Everything Ready for the New Bicycle Track—Agreement Ratified—Favorites Win in the East.

The Cyclists Track Association, Ltd., met yesterday to conclude negotiations with Proprietor Smith of the Baseball Grounds.

The agreement was ratified and states that $400 per annum shall be paid by the association for five years and $600 for the last three. At the expiration of the lease the cyclists have the option to purchase the property for $75,000.

The trustees are now considering several plans for the proposed board track. When a selection is made work will proceed at once. It is expected the park will be ready for training next month.

The baseball, football, lacrosse and other clubs must now secure their practise field over the Don from the cyclists.

Baseball Brevities.

The Nationals will start practice on the cricket grounds this evening. The outlook for the season bids fair to outshine any of the past. The nine will be a smart lot of ball-tossers. The personnel will be as follows: Cruller, Wills, Nicholson, Prentice, Cope, Thompson, Aniketell, Hurst, Downs, with a chance of several other well-known Toronto talent. There will be a meeting of the club in their club rooms, corner Spadina and College, Friday evening at 8 o'clock, when it will be decided what action they will take in regard to the starting up of the Toronto Baseball League. All players are requested to attend.

The winner of a league composed of the Dauntless, Parkdales, Nationals, Excelsiors would make the Hamilton-Toronto league look to their colors before the season is over, is an opinion frequently expressed here. Already the first three teams are in the field. Get a move on, Excelsiors, and come out.

The Nationals will miss one of their best players this season in Edward Ward, who has been confined to his bed for the past four months because of an accident. He has undergone three operations in St. Michael's Hospital, the last one having been performed last Saturday. It is to be hoped it will prove a success and that he will soon be himself again.

The Nationals would like to arrange a game for May 13. They would also like to procure a game for Queen's Birthday with some team outside the city.

Lacrosse at Johns Hopkins.

BALTIMORE, May 1.—The first lacrosse game of the season was played here Saturday between the Johns Hopkins eleven and the team of the College of the City of New York. The Hopkins won in a score of 9 to 1 by better individual work. Veteran T. D. Pennington, one of the best long throwers on the field, saved the 'Varsity men when they got in a pinch, and Symington and Rossell were the ones who shoved the sphere through the goal post. The only goal for the collegians was made by Whiting.

Miscellaneous Sports.

The members' match of the East Toronto Cricket Club resulted in a victory for Col. Flynn's team by 42 to 27, chiefly due to W. E. Duhurst's good innings of 21.

The Walmer Baseball Club has reorganized for the season and is open to challenges from boys under 15 years of age. Address James Malloy, 258 Robert-street.

The junior Central Basket-ball team would like to arrange a match with any other team outside of the city, to be played on the Queen's Birthday. Address George Brimstin, secretary and treasurer, 300 Yonge-street.

The Western Rangers Football Club played the Kensingtons on the cricket grounds on Saturday. Score at half time 0—0. In the second half the Rangers scored a goal. The Kensingtons tried hard to equalize matters, but the Rangers' defence played well, and the game ended Rangers 1 goal, Kensingtons 0.

The Toronto Kennel Club's committee met yesterday and decided that wherever a challenge dog is entered for the spring show a separate class will be made for him. So far the committee have received lots of encouragement, the number of entries already received being highly satisfactory. Entries close May 9.

The Scots will hold their monthly meeting in the Athletic Restaurant, Yonge-street, tonight at 8.30. All members are urgently requested to be present.

Cadmus won the Pacific Derby last Saturday at San Francisco.

W. D. Hiekok threw the hammer 112 feet, 9 inches, at Yale last Saturday.

A monster horse show takes place in New York, June 5 to 10, inclusive. A splendid lot of prizes is offered, for all classes. Mr. W. D. Grand gives a $250 pony for the best amateur driving a pair to a four-wheeled carriage.

The hounds will meet to-day at Oulcott's Hotel, Eglington, at 3 p.m.

