME TO BE REOPENED SHORTLY

New Shaft Will Be Sunk Nearer the Big Dome Property.

From an authoritative source it is learned the work of active development on the West Dome Mine will be commenced shortly after the new year. The deal whereby the old stock was exchanged for that of the new West Dome Consolidated has put the company in a position financially where they can again open up and an aggressive policy will be followed.

No work has been done on the mine for some time, but there is a plant on the property which cost in the neighborhood of $30,000 to install. The plant was formerly run by power generated on the property, but it is reported that when it is reopened outside power will be used. The pipe line of the Northern Ontario Light and Power Co. is close to West Dome, and could easily be tapped and electrical energy will be obtained, probably from the Big Dome. At present there is no mill for treating the ore, but if sufficient ore is obtained it is said a mill will be constructed.

When active operations were discontinued shortly after the big fire on account of lack of funds, the main shaft was down 120 feet.

Instead of sinking this shaft deeper, for the present at any rate, a new shaft will be sunk nearer the Big Dome property in the hope of striking an extension of the rich veins found there.

The new shaft will then be linked up with the old one.

Some very satisfactory assays have been obtained from ore taken from the present main shaft, and the prospects for future developments are bright.

NEW PORCUPINE MINE SHOWING GOOD SIGNS

R. Hamilton, who formerly operated in Chihuahua district, Mexico, it is reported, has taken a force of men into the Porcupine Mines Syndicate claims, adjoining the Foley-O'Brien. Trenching and stripping the principal vein, which is believed to run the full length of the property, will begin at once. Mr. Hamilton wires: "Work begins tomorrow. Believe No. 2 vein main extension of Foley-O'Brien vein. Everything looks fine." The vein referred to has already been exposed for a short distance, and gives promise of developing into one of the most important veins in that section.

Negotiations are in progress with an eastern syndicate, who plan to have an examination made some time in January.