Bat Masterson, the western sport, is now in St. Louis. He thinks Corbett a jabber, tapper and fiddler, and a very clever boxer, but not a punisher, and is willing to bet all his money that Mitchell will whip him.

THE AMUSEMENT WORLD.

Jacobs & Sparrow's.

A new version of "Muggs' Landing" was given at the Toronto Opera House last night before a large audience; it thoroughly pleased those present. "Muggs' Landing," when seen here last year was a good show, but since then it has undergone changes which place it in the front rank amongst comedies of its kind. The cobbler in the piece, instead of being "white trash," is now a colored man, who through the progress of the play enlivens it with his songs and dances. The company carries good scenery and better artists.

Miss Leola Belle, who takes the principal role of Little Muggs, is an improvement upon the former soubret, and makes things seem lively for about two hours during the evening; she sings and dances very nicely. Mr. Ren Shields as the loquacious land agent and Mr. Phil W. Peters as the old soldier were very funny. "Muggs' Landing" will be given every evening this week, with Tuesday, Thursday and Saturday matinees.

The Great Banjoist Will Appear To-Night.

Alfred A. Farland, the famous banjoist, will make his appearance in Association Hall this evening, when a treat is in store for the lovers of the banjo. Mr. Farland is said to be the greatest artist of his line in America. He will play Moszkowski's Spanish dances, Schubert's serenade, Haydn's gipsy rondo, Chopin's grand valse and the William Tell overture, music that has never been attempted by any other banjoist. Mr. Farland will be assisted by Miss Lilli Kleiser, Mr. W. E. Ramsay and the Toronto Ideal and Trinity College Banjo Clubs.

Orchestral School Concert.

The complimentary concert given by the Toronto Orchestral School in the Pavilion last night was a magnificent success. The Pavilion was crowded from floor to gallery, and the program of vocal and instrumental music was one of the best heard this season. The music was supplied by the school orchestra assisted by Messrs. Park, viola; Teale, clarinet; Doonan, oboe; Spaeth, French horn; Wilkes, bassoon; Chisholm, trombone; Rember and Dillon, double bass; and the solo parts were taken by Misses Gertie Black, McKay, Massie, Mabel Lund and Florence Brimson, Master Willie Anderson and Mr. Burt, basso.

The Muse.

The muse has a good bill of attractions this week. There are several people in the curio hall, the best being Harry DeGray, a necromancer who does some very clever tricks, including that of putting a lady assistant in such a state that three men can sit on her outstretched body, she being supported only at the neck and the heels. In the theatre Mlle. Nada Reyval, a French woman, does a novel electric dance. She has colored lights all over her that come and go in quite a mystifying way as she dances. Baker Bros., the novelty trio, are interesting men, who play on all sorts of articles and have a large kit of amusing mechanical devices. Jas. A. Baker is a comedian whose chief excellence is that he never takes himself seriously. It is altogether an unusually good week.

Notes.

An excellent program has been prepared for the entertainment of the African Native Choir in Association Hall for the three last days of this week, including Saturday matinee. The plan of seats is now on sale at Suckling & Sons'.

TORONTO JUNCTION.

The Council Meets, But the Electric Light Transfer Was Not Mentioned.

At a meeting of the town council of Toronto Junction, held last night, a communication from Mr. C. W. Watson, resigning his position as a trustee on the High School Board, was received and accepted. Archibald Campbell, M.P., was appointed in his place.

The meeting then went into a committee of the whole, and the reports of the various committees were received and carried with but one amendment.

Instead of granting Robert Walker an increase of 10 cents per foot on the construction of house sewers, as recommended by the Works Committee, the council decided to relieve Walker of his contract and accept the next lowest tender, being that of John Marr.

The tender of J. Brocklebank to supply 30 kegs of 5 in. cut nails at $2.55 per keg and the same quantity of wire nails at $3.55 per keg; and the tendee of C.W. Batt to supply 110,000 feet of two-inch pine plank at $14.75 per thousand feet and 37,000 feet of 4x4 cedar scantling at $12 per thousand were accepted.

The request of the High School Board for a further grant of $300 to help in the erection of a new High school on the plan submitted by the board was granted. A total sum of $33,000 has now been granted for this purpose.

The council adjourned at 11 o'clock.

The License Commissioners for West York met yesterday afternoon and concluded the issuing of licenses for the year. P. Gillies and E. Finn of Toronto Junction were granted shop licenses, and Charles Nurse of Humber Bay was granted a hotel license. A.B. Haystead of Woodbridge had his application for a hotel license refused. No action was taken on the application of J.J. Murphy of Humber Bay as the petition accompanying it was not drawn up according to form.

Biological Section, Canadian Institute.

An open meeting of the Biological section of the Canadian Institute was held last night with Mr. John Maughan, the president, in the chair.

Among the exhibits on view were: A collection of Canadian insects presented to the society by Dr. Walker of Orillia, exotic insects and eggs and nests of the Canadian humming bird, by Mr. E. V. Rippon; foreign birds and photographs of Japanese scenery and colors by native photographers by Mr. Maughan, and a number of microscopical objects by Mr. Pursey. A pine snake and a corn snake were also exhibited.

The Institute was thrown open for inspection by the visitors.

M'CARTHY AT ORANGEVILLE.

He Replies to Mr. Ives' Charges and Incidentally Touches Upon the Planks in His Platform.

ORANGEVILLE, May 1.—At the McCarthy meeting to-night Dr. Henry was chairman. In his address he touched upon some of the questions that form the platform of Mr. McCarthy.

An address of welcome to Mr. McCarthy was read.

He replied briefly and said with pride as his first political experience was in the neighboring riding, Cardwell, in 1876, a riding he would not fear to ask election in and on his present platform.

Mr. McCarthy in his speech dealt with the accusation made against him by Mr. Ives at Quebec, regarding the $61,000 he received from the Government.

Mr. Ives charges me with being bought at a high price, but that I would not stay bought.

I most emphatically state that I have never received one dollar, directly or indirectly, from the Government. In the Streams bill case I had a brief and went to England for a private citizen, Mr. McLaren, and was paid by him.

In the St. Catharines milling case I had a brief for the company and also the Ontario and Quebec boundary case; no such case ever existed. The Ontario and Manitoba boundary case did and I had a brief for Manitoba.

Regarding Mr. Osler receiving large fees from the C.P.R., he does and did, I do not receive one cent of money earned in that, which I can prove by every member of my firm.

These charges were made by Mr. Ives behind my back, and in a place where I cannot bring him to prove them in a court of law.

Mr. McCarthy then reviewed the Manitoba school question, the dual language, tariff and gerrymander.

He thought the French-Canadian members had put a black mark against him, and the Government had to abide by it. So he had taken this way to expound his views on the questions with which he was at variance with the Government.

He thought 15 years was enough time to establish the manufacturing industries of this country, and they should not be spoonfed any longer. He dealt very extensively on duties now imposed and what should be; also on the constitution and separate schools.

Mr. A. A. Hughson moved, seconded by James McMaster, that this meeting commend Mr. McCarthy on his action and policy, which was carried unanimously.

FROM A THIRD-STORY WINDOW.

An Hospital Patient Bends His Prison Bars and Jumps 35 Feet to the Ground.

A patient was admitted to the General Hospital on Saturday suffering from delirium tremens and was placed in the ward set apart for such patients on the third flat.

About 9.30 o'clock yesterday morning, just after the ward tender left the room, the patient raised the window sash by an almost superhuman effort succeeded in bending two of the three 4-inch iron bars placed on the outside of the windows, increasing the space between them to about five inches. He then worked his way through this small aperture and jumped to the ground, a distance of about 35 feet.

The man alighted on his shoulder, and, owing to the softness of the ground, escaped with nothing more serious than a bruised shoulder.

The strangest part of the whole thing, however, is the fact that, as soon as he touched the ground, he got up and walked into the hospital again and up two flights of stairs.

It is a mystery how the patient ever managed to squeeze through so small a space, as he is a large muscular man and weighs over 180 pounds.

He was quite rational after being put to bed, and said that he remembered quite distinctly jumping out of the window.

WHERE TO BUY.

When To Buy And What to Buy?

Where to buy? This is a question that presents itself to all and deserves our careful consideration. Reason tells us that we should go where the largest stock of the goods we need is to be found, because there is the greatest variety to choose from; there is a certainty of getting what you want, and so of saving time running from store to store, and, finally, there the prices will be the lowest, simply because, as such a firm buys in large quantities, it has the benefit of big discounts.

When to Buy?

Make it a rule to buy early in the season even if you do not absolutely need the goods for some weeks. They don't require any salt to keep them. Your gain is that you have the pick of everything and are not forced to buy goods that have been handled and re-handled, pulled out of boxes and thrown back again, until they have almost lost their original shape and style. No! You have the best and hence the cheapest.

"What To Buy?"

It is an old saying, and as true as it is old, that "one might as well be out of the world as out of the fashion." Take this as your motto and buy only the latest styles. They don't cost you any more than styles three or four years old, while you have a guarantee that the goods are new and are made with all the latest improvements of modern science. Moreover, such goods look better, feel more comfortable and give better satisfaction than old styles. Take for instance that you want a pair of the latest style in spring boots or shoes. Nothing looks worse than a pair of ill-fitting boots, and nothing shows off a well-shaped foot to better advantage than a neat and stylish shoe. In this line no one need hesitate to answer the question "Where to go?" as Guinane Bros., 214 Yonge-street, are easily ahead of any shoe house, not only in this city but in the Dominion. The enormous quantity of spring goods constantly pouring into and out of their establishment sufficiently vouches for this fact, and as they have now secured control in two of the largest shoe factories on the continent, one in Quebec and the other in Boston, there is only one profit between the manufacturer and the public. This is the reason they can sell ladies' white, blue or drab canvas, kid-faced, hand-sewed, walking shoes for $1.18; ladies' Russia tan-colored walking shoes, hand made, flexible soles, $1.50; ladies' red morocco walking shoes, 75c; ladies' kid walking shoes, 55c; gentlemen's shell cordovan walking shoes, 90c; gentlemen's Russia calf, imported bals. or shoes, $1.75. Every pair of boots and shoes stamped as manufactured by Guinane Bros. is guaranteed by them.

A St. George-street Burglary.

Burglars Sunday night effected an entrance to the house of Mr. J. King, 142 St. George-street, during the absence of the family and servants at church. Entrance was secured by means of a back window. The burglars visited Mrs. King's room, where they ransacked the bureau, taking everything that could be easily carried away, including a snakeskin watch, card case and silver-mounted purse. They evidently were frightened in some way, as they did not go any further, but took a jewel case containing all of Mr. and Mrs. King's jewelry except what they had on. The detectives found the remains of the jewel case in the yard, and Mrs. King especially grieves over the loss of a solitaire, which she valued very highly.

The hardware establishment of Hawke & Co., Queen-street, west of the subway, was entered yesterday and a number of articles of small ware made off with.

John Cole, 47 Sydenham-lane, took a notion to go out last night and had got outside the door when his wife objected, and was evidently getting the better of John when P. C. Fairweather of No. 4 Division took a hand in the game and arrested them both for disorderly conduct.

To his son and executor, James McCallum Sanderson, he bequeathed the Richmond Hill residence, drug store, etc. The widow and other children are also provided for. Mr. Sanderson's personal estate is worth $4595. George Caldbeck died last February, not having made a will. His widow, Elizabeth Alice, petitions to administer his estate, worth $1567.40.
